

# **MUSIC IN OUR LIFE**

Kuandykova Bayan

# TYPES OF MUSIC

- - POP music
- - Rock music
- - Classical music
- - Rap music

# POP MUSIC

- "Pop" music is a type of *popular* music that many people like to listen to. The term "pop music" can be used for all kinds of music that was written to be popular. Styles of pop music include rock music, electronic music and hip hop.

# ROCK MUSIC

- **Rock music** is a form of popular music with a prominent vocal melody, accompanied by electric guitar, bass guitar, and drums. Many styles of rock music also use keyboard instruments such as organ, piano, and synthesizers. Other instruments sometimes utilized in rock include saxophone, harmonica, violin, and timpani. Also, less common stringed instruments such as mandolin and sitar are used. Rock music usually has a strong back beat, and often revolves around the guitar, either solid electric, hollow electric, or acoustic.

# CLASSICAL MUSIC

- **Classical music** is a very general term which normally refers to the standard music of countries in the Western world. It is music that has been composed by musicians who are trained in the art of writing music and written down in music notation so that other musicians can play it.

# RAP MUSIC

- **Rap music** – a style of popular music, developed by disc jockeys and urban blacks in the late 1970s, in which an insistent, recurring beat pattern provides the background and counterpoint for rapid, slangy, and often boastful rhyming patter glibly intoned by a vocalist or vocalists.

# MUSIC THERAPY

- Music therapy is used therapeutically in a number of settings, and is an evidence-based clinical practice. Music therapy in physical rehabilitation
- to facilitate physical movement
- to increase people's motivation
- to better engage with other forms of treatment
- music as emotional support for both clients and their families
- music to facilitate emotional expression
