

My Pets

Animals are our friends that will never
desert us

I have two dogs and one cat, aquarium with fish and two hamsters. Most of all I love dogs, but my mom loves cats

It`s my little hamsters. They are
very funny

As I said earlier, I'm responsible mainly for the dogs in the house. Every day I take them for a walk twice

I play a ball with them or throw an artificial bone to them. My dogs are very smart and know a lot of tricks

I like animals. I like to look after them, feed and just watch them. I believe that animals bring us happiness and positive emotions
