Планшеты

iPhone

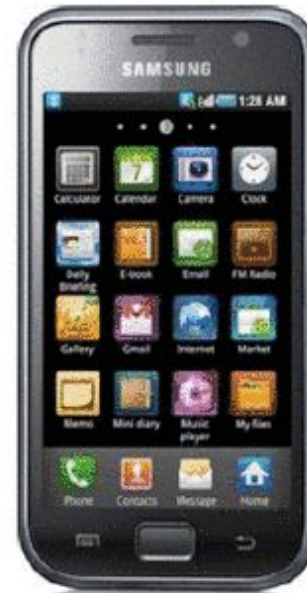

Apple Inc. is a multinational technology company that designs, develops, and markets consumer electronics, software, and services. The company is known for its iconic products, including the iPhone, iPad, Mac, and Apple Watch. Apple's operating systems, iOS and macOS, are widely used and have revolutionized the mobile computing industry. The company's services, such as the App Store, iTunes, and iCloud, have also become integral parts of its ecosystem. Apple's commitment to innovation and user experience has made it one of the most valuable and influential companies in the world.
