

# Интерактивная дидактическая игра «СУДОКУ»

Разработала Меркулова Елена Анатольевна

**Цель игры:** развитие логического мышления

у детей старшего дошкольного возраста.

**Задачи:** развивать у детей познавательные процессы: внимание, память, мышление; закреплять знания цифр, плоских и объёмных геометрических фигур, цвета; упражнять в ориентировке на микроплоскости.

**Правила:** На игровом поле из 9 (16) клеток необходимо разместить цифры и геометрические фигуры так, чтобы в каждой столбике и строке

1	2
