Everything You Want in a Staff Training Program ...and nothing you don't.

Comprehensive Content

Easy Access

Measurement & Reporting

Nothing to Maintain

Comprehensive Content

Each Liquid-U course covers the essential basics for each category, like spirit types, definitions, ingredients, label reading, production, history and current trends. Woven throughout are examples of how to use the information on the job.

Each course is beautifully illustrated and interactive with custom audio, featured videos and retention exercises. We've done away with long pages of reading in favor of the type of engagement best suited to today's digital learner.

this

On the responsive design, all of the pages look good except for this screen. It does not work to have the image under the copy. What else can we do – what do you suggest?

Perhaps slide the image over so the image of the guy is not under the copy
