Do not approach bears or wolves on foot within 100 yards (91 m) or other wildlife within 25 yards (23 m). Each year, park visitors are injured by wildlife when approaching too closely.

August 20, was known as Black Saturday. Dead trees made fire fighting deadly. The winds blew a lot, which didn't help prevent fire. People were starting to wonder if the park could be safe. The one main concern was Old Faithful but thankfully the fire moved the other way.

The Statue of Liberty

The Statue of Liberty is one of the main sights of New York City and the symbol of freedom of all Americans. It's the statue of a graceful woman with the flare in her hand, which enlightens the world. The structure of the woman is colossal. Its total height is about 93 meters. The woman only, without the flare and the base, is 46 meters.

The full name of the statue is “Liberty Enlightening the World” and it was presented to the USA by Frenchmen. Thus, the statue symbolizes freedom and democracy of American nation. The Statue of Liberty is almost always open for visitors. Each year millions of tourists from all over the world visit the Statue of Liberty and remember this trip for a lifetime.
