

The background is a vibrant autumn scene. On the left, a branch with orange and red maple leaves extends into the frame. The ground is covered in tall, green grass with scattered fallen leaves in shades of red, orange, and yellow. In the distance, there are rolling green hills under a clear blue sky with soft, wispy clouds and several bright, starburst light effects. On the right side, there are more trees with yellow and orange foliage, and two colorful butterflies (one yellow and black, one orange and black) are flying.
$$53 + x = 82$$

$$x = 29$$

$$53 + x = 116$$

$$x = 61$$

The background is a vibrant autumn scene. On the left, there are branches with bright orange and red maple leaves. In the foreground, there is a field of tall, green grass with scattered red and orange leaves. On the right, there are trees with yellow and orange foliage. The sky is a clear, bright blue with several white, starburst-like light effects. Two colorful butterflies are flying in the sky on the right side.
$$12x = 84$$

$$x = 7$$

$$12x = 240$$

$$x = 20$$

Самостоятельная

$$1) x + 36 = 83$$

$$x = 83 - 36$$

$$x = 50$$

$$2) 124 + y = 212$$

$$y = 212 - 124$$

$$y = 88$$

$$3) a - 458 = 345$$

$$a = 345 + 458$$

$$a = 803$$

$$2) 2\,064 - b = 1\,398$$

$$b = 2\,064 - 1\,398$$

$$b = 666$$
