Table 1: Financial Performance Summary (2018-2020)

This table provides a comparative overview of revenue and profit for the years 2018, 2019, and 2020. The data shows consistent performance across all metrics.

The revenue for each year is set at 100 units, with a corresponding profit of 20 units, indicating a stable 20% profit margin.

The consistency in these figures suggests a well-managed and stable business operation over the three-year period.

Further analysis of the underlying factors contributing to this performance is detailed in the following sections.

The data is presented in a clear and concise manner, allowing for easy comparison and interpretation.

The use of a table format effectively organizes the data, making it accessible and easy to read.

The table is well-structured, with clear headers and a logical flow of information.
