Microsoft Visio

The screenshot displays the Microsoft Visio interface with a flowchart titled "Packaging and Storage Process". The flowchart is divided into three sections: Manufacturing, Packaging, and Shipping. The process starts with "Start" (red oval) leading to "Insert units in boxes" (blue rectangle). This leads to "Stack specified number of boxes in crate" (blue rectangle). A decision diamond asks "Papers verified?". If "Yes", it goes to "Seal crate and attach appropriate paperwork" (blue rectangle). If "No", it goes to "Communicate" (blue rectangle), then "Ensure corrective action" (blue rectangle), and back to "Seal crate and attach appropriate paperwork". From "Seal crate...", it goes to "File paperwork according to the procedure" (blue rectangle), then "Store for shipment" (blue rectangle), and finally to "End" (red oval).

The interface includes a menu bar (File, Edit, View, Insert, Format, Tools, Data, Shape, Window, Help), a toolbar with various icons, and a ribbon with options like Arial, 12pt., Bold, Italic, Underline, and Theme. The left pane shows "Shapes" with categories like "Basic Flowchart Shapes (US units)" and "Department (US units)". The right pane shows "Theme - Colors" with options for "Theme Colors", "Theme Effects", and "Apply theme colors".
