PubMed, a service of the National Library of Medicine, includes over 15 million citations for biomedical articles back to the 1950's. These citations are from MEDLINE and additional life science journals. PubMed includes links to many sites providing full text articles and other related resources.

Bookshelf Additions

Molecular Biology of the Cell, 4th Ed. and The Genetic Landscape of Diabetes are now available for interactive searching on the [Bookshelf](#).

MeSH Database Updated

Over 140,000 Supplementary Concept Records (substance names) have been added to the [MeSH database](#) so the database now contains the full MeSH vocabulary. MeSH terms can be used in PubMed searches.

Электронные журналы

The screenshot shows two overlapping browser windows. The background window is titled "Health InterNetwork - Microsoft Internet Explorer" and displays the "Health InterNetwork Access to Research Initiative" page. The page includes a navigation menu, a search bar, and a list of reference sources such as "AAP Policy", "BloodMed", and "British National Formulary".

The foreground window is titled "MetaPress - Publication - Microsoft Internet Explorer" and displays the "Acta Oncologica" publication page. The page features a navigation menu on the left, a central area with a cover image of "ACTA ONCOLOGICA", and a search bar. The publication details include the publisher "Taylor & Francis Health Sciences, part of the Taylor & Francis Group", the ISSN "0704-106X", and the subject "Medicine | Cancer and Oncology".

Электронный журнал «Acta Oncologica»

Бесплатные медицинские журналы (www.freemedicaljournals.com)

The screenshot shows the website 'FreeMedicalJournals.com' in a Microsoft Internet Explorer browser window. The browser's address bar shows 'http://www.freemedicaljournals.com/'. The website's logo features a stylized orange and grey 'F' and 'J' with the text 'FreeMedicalJournals.com' and the tagline 'Promoting free access to medical journals'. Below the logo is a navigation menu with links for 'Home', 'HIV Medicine', 'Free Amedeo', 'Books', 'Journal Alert', and 'Medicine on Earth'. The main content area is divided into two columns. The left column lists '> 1380 Journals, sorted by:' followed by two sections: '1. Specialty' and '2. Title'. The 'Title' section lists languages: English (A-B, C-H, I-J, L-Q, R-Z), French, German, Spanish, Portuguese, and other languages. The right column contains a subscription prompt for 'free AMEDEO', a paragraph about the site's mission, a 'Journal Alert' sign-up notice, and a list of 'Free journals, impact factor' with their respective impact factors. At the bottom, there is a section for 'Journals sorted by specialty' and 'Free one to six months after publication' with a list of journals and their impact factors.

Journal Alert
About

Have you subscribed to **free AMEDEO** ?

Free Medical Journals - Over the next few years, many important medical journals will be available online, free and in full-text. The access to free scientific knowledge will have a major impact on medical practice and attract Internet visitors to these journals. Journals that restrict access to their Web sites will lose popularity.

If you wish to be informed about new free journals, you may subscribe to our [Journal Alert](#). The Free Medical Journals Site is dedicated to the promotion of free access to medical journals over the Internet.

Директория журналов с открытым доступом (www.doaj.org)

The screenshot shows the DOAJ website in a Microsoft Internet Explorer browser window. The address bar displays <http://www.doaj.org/>. The page features the DOAJ logo and a welcome message: "Welcome to the Directory of Open Access Journals. This service covers free, full text, quality controlled scientific and scholarly journals. We aim to cover all subjects and languages. There are now 1294 journals in the directory. Currently 326 journals are searchable on article level. As of today 60457 articles are included in the DOAJ service." Navigation options include "Find Journals", "New titles", "Search articles", and "Suggest a Journal". A search box with a "Find journal" button is present. The page also offers "Browse by title" and "Browse by subject" options. A subject tree is visible, listing various disciplines such as Agriculture and Food Sciences, Arts and Architecture, Business and Economics, Earth and Environmental Sciences, Health Sciences, Languages and Literatures, Mathematics and Statistics, Physics and Astronomy, and Technology and Engineering. The footer indicates "DOAJ - Directory of Open Access Journals, 2004, Lund University Libraries, Head Office". The Windows taskbar at the bottom shows the Start button and several open applications.

КОКРАНОВСКАЯ БИБЛИОТЕКА на CD

Пример систематического обзора

The screenshot displays the Cochrane Library interface. The search bar contains the text "heart attack" and shows 190 hits. The left sidebar lists various reviews, with "Dipyridamole for preventing stroke and other vascular events in patients with vascular disease" selected. The main content area shows the title of the review, the authors (De Schryver ELLM, Algra A, van Gijn J), and the date of the most recent substantive amendment (25 February 2002). The abstract section includes the following text:

Background
Patients with transient ischaemic attacks (TIA) and minor ischaemic strokes are at risk of serious vascular events (death from all vascular causes, non-fatal stroke, or non-fatal myocardial infarction). Their risk of vascular events lies between 4 and 11 percent per year. Aspirin only, in a daily dose of 30 mg or more, offers only modest protection in such patients: it reduces the incidence of major vascular events by 13 percent. In a single trial, adding dipyridamole (an alternative antiplatelet agent) to aspirin was associated with a 22 percent reduction in the risk of major vascular events compared with aspirin alone. However, a systematic review of all trials of antiplatelet agents by the Antithrombotic Trialists' Collaboration showed that, in high risk patients, there was virtually no difference between the aspirin-dipyridamole combination and aspirin alone. We therefore sought to assess the effects of dipyridamole in more detail.

Objectives
1) To assess the efficacy of dipyridamole versus control in the secondary prevention of vascular events in patients with vascular disease in the presence and absence of other antiplatelet drugs.
2) To assess the safety of dipyridamole versus control in the secondary prevention of vascular events in patients with vascular disease in the presence and absence of other antiplatelet drugs.

Search Strategy
The Cochrane Stroke Group Trials Register was searched and other relevant Cochrane Groups were contacted to search their specialised registers (last search 29 April 2002). In addition the Cochrane Controlled Trials Register, MEDLINE and EMBASE were searched and Dutch manufacturers of dipyridamole were contacted to identify further published and unpublished studies.

Selection Criteria
Randomised long term secondary prevention trials with concealed treatment allocation, treatment for > 1 month, starting within 6 months after presentation of a arterial vascular disease were selected (coronary artery disease, myocardial infarction, angina pectoris, retinopathy, nephropathy, peripheral arterial disease, stroke, TIA, amaurosis fugax). Therapy consisted of dipyridamole in any dose in the presence or absence of other antiplatelet drugs compared with no drug or an antiplatelet drug(s) other than dipyridamole (control group).

Data collection and analysis
Two reviewers selected trials which met the inclusion criteria and extracted details of randomisation methods, blinding of treatments and assessments, whether intention-to-treat analysis was possible from the published data, whether treatment groups were comparable with regard to major prognostic factors, the number of patients who were excluded or lost to follow-up, definition of outcome events, and entry and exclusion criteria. The methodological quality of each trial was assessed by the two reviewers on the basis of these extracted data. In addition, dose and type of antiplatelet treatments, duration of follow-up, and the number of defined outcome events were recorded. Data published by the Cochrane...

ЭЛЕКТРОННЫЕ БИБЛИОТЕКИ УНИВЕРСИТЕТОВ.

Виртуальный госпиталь Университета Штата Айова (www.vh.org)

The image shows a screenshot of a Microsoft Internet Explorer browser window displaying the Virtual Hospital website. The main window's address bar shows the URL http://www.vh.org/navigation/vh/groups/body_location_systems-blood_lymphatic_system.html. The page title is "Body Location/Systems -- Blood/Lymphatic System". The website header includes the Virtual Hospital logo and navigation links for "Virtual Children's Hospital", "Site Map", "Mirror Sites", and "Search". Below the header, there are sections for "For Providers: Health Topics A - Z Textbooks" and "For Patients: Health Topics A - Z Textbooks".

The main content area is titled "Body Location/Systems -- Blood/Lymphatic System" and contains a list of links for various conditions: Anemia, Bleeding Disorders, Blood Transfusion and Donation, Blood and Blood Disorders, Bone Marrow Diseases, Bone Marrow Transplantation, Cholesterol, Fibromyalgia, Hemochromatosis, Hemophilia, Leukemia, Adult Acute, Leukemia, Adult Chronic, Leukemia, Childhood, Lymphatic Diseases, Lymphoma, Multiple Myeloma, Sarcoidosis, and Sickle Cell Anemia.

A smaller browser window is overlaid on the main page, displaying the "Bone Marrow Transplantation" page. Its address bar shows http://www.vh.org/navigation/vh/topics/bone_marrow_transplantation.html. The page title is "Bone Marrow Transplantation : Virtual Hospital - Health Topics A-Z - M...". The content includes a "Health Topics A-Z" section, a "Bone Marrow Transplantation" heading, and links for "All Topics", "Adult Patient Topics", "Adult Provider Topics", "Pediatric Patient Topics", and "Pediatric Provider Topics". Below this, there are sections for "For Adult Patients" with the link "Understanding Blood Tests: A Guide for Patients with Cancer" and "For Pediatric Patients" with the link "Pediatric Bone Marrow Transplant: A Guide for Families".

The bottom of the screenshot shows the Windows taskbar with the Start button and several open applications, including "Department of a...", "CoreDRAW 11 - [...]", "Body Location/Sy...", "Microsoft Power...", and "Bone Marrow Tra...". The system clock shows the time as 10:49.

Сайты профессиональных ассоциаций. Общество сердечно-сосудистой патологии. (www.scvp.net)

НАШ ИНСТИТУТ

Первый Ташкентский Государственный Медицинский Институт был создан в 1918 году и на сегодняшний день является одним из ведущих ВУЗов республики Узбекистан, а также одним из крупнейших научно-исследовательских центров. На факультетах нашего института обучается около 3000 студентов по программе врача общей практики, 200 клинических ординаторов (программа магистратуры) более 100 аспирантов и докторантов. Институт занимается подготовкой специалистов лечебного дела и стоматологов. В институте работают ведущие специалисты по хирургии, терапии, акушерству и гинекологии, реанимации, интенсивной терапии и анестезиологии, стоматологии, а также специалисты по биохимии, фармакологии, морфологии и другим медико-биологическим дисциплинам, которые помимо преподавательской работы занимаются научно-исследовательской деятельностью.
