History of Australia

The early settlers who came to Australia were the aborigines 40 000 years ago.

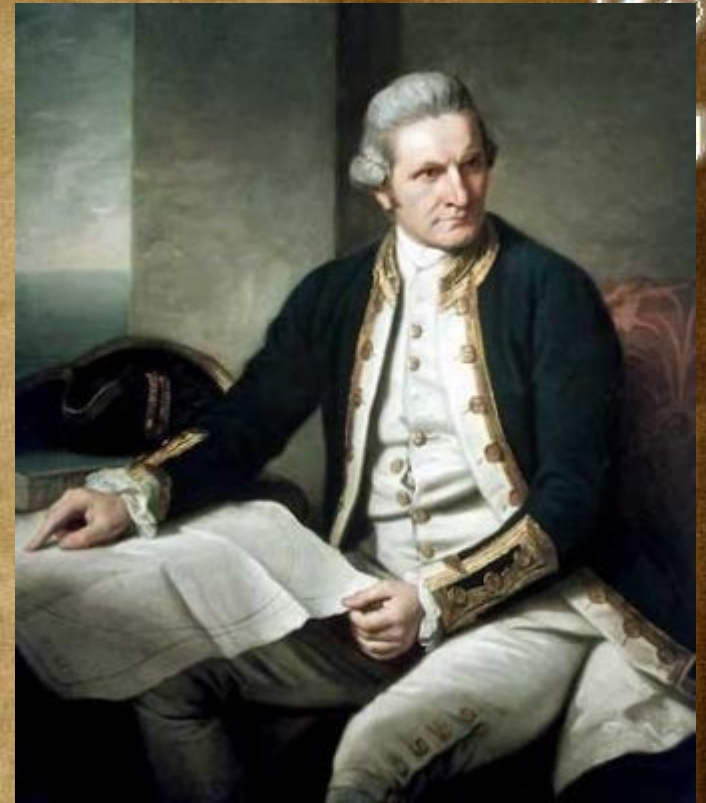

But the Europeans knew about this world only 17th century.

The east coast of Australia was discovered by Captain Cook in 1770.

In 18-19th centuries Australia was the Brittan's colony.

PS

Territory of Australia

Australia consists of 6 states, 2 internal territories and 7 external territories.

Climate of Australia

Summer runs from November through to March while winter is from May to August.

In the centre of Western Australia and Queensland have hot summers and mild winters but Victoria and Tasmania can experience chilly winters.

СВОИ ЛОДИ
ЗАГРИБОРНИЦА

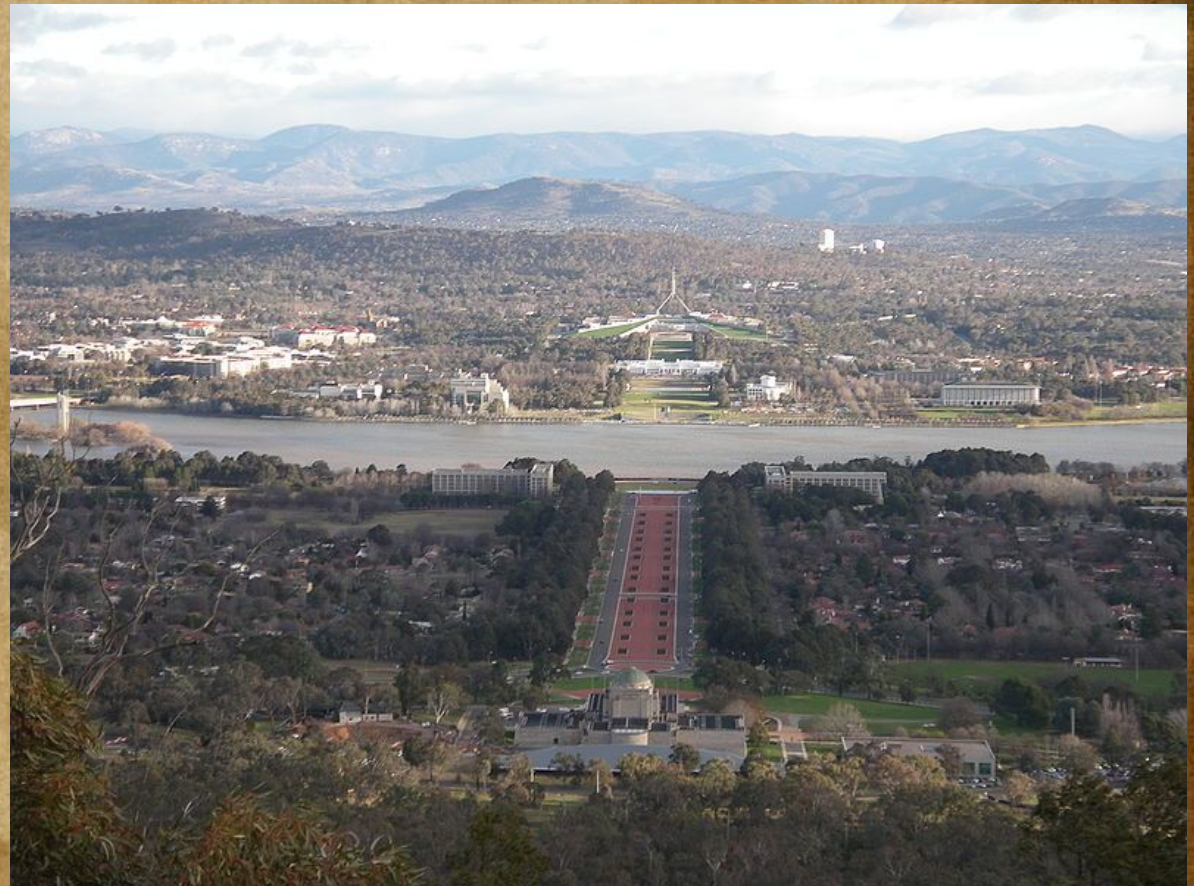

The dry interior is hot year-round during the day but come nightfall it can become very cold. In the north, as the country enters the tropics.

Canberra

Canberra is the capital city of Australia. With a population of over 345,000.

It is Australia's largest inland city and the eighth largest Australian city overall. The city is located at the northern end of the Australian Capital Territory.

As the seat of the government of Australia, Canberra is the site of **Parliament House**, the **High Court of Australia** and numerous government departments and agencies.

It is also the location of many social and cultural institutions of national significance, such as the **Australian War Memorial**, **National Gallery of Australia**, **National Museum of Australia** and the **National Library of Australia**.

Sydney

It is the largest city in Australia and Oceania, and the state capital of New South Wales. Sydney has a metropolitan area population of approximately 4.5 million and an area of approximately 12,000 square kilometres .

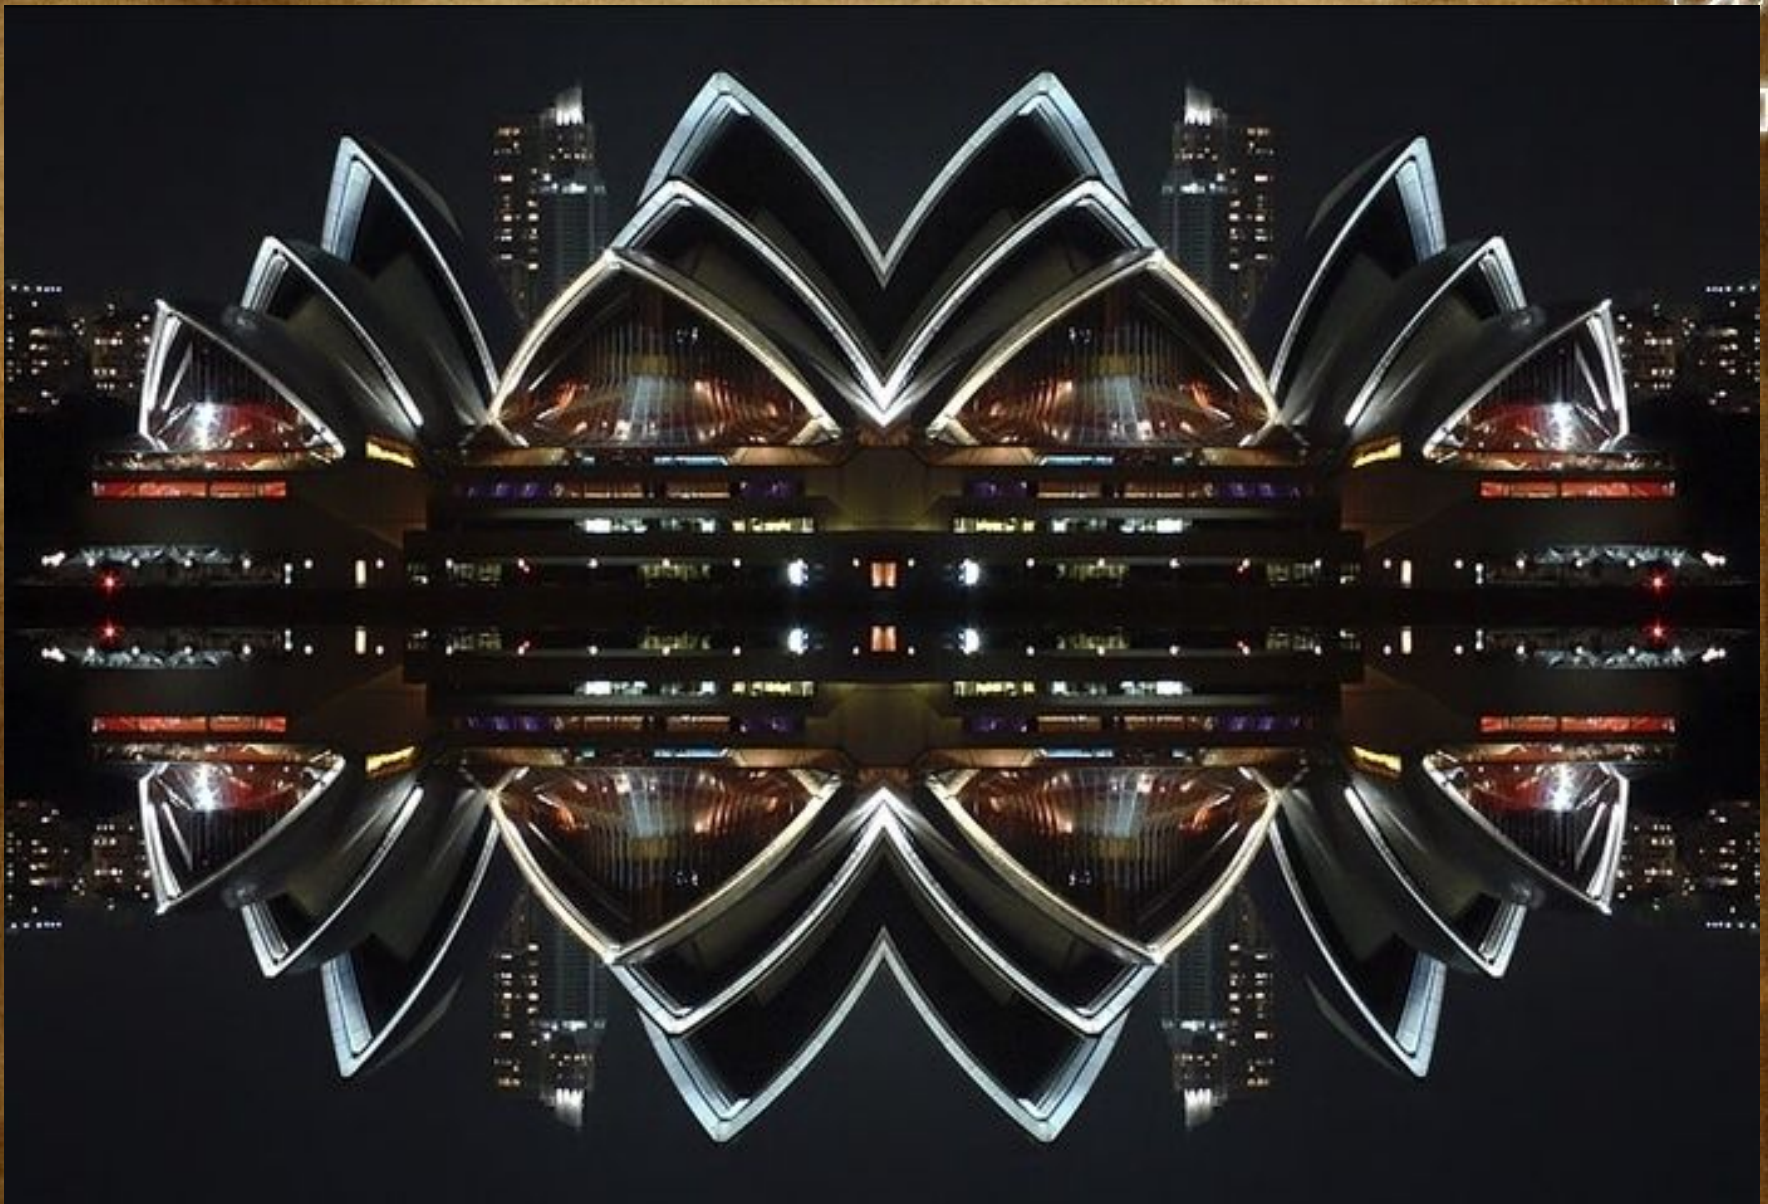

Sydney was established in 1788 at Sydney Cove by Arthur Phillip. The city is built on hills surrounding Sydney Harbour – an inlet of the Tasman Sea on Australia's south-east coast.

It is home to the iconic **Sydney Opera House**, the **Harbour Bridge** and **its beaches**. The metropolitan area is surrounded by national parks, and contains many bays, rivers and inlets.

Historical Places

Ayers Rock

PS

Ayers Rock is a large sandstone rock formation in the southern part of the Northern Territory, central Australia.

Great Barrier Reef

PS

The Great Barrier Reef of the northeast coast, the largest coral reef in the world, is threatened by increased shipping and its popularity as a tourist site.

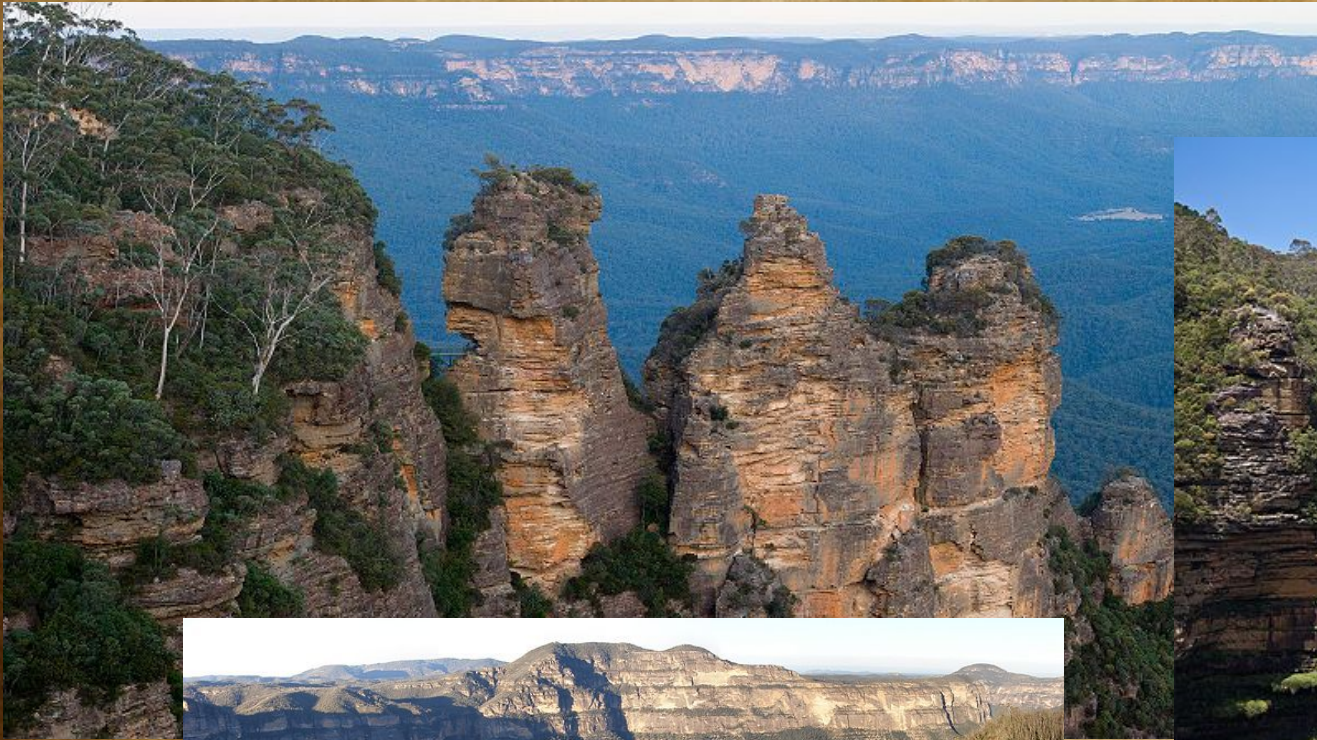

It holds numerous species of fish, marine mammals, as well as aquatic plants and corals.

PS

Animals of Australia

PS

Australia has been called “the land of differences” and “the continent of contrasts”.

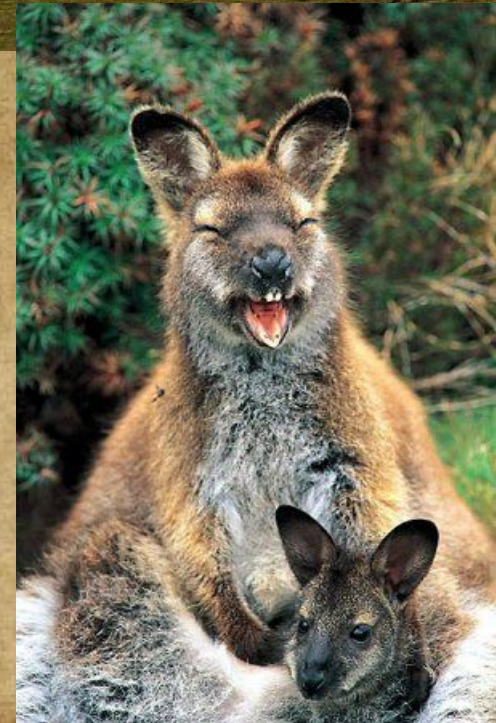

There are many the strange native animals in this country.

Kangaroos

PS

Kangaroos hop around and have pouches for their babies called joeys. An adult male kangaroo is called a boomer. An adult female is called a flyer.

Koala

PS

Koalas are bear like animals that keep their baby in a little pouch.

Plus they are not a part of the bear family.
Plus they are a marsupial.

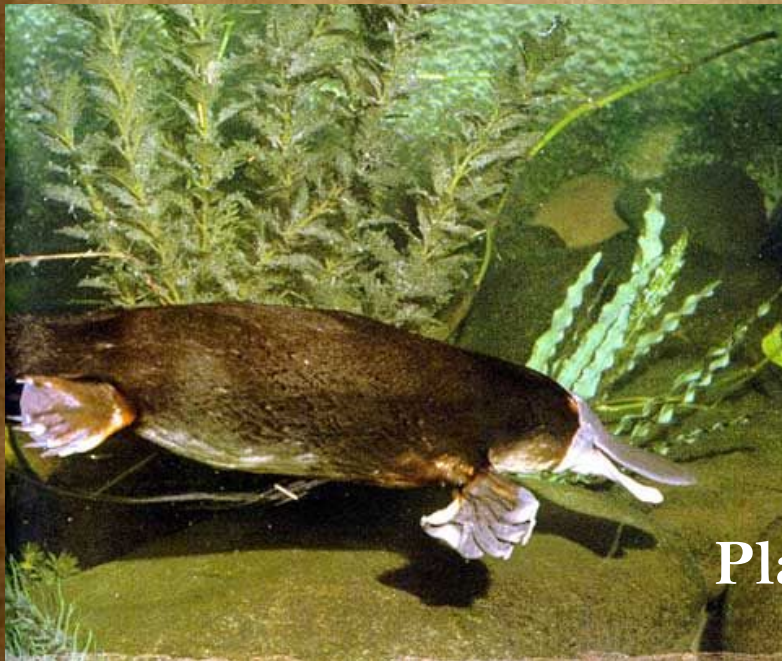

Tasmanian Devil

PS

Dingo

Platypus

Mount Kosciuszko on the Great Dividing Range is the highest mountain on the Australian mainland, although Mawson Peak on the remote Australian territory of Heard Island is taller at 2,745 meters.
