

180 - 90 =                      380 + 130 =  
450 - 70 =                      820 - 740 =  
250 + 570 =                    90 + 360 =  
80 + 100 =                      510 - 260 =

The diagram consists of two columns of four arithmetic problems each. A vertical line is drawn between the two columns. Arrows indicate the following connections: from the first problem on the left to the second on the right; from the second on the left to the first on the right; from the third on the left to the third on the right; and from the fourth on the left to the fourth on the right.

Расположите числовую последовательность  
в порядке убывания:

**523, 123, 423, 623, 223, 723**

Увеличьте каждое из  
однозначных натуральных  
чисел в 100 раз.

$$3 \bullet 100 = 100 \bullet 3 = 300$$

$$8 \bullet 100 = 100 \bullet 8 = 800$$

$$5 \bullet 100 = 100 \bullet 5 = 500$$

$$9 \bullet 100 = 100 \bullet 9 = 900$$

$$4 \bullet 100 = 100 \bullet 4 = 400$$

$$7 \bullet 100 = 100 \bullet 7 = 700$$

$$23 \bullet 100 = 100 \bullet 23 = 2300$$
