

Кто быстрее двигался?

- ЧИХ- 4 минуты
- ПЫХ- 3 минуты

60 м

45 м

$$t = 4 \text{ ч}$$

$$s = 200 \text{ км}$$

$$200 : 4 = 50 \text{ км/ч}$$

$$V=S:t$$

- V - скорость
- S - расстояние
- t - время

Кто быстрее двигался?

$$60:4 = 15 \text{ м/мин.}$$

$$45:3 = 15 \text{ м/мин.}$$
