A whimsical illustration of a winter night. A small, dark brown cabin with a snow-laden roof and icicles on the eaves sits on a snowy hill. The cabin's windows are lit with a warm yellow glow, and a brick chimney on the roof emits stylized, dark blue smoke. The landscape is covered in soft, rolling hills of snow, with a path leading towards the cabin. In the background, a dense forest of dark evergreen trees is visible under a deep blue night sky. A crescent moon and numerous white snowflakes of various sizes are scattered across the sky, creating a magical atmosphere.
