TRANSITION HEADLINE

Let's start with the first set of slides

“Quotations are commonly
printed as a means of
inspiration and to invoke
philosophical thoughts from
the reader”

THIS IS A SLIDE TITLE

- » Here you have a list of items
- » And some text
- » But remember not to overload your slides with content

You audience will listen to you or read the content, but won't do both.

BIG CONCEPT

Bring the attention of your audience over a key concept using icons or illustrations

YOU CAN ALSO SPLIT YOUR CONTENT

White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

Black

Is the color of coal, ebony, and of outer space. It is the darkest color, the result of the absence of or complete absorption of light.

IN TWO OR THREE COLUMNS

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

A PICTURE IS WORTH A THOUSAND WORDS

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

A landscape of mountains at sunset. The sky is a gradient of orange and yellow, transitioning into a blue gradient that covers the lower half of the image. The mountains are silhouetted against the sky. In the top left and bottom right corners, there are abstract geometric shapes consisting of several parallel, slanted rectangular bars. The text "Want big impact? USE BIG IMAGE." is located in the bottom left corner.

Want big impact?
USE BIG IMAGE.

You don't need to keep this slide in your presentation. It's only here to serve you as a design guide if you need to create new slides or download the fonts to edit the presentation in PowerPoint®

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change fill color and opacity.
- Change line color, width and style.

Isn't that nice? :)

Examples:

Now you can use any emoji as an icon!

And of course it resizes without losing quality and you can change the color.
