

180 - 90 =                      380 + 130 =

450 - 70 =                      820 - 740 =

250 + 570 =                    90 + 360 =

80 + 100 =                      510 - 260 =

The diagram shows four arithmetic problems on the left and four on the right. A vertical line is drawn between the two columns of equations. Arrows indicate connections between the equations: from the top-left to the top-right, from the top-left to the middle-right, from the middle-left to the top-right, from the middle-left to the middle-right, from the bottom-left to the middle-right, and from the bottom-left to the bottom-right.

Расположите числовую последовательность  
в порядке убывания:

**523, 123, 423, 623, 223, 723**

Увеличьте каждое из  
однозначных натуральных  
чисел в 100 раз.

$$3 \bullet 100 = 100 \bullet 3 = 300$$

$$8 \bullet 100 = 100 \bullet 8 = 800$$

$$5 \bullet 100 = 100 \bullet 5 = 500$$

$$9 \bullet 100 = 100 \bullet 9 = 900$$

$$4 \bullet 100 = 100 \bullet 4 = 400$$

$$7 \bullet 100 = 100 \bullet 7 = 700$$

$$23 \bullet 100 = 100 \bullet 23 = 2300$$
