Тема: «Измерение площади фигуры с помощью палетки»

Цели:

- узнать что такое «палетка»;
- составить алгоритм пользования палеткой и применять его;
- научиться пользоваться палеткой.

Алгоритм работы с палеткой:

1. Наложите палетку.
2. Посчитайте количество полных квадратов в фигуре.
3. Посчитайте количество неполных квадратов в фигуре и разделите на 2.
4. Сложите число полных квадратов и число неполных квадратов, делённое на 2.
