

The background features three pencil sketches of basic geometric forms. On the left is a cylinder, shown in a three-quarter perspective with shading on its curved surface. In the center is a sphere, also rendered with shading to indicate its roundness. On the right is a cube, drawn in a similar perspective. The sketches are light and delicate, typical of a preliminary drawing or study.

Основы рисунка

- **Рисунок** — изображение на плоскости, созданное средствами графики.

Базовые элементы

рисунка:

- ТОЧКА,
- ЛИНИЯ,
- ШТРИХ ,
- ПЯТНО.

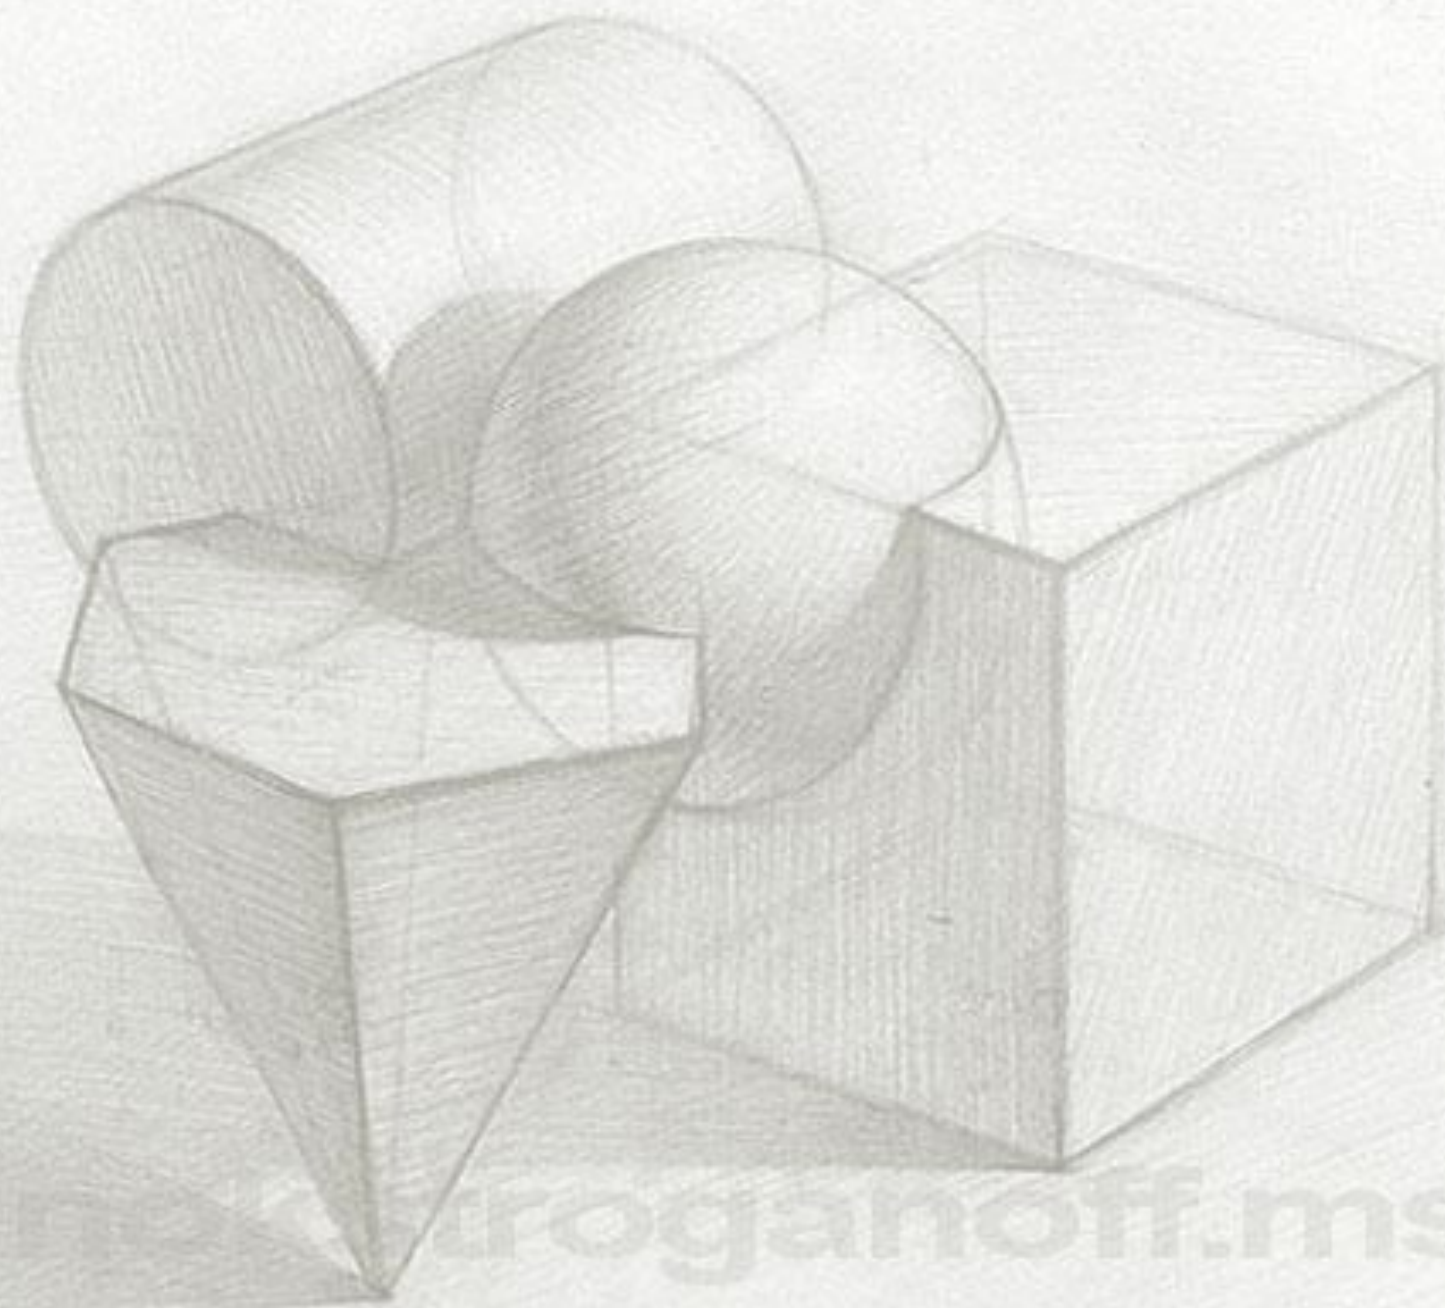

Практическая работа

Создание конструктивного
рисунка геометрических
фигур:

Куб и конус.
