**Ах, эта математика –
 Наука очень строгая.
 Учебник математики
 Всегда берешь с тревогою.
 Там функции и графики
 И уравнений тьма,
 А модуль может запросто
 Свести тебя с ума.
 И правила, и формулы,
 Все так легко забыть,
 Но все ж без математики
 Нам невозможно жить.
 Любите математику
 И вы поймете вдруг,
 Что, правда: “Математика –
 Царица всех наук!”**
