Microsoft Visio

The screenshot displays the Microsoft Visio application window titled "FabrikamPackaging.vsd - Microsoft Visio". The interface includes a menu bar (File, Edit, View, Insert, Format, Tools, Data, Shape, Window, Help), a toolbar with various drawing tools, and a ribbon with the "Theme" tab selected. The main workspace shows a flowchart titled "Packaging and Storage Process" divided into three sections: Manufacturing, Packaging, and Shipping. The flowchart starts with a red "Start" oval, followed by a blue process box "Insert units in boxes" in the Manufacturing section. This leads to another blue process box "Stack specified number of boxes in crate" in the Packaging section. A decision diamond "Paperwork verified?" follows. If "Yes", the flow goes to a blue process box "Seal crate and attach appropriate paperwork" in the Packaging section, then to a blue process box "File paperwork according to the procedure" in the Shipping section, and finally to a blue process box "Store for shipment" in the Shipping section, ending at a red "End" oval. If "No", the flow goes to a blue process box "Communicate" in the Packaging section, then to a blue process box "Ensure corrective action" in the Packaging section, which loops back to the "Seal crate and attach appropriate paperwork" box. The left sidebar shows a "Shapes" task pane with a search box and a list of shapes categorized by "Basic Flowchart Shapes (US units)" and "Department (US units)". The right sidebar shows a "Theme - Colors" task pane with options for "Theme Colors", "Theme Effects", and "Apply theme colors", including a "Built-In" section with various color themes and a "New Theme Colors..." section with checkboxes for "Apply theme to new shapes" and "More about themes". The status bar at the bottom indicates "Page 1/5".
