$$7 - 4 = 3$$

$$7 - 2 - 2 = 3$$

Diagram showing the decomposition of 7 into 5 and 2, and the subsequent subtraction of 2 from 5 to reach 3.

$$7 - 3 - 1 = 3$$

Diagram showing the decomposition of 7 into 4 and 3. Red lines connect the 7 to a 4 below it, and the 3 to the same 4. The 4 is positioned centrally below the space between the 7 and the 3.

$$7 - 1 - 3 = 3$$

7 and 1 are connected by red lines to the number 6 below them.

$$7 - 1 - 1 - 1 - 1 = 3$$
