Королева благодарит зодчих: «Спасибо, добрые молодцы и красные девицы, за вашу работу. Угодили вы мне, Снежной королеве. Приедут гости заморские, увидят такую красоту и разнесут славу по всему белому свету о моем царстве-государстве».

Занятие № 27. Ознакомление с искусством
Тема: «Знакомство с репродукцией картины
В. Бялыницкого-Бирули "Первый снег"»

Педагогические задачи:

- ▶ подчеркнуть необратимость смены одной поры года на другую, объяснить последовательность этого явления;
- ▶ учить понимать уникальность природных явлений, переданных художником в живописи, видеть красоту в цветовых контрастах;
- ▶ продолжать учить понимать настроение картины;
- ▶ вызвать у детей чувство эстетического наслаждения от созерцания картин.

Методы и приемы: наглядные (рассматривание картины), словесные (загадка, беседа, вопросы, рассказ воспитателя, объяснение, анализ).

Предварительная работа: рассматривание картины А. Пластова «Первый снег»; чтение стихов о зиме, снеге; исполнение песни о зиме.

Материал: репродукция картины В. Бялыницкого-Бирули «Первый снег», аудиозапись фрагмента музыкального произведения П. Чайковского «Времена года» («Зима»).

Ход занятия

«Вы уже знаете о профессии художника и о том, что художники пишут картины, различающиеся по жанрам».

Педагог обращает внимание детей на репродукцию картины «Первый снег» известного белорусского художника-живописца В. Бялыницкого-Бирули. Предлагает отгадать загадку:

Если видишь: на картине нарисована река,
или ель и белый иней, или сад и облака,
или снежная равнина, или поле и шалаш,
обязательно картина называется...

(Лейзаж)

«Именно к этому жанру относится наша картина. Ее автор — Витольд Кацанович Бялыницкий-Бируля, а называется она «Первый снег»».

Воспитатель дает возможность на протяжении одной-двух минут внимательно рассмотреть картину.

Вопросы к детям: «Какое время года изобразил художник?», «Какая цветовая гамма преобладает в картине?», «Какие чувства вызывает у вас эта картина?», «Как назвал художник картину?», «Как вы думаете, почему художник назвал картину «Первый снег»?», «Как бы вы назвали эту картину?»

«Поры года, ребята, всегда идут одна за другой. У каждой своя очередь: после осени наступает зима, после зимы — весна и т. д. Но еще, ребята, в природе бывает и по-другому: одна пора немножко опаздывает или, наоборот, спешит. Однажды вот так и произошло. И наш очень известный и талантливый художник-живописец В. Бялыницкий-Бируля запечатлел это редкое и необычное явление.

Давайте внимательно посмотрим на картину».

Вопросы к детям: «Как вы думаете, что в картине самое главное?» (снег), «Почему вы так решили?», «Какие краски художник использовал для изображения снега?», «Почему снег именно такого цвета?», «Что в картине говорит о том, что это самый первый снег?», «Что говорит о том, что зима поспешила прийти?», «Что в природе не готово к зиме?»
