КАЧЕНЫ

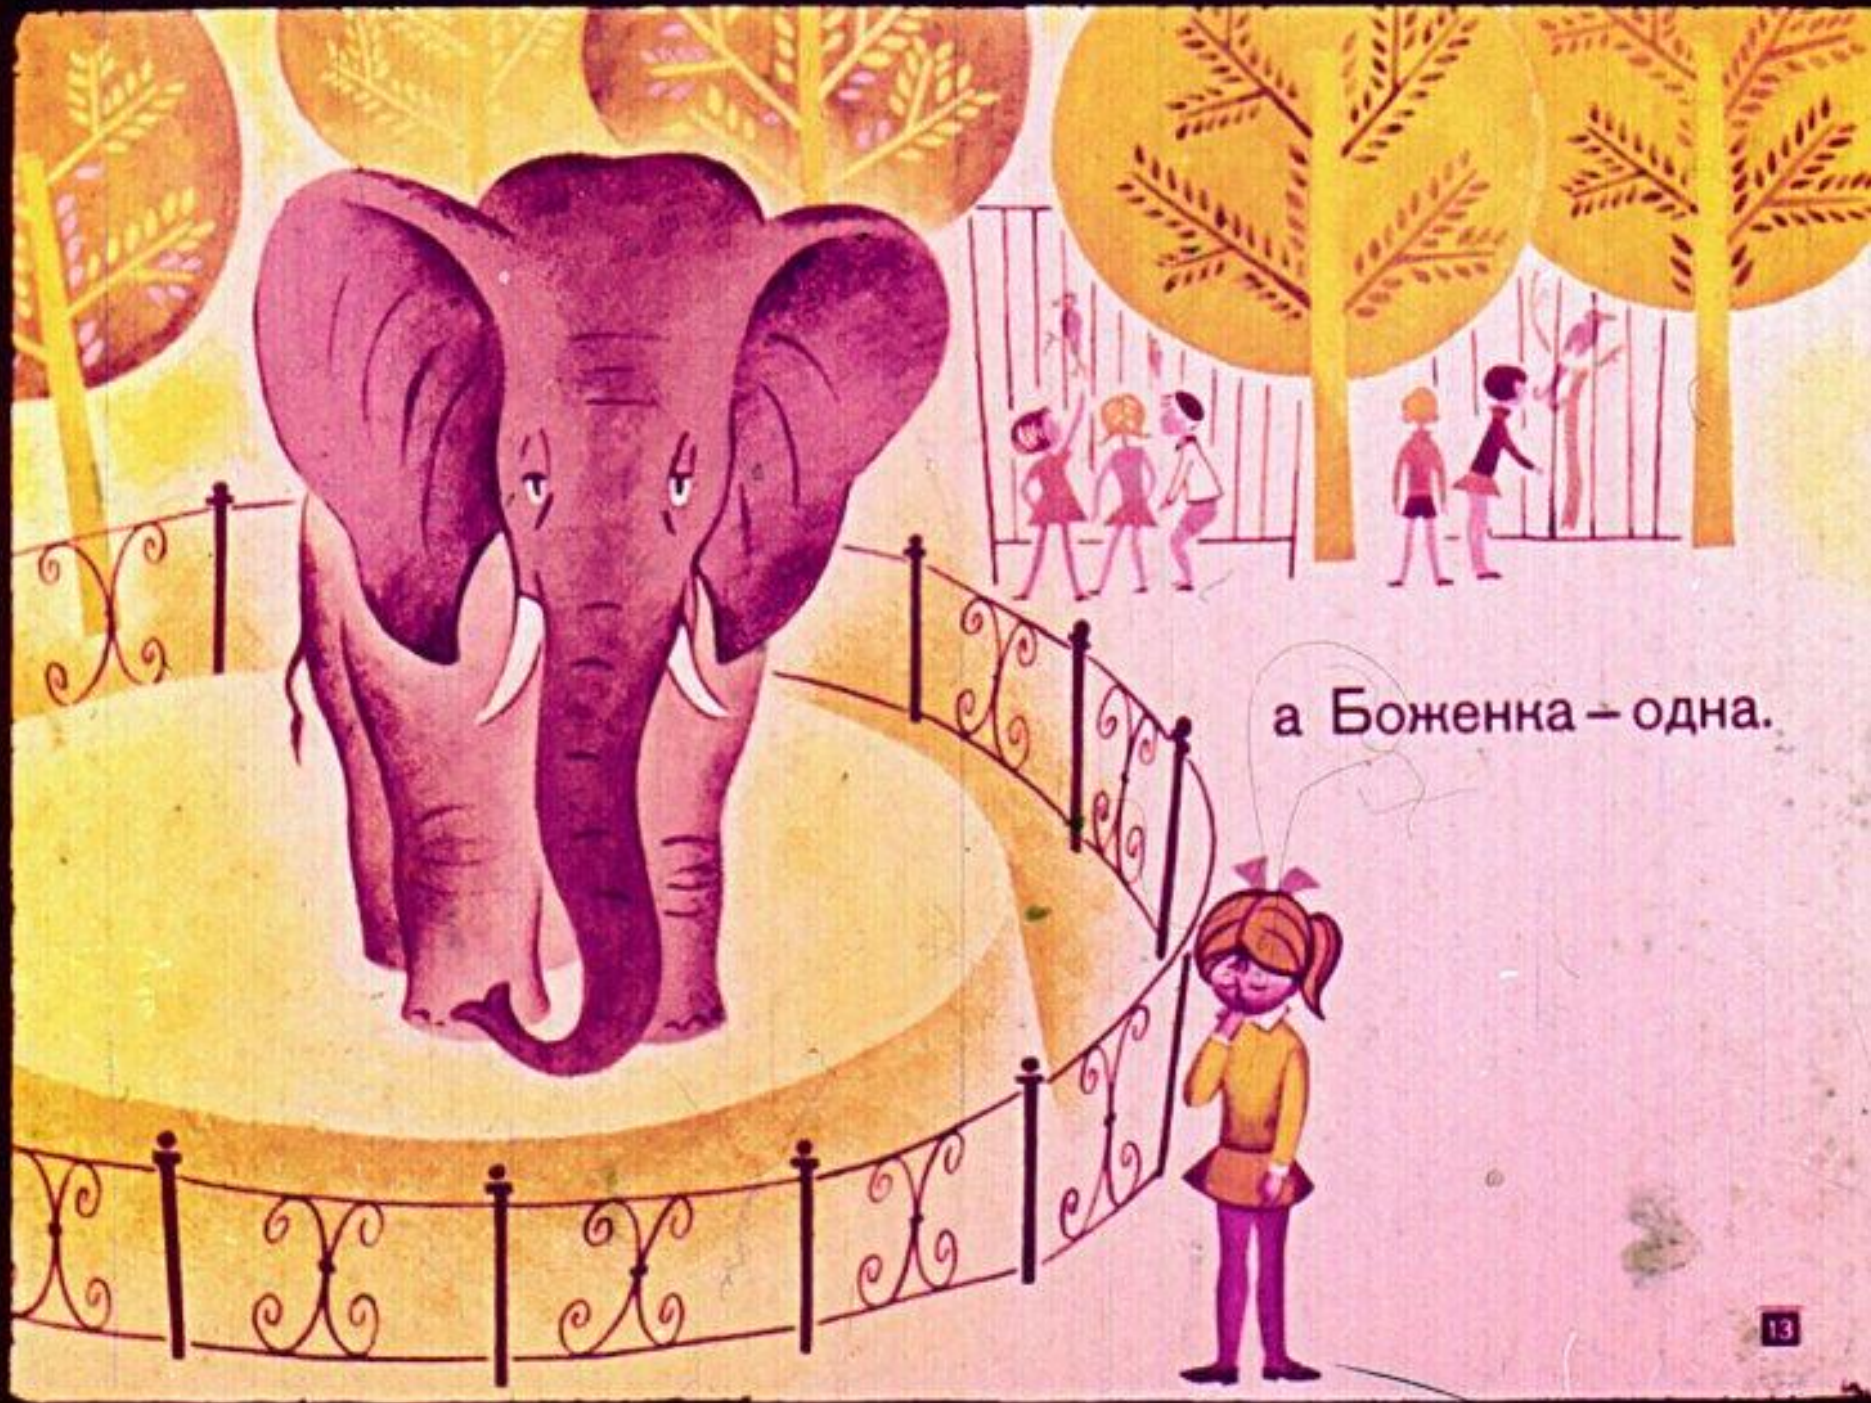

Боженке купили
на праздник
начели.

Начается, жадина, больше недели,
С утра и до вечера дни напролёт,
А нам покачаться она не даёт.

A colorful illustration of a zoo enclosure. A large, brown elephant with a white tusk is the central focus, standing behind a decorative metal fence. Several children of various ages and ethnicities are gathered around the fence, looking at the elephant. Some are pointing, while others are talking. The background features stylized trees with yellow foliage. The overall scene is bright and cheerful.

Зато в зоопарк
посмотреть
на слона
Я с другом ходил,

а Боженка – одна.
