КАЧЕНЫ

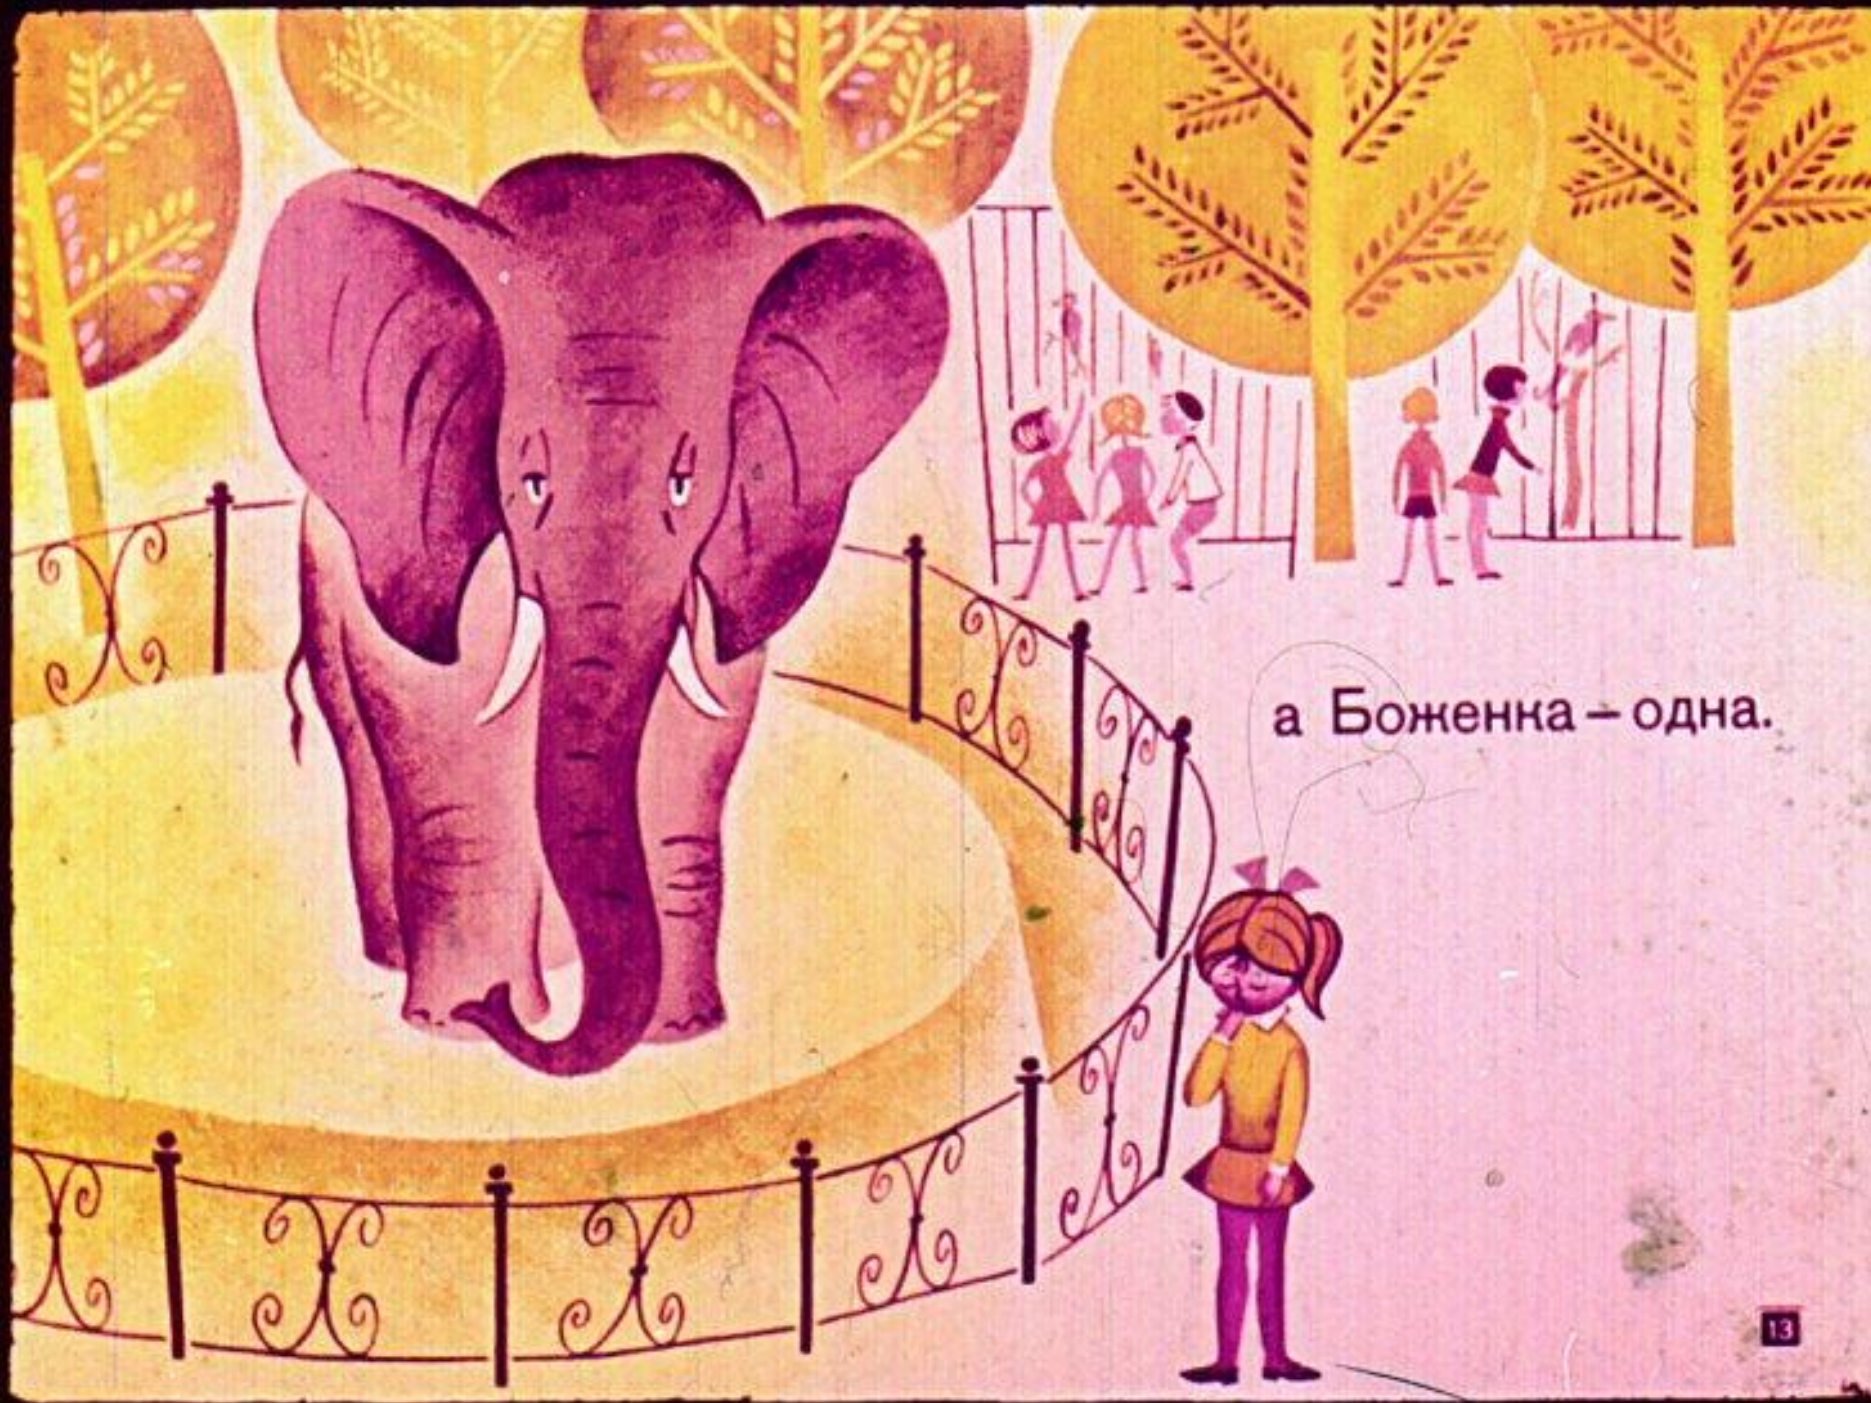

Божёнке купили  
на праздник  
начели.

Начается, жадина, больше недели,  
С утра и до вечера дни напролёт,  
А нам покачаться она не даёт.

A colorful illustration of a zoo enclosure. A large, brown elephant with a white tusk is the central focus, standing behind a decorative metal fence. To the right, a group of five children are looking at the elephant. In the foreground, another group of five children and an adult are also looking at the elephant. The background features stylized trees with yellow foliage. The text is written in Russian and is positioned to the right of the elephant.

Зато в зоопарк  
посмотреть  
на слона  
Я с другом ходил,

а Боженка – одна.
