2017
ГОД ЭКОЛОГИИ
В РОССИИ

**The Earth is our
home.**

**But today we often hear
about dangerous
ecological problems.**

**We need more and more
natural resources, we
pollute the nature.**

Earth Alert!

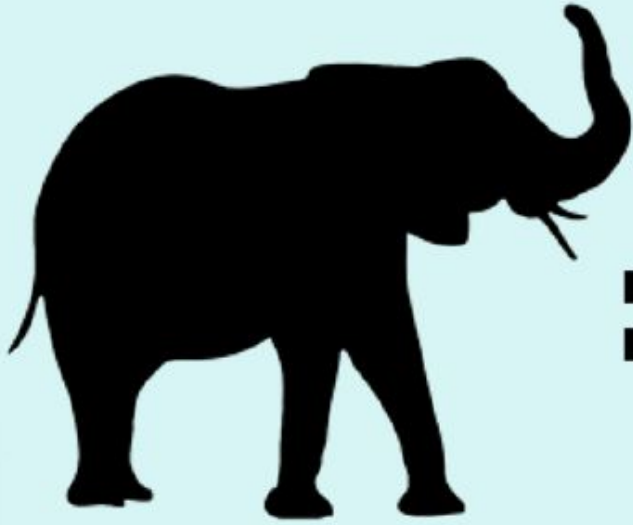

=

138

towns in Russia have air pollution defined as "very high" and "high"

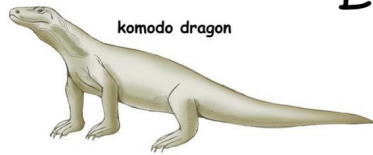

=

58%

the amount of wild animals has decreased on 58% since 1970

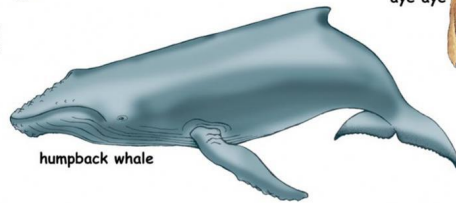

Endangered Animals

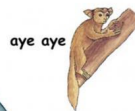

komodo dragon

Indian python

humpback whale

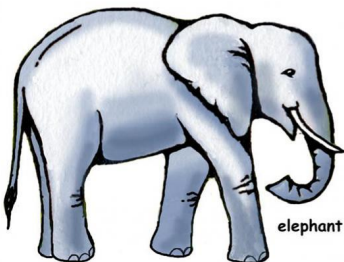

aye aye

gorilla

bison

elephant

gray wolf

snow leopard

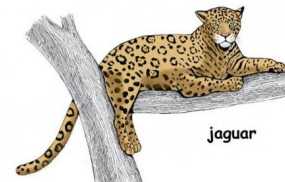

panda

desert tortoise

chinchilla

jaguar

=

one person produces

Environment friendly life means to take care about yourself and everything around you.

What is ecological habit?

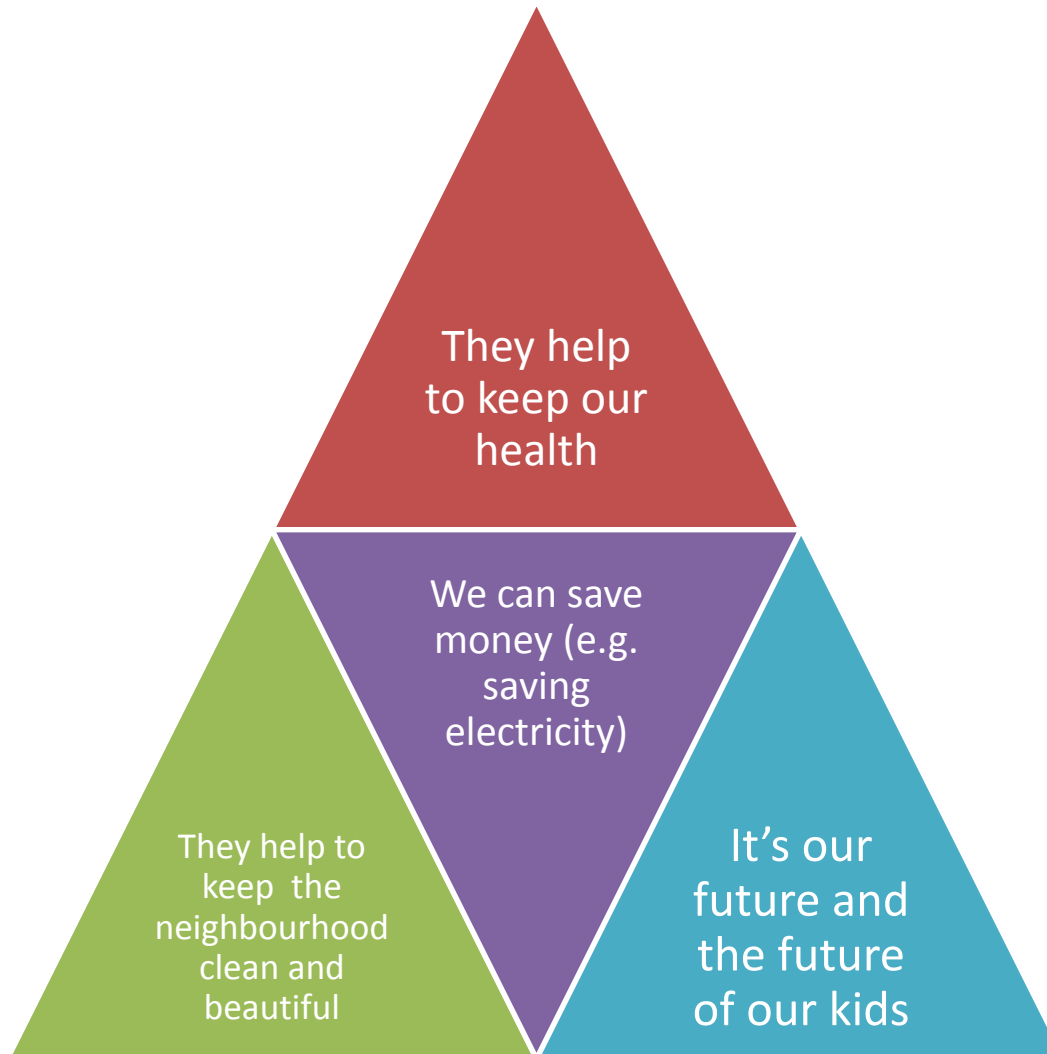

© Can Stock Photo - csp25679370

How many of you?

- Save water while cleaning the teeth
- Use bike instead of cars
- Feed stray cats and dogs
- Use eco friendly materials in building
- Plant flowers and trees

Why are eco habits so important?

**Change
habits.
Change the
earth.**
