

# Обобщающий урок по теме «Многоугольники»

Тот, кто ищет знания, тот всегда найдет  
В компьютере, в учебнике иль жизни.  
И обязательно в порядок приведет  
Не только платье, но и мысли.

Составила учитель математики Холявка Н.В.

Путешествие

в страну

МАТЕМАТИКА

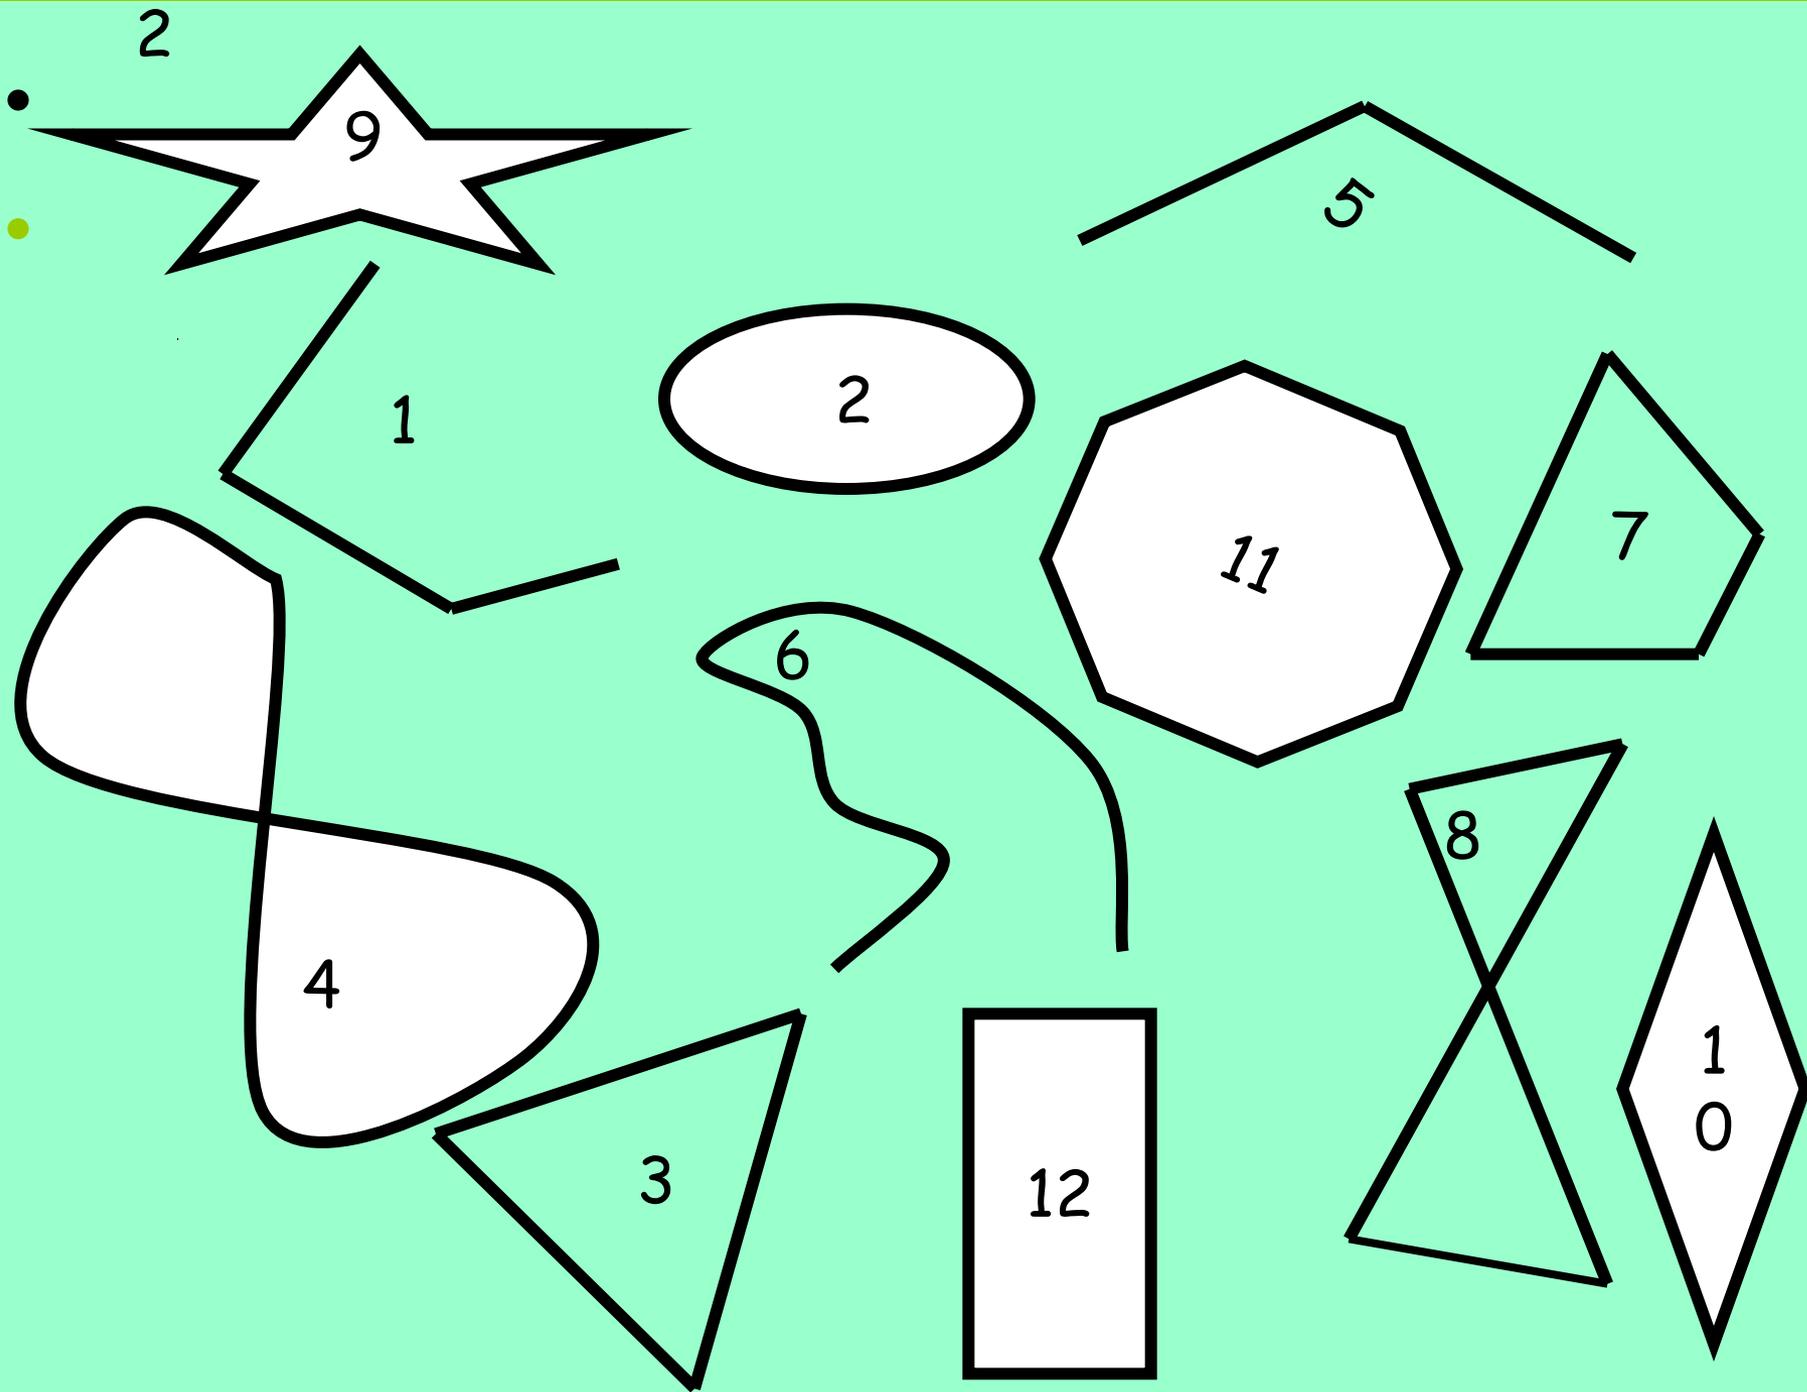

# Цель путешествия:

- 1. Вспомнить, какую фигуру называют многоугольником.
- 2. Научиться находить границы многоугольника.
- 3. Уметь находить периметр многоугольника.
- 4. Повторить все виды углов.

# Царство Доманых

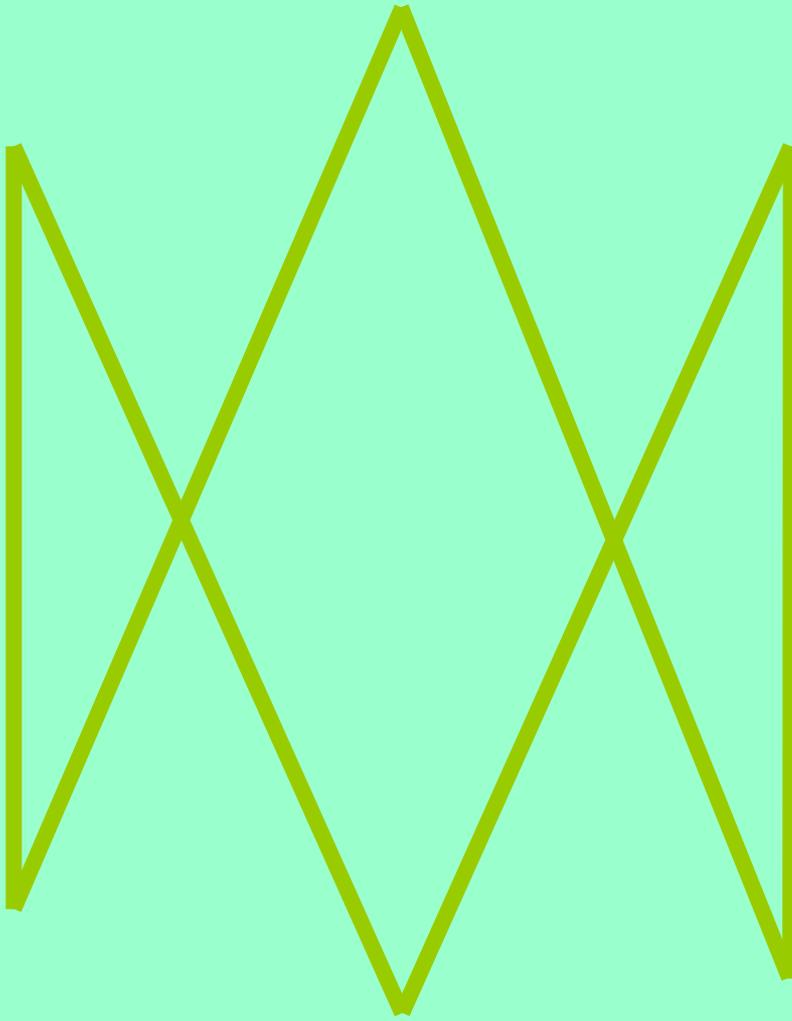

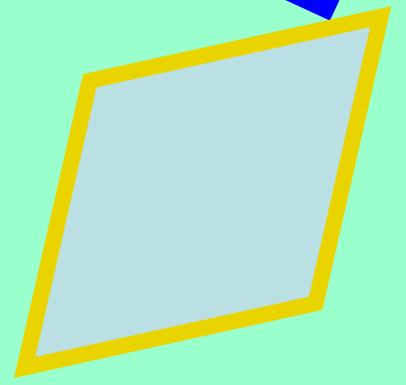

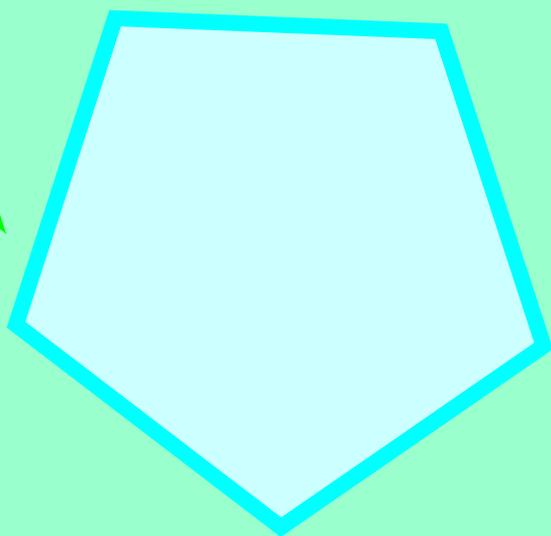

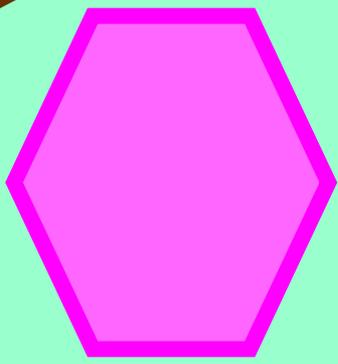

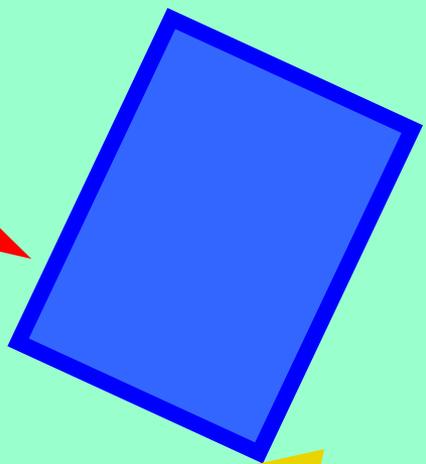

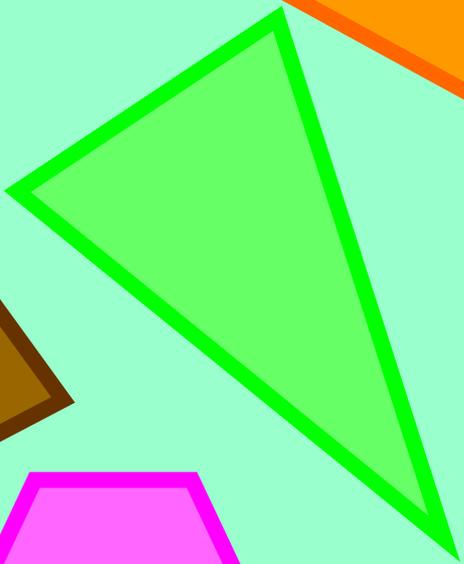

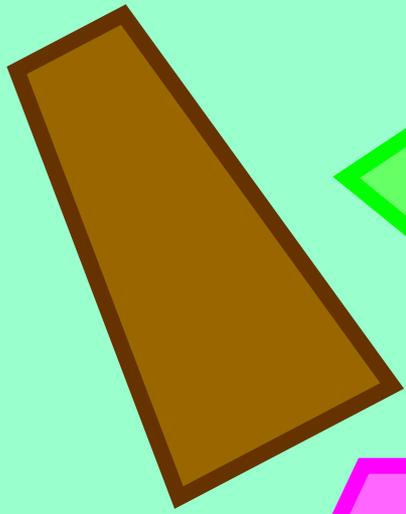

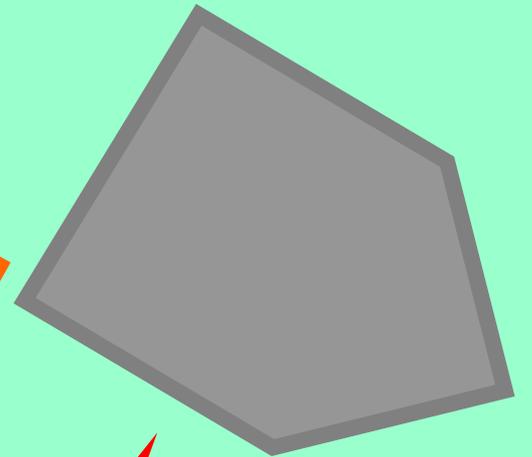

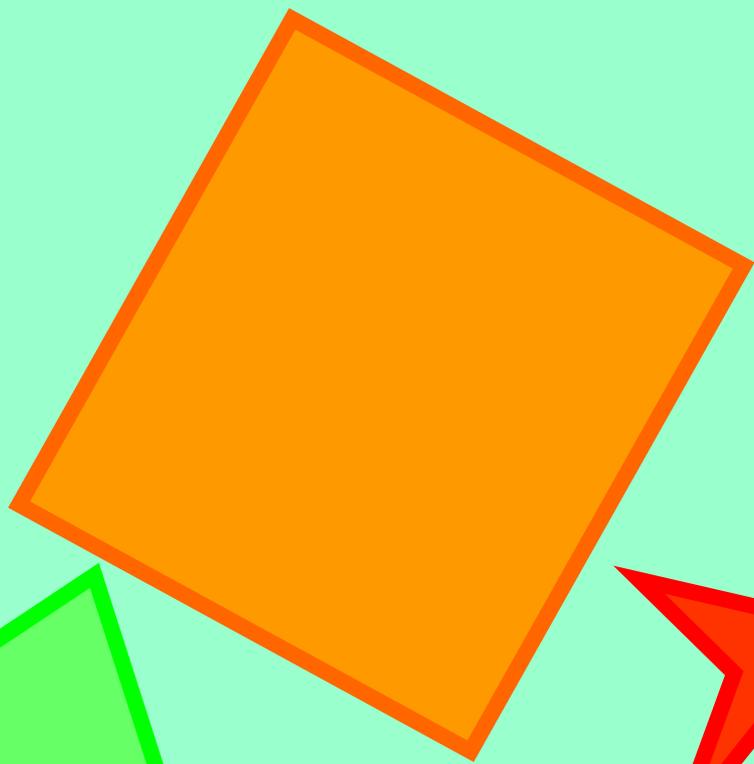

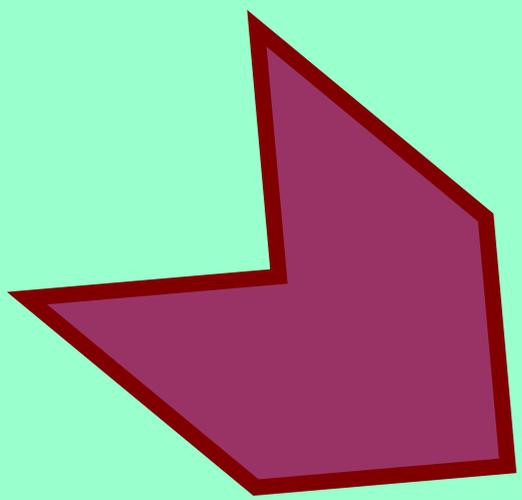

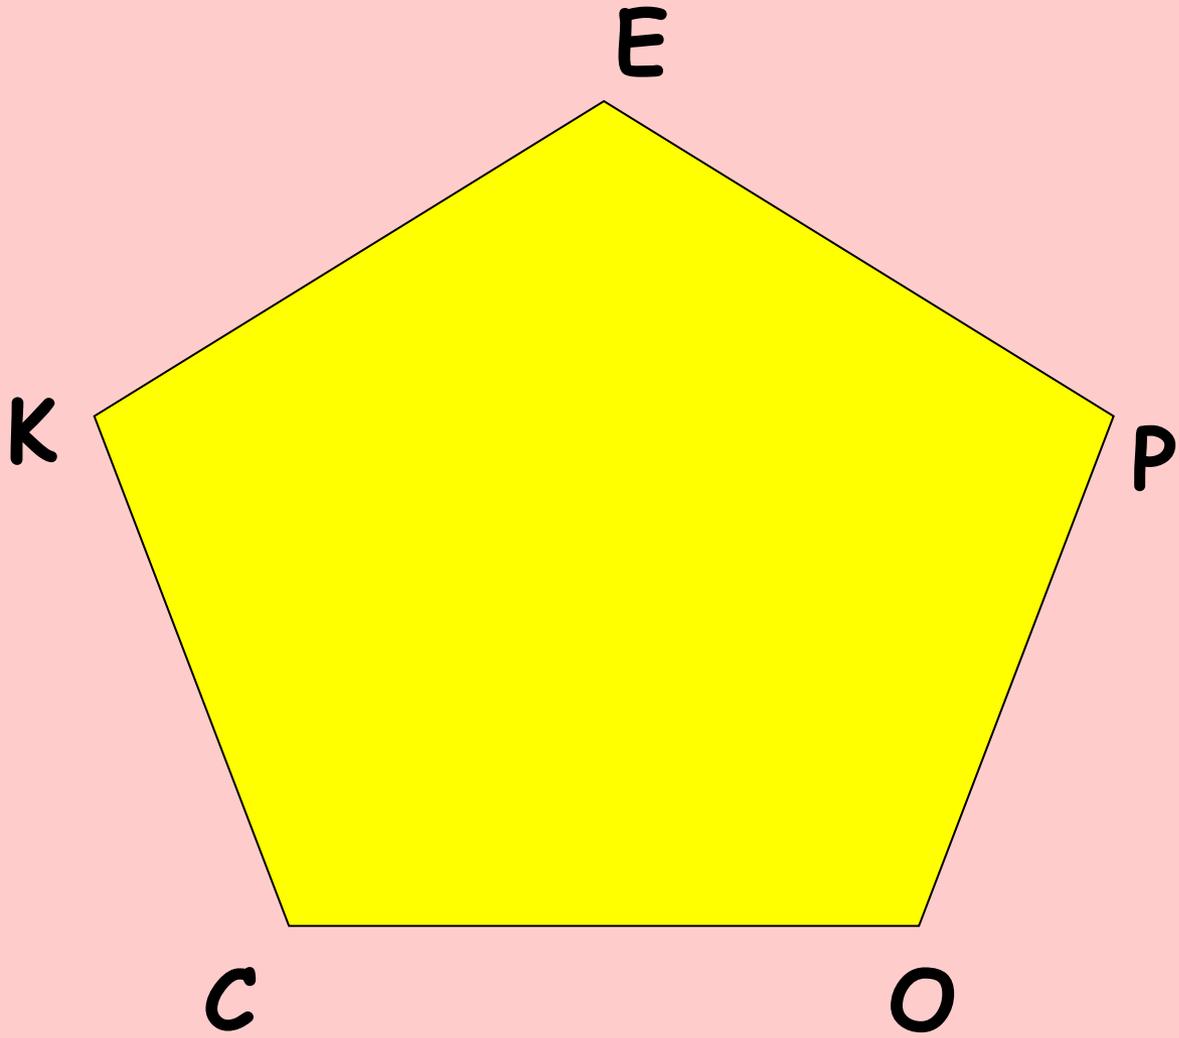

ДОБРО ПОЖАЛОВАТЬ

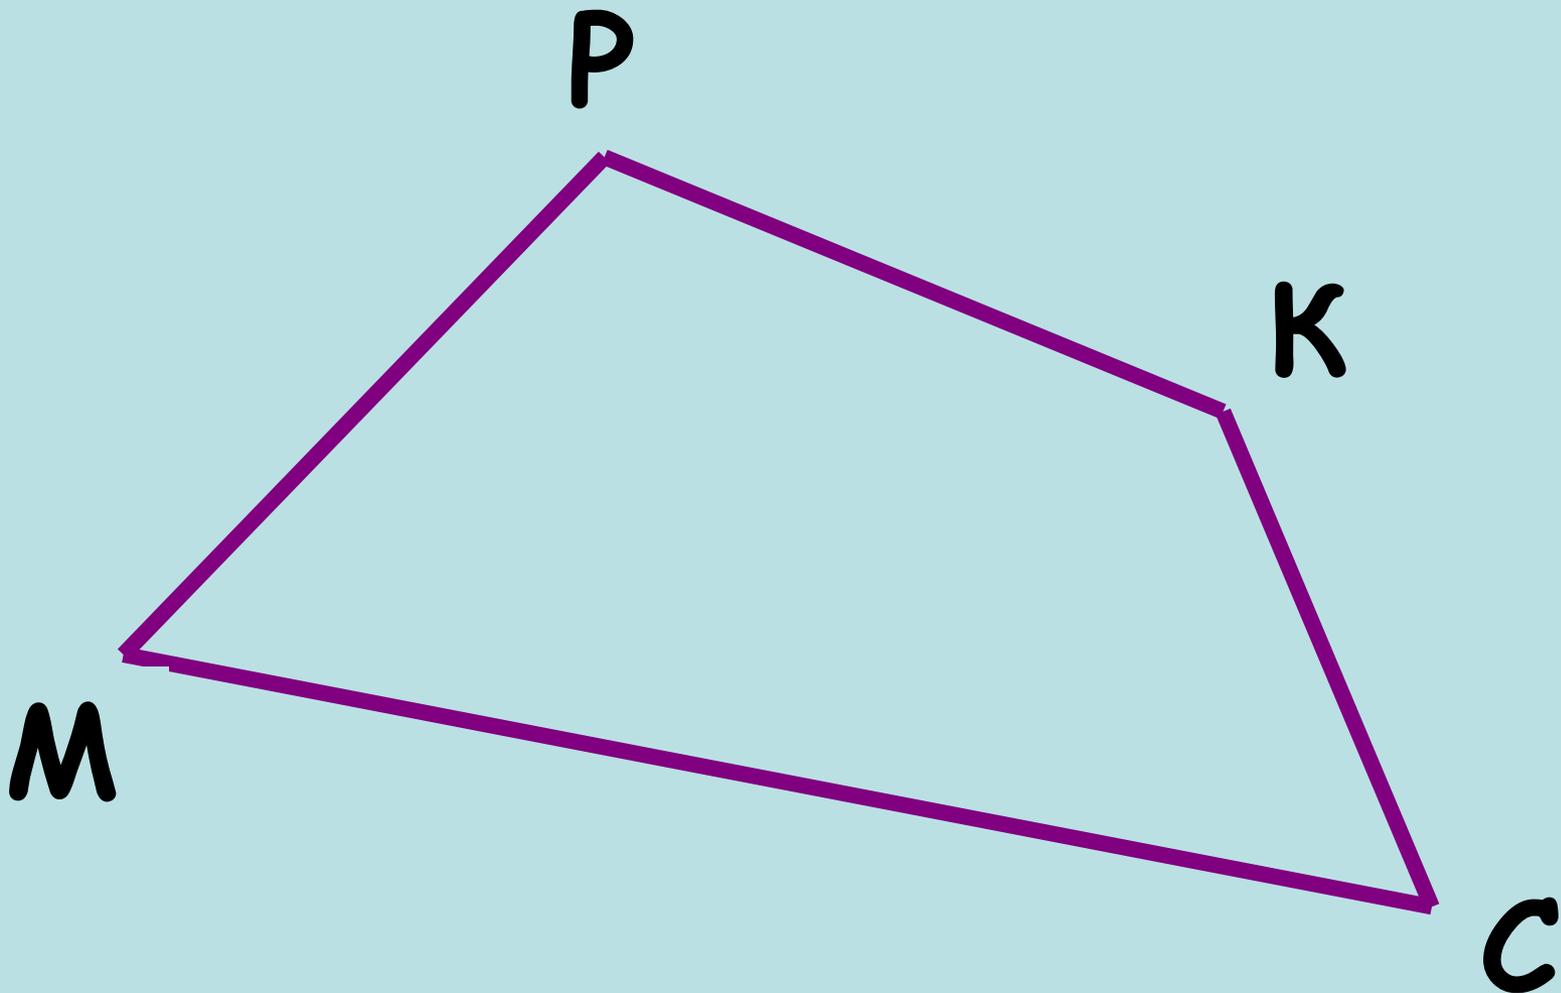

В ЦАРСТВО МНОГОУГОЛЬНИКОВ!

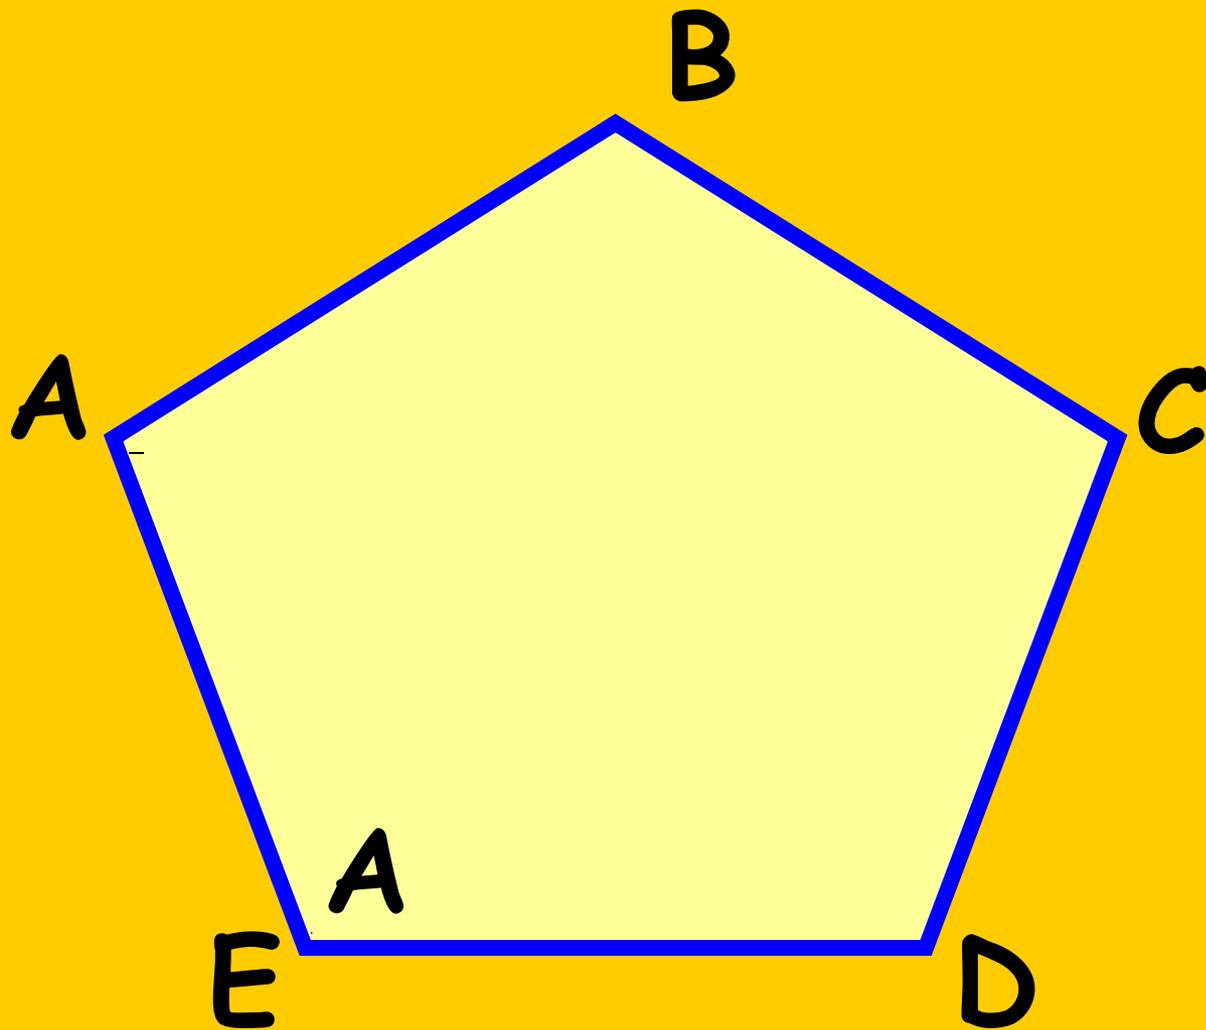

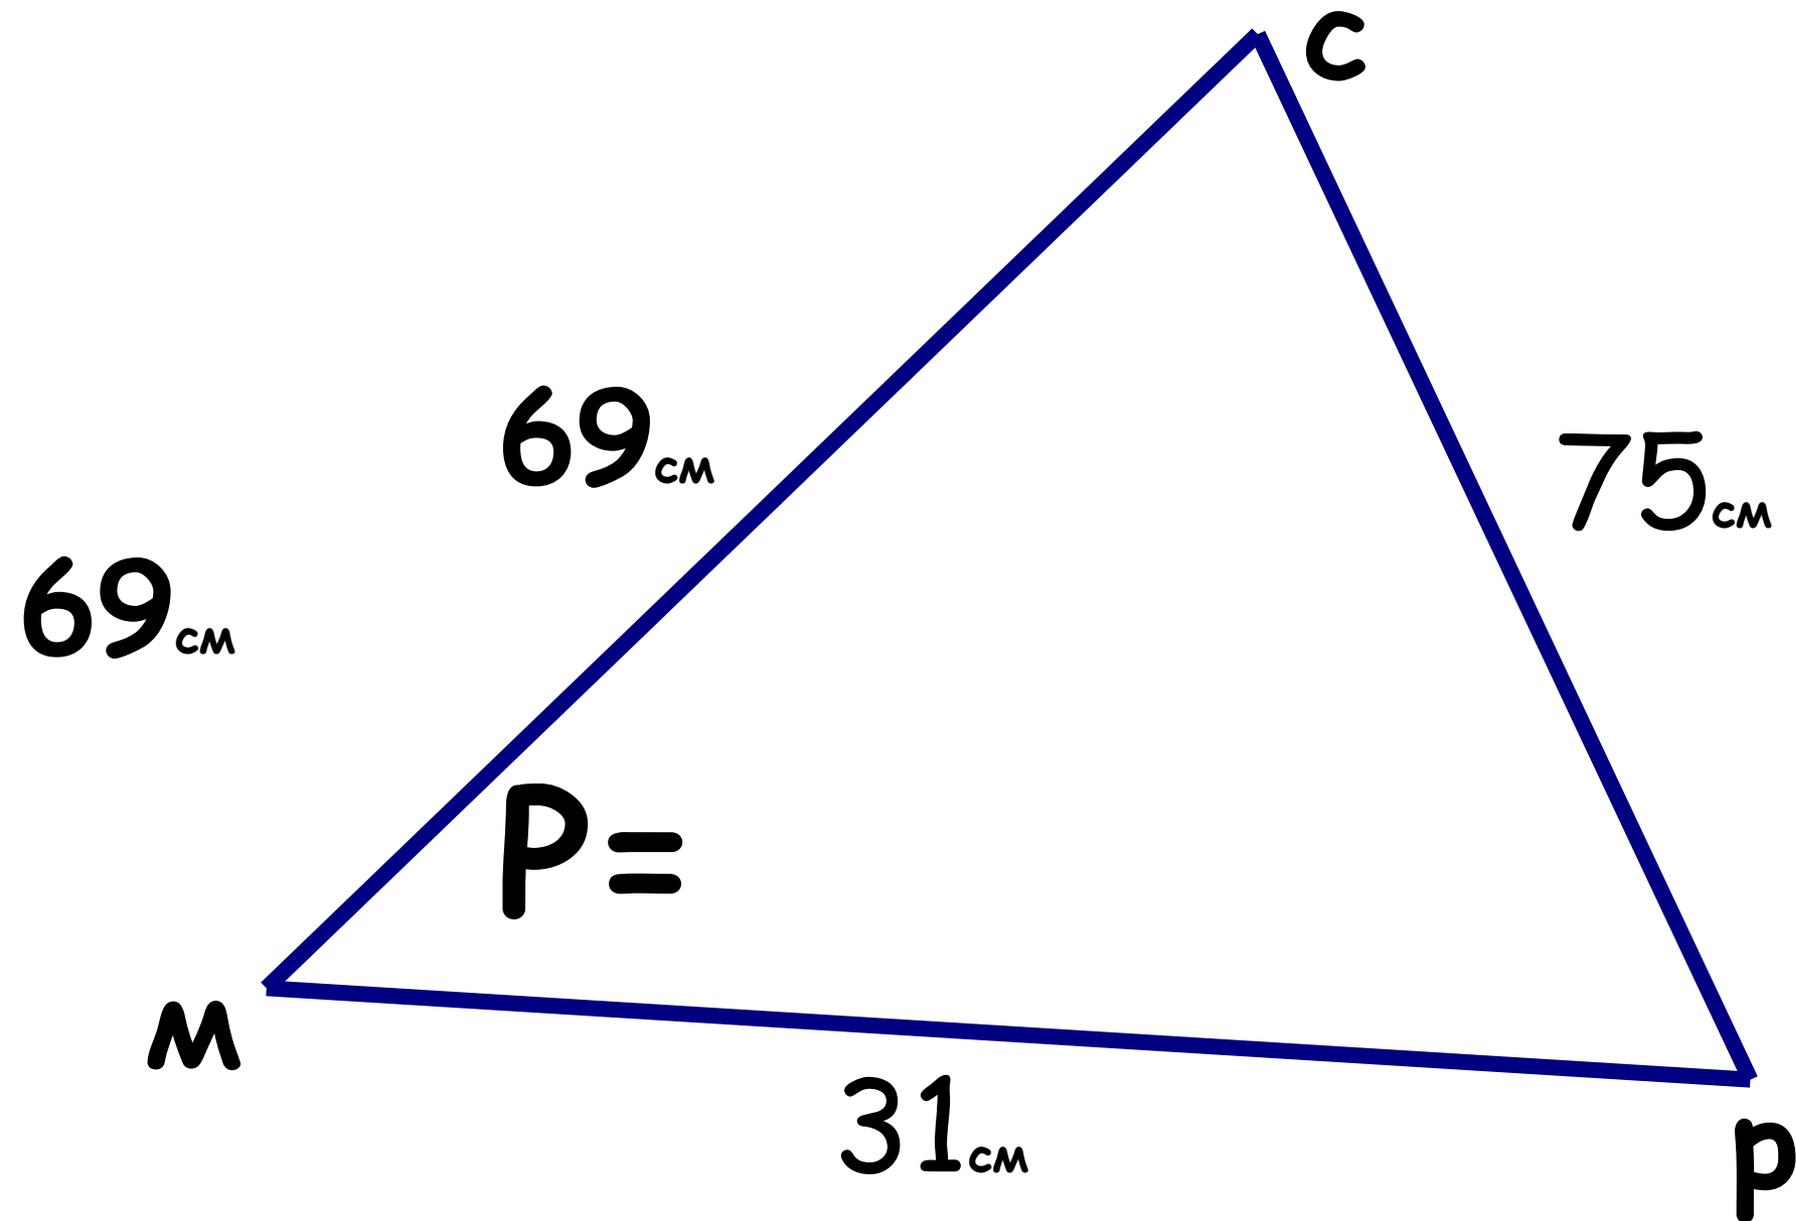

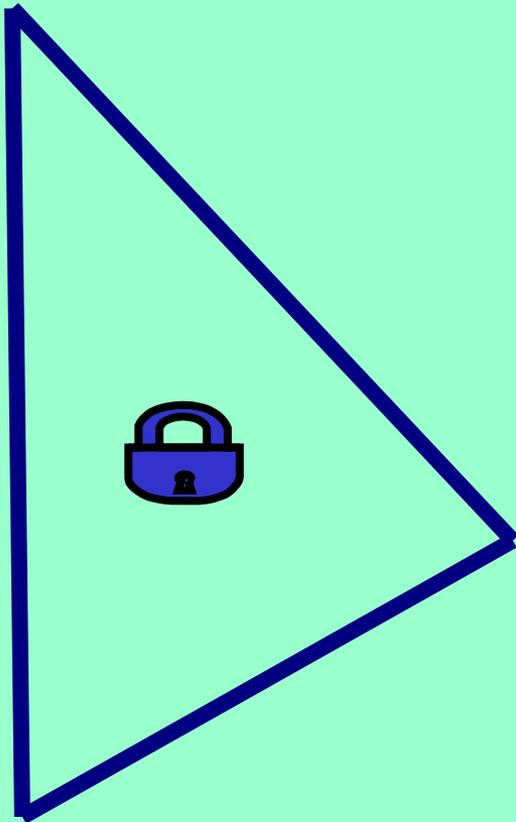

**Диагонали:**

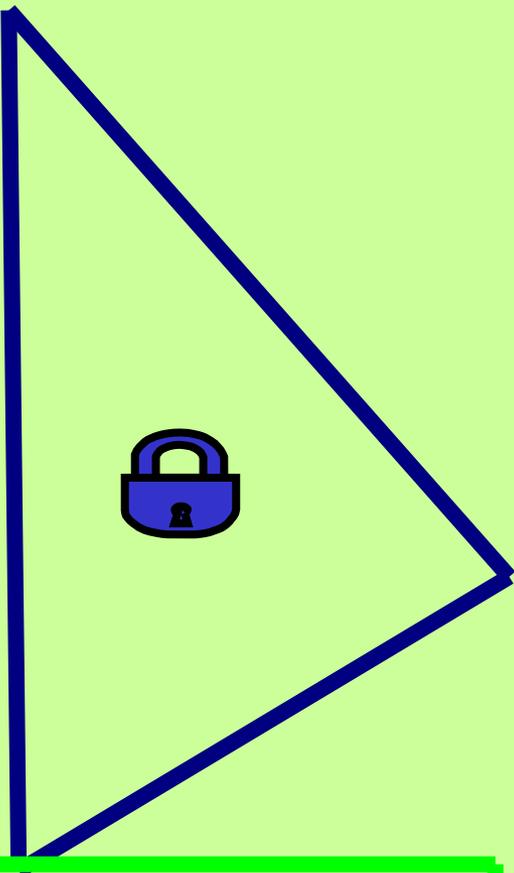

$P=175_{CM}$

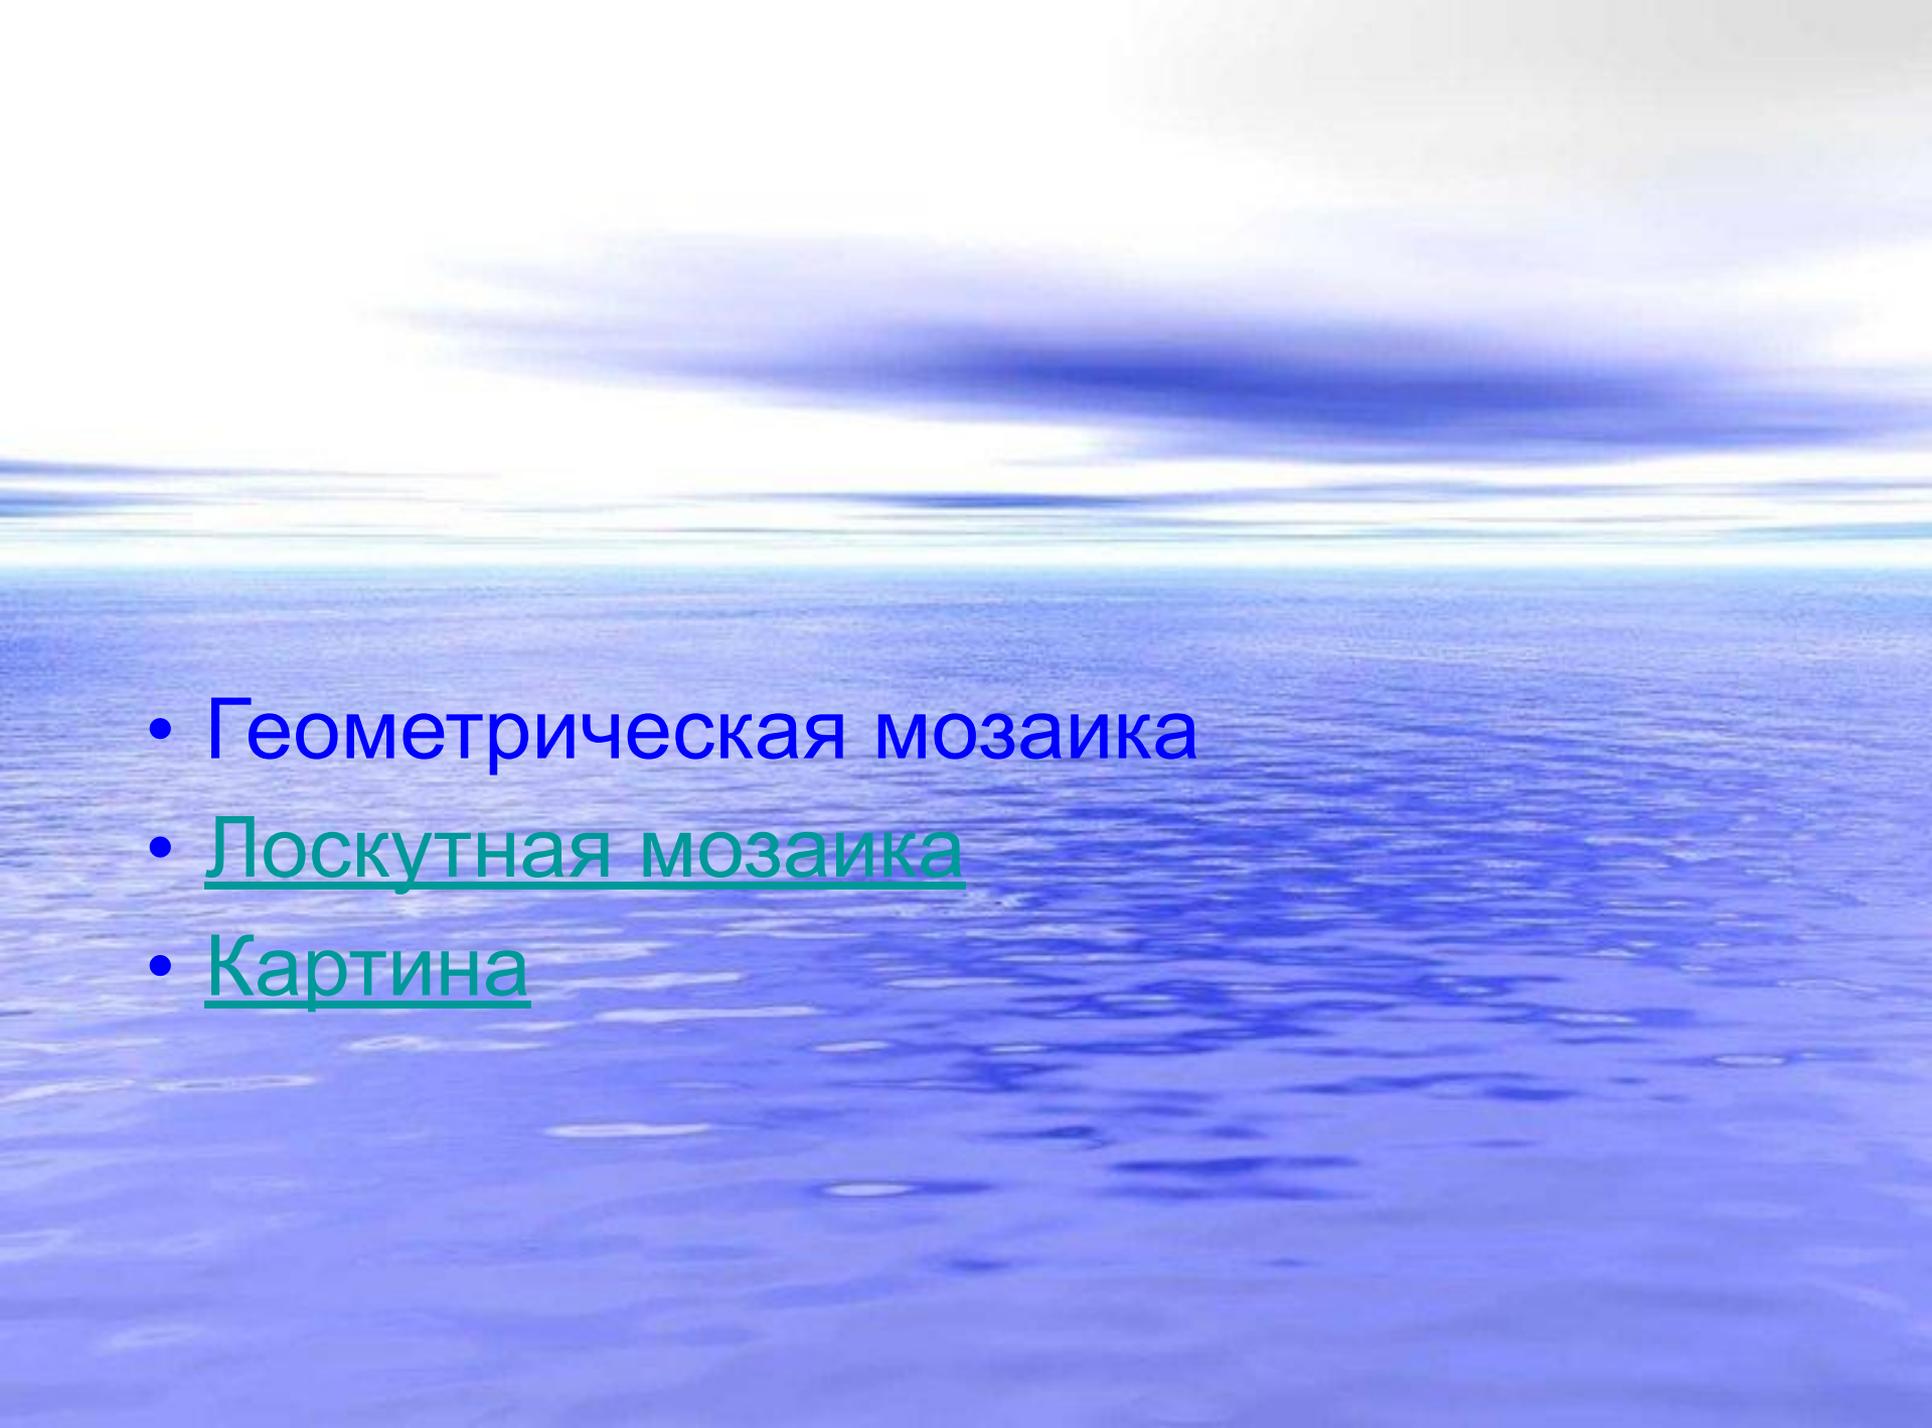

$P=200_{CM}$

$P=288_{CM}$

$P=175_{CM}$

# Счастливого пути!
