Ломаная линия

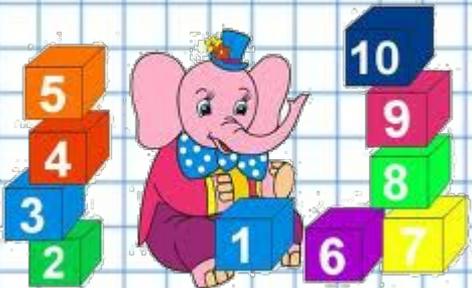

Начерти:

- Точку
- Прямую линию
- Отрезок
- Луч
- Кривую линию

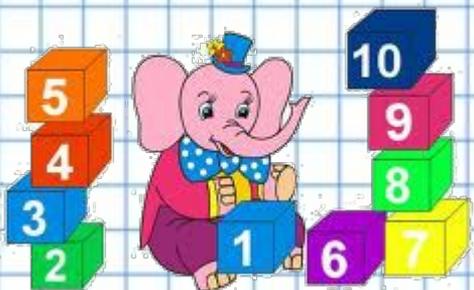

Линейка

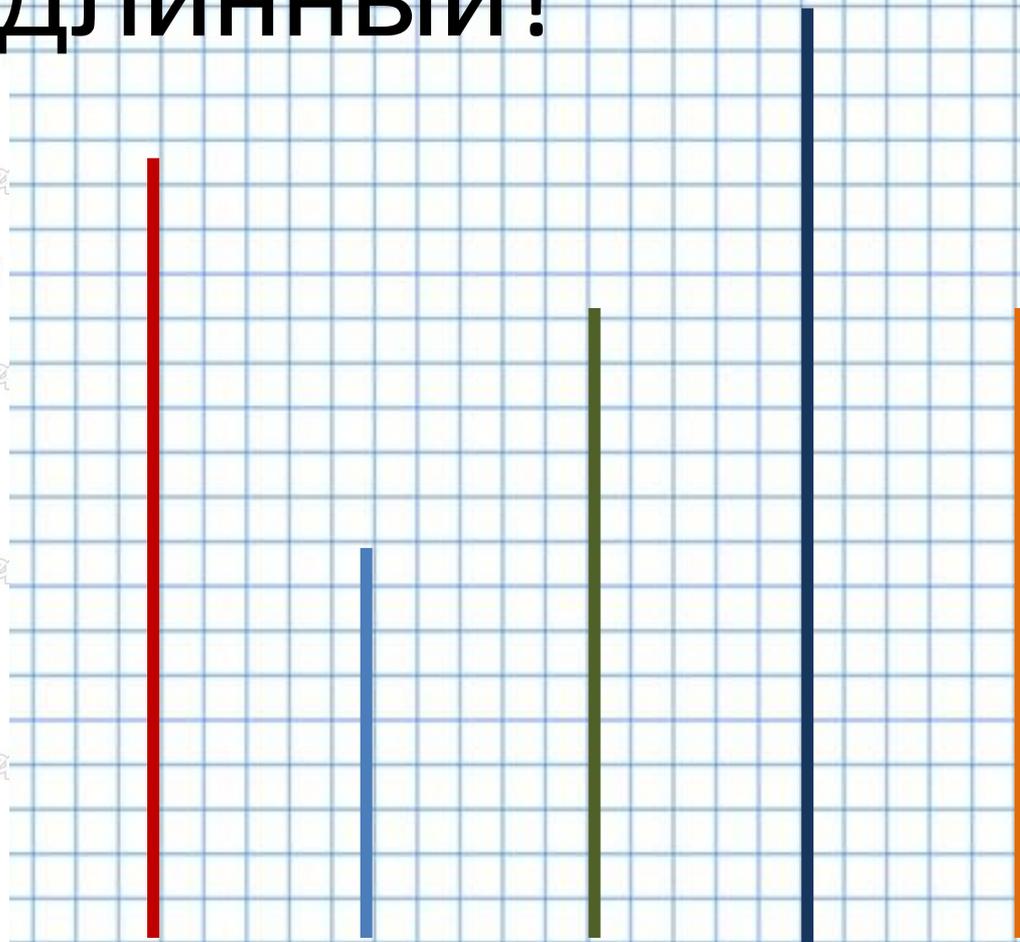

Построй отрезок с помощью линейки

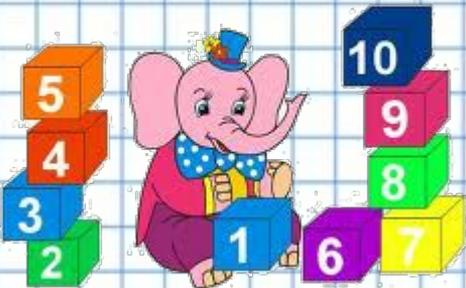

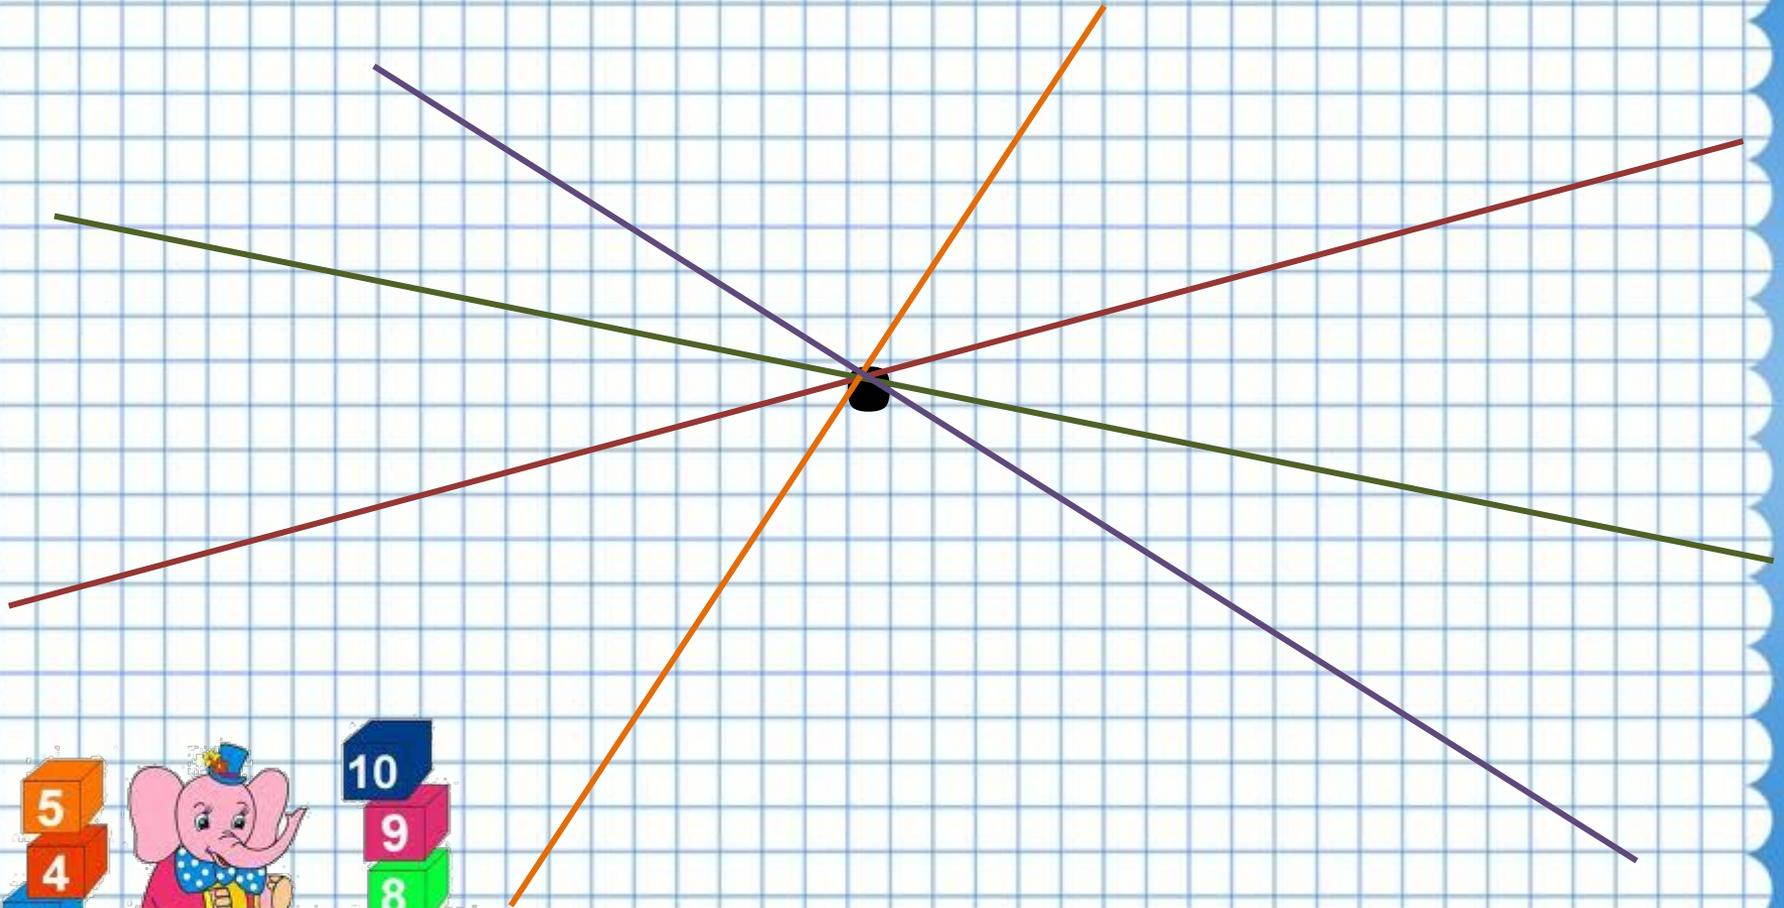

1. Поставь в тетради 2 точки.
2. Возьми линейку и соедини точки.

Какой отрезок самый длинный?

Сколько прямых линий можно провести через одну точку?

А через две точки?
