Emergency

A group of approximately ten people, likely a team of professionals, are gathered in a circle, looking upwards towards the camera. They are all wearing white lab coats and white protective masks. One person in the lower-left foreground is holding a black chainsaw with the brand name 'PARKSIDE' visible on the blade. Another person in the upper-right is holding a gas mask. The background is a light-colored tiled ceiling with several recessed circular lights. The overall scene suggests a team of experts or emergency responders.
