

The background is a vibrant autumn scene. On the left, a branch with orange and red maple leaves extends into the frame. The ground is covered in tall, green grass with scattered fallen leaves in shades of red, orange, and yellow. In the distance, there are rolling green hills under a clear blue sky with soft, white clouds and several bright, starburst light effects. On the right side, there are more trees with yellow and orange foliage, and two colorful butterflies (one yellow and black, one orange and black) are flying.
$$53 + x = 82$$

$$x = 29$$

$$53 + x = 116$$

$$x = 61$$

The background is a vibrant autumn scene. On the left, there are branches with bright orange and red maple leaves. The ground is covered in lush green grass with scattered fallen leaves in shades of red, orange, and yellow. In the distance, there are rolling green hills under a clear blue sky. Several colorful butterflies, including monarchs and smaller species, are flying in the sky. The overall atmosphere is bright and cheerful, with soft light and a few starburst effects in the sky.
$$12x = 84$$

$$x = 7$$

$$12x = 240$$

$$x = 20$$

Самостоятельная

1) $x + 36 = 83$

$$x = 83 - 36$$

$$x = 50$$

2) $124 + y = 212$

$$y = 212 - 124$$

$$y = 88$$

3) $a - 458 = 345$

$$a = 345 + 458$$

$$a = 803$$

2) $2\ 064 - b = 1\ 398$

$$b = 2\ 064 - 1\ 398$$

$$b = 666$$
