

ШКОЛЬНИК

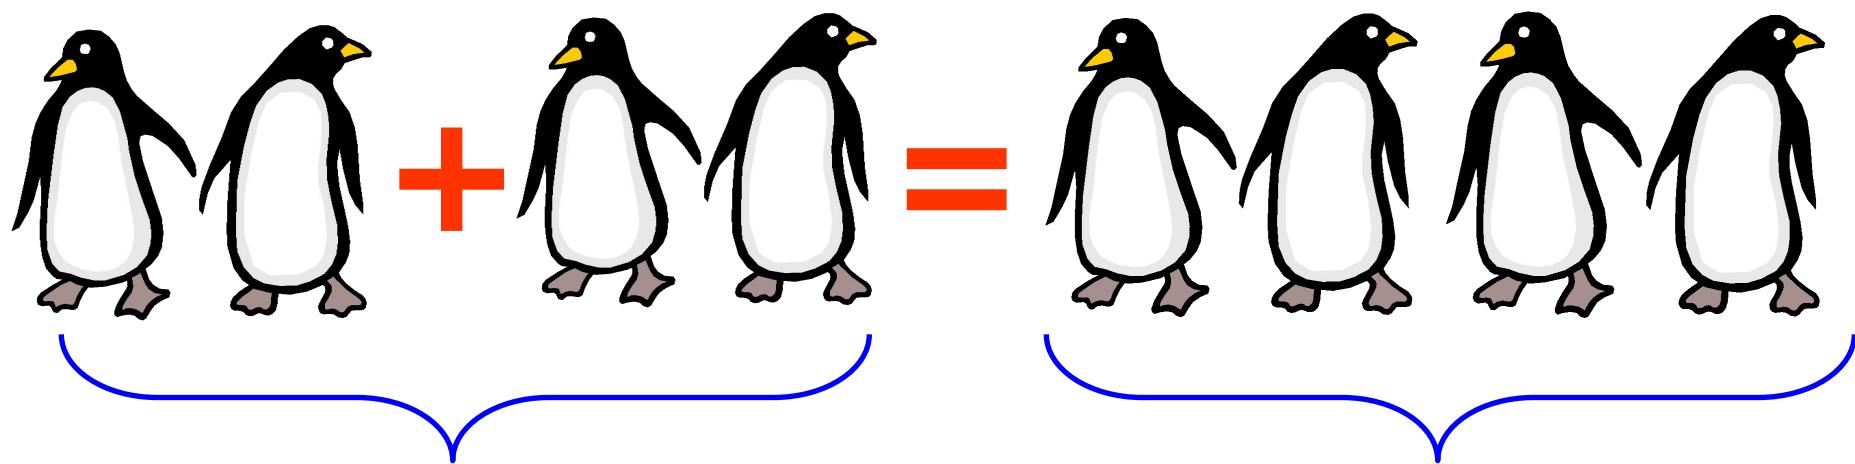

ПРИМЕРЫ на сложение от 0 до 9

(Шпаргалка для первоклассника)

Виктория Кузнецова

Когда к одному числу мы прибавляем второе число, то используем знак **+**, действие называется **сложение**. Когда мы складываем, то число увеличивается. Левая и правая половина равны, поэтому используем знак равенства **=**

$$2 + 2 = 4$$

Если к нулю прибавить какое-нибудь число,
то получится это же число

$$0 + \text{sun} = \text{sun}$$

$$0 + 1 = 1$$

Если к любому числу прибавить 0,
то получится такое же число, как и было в начале.
