

The background is a vibrant space scene. In the foreground, the Earth's horizon curves across the bottom half, showing green continents and white clouds. To the left, a large, detailed view of the Moon's surface is visible. In the center-left, the planet Jupiter is shown with its characteristic red and white bands. To the right, Saturn is depicted with its prominent rings. The sky is a deep blue, filled with numerous small, bright stars and a few larger, glowing celestial bodies.

Участок детского сада в стиле « Космос» Гр. « Почемучки»

Если очень постараться,
Если очень захотеть,
Можно на небо подняться
И до Солнца долететь,
И всерьез, не понарошку,
Познакомиться с Луной.
Погулять по ней немножко
И вернуться вновь домой.

Выход в космос

Рисунки детей

A vibrant, stylized illustration of a galaxy. The background is a dark blue space filled with numerous small, bright blue stars. Scattered throughout are various planets and celestial bodies in different colors and sizes. Some planets are red, some are orange, some are green, and some are blue. Two planets have prominent rings, one in the top left and one in the middle right. The overall style is reminiscent of a children's book or a colorful poster.
