

# Созвездия

The diagram illustrates the relative sizes of three celestial bodies against a blue background. A large, glowing blue sphere is the central focus. To its left is a smaller, bright yellow sphere. In the bottom left corner, there is a tiny red dot. Labels in Russian identify each object: 'Солнце' (Sun) for the yellow sphere, 'Голубой карлик' (Blue dwarf) for the large blue sphere, and 'карлик' (dwarf) for the red dot. The identifier 'R136a1' is placed to the right of the blue dwarf.
