Игра «Почтальон»

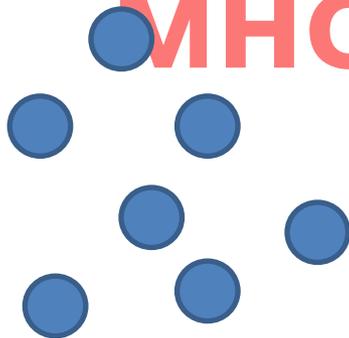

Кто вышел первый, если он стоит слева от собачки?

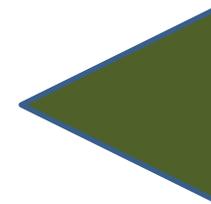

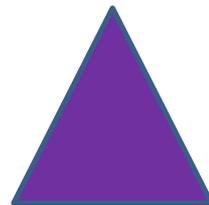

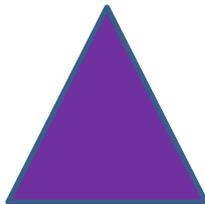

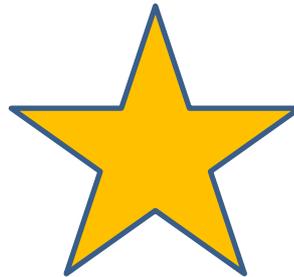

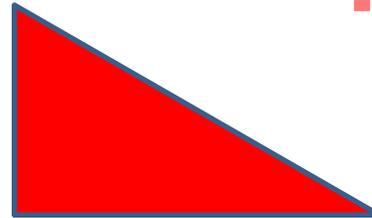

Чего

много?

Чего

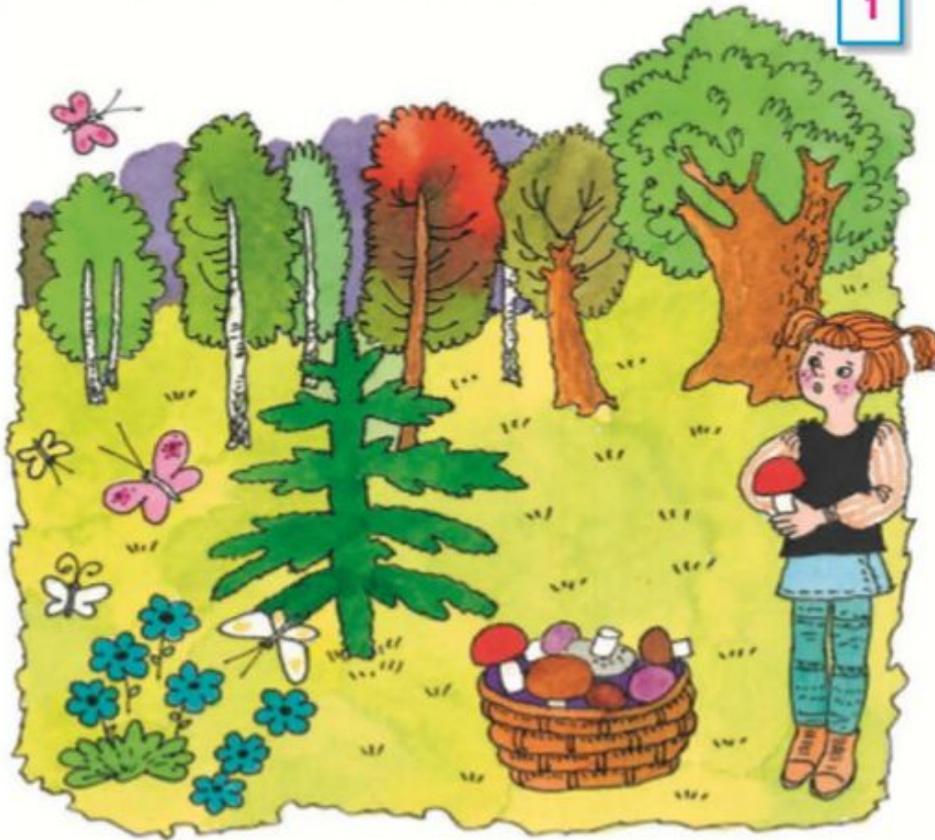

один?

Много. Один

О чём можно сказать *много?* *один?*

1

Рассмотри рисунок.
Сколько деревьев в лесу? Сколько ёлочек на поляне? Сколько грибов у девочки в корзине? в руке?

Где мы встретим **единицы**?
Клюв один у каждой птицы,
Есть один хвост у дельфина,
И один хвост у павлина,
Хобот у слона один,
Руль один у всех машин,
У Земли Луна одна,
Нам она в ночи видна.

Сосчитай – ка!

*Три спелых груши
На веточке качалось
Две груши снял Павлуша,
А сколько груш осталось?*

*Внуку Шуре добрый дед
Дал вчера семь штук конфет.
Шесть конфеток ску
Сколько же осталось*

И как надо положу!
Я друзья от вас не

Ручку я вот так держу!
Сяду прямо, не согнусь,
За работу я возьмусь**

Это - цифра единица.
Первой быть она
стремится!
Всех прямее и ровней,
Остальные все - за ней!

В правый верхний уголок
Карандаш веди, дружок,
А затем - левее, вниз:
Вот - одна из единиц!
