**Презентация по английскому
языку
на тему
«My hobby»**

Работу выполнила
ученица 7 класса
Милашкина Елена
Учитель : Жила Л.И.

My name is Milashkina Elena. I am from Russia from Safonovo. I am in the 7 th form.

Everyone has a hobby, a favorite pastime. One of my favorite things is sport. I believe that sport plays an important role in a human life. As for me I like to ski. I go to practice every day.

I take part in many competitions: local, regional .To keep fit I go to the gym every day.

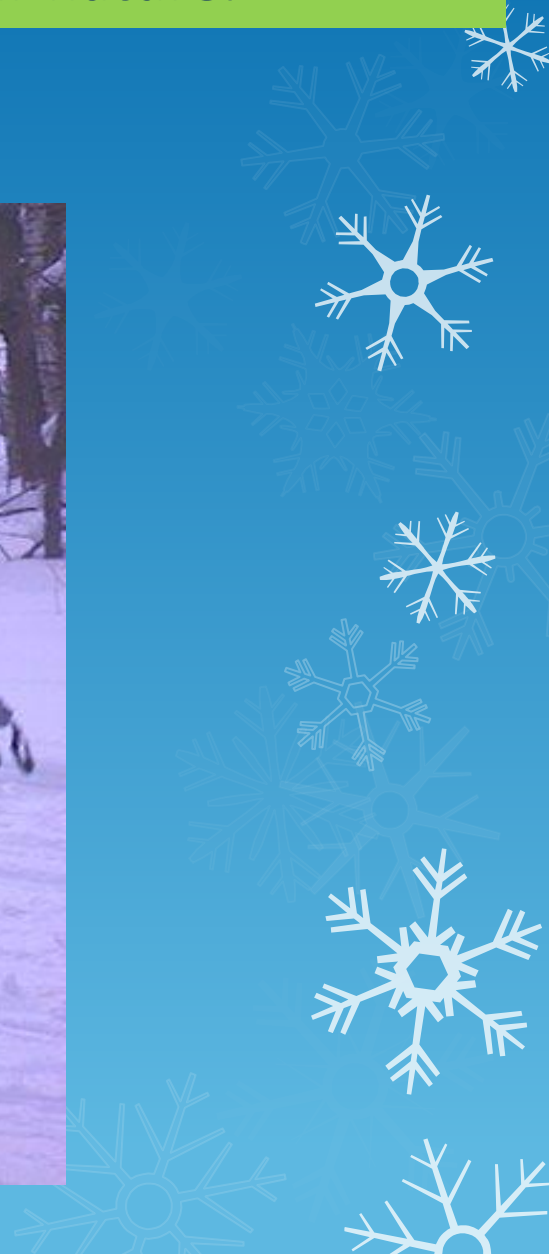

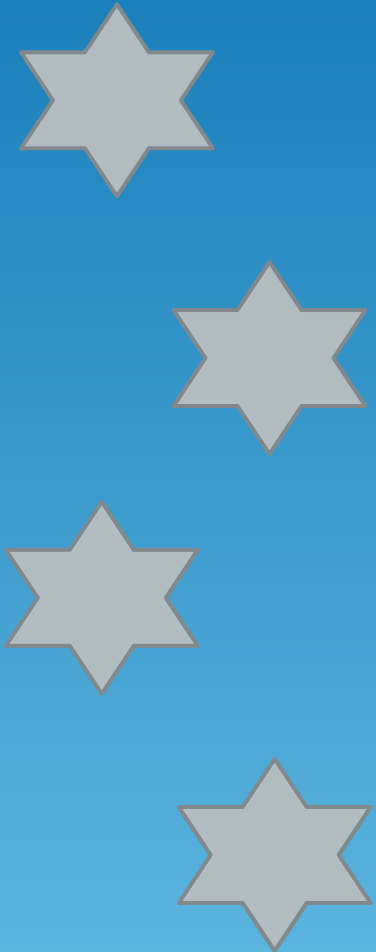

Everyone should do everything possible to stay healthy, and have to choose a sport that interests him. I do not understand people who say that they like sport, and see it only on TV.

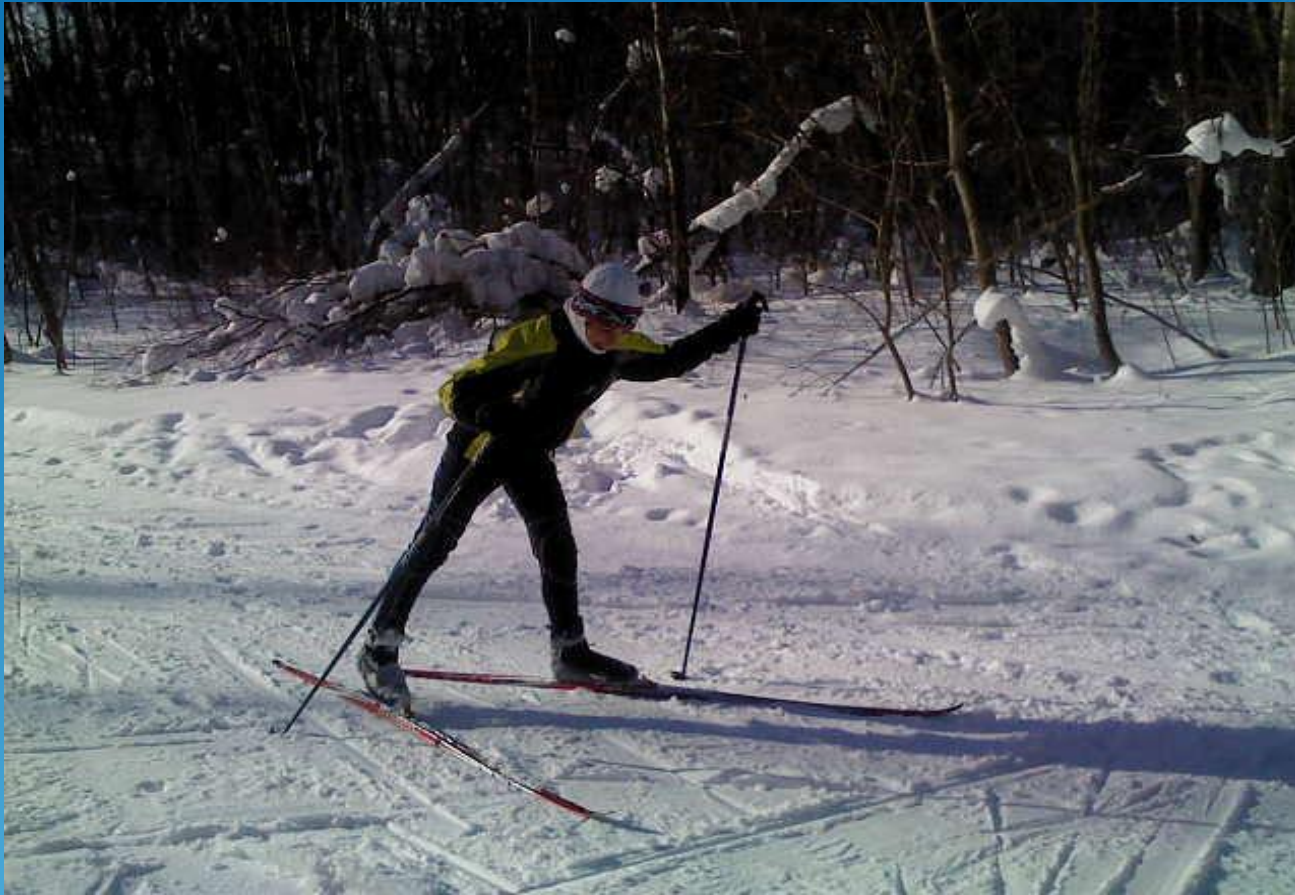

Doing sports I have made many real friends.

In winter we spend much time training in the open air. So I can enjoy the fresh air and the beauty of our nature.

Climbing the steep I have to put a lot of efforts. But I am happy.

**I have already won many trophies and medals.
But my dream is to go to the Olympic games.**

If you go in for sports, you feel much better, look much better, sleep better. But the most important that you do not get sick often.

My favorite proverb says: "In a healthy body there is a healthy mind".

I think sport is not for the weak, because you need to learn to play, but it is not always easy.

I am a winner! It is
a pleasant moment
of victory.

In summer we like to go to the sea.

"Thank you"
