

# Рождественская звезда

Авторская разработка:  
Больных Г.В.  
педагог дополнительного образования  
МБУ ДО ДТ  
2021 год

# Рождество Христово

# Вифлеемская звезда

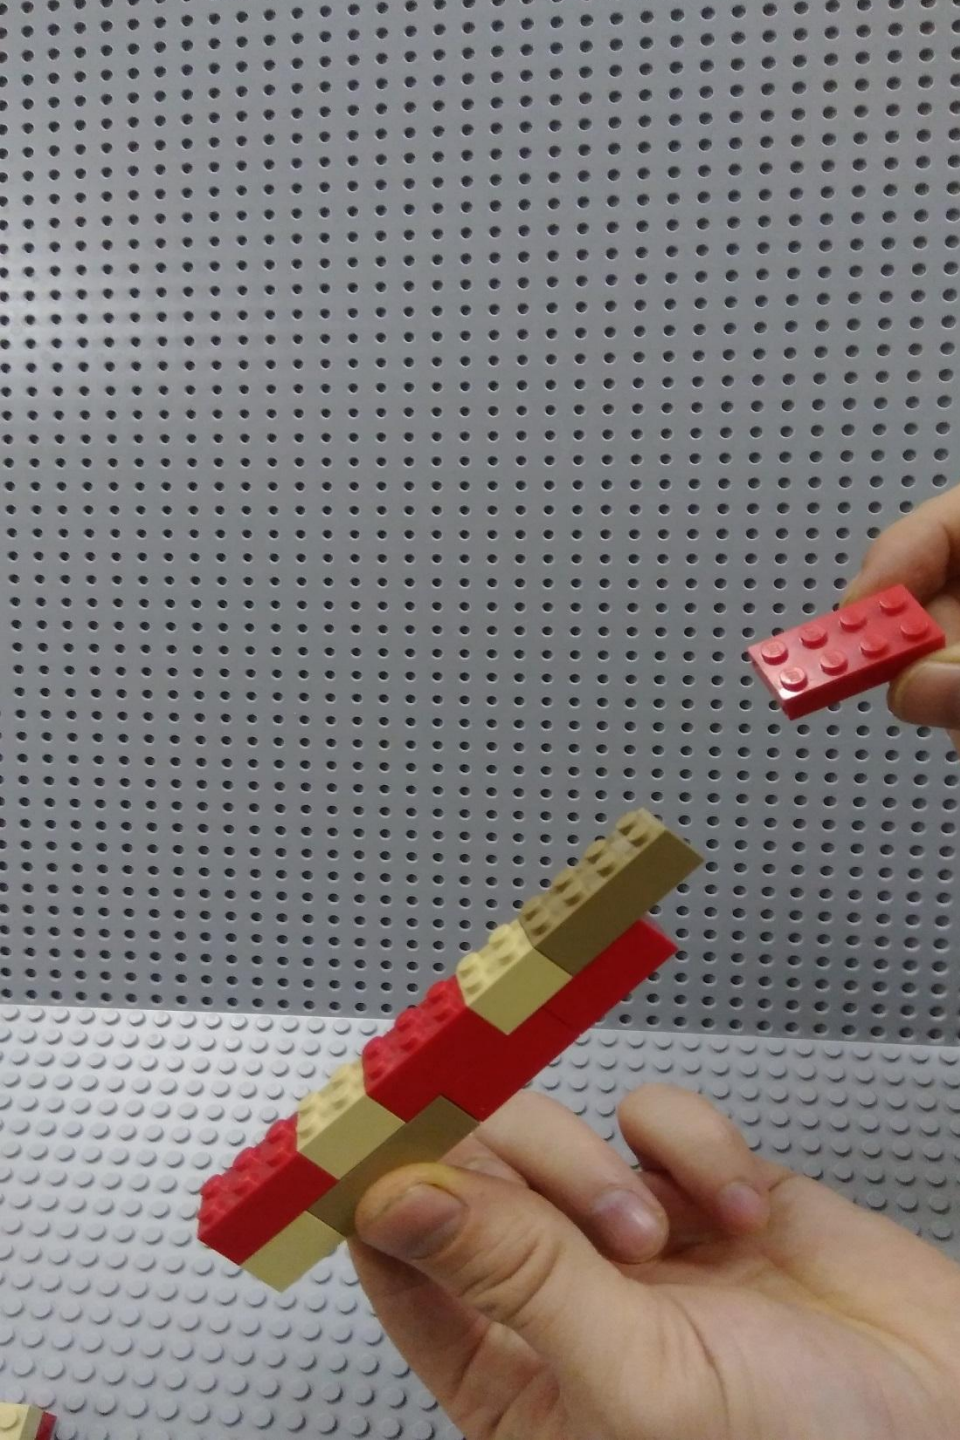

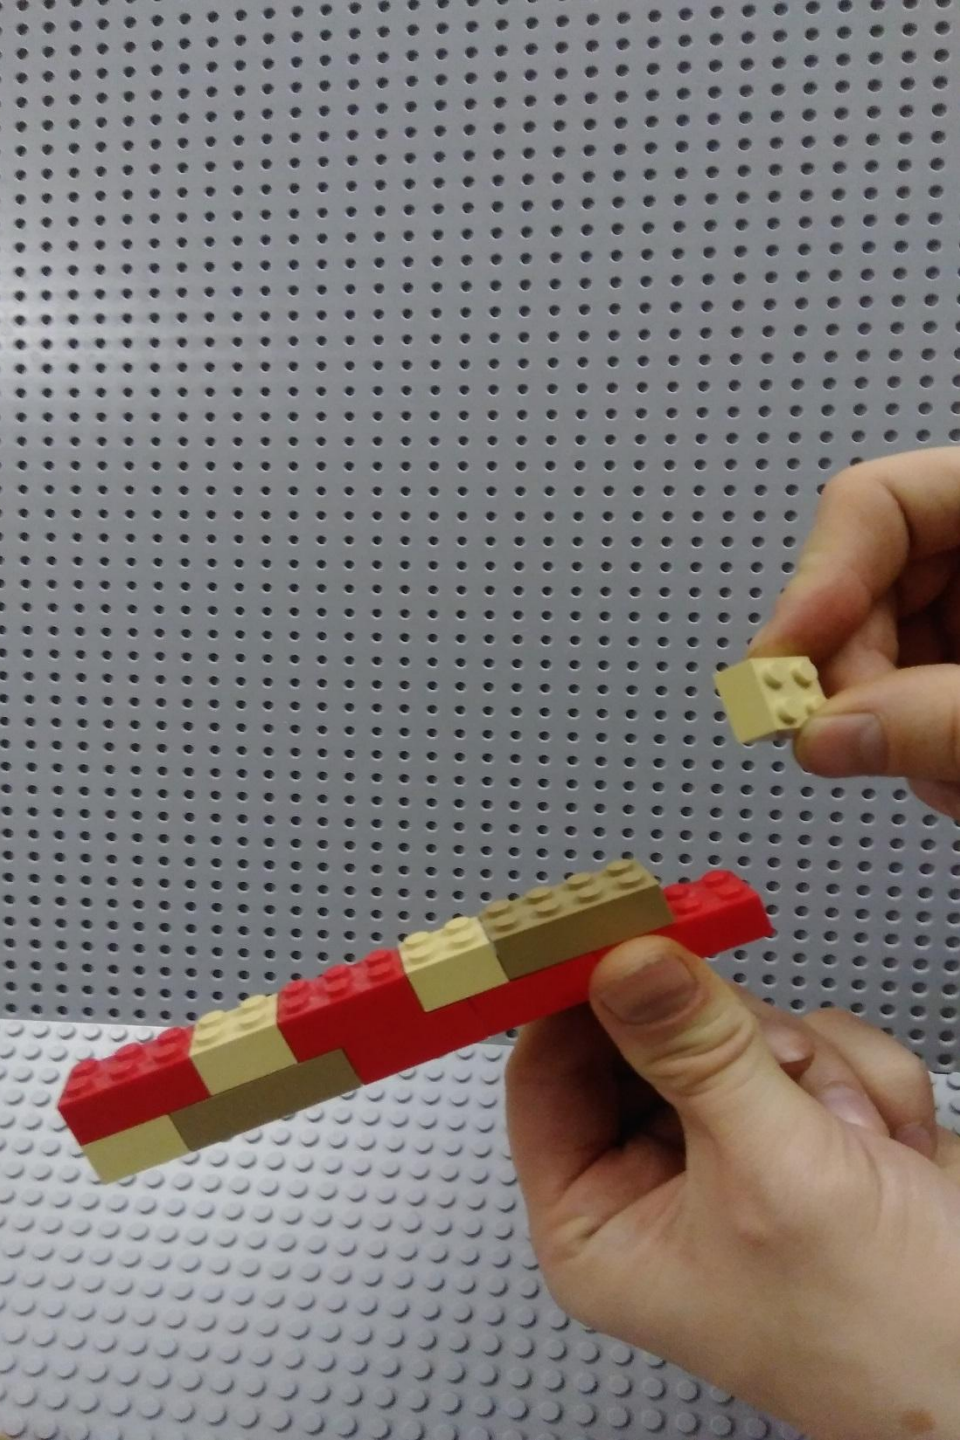

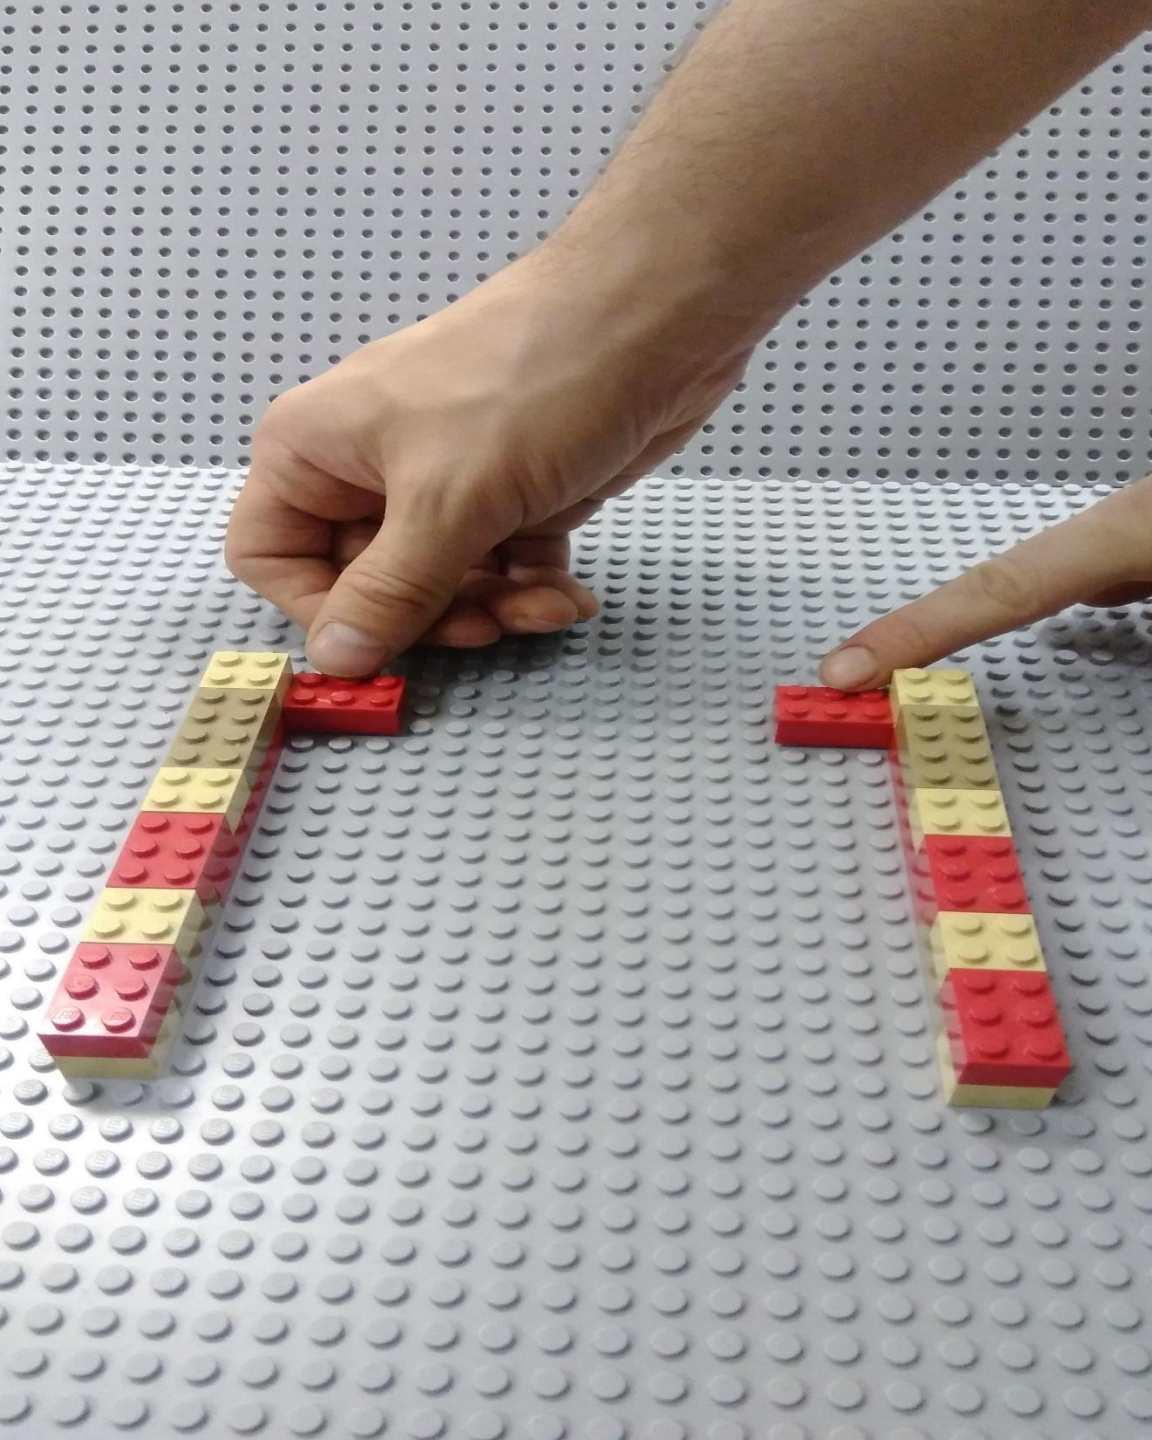

Нужно  
сделать две

штуки

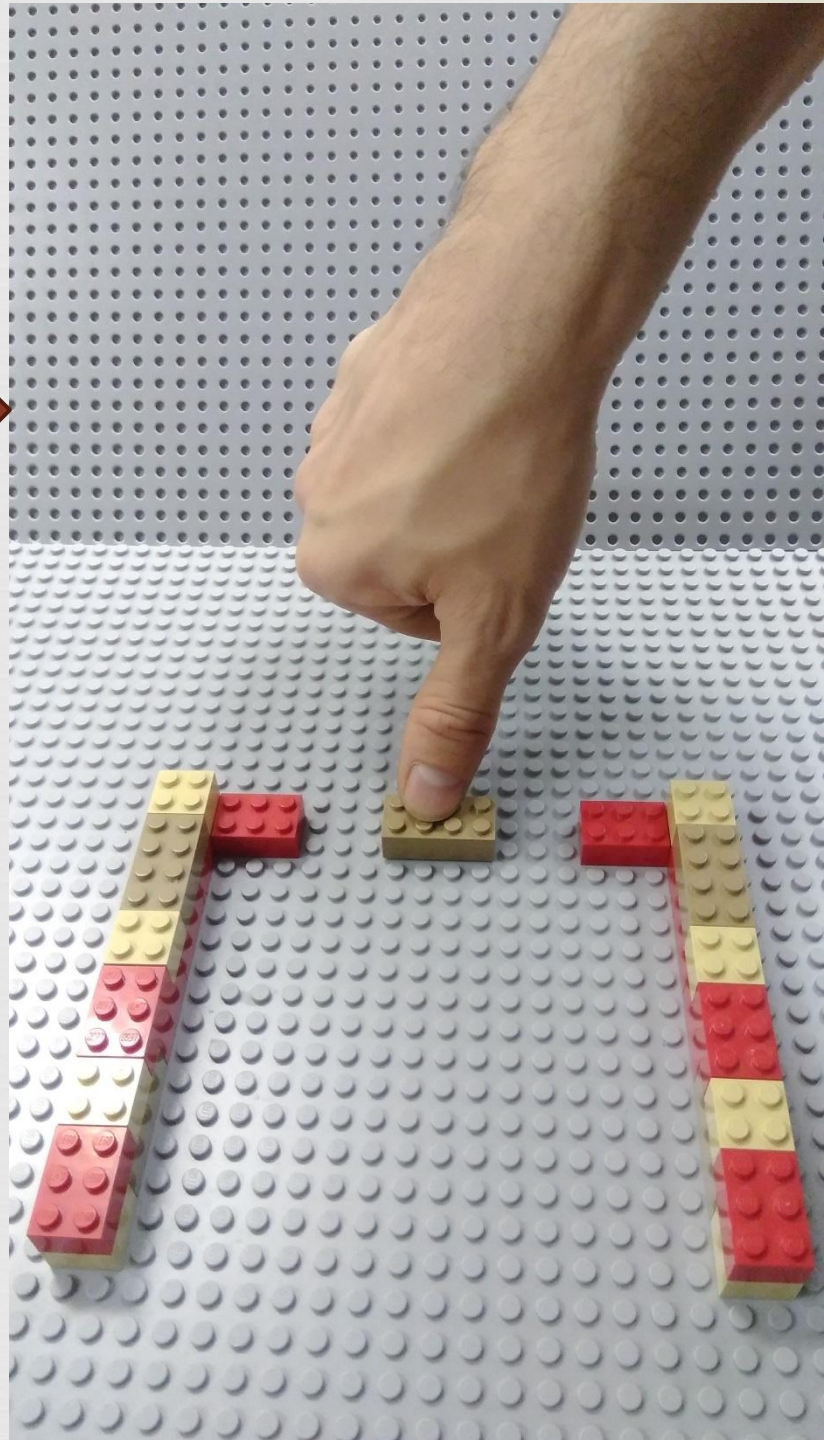

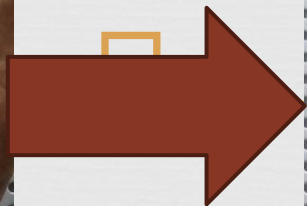

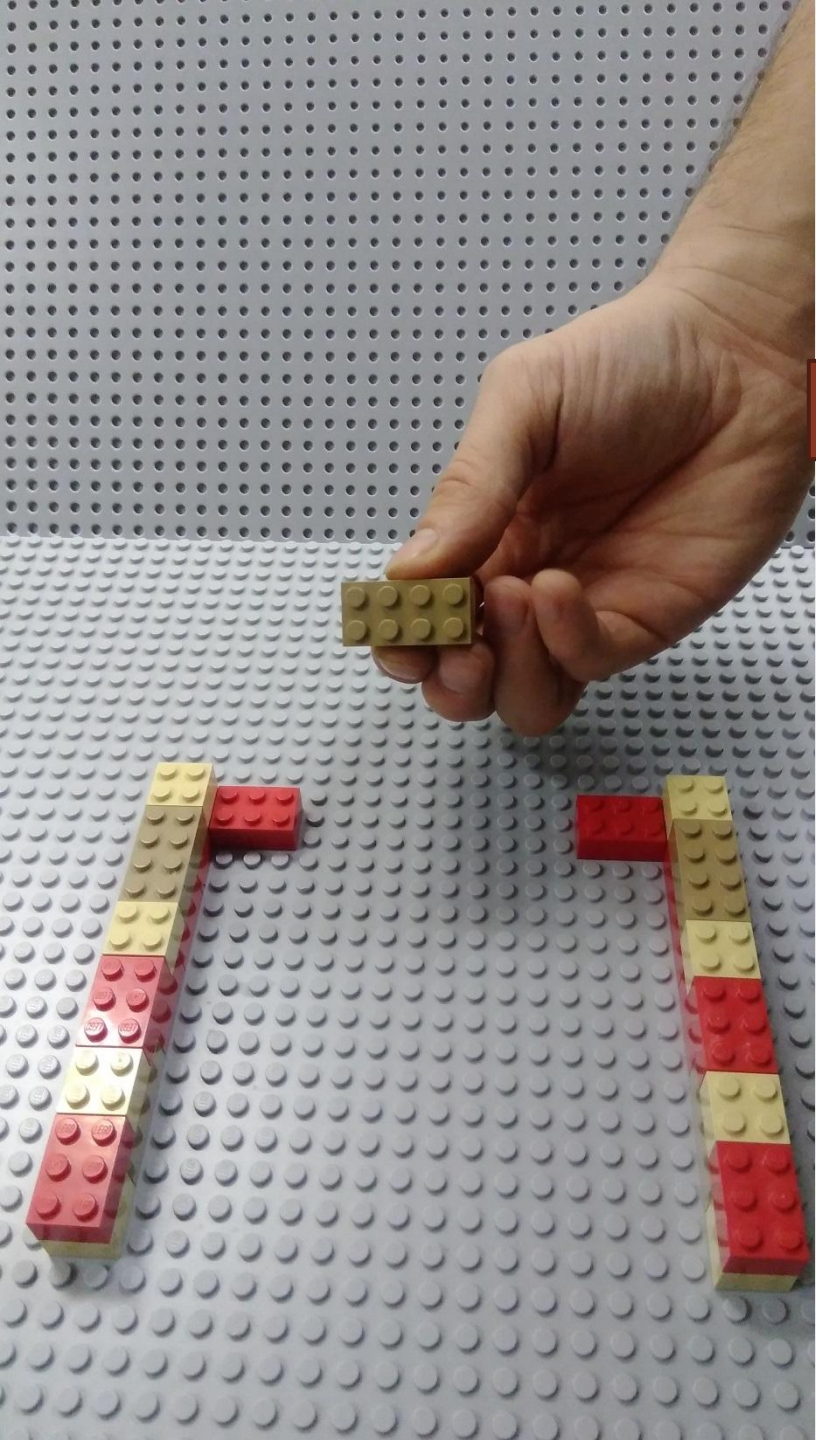

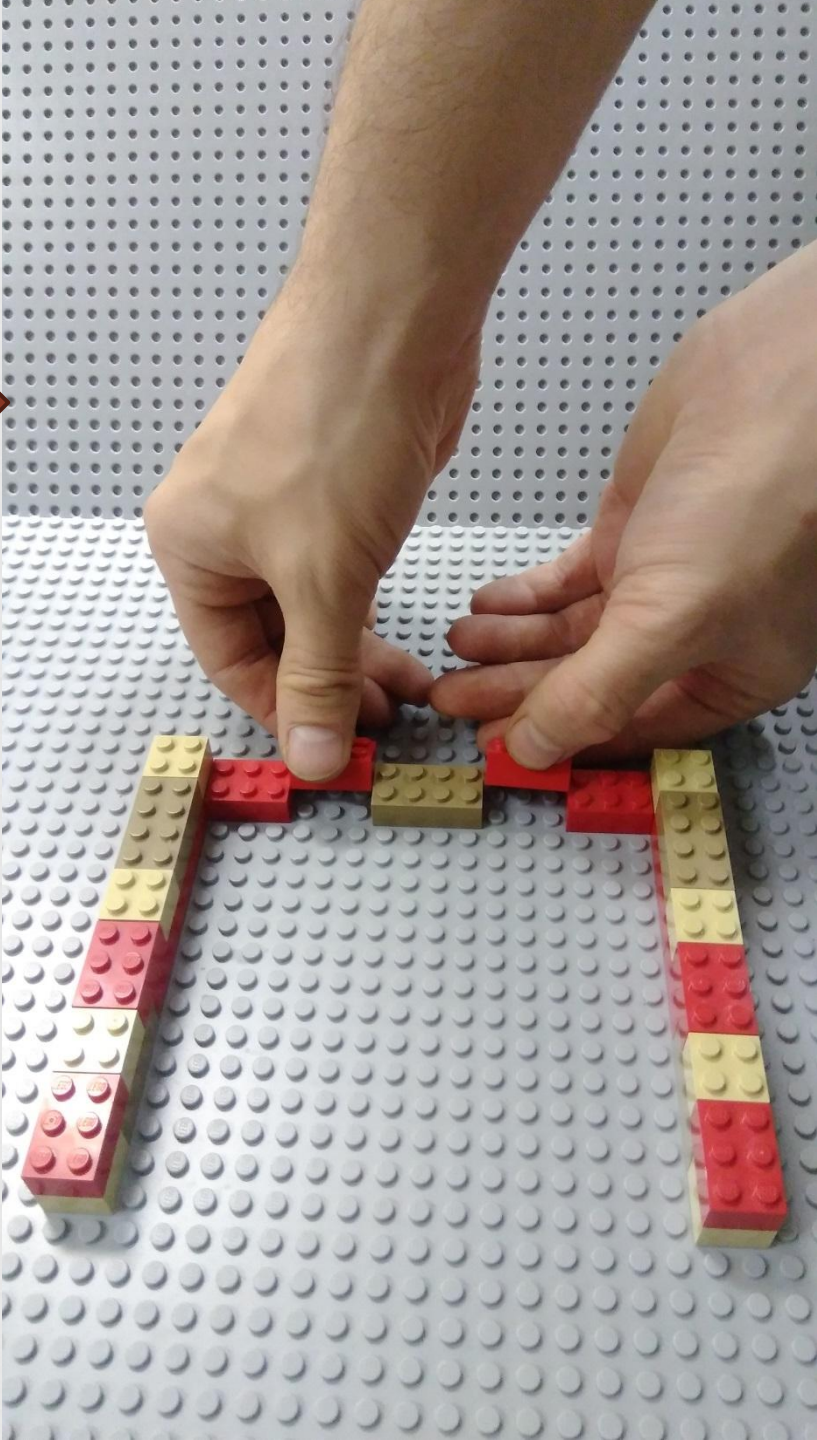

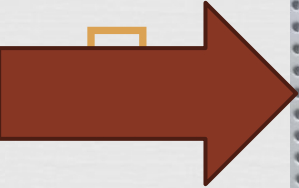

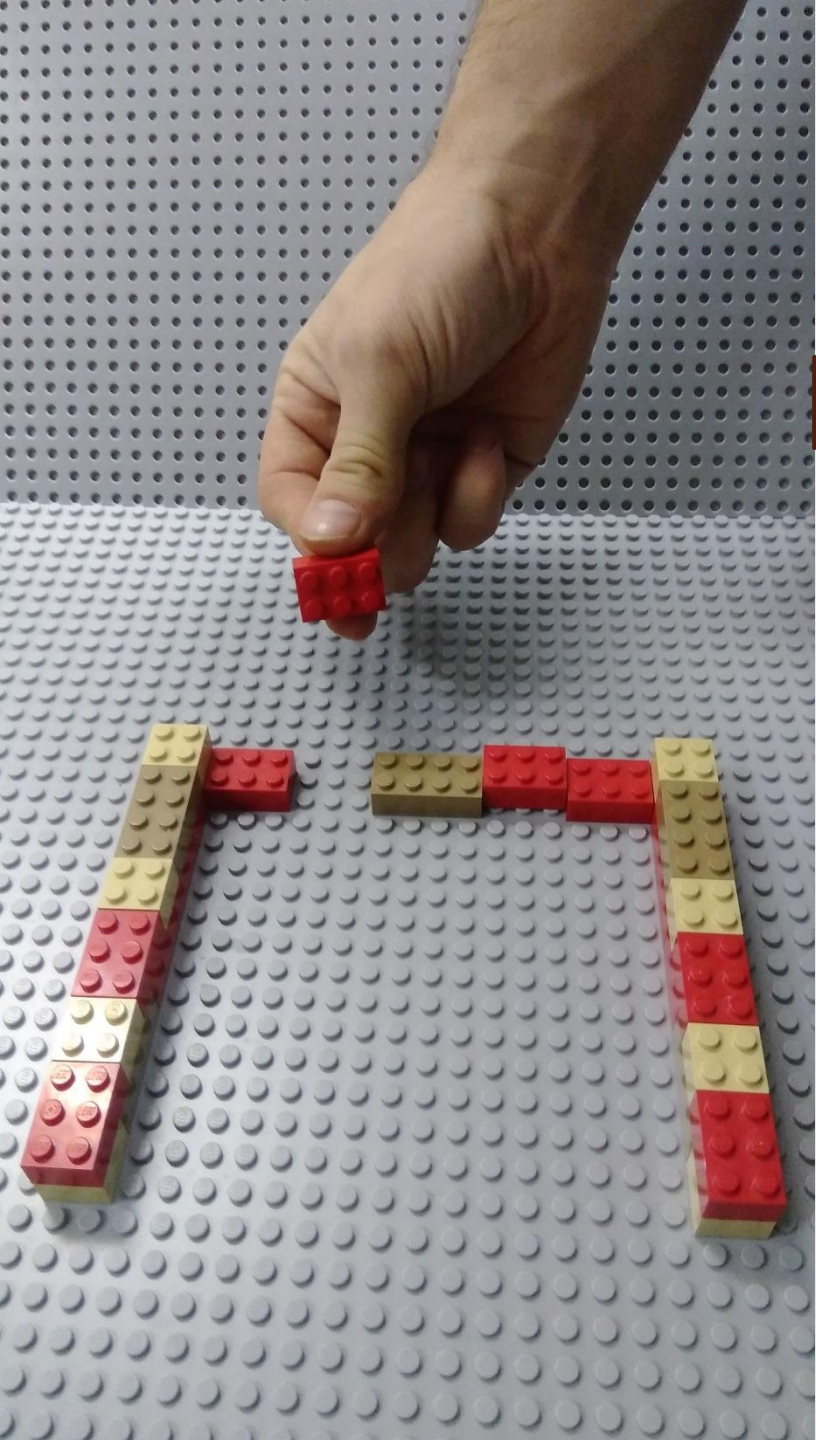

16 точек  
между  
стенами

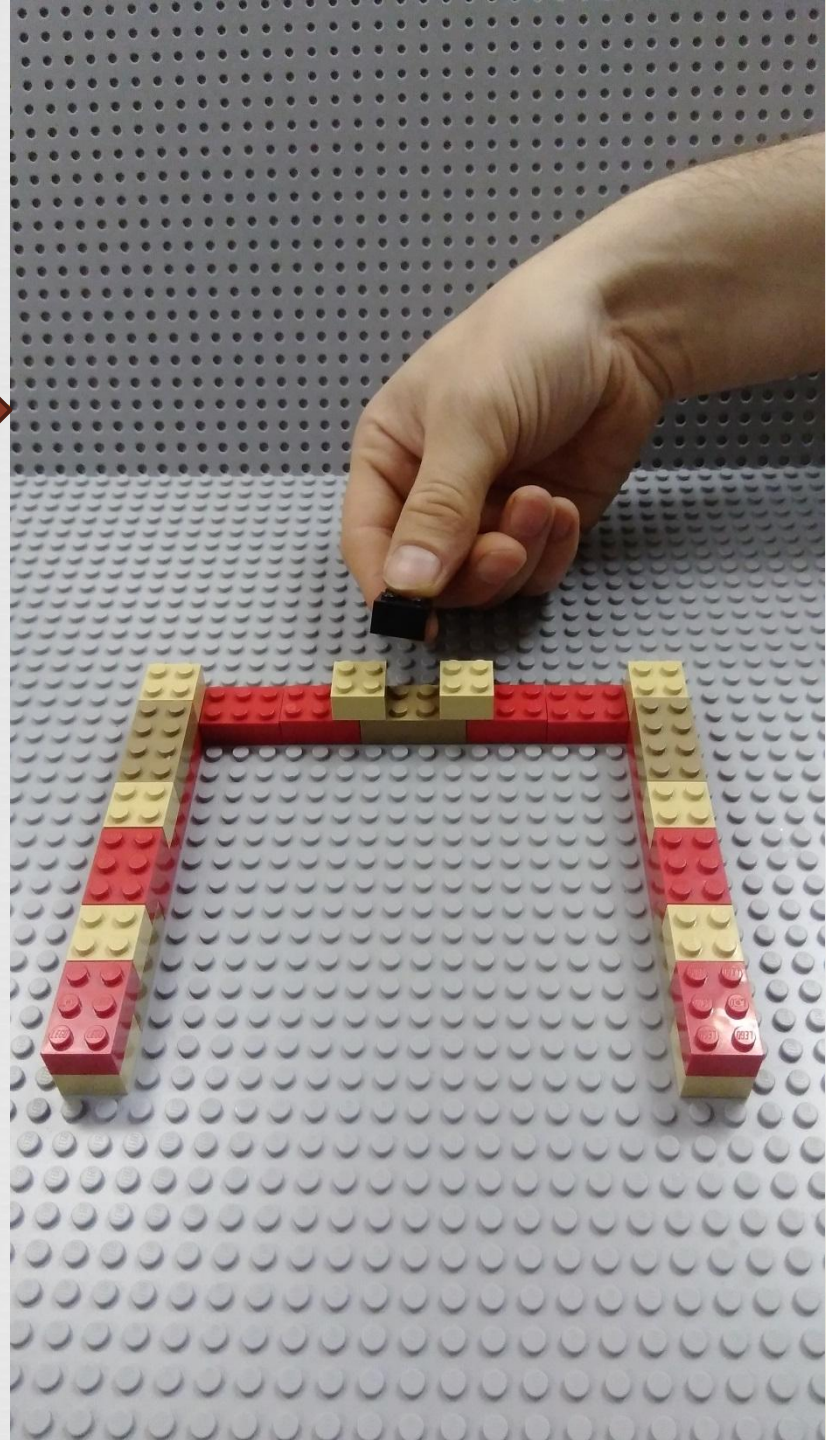

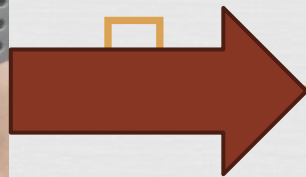

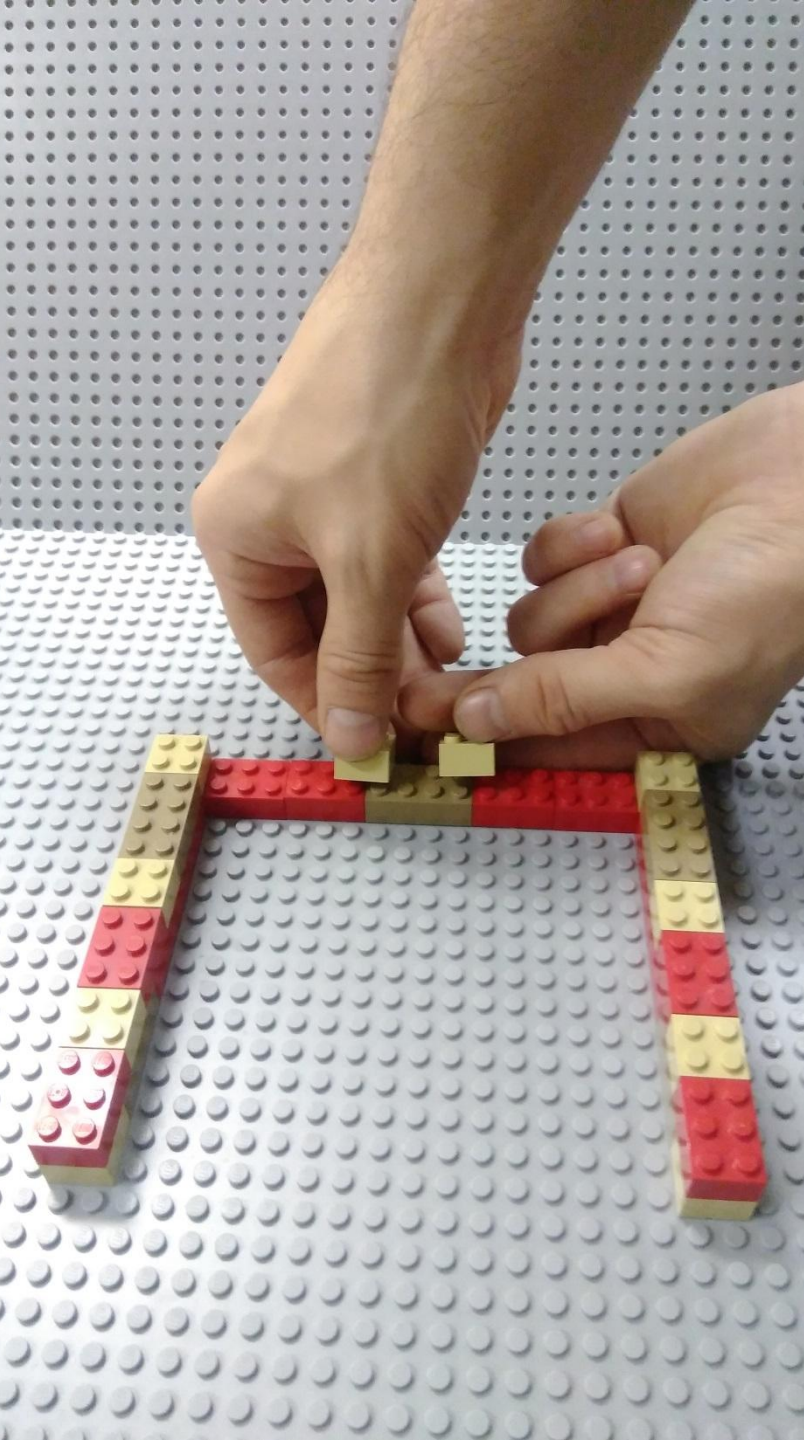

---

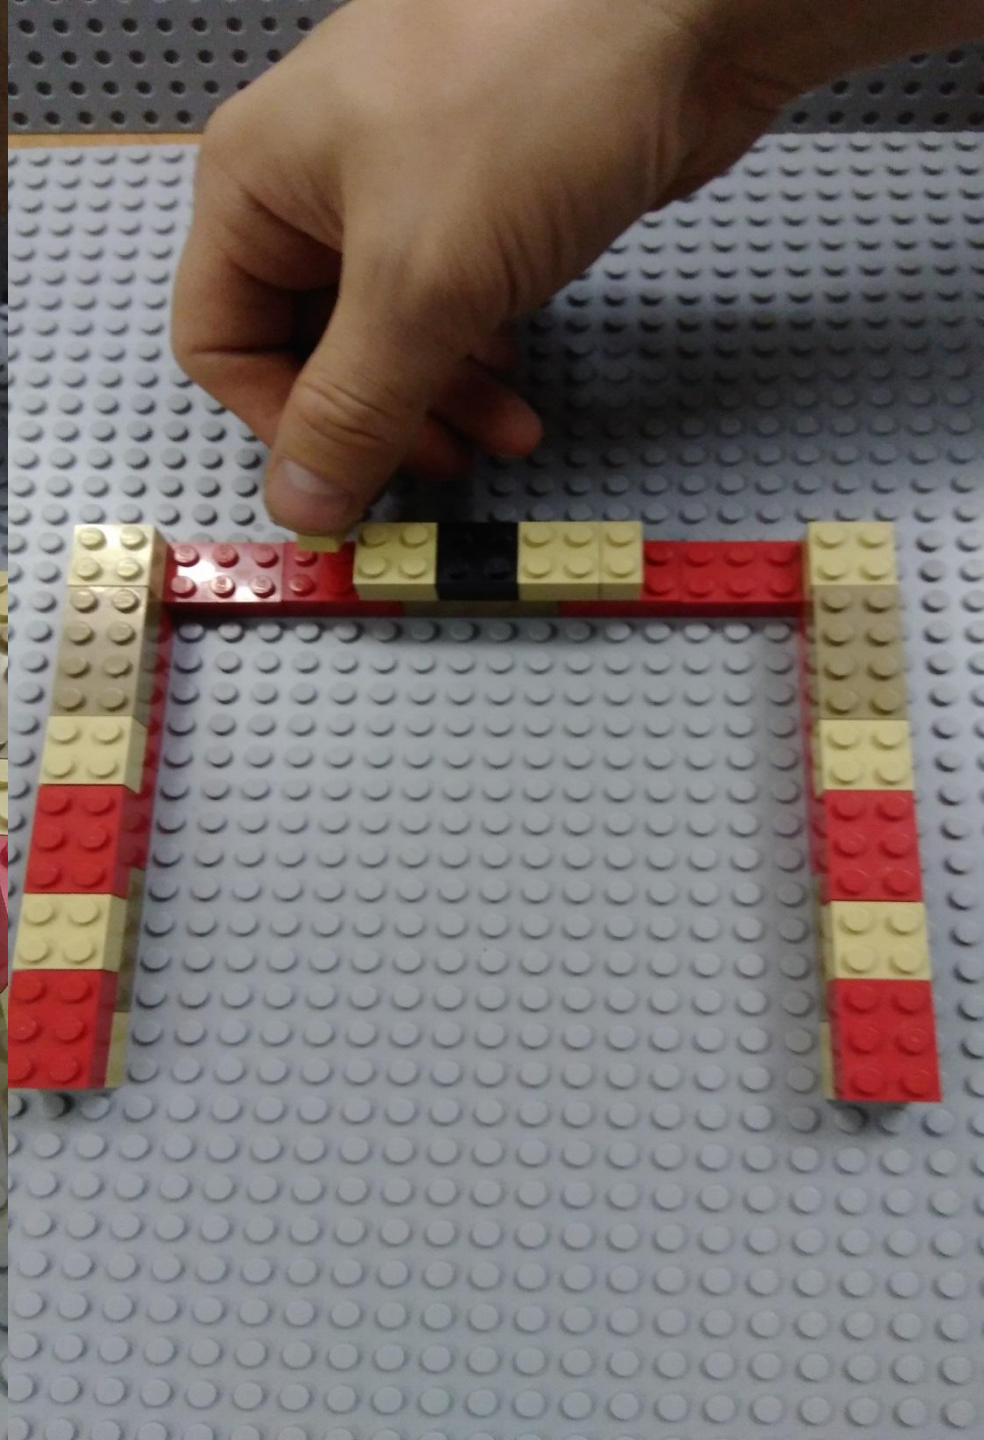

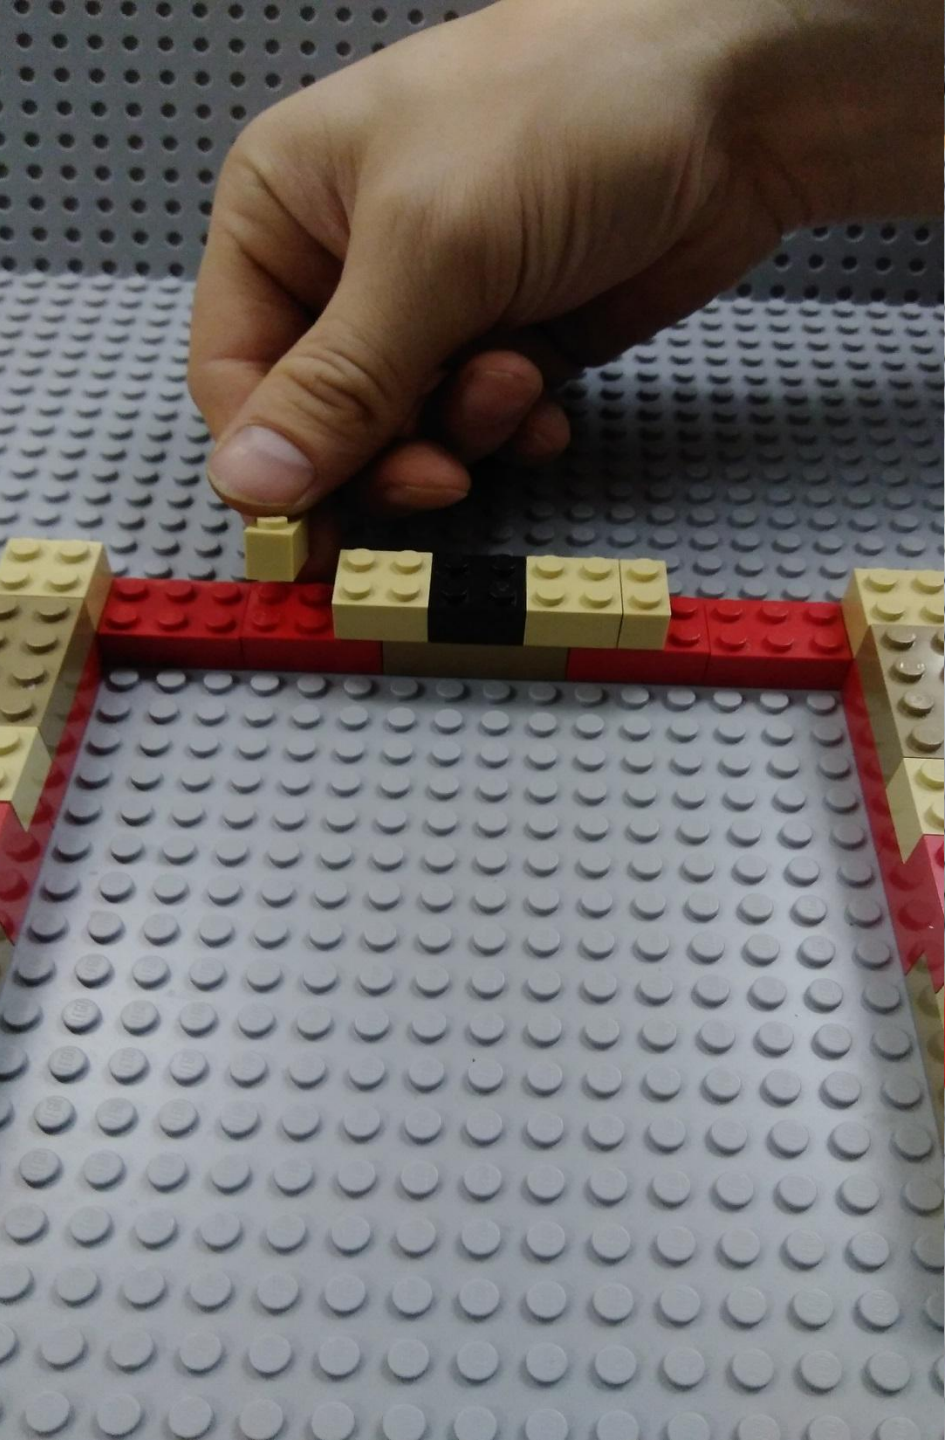

После ставим  
блоки 3 на 2  
зеркально, от  
конца стены.  
Ориентир – блок  
2 на 2 песочного  
цвета

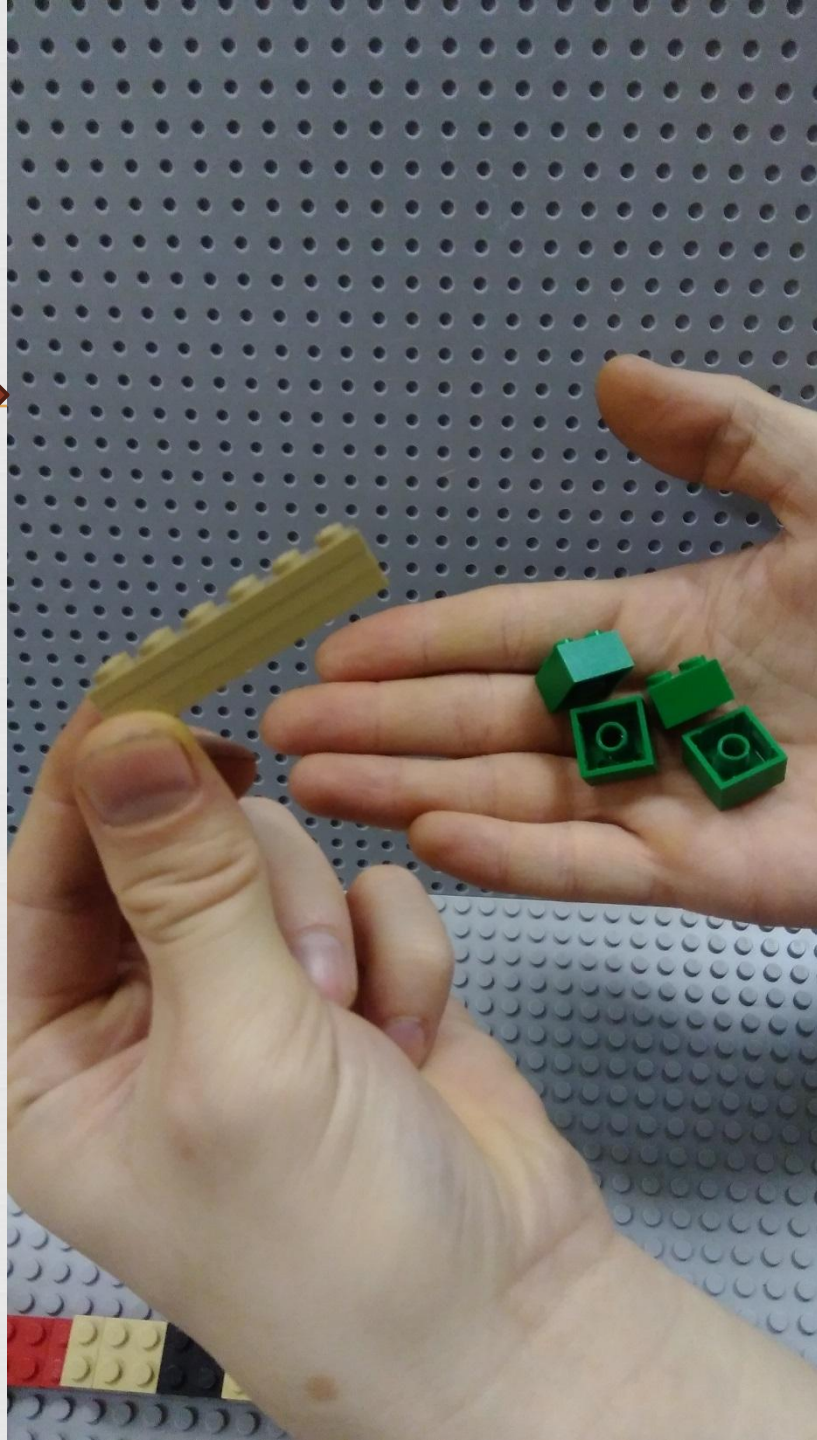

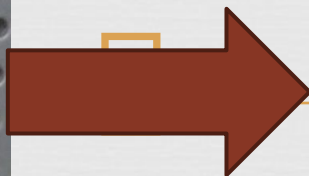

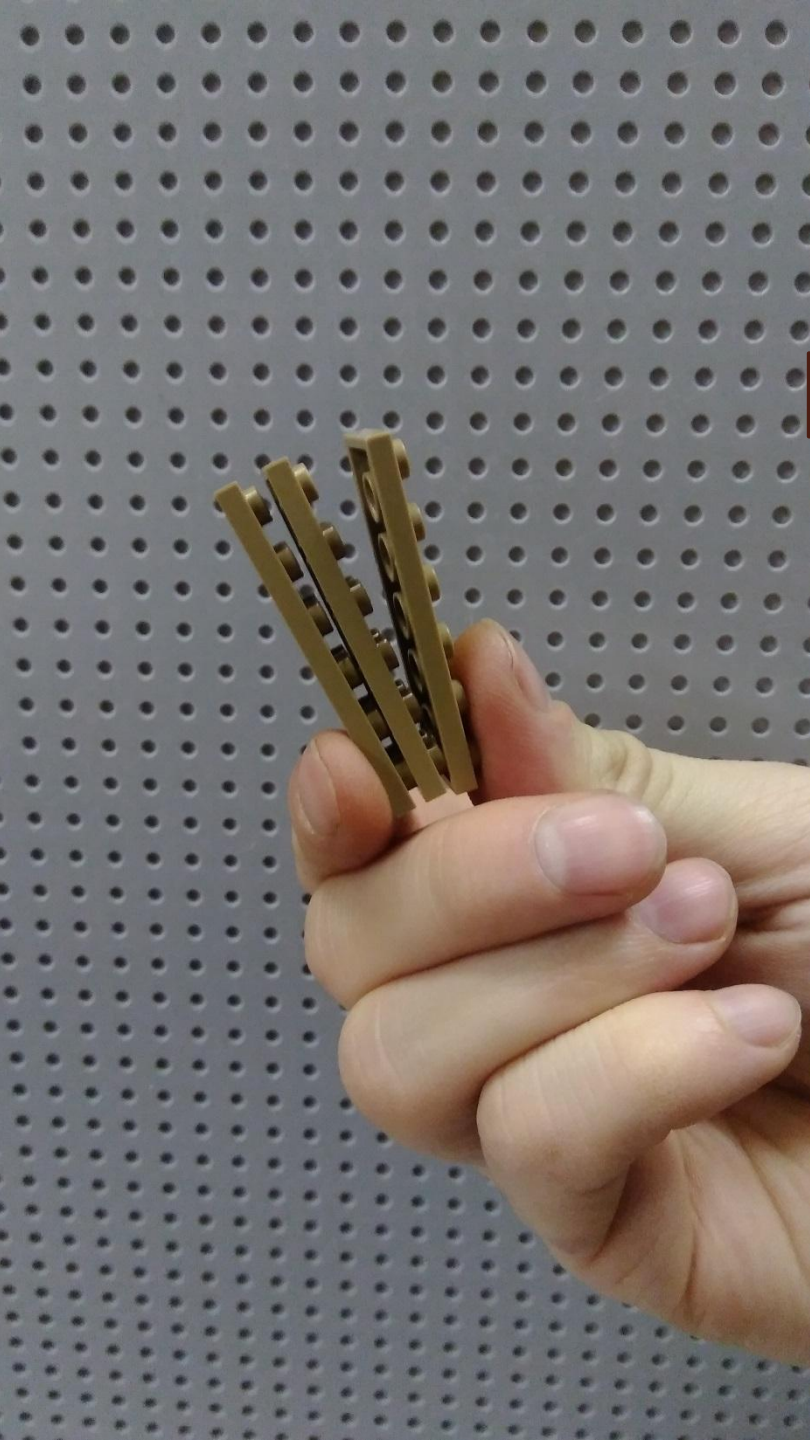

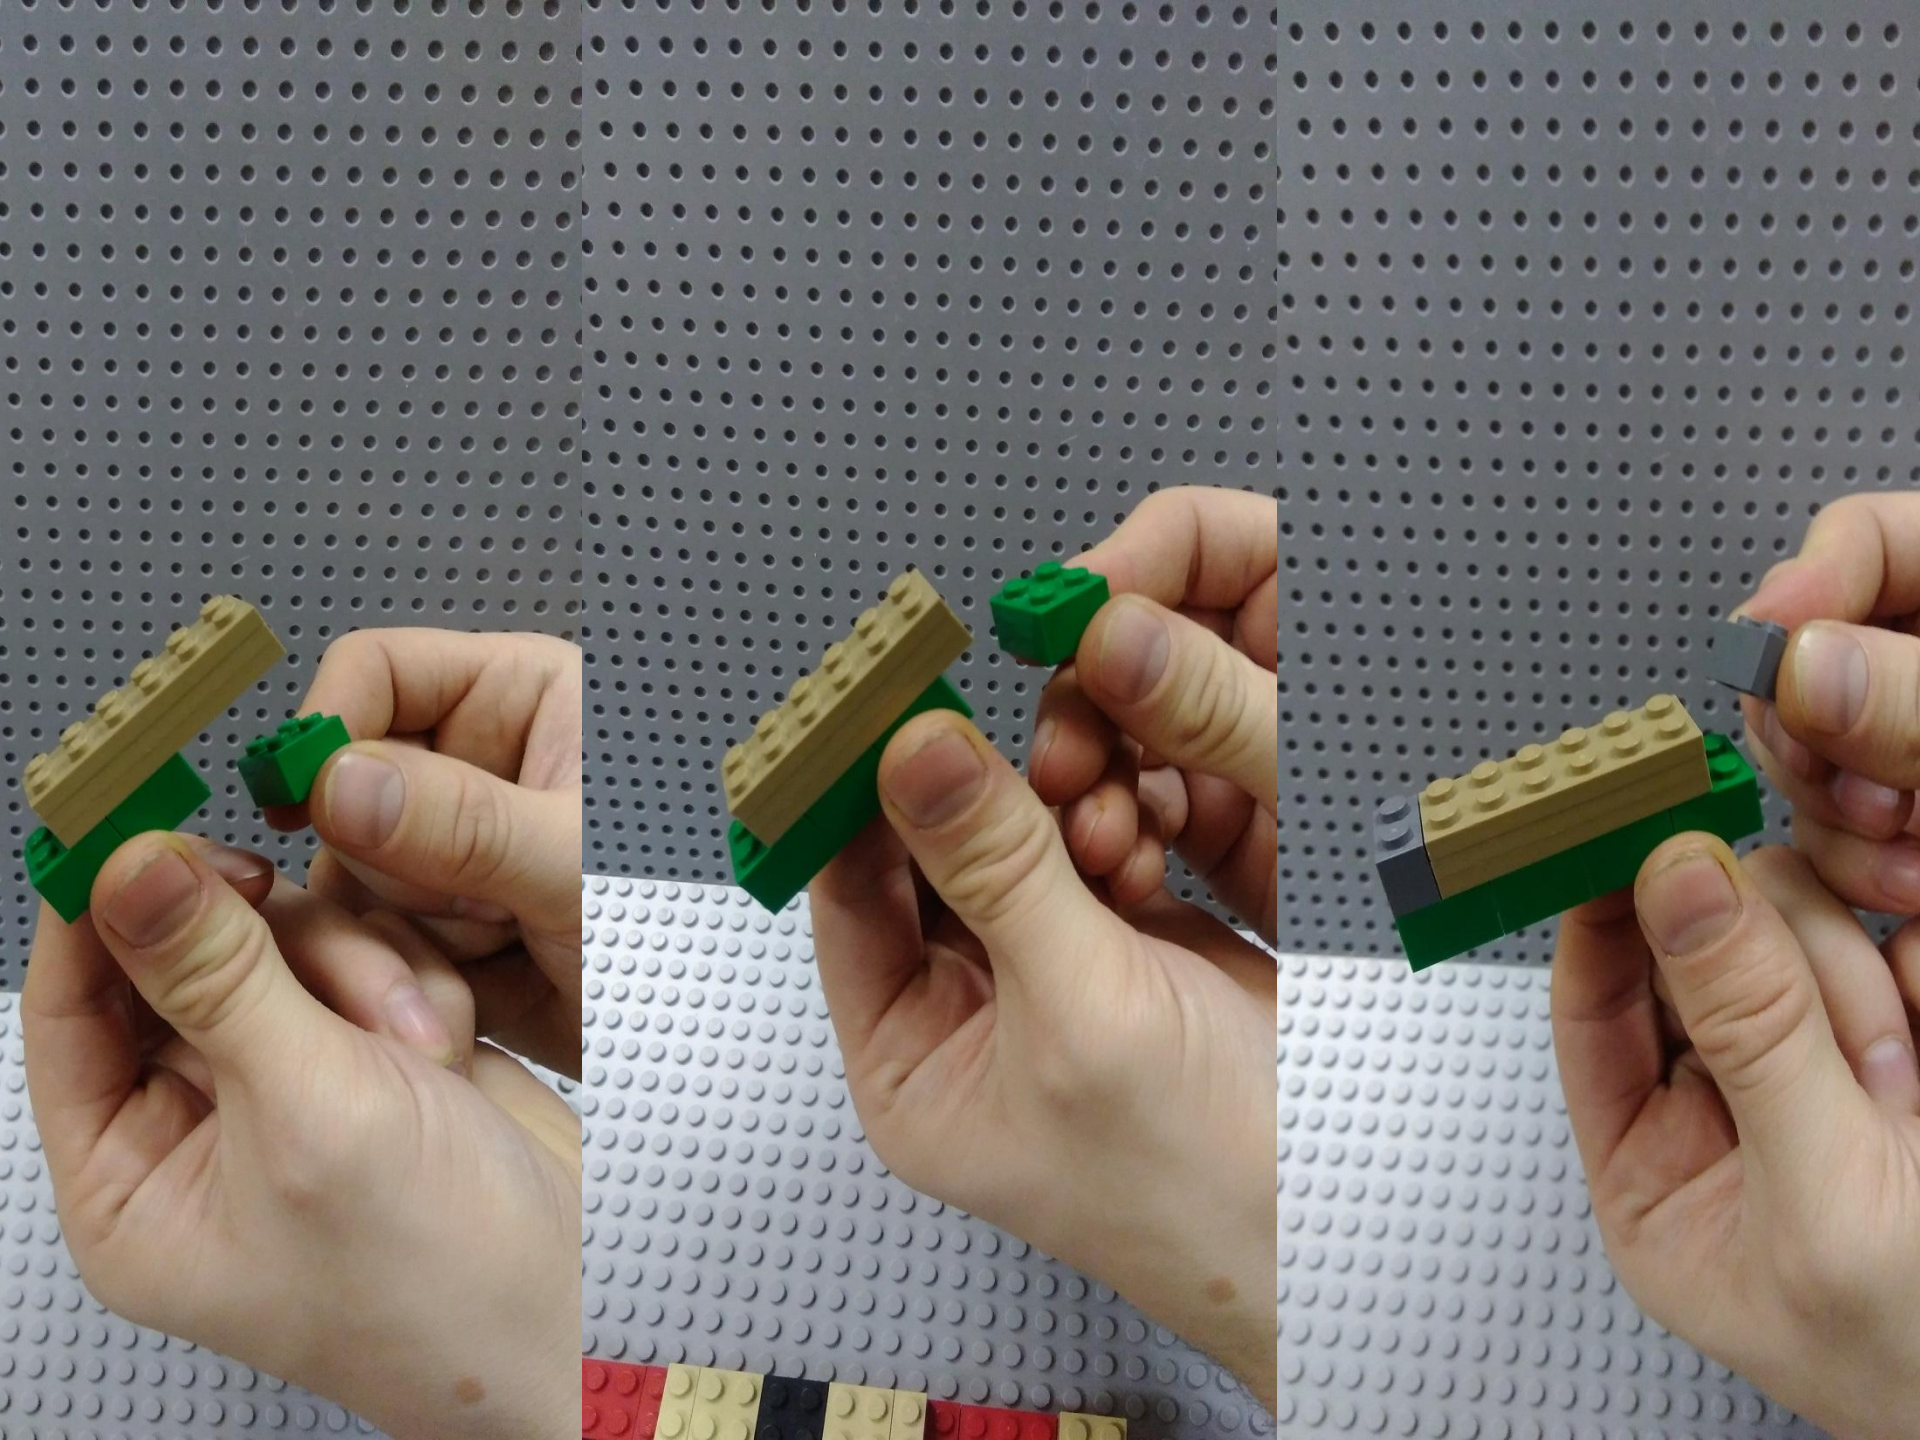

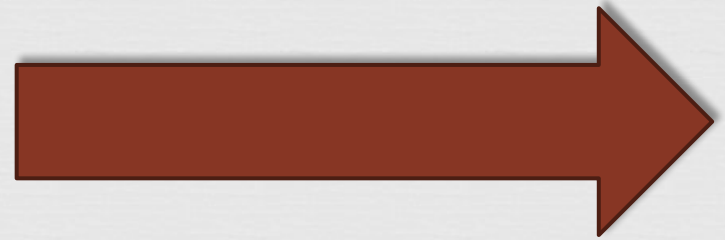

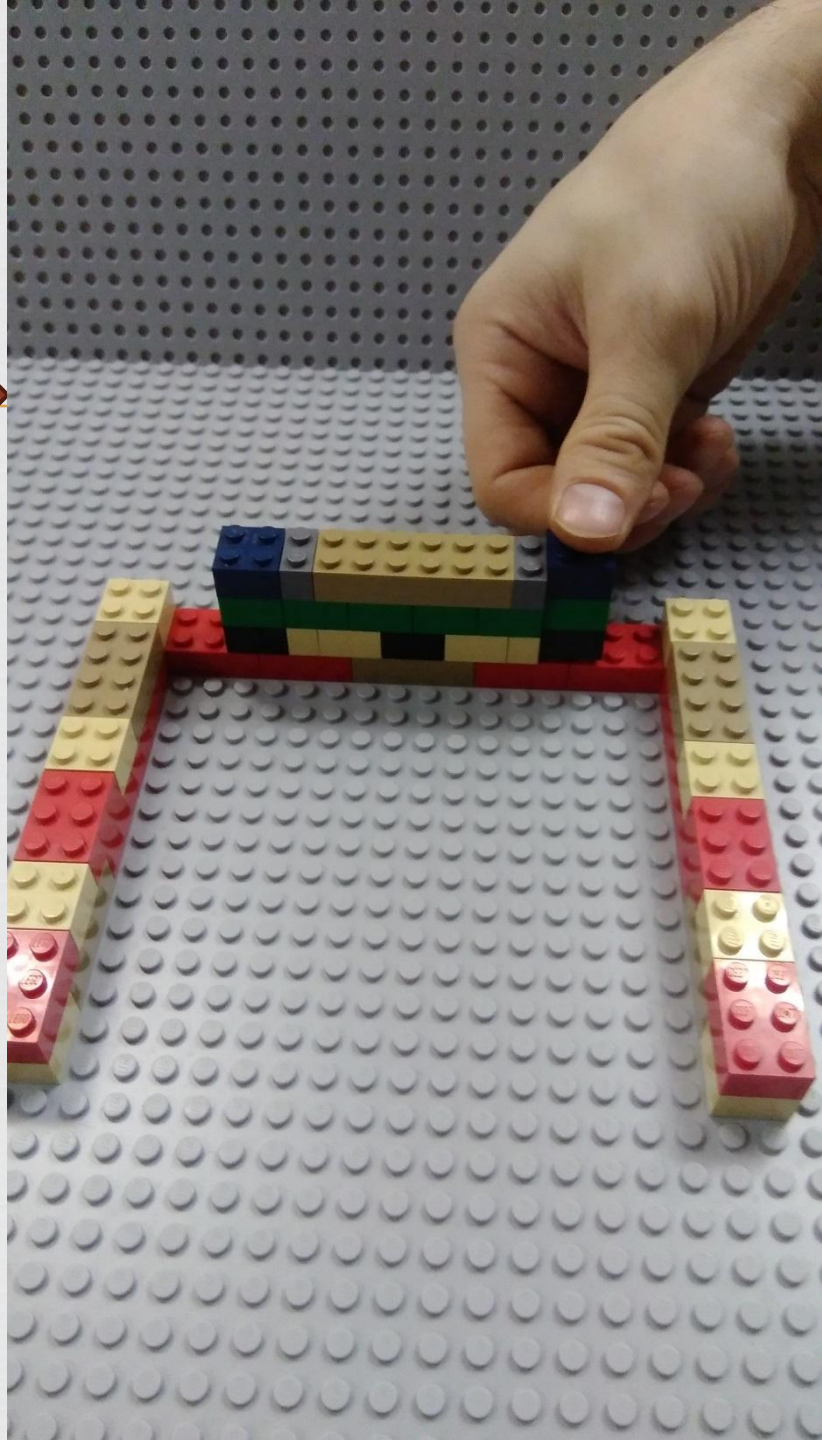

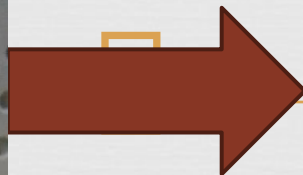

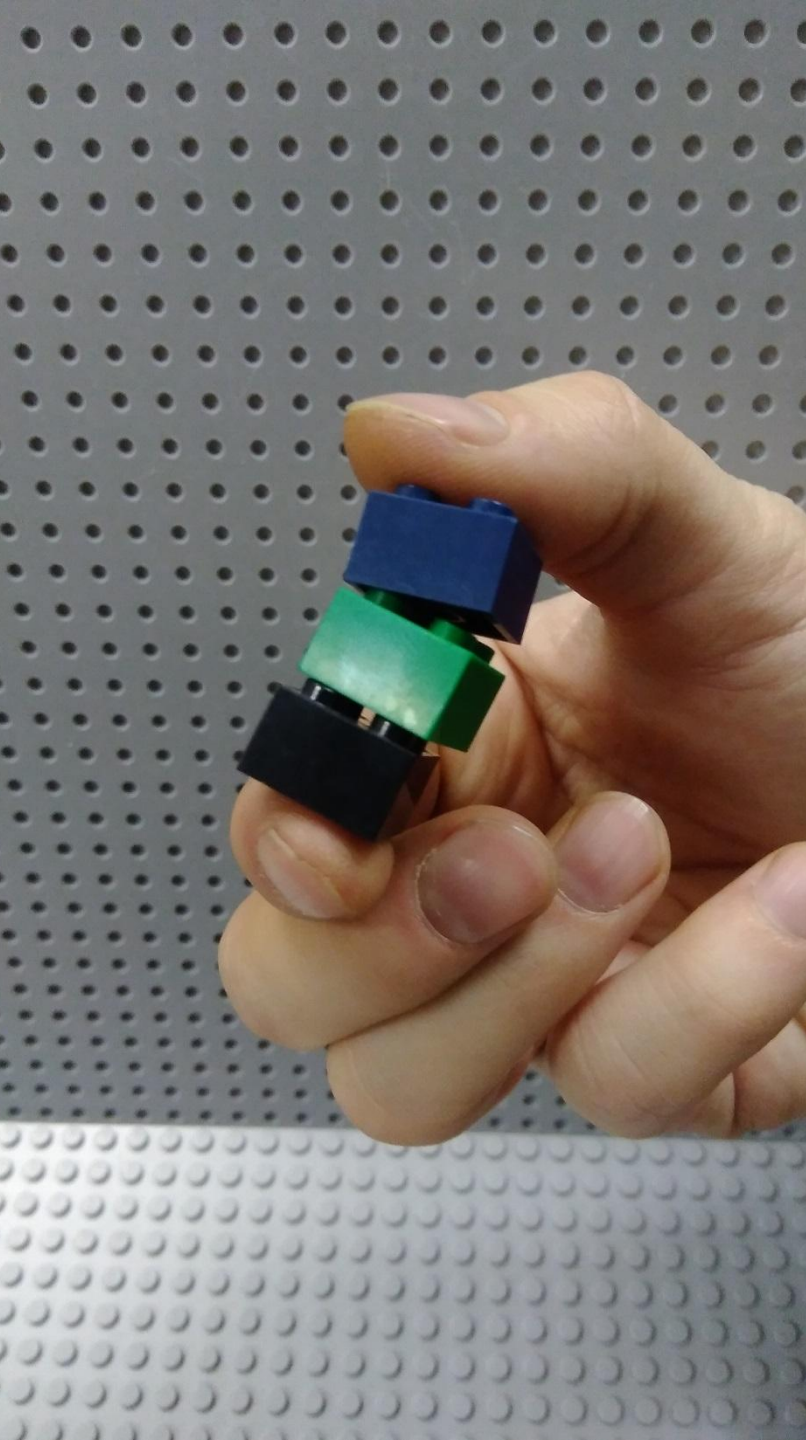

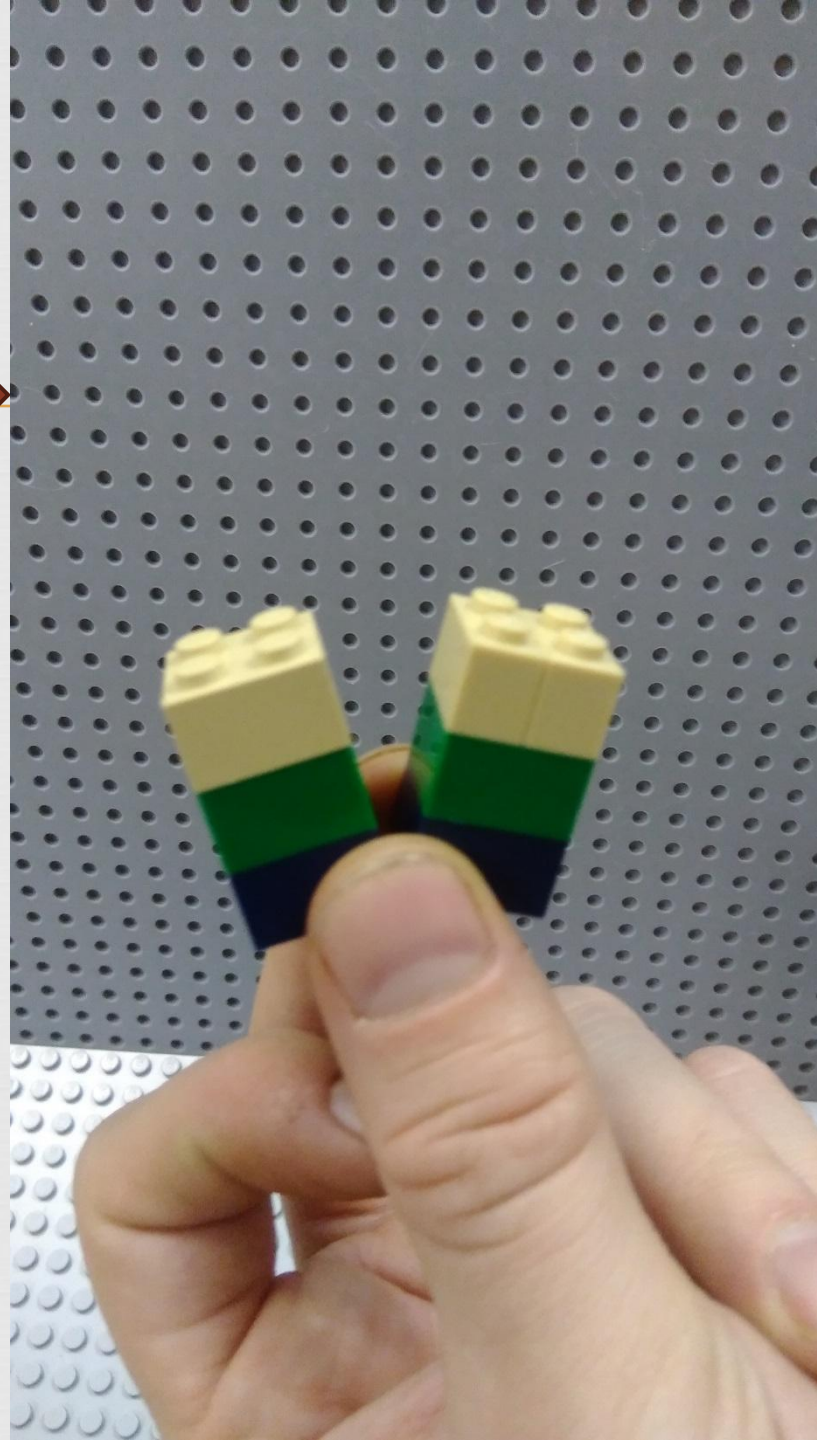

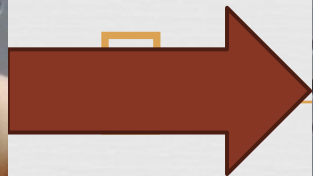

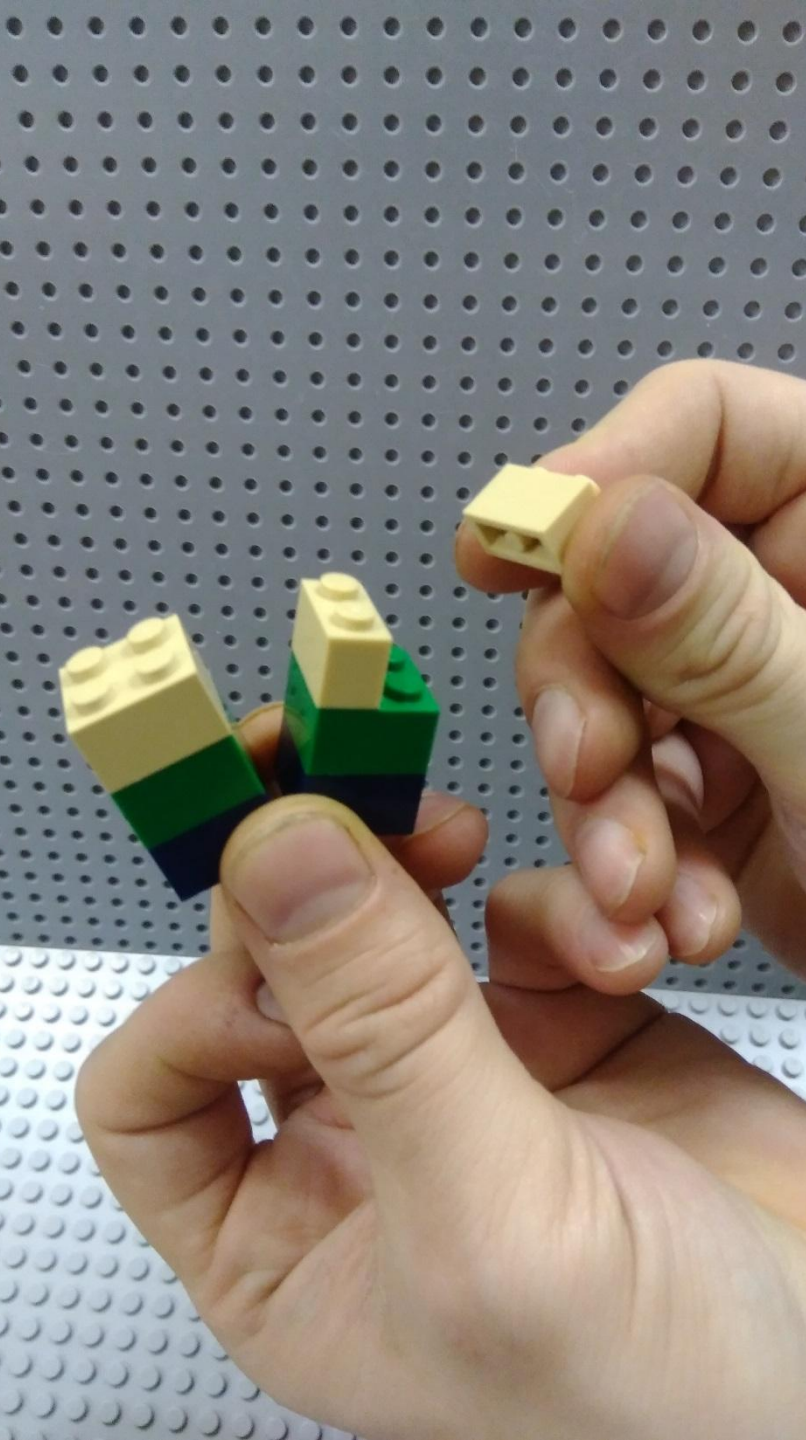

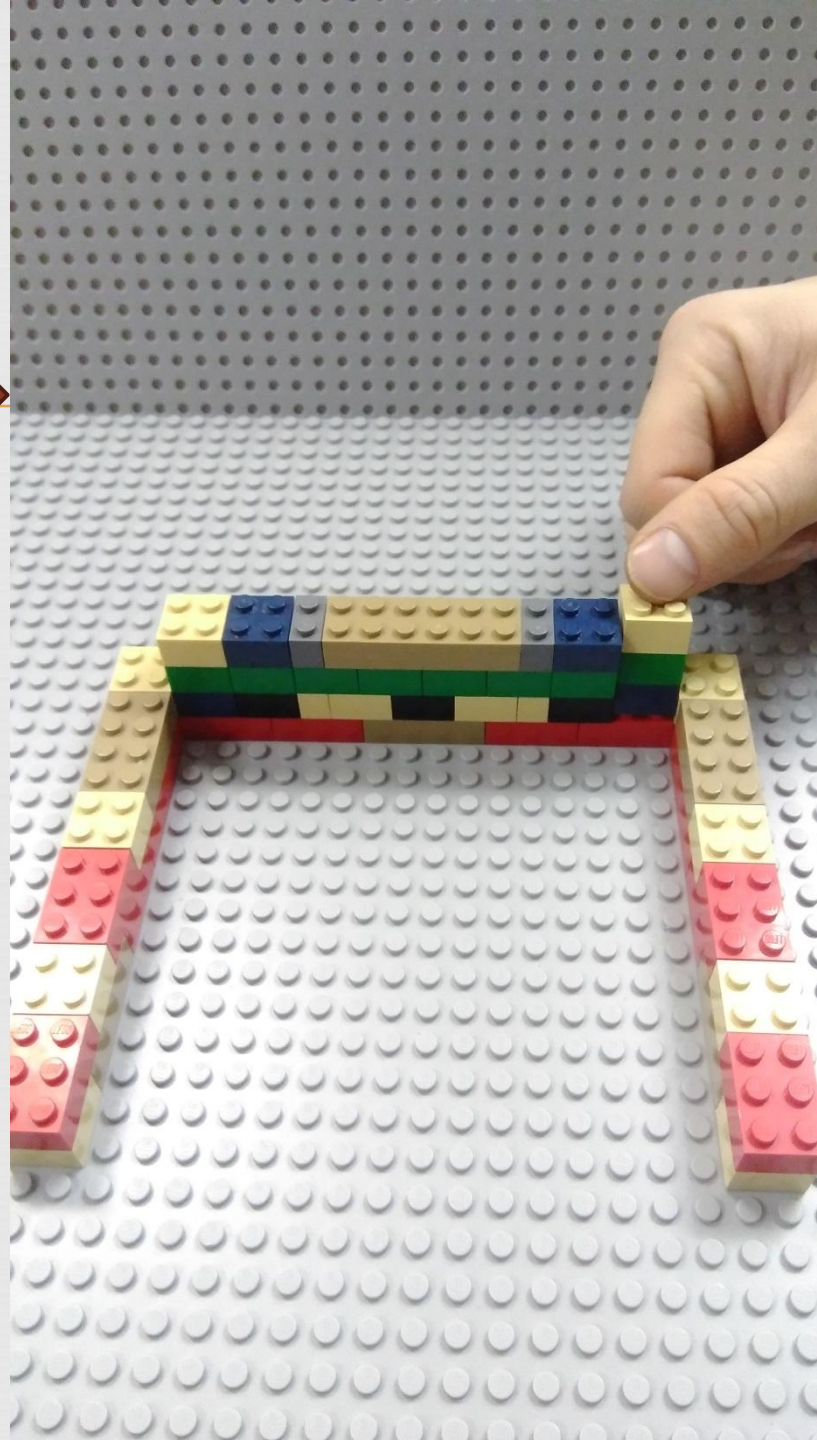

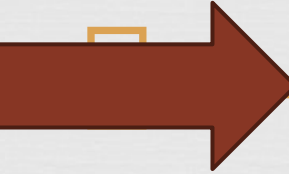

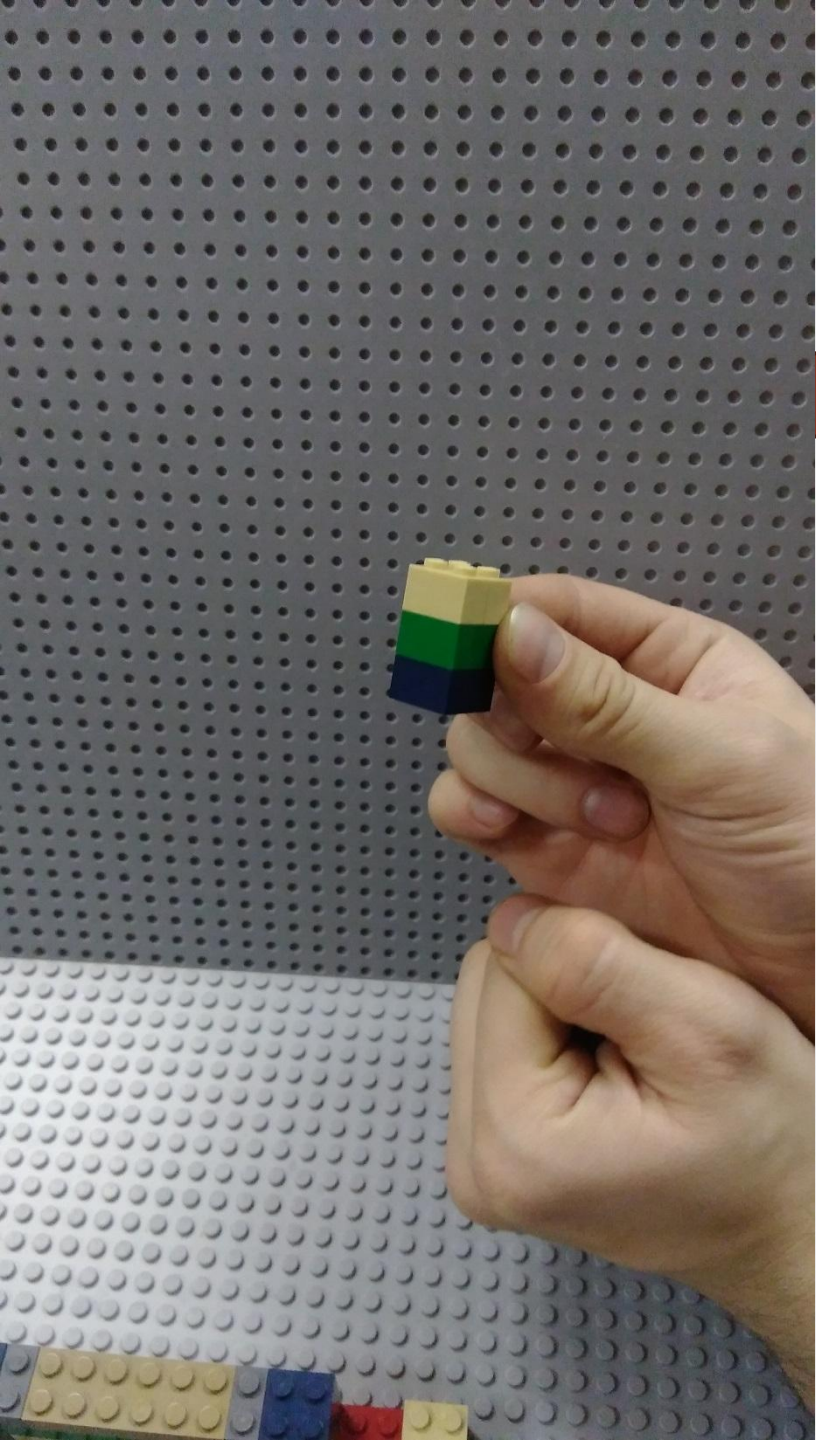

Собранную  
деталь  
откладываем в  
сторону и  
готовим боковые  
колонны

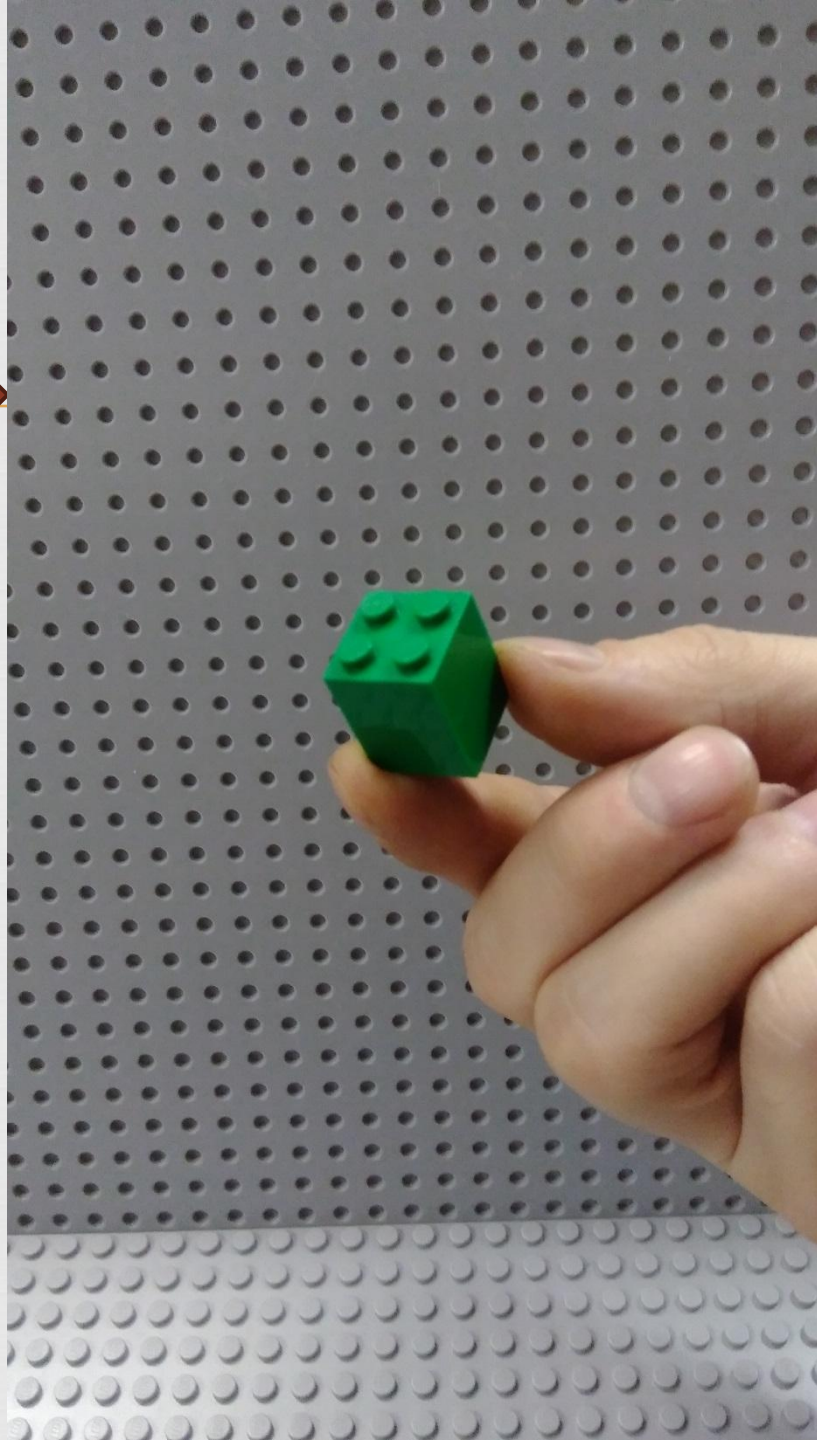

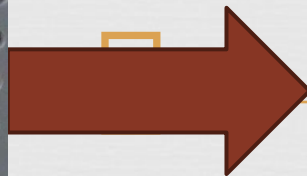

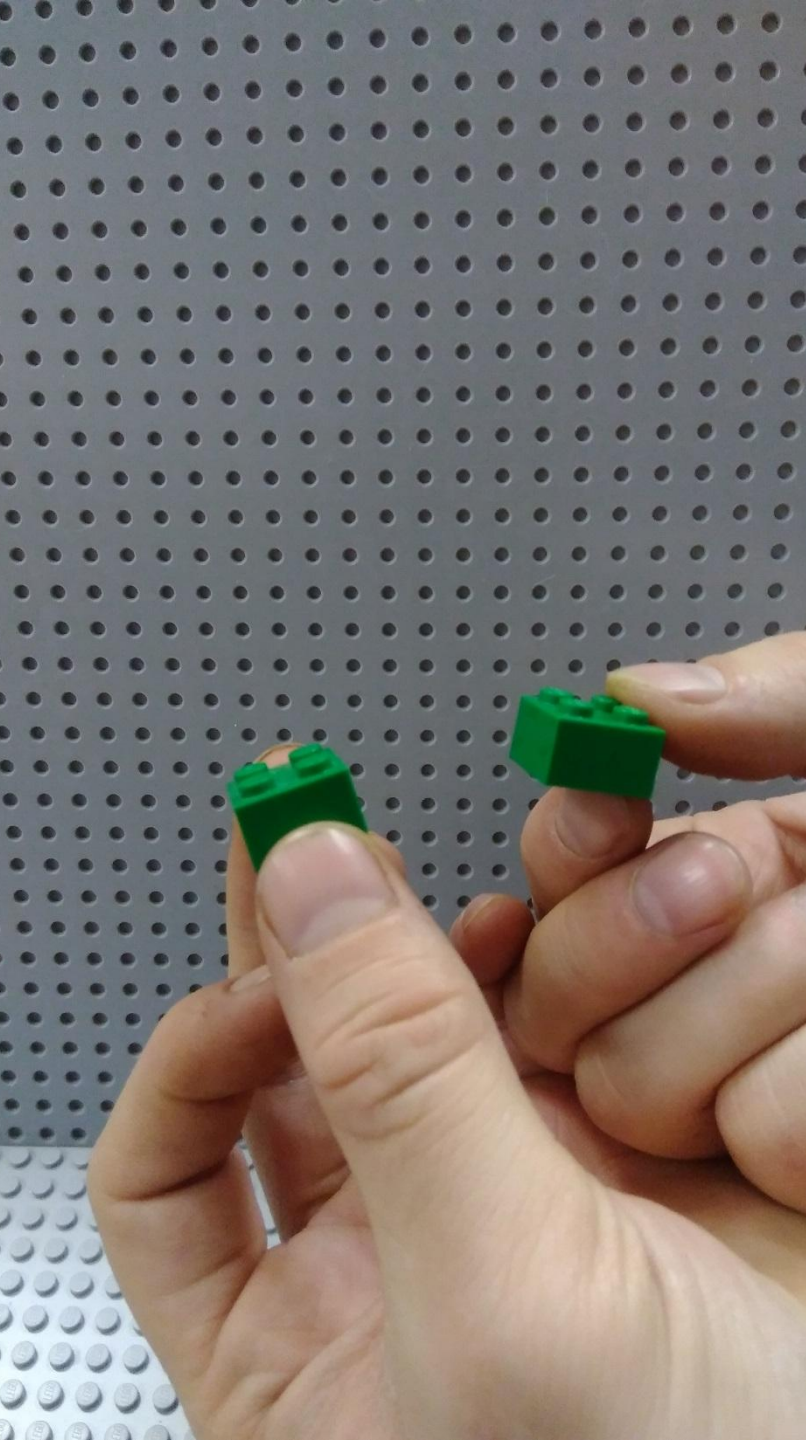

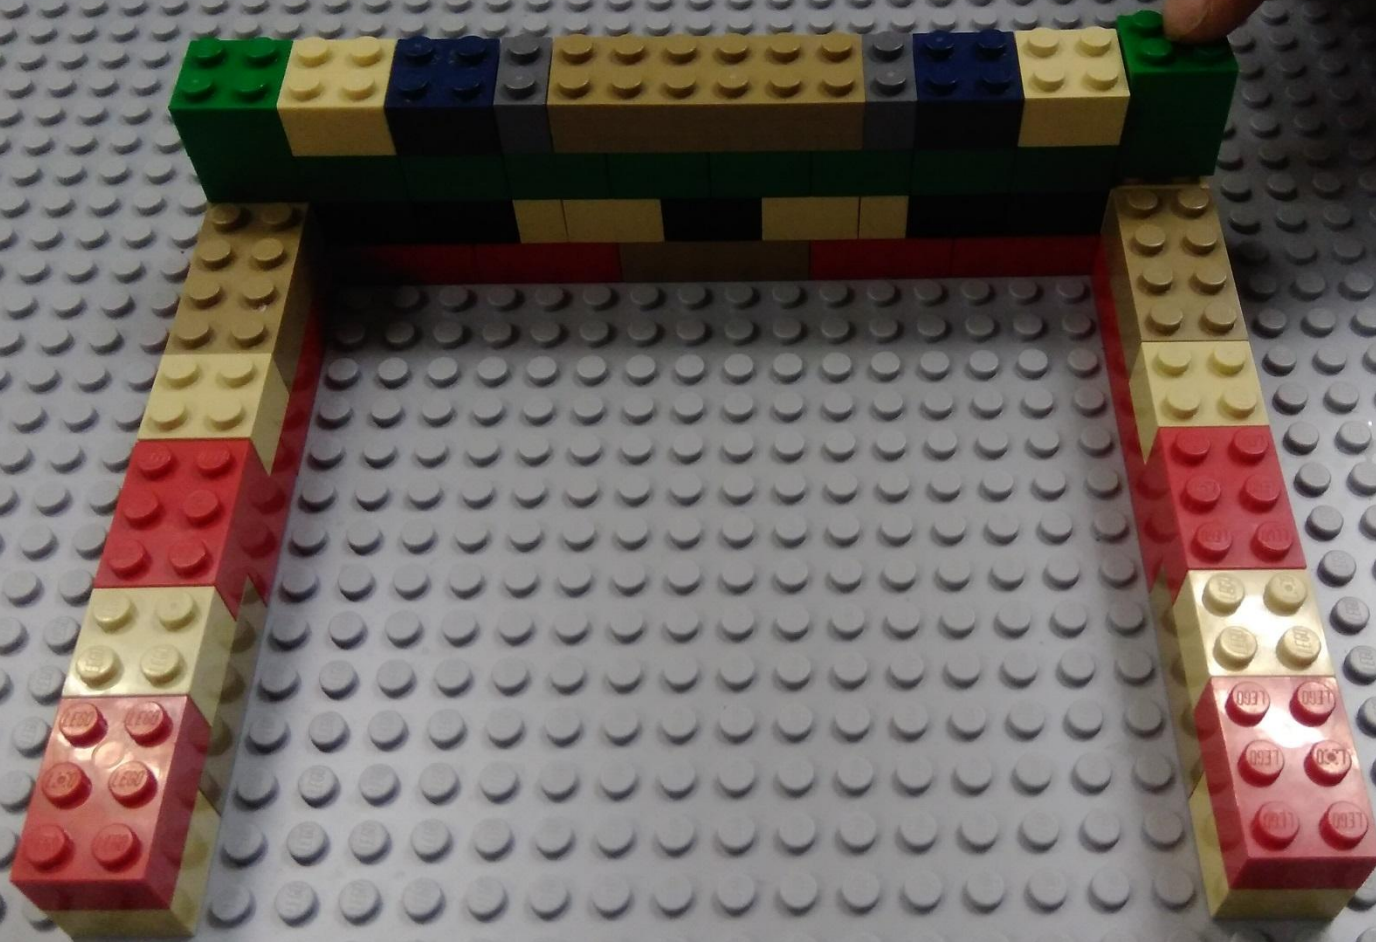

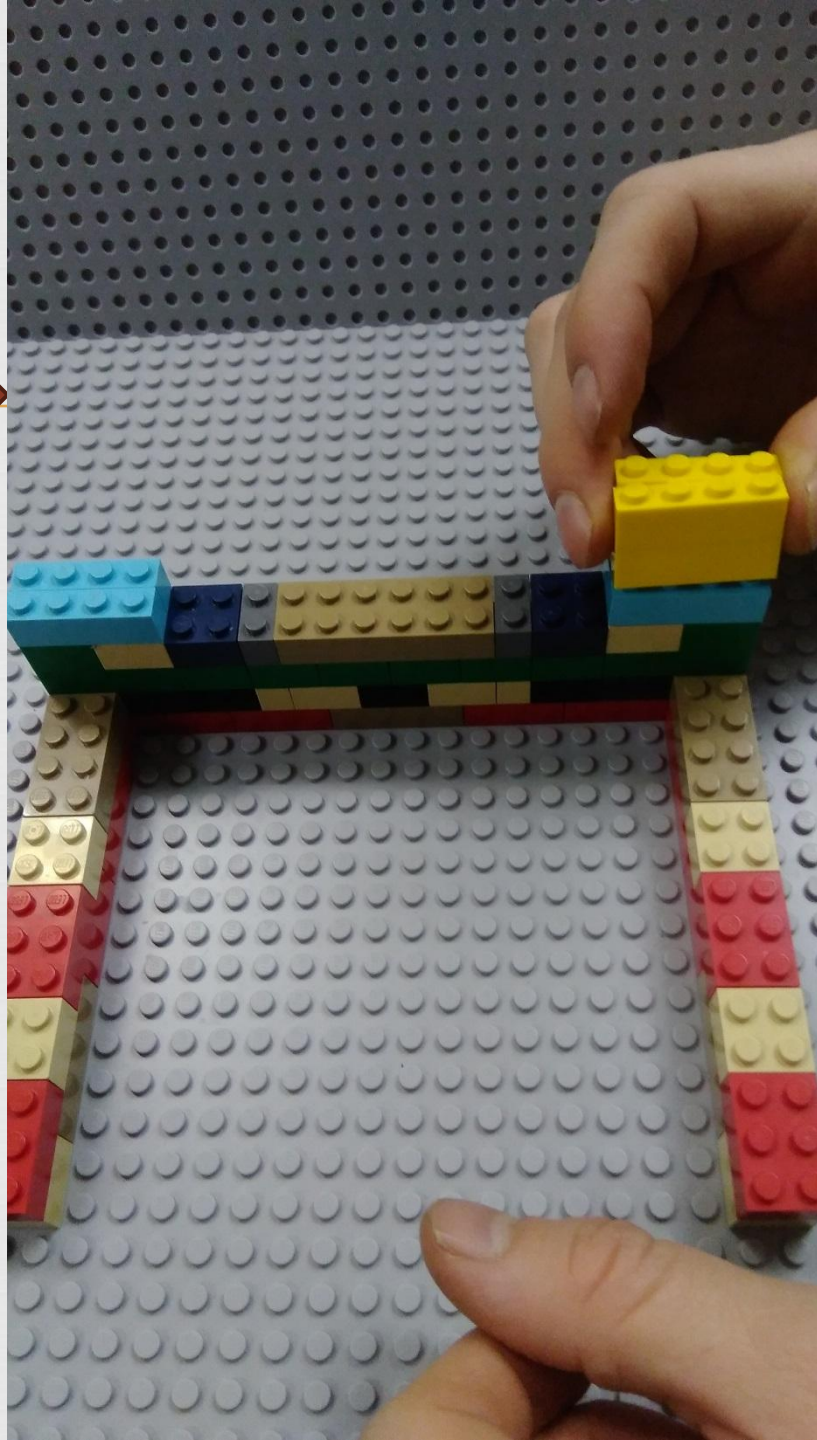

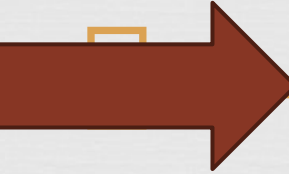

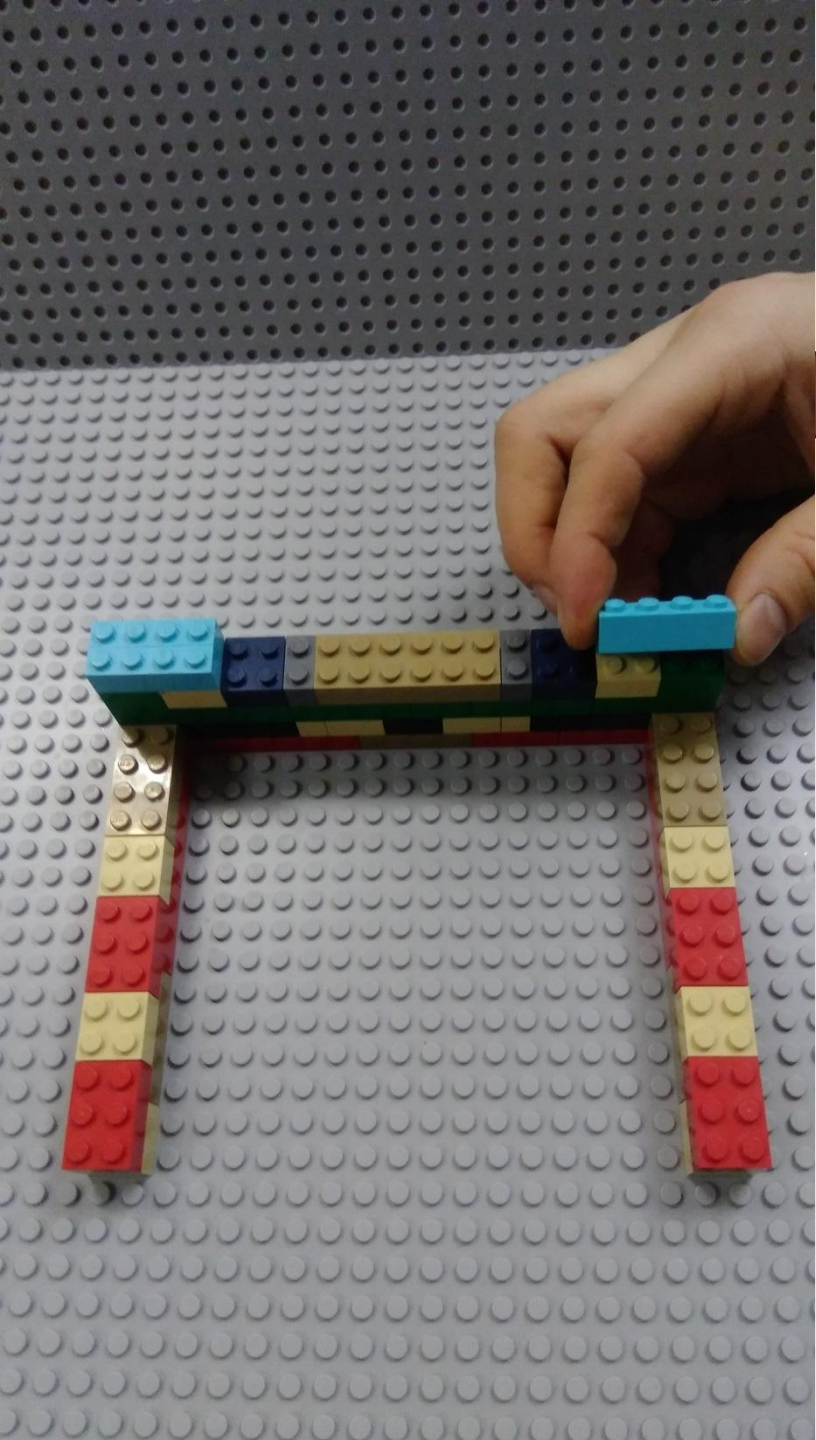

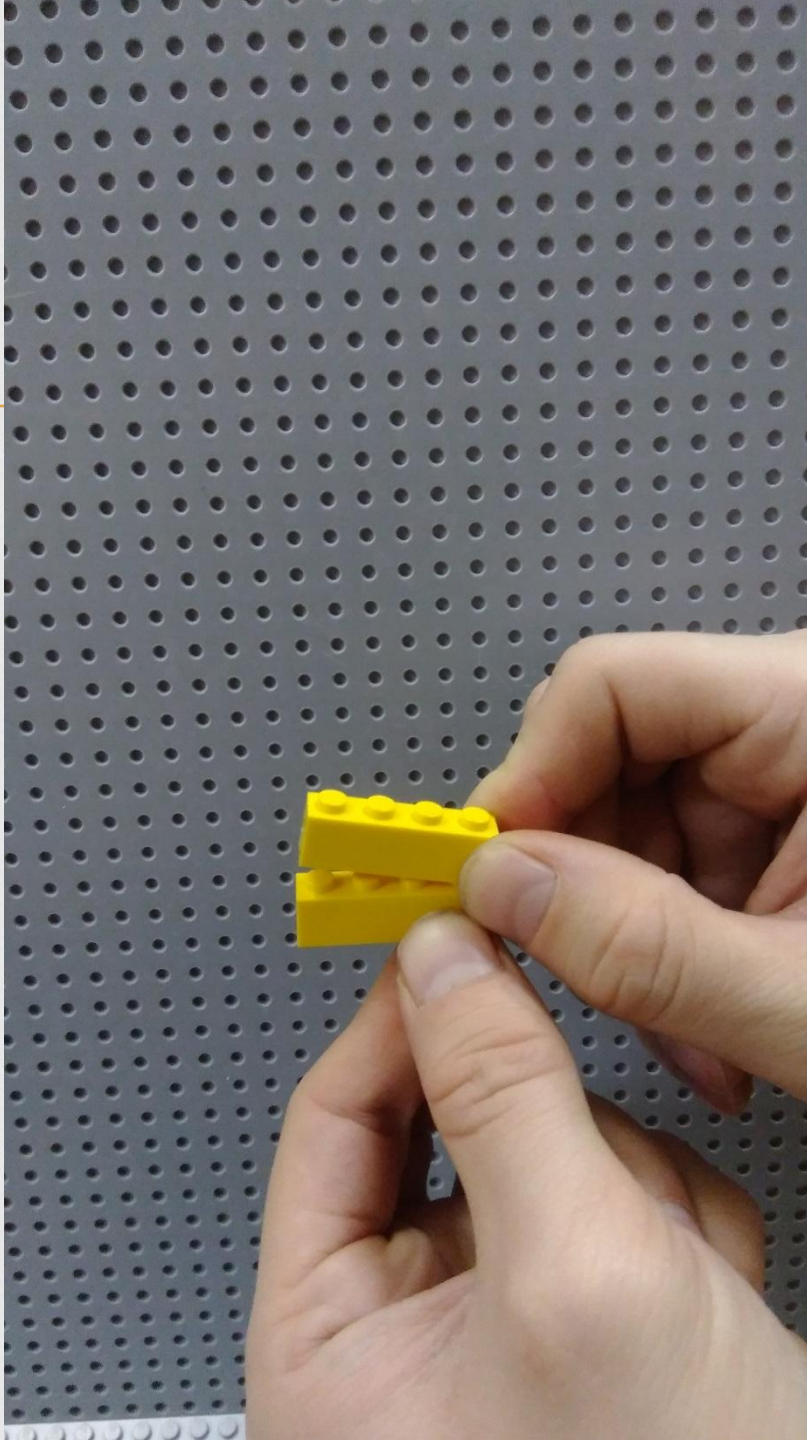

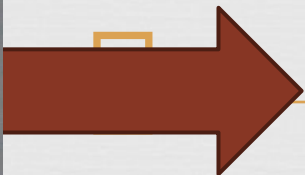

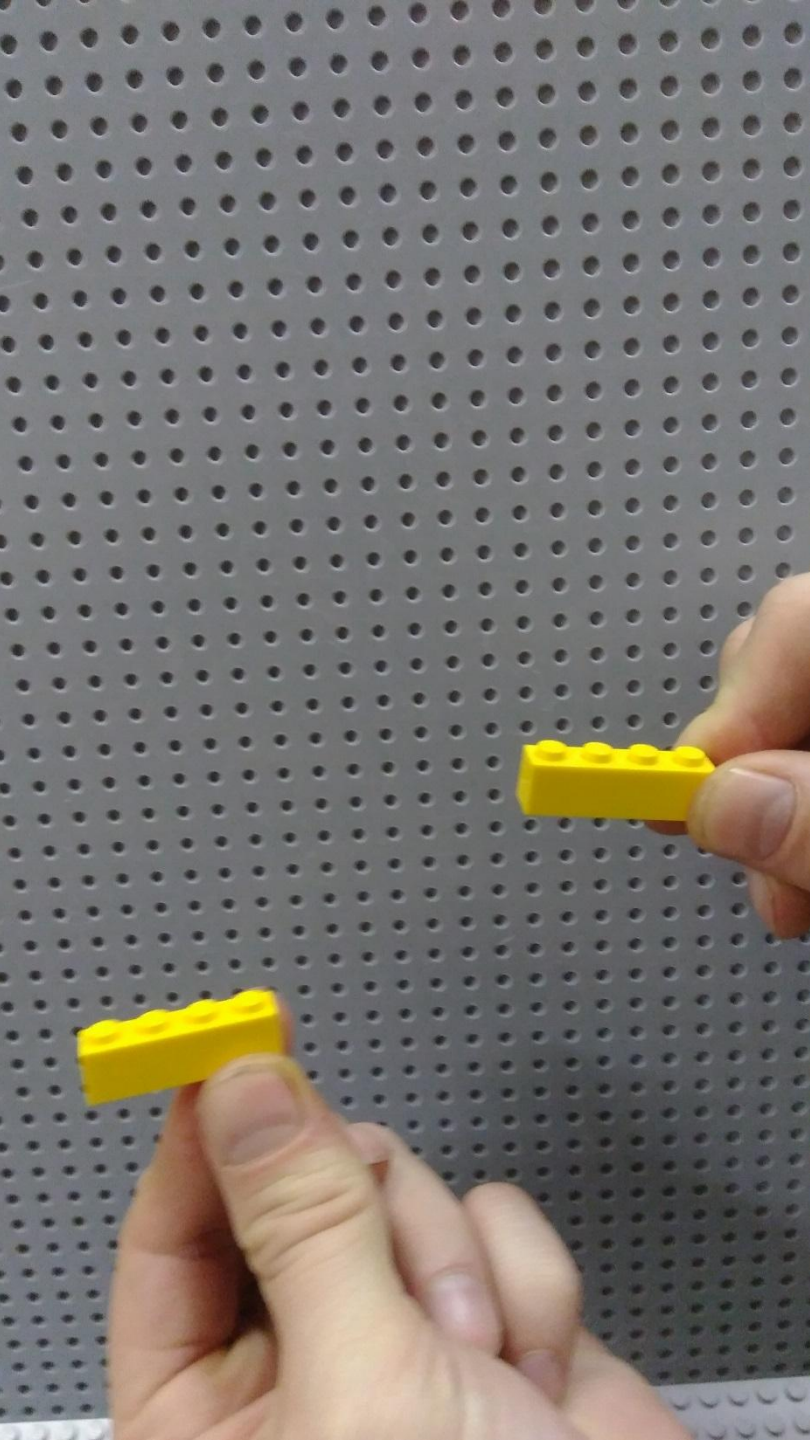

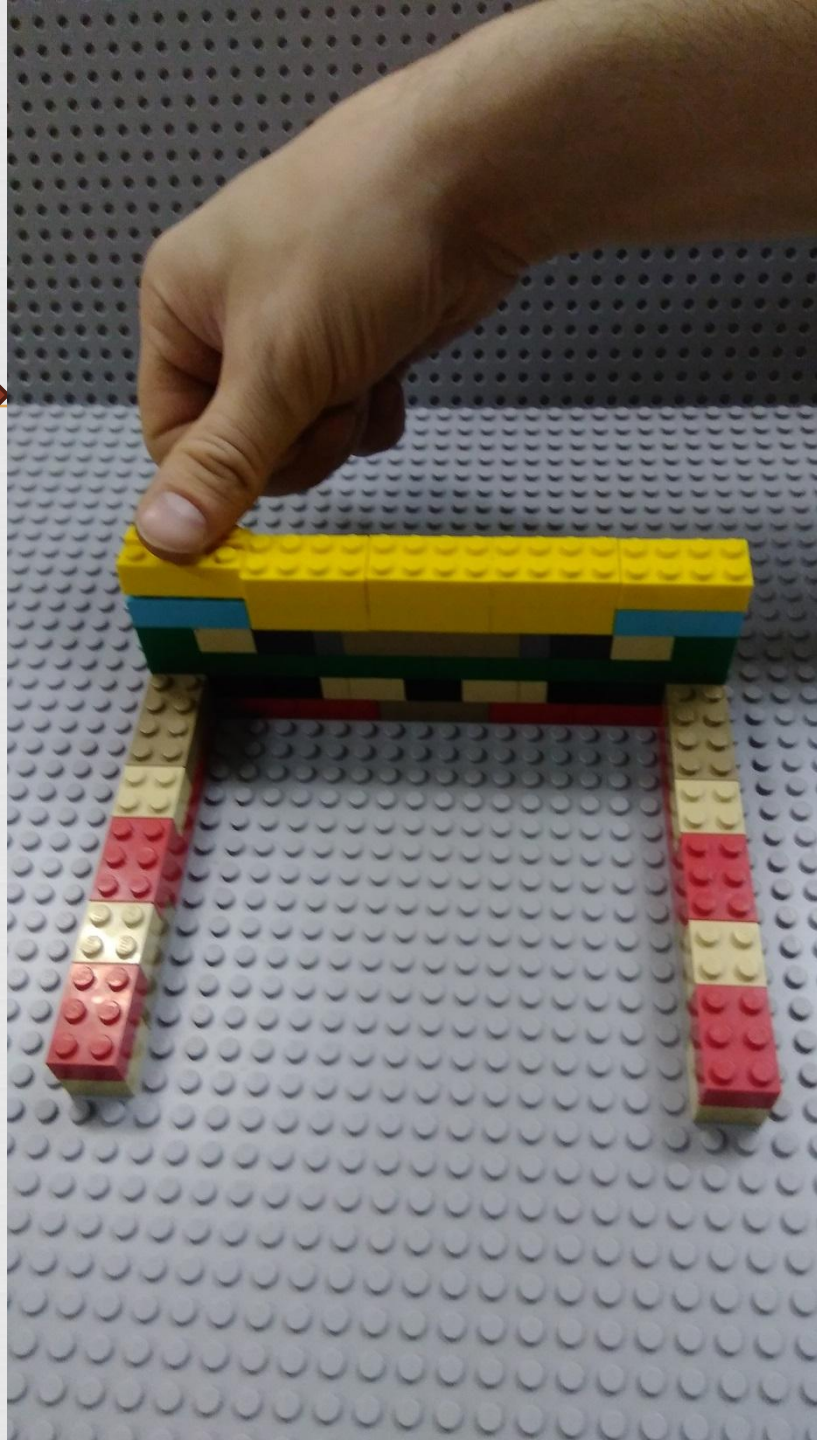

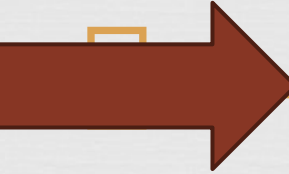

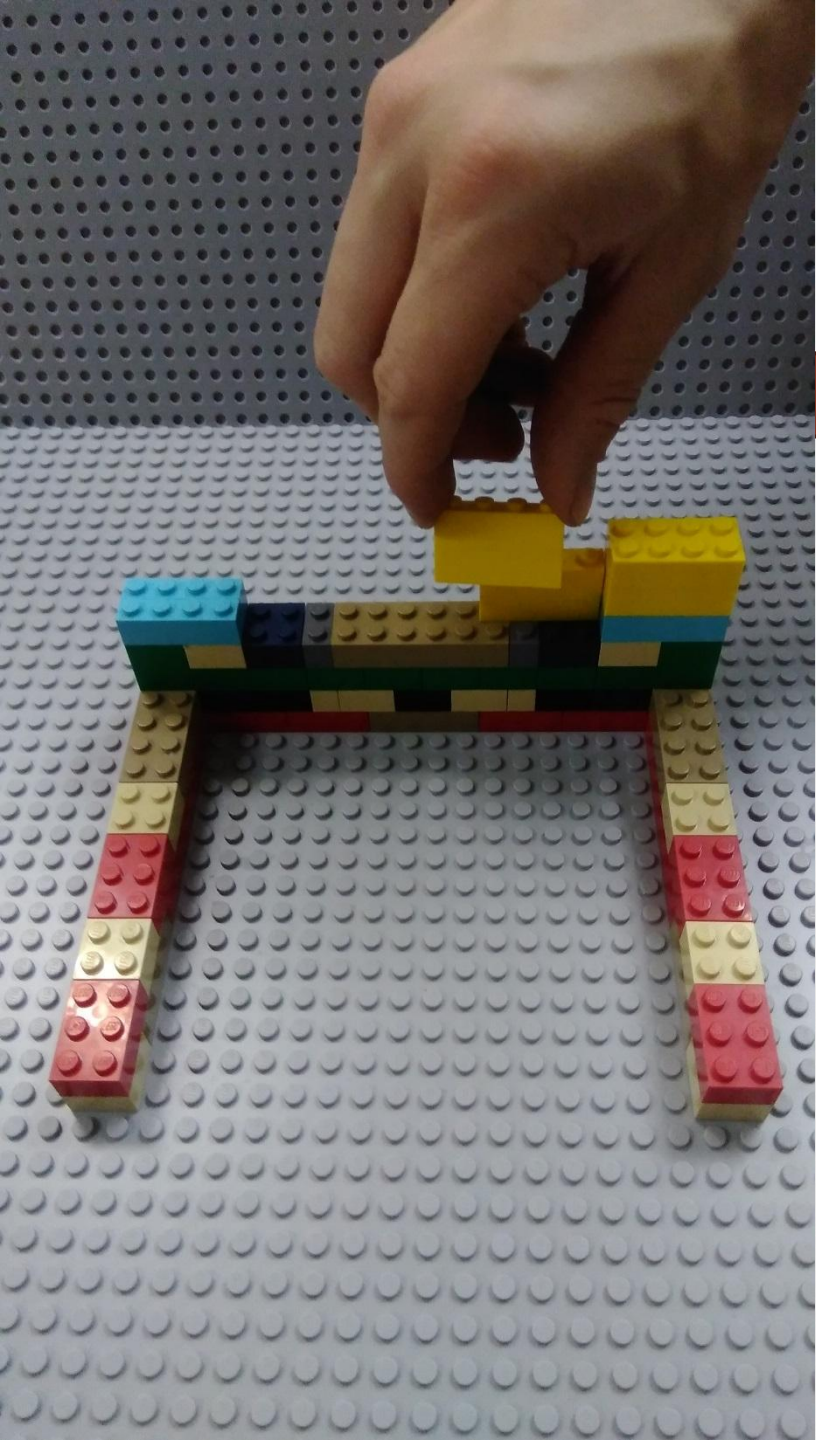

На данный момент у Нас должно быть так!  
Сравните свою работу с изображением и  
исправьте неточности

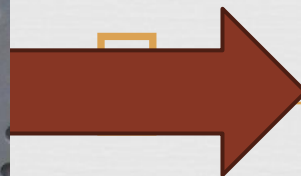

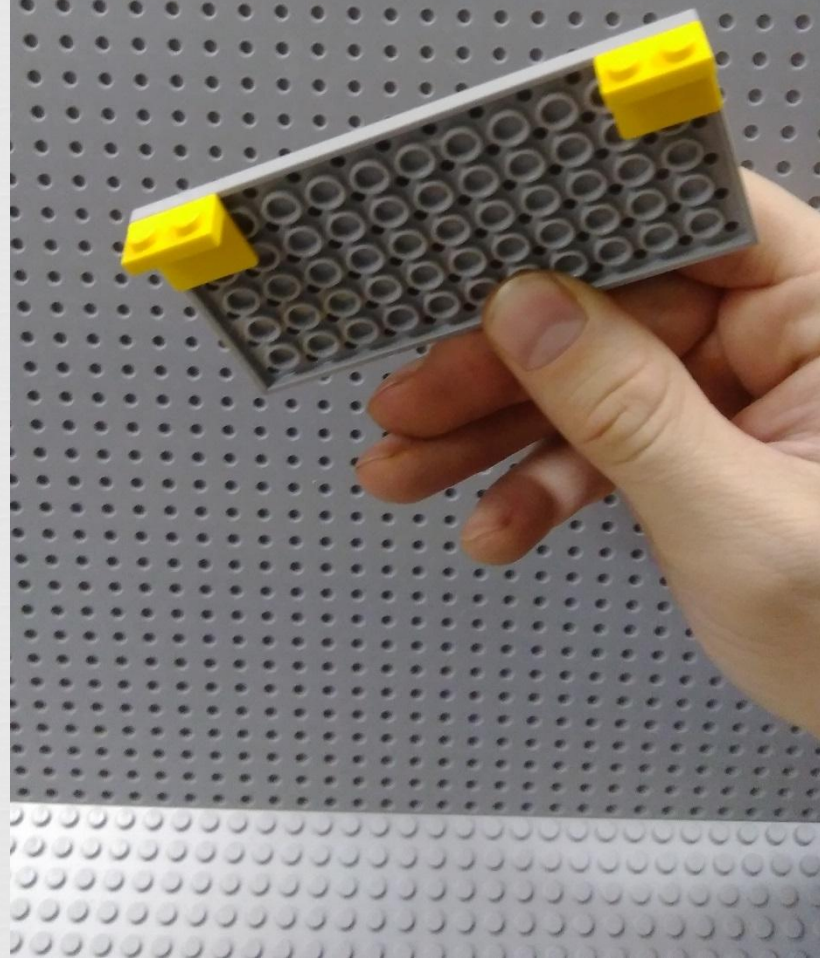

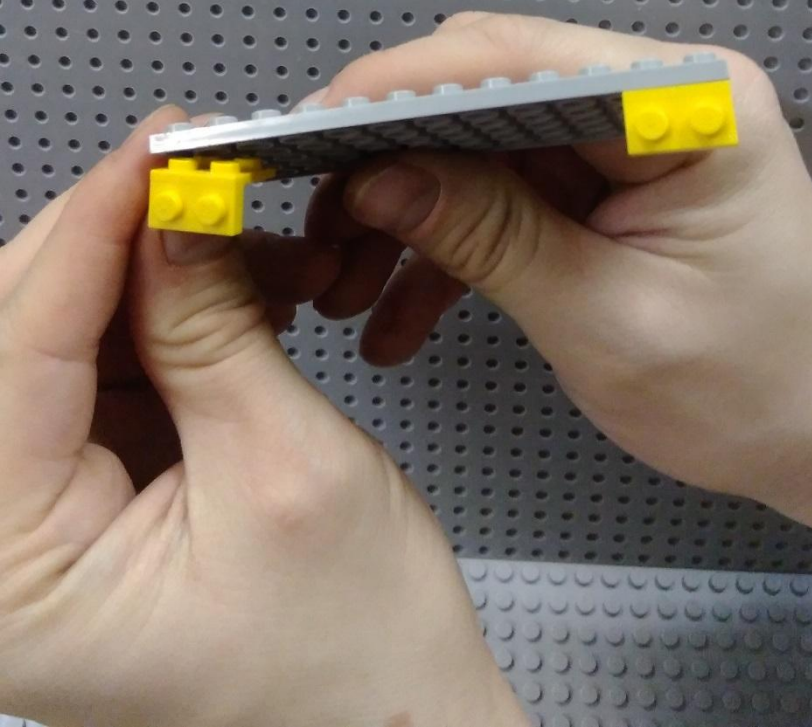

К пластине 6 на  
12 крепится  
боковые  
соединители

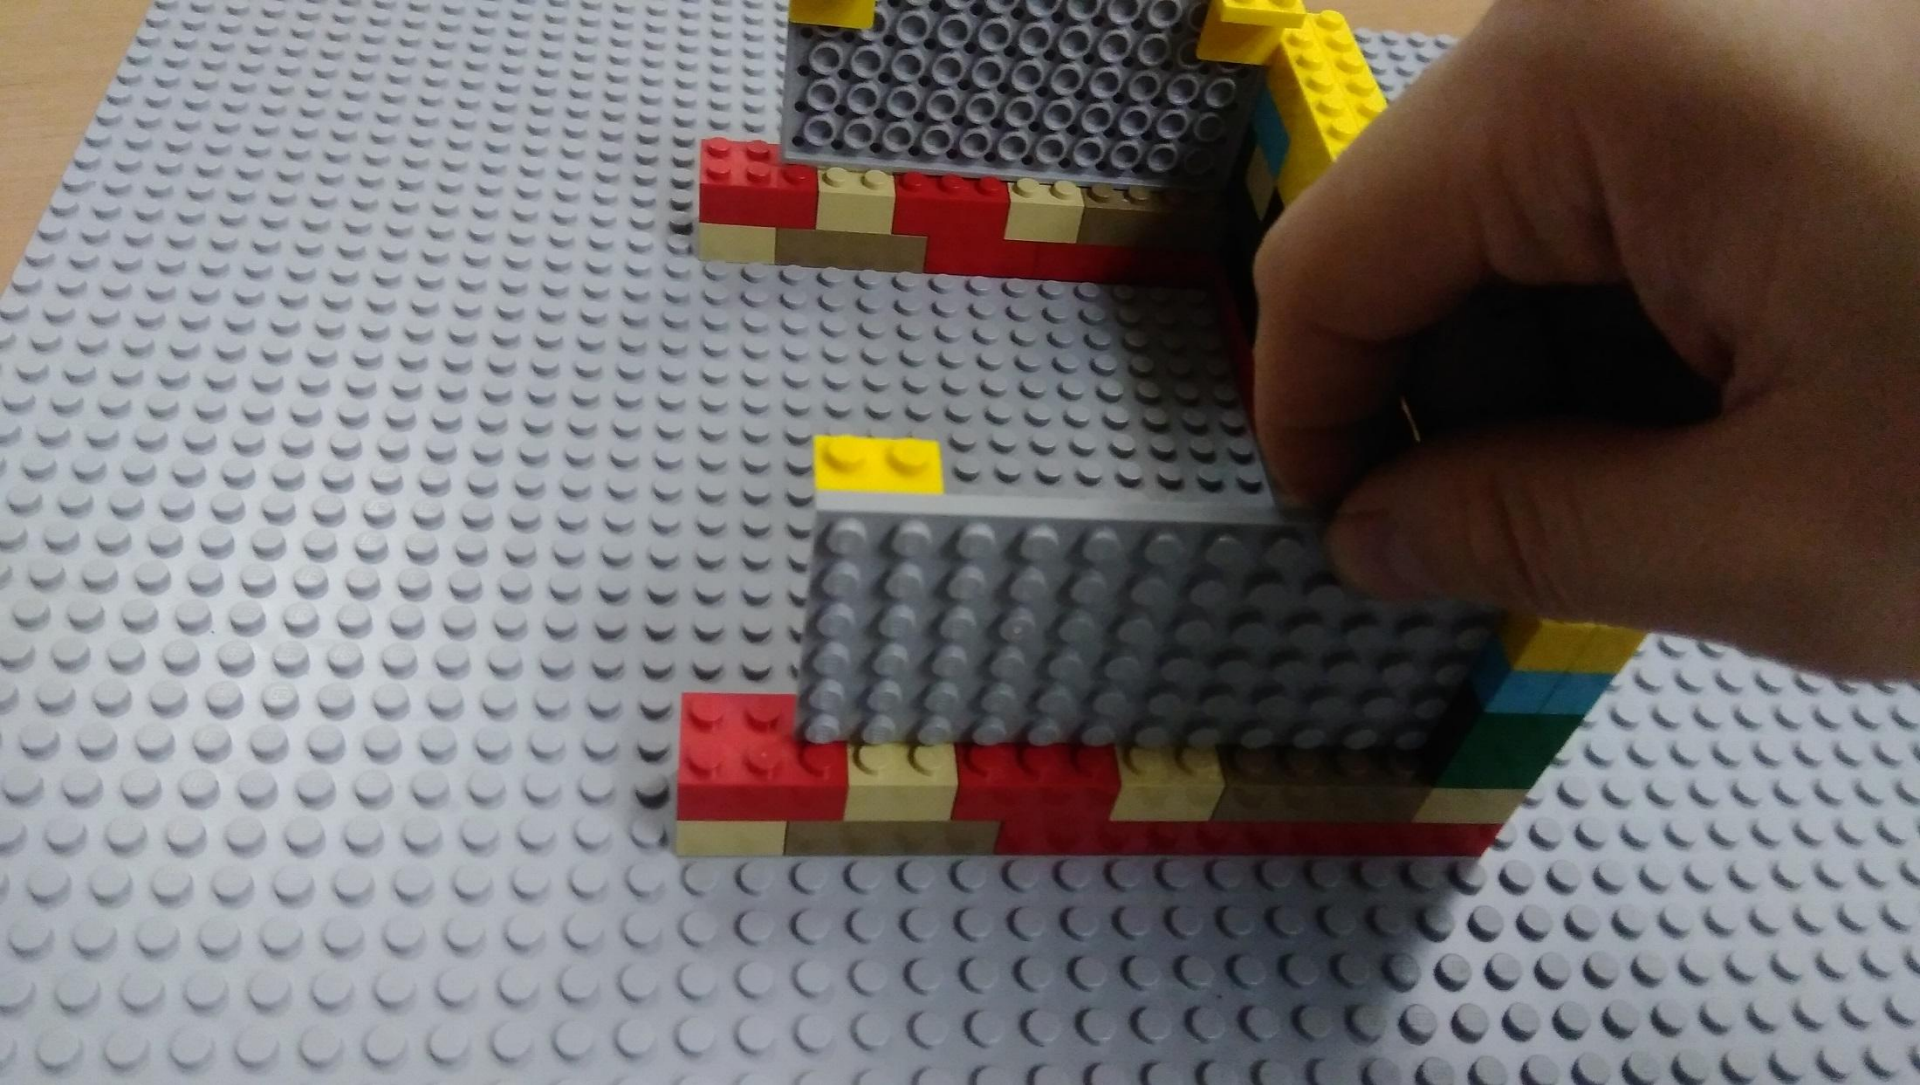

желтого цвета

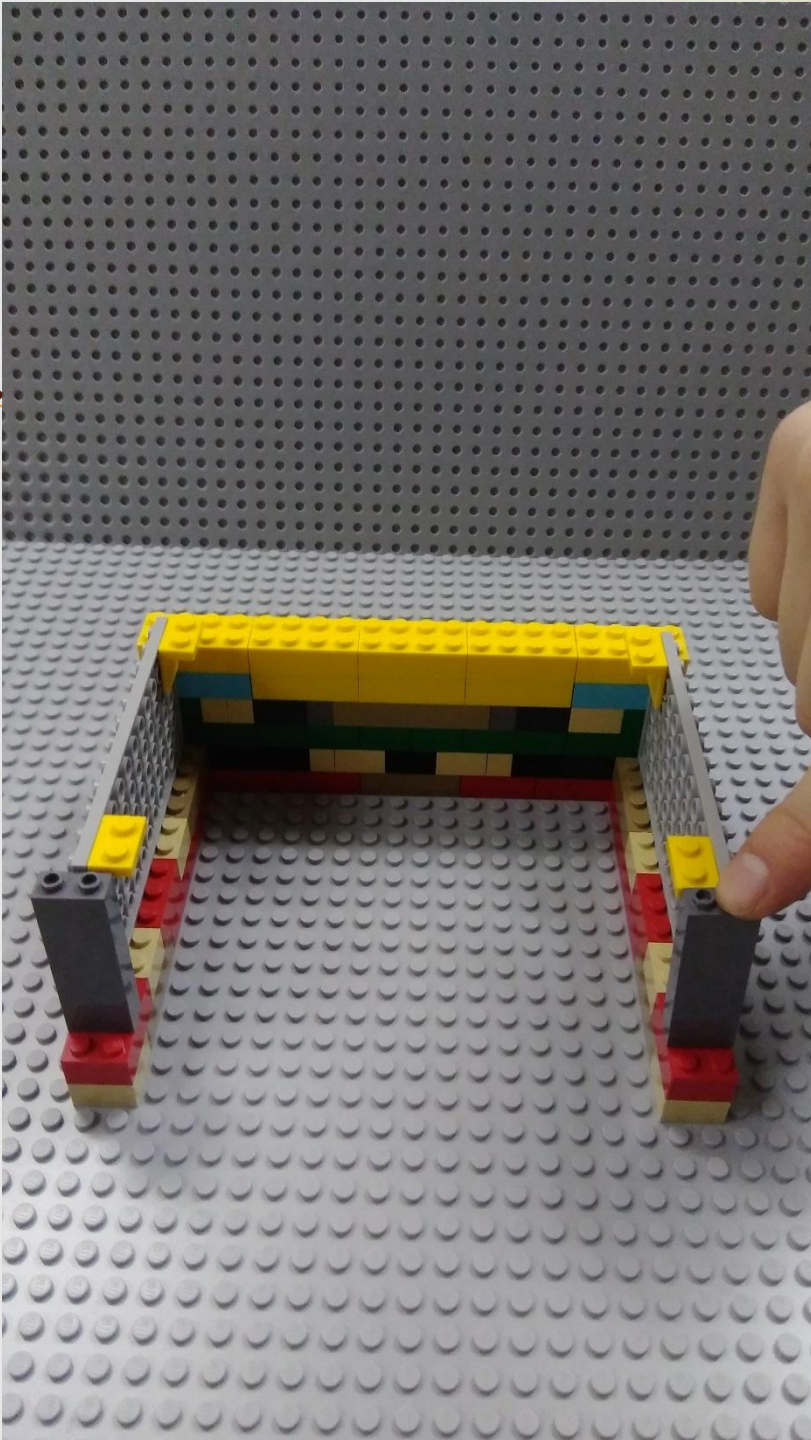

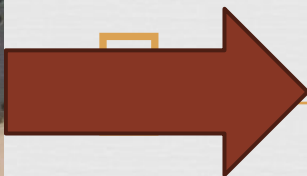

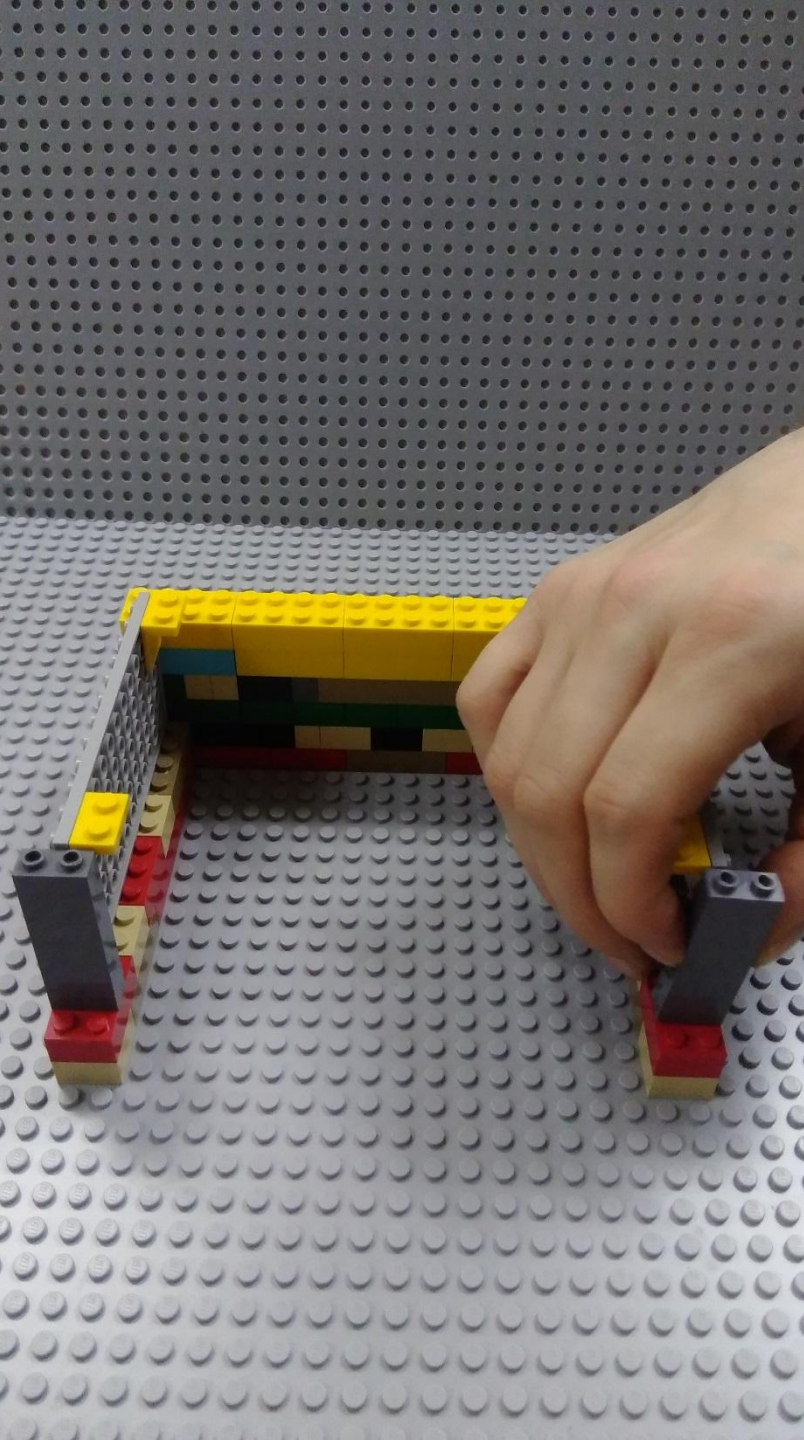

Таких пластин  
надо сделать 2  
штуки

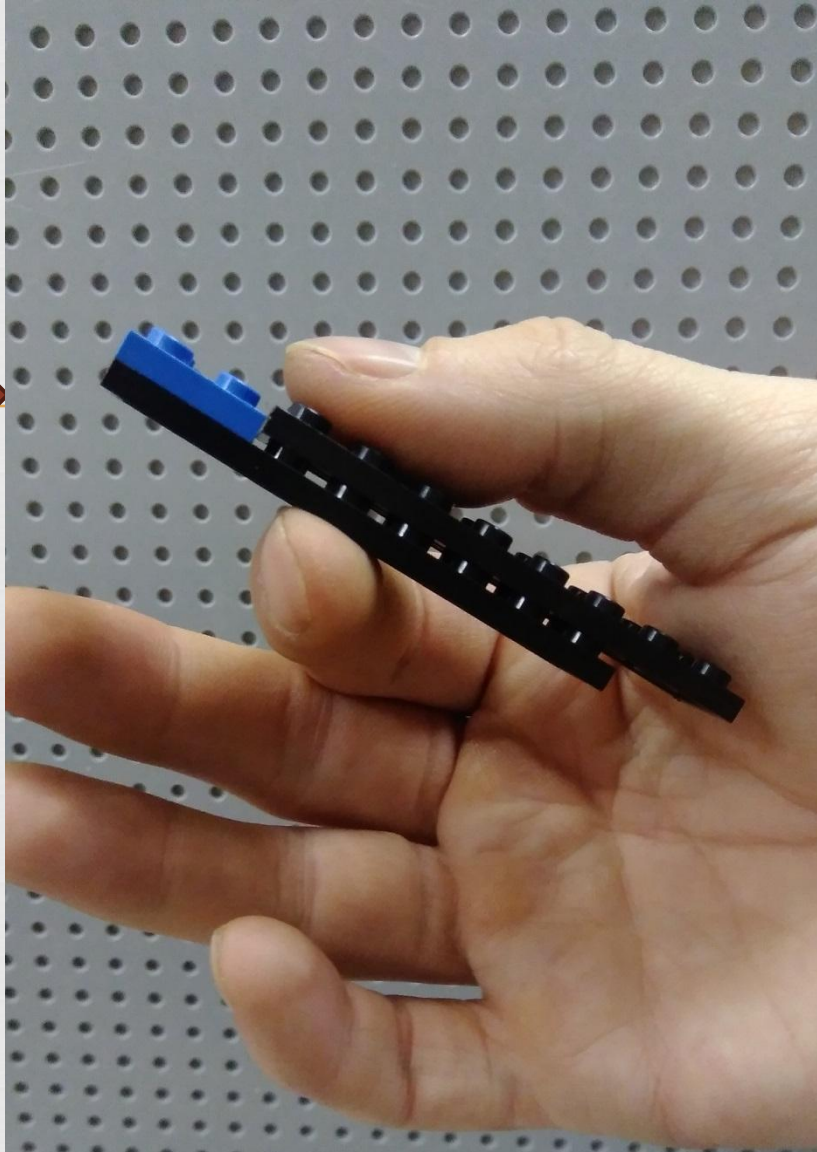

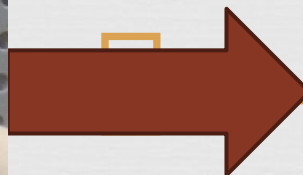

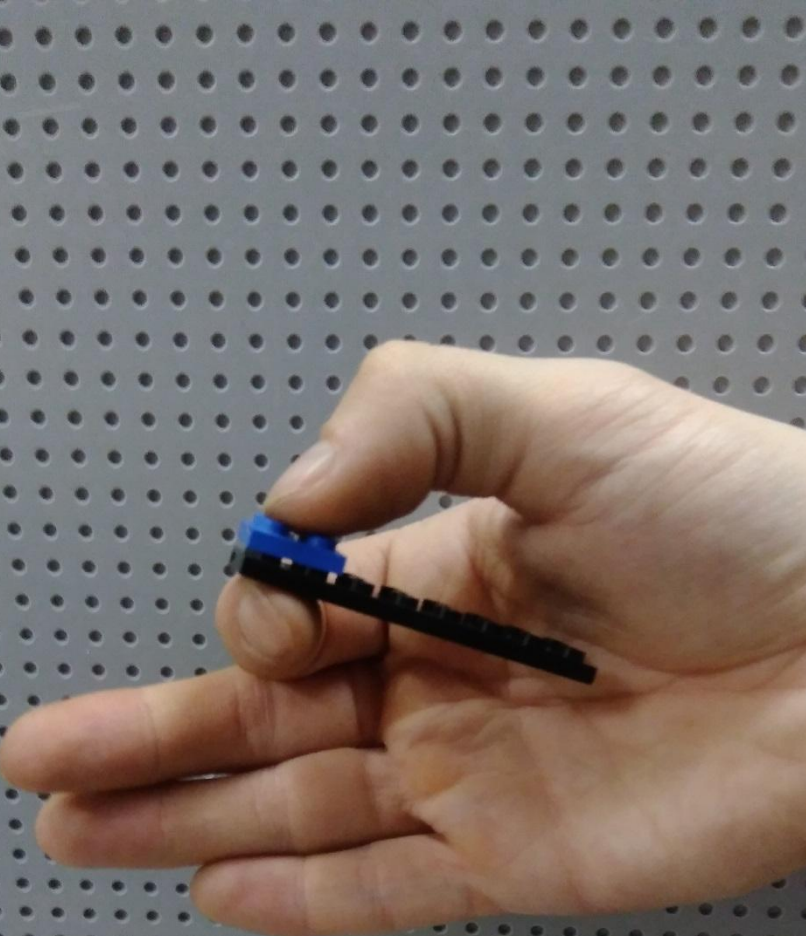

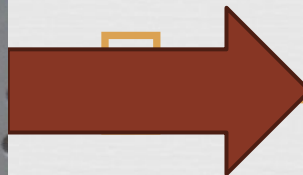

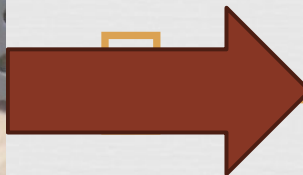

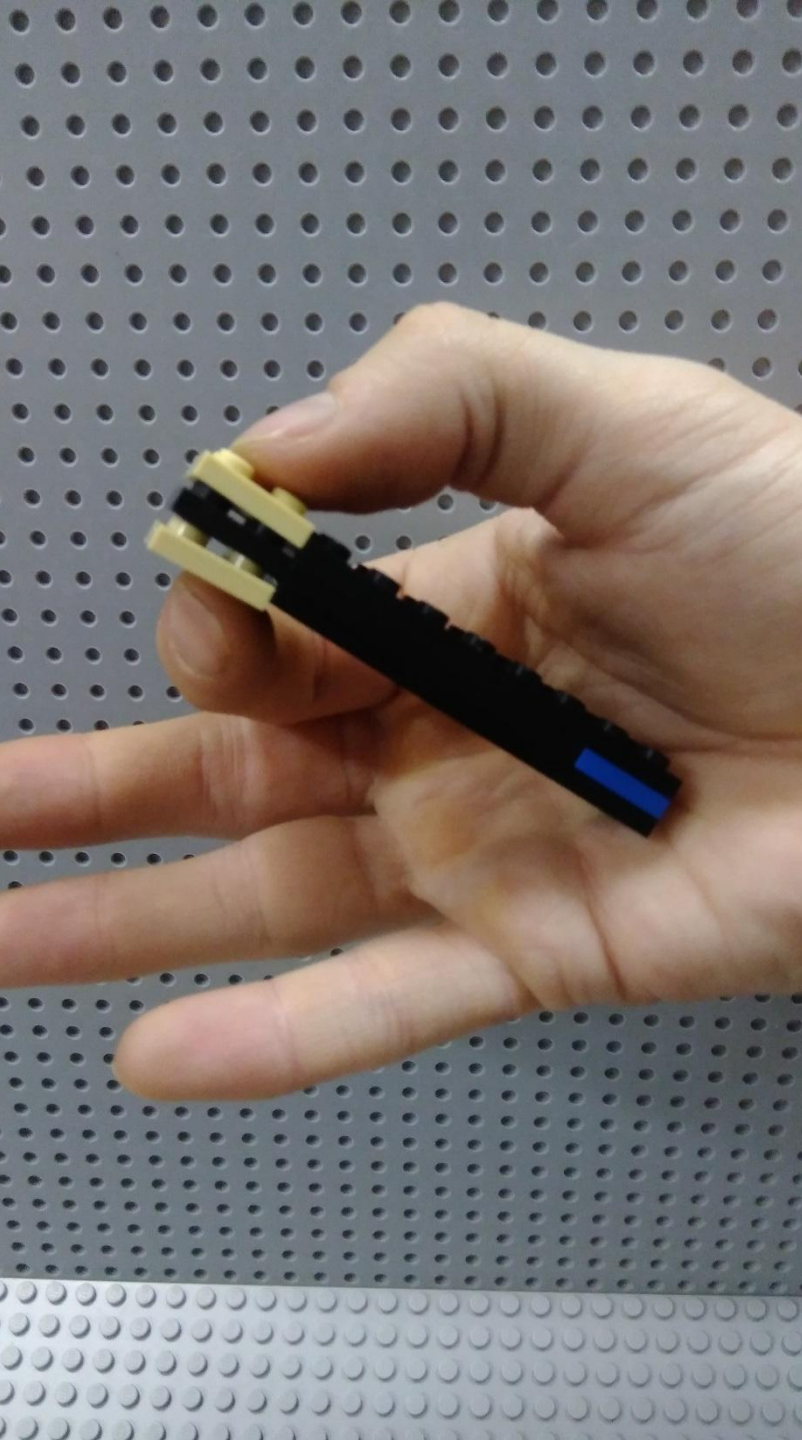

Устанавливаем 2 пластины  
ребром, между точек, в боковые

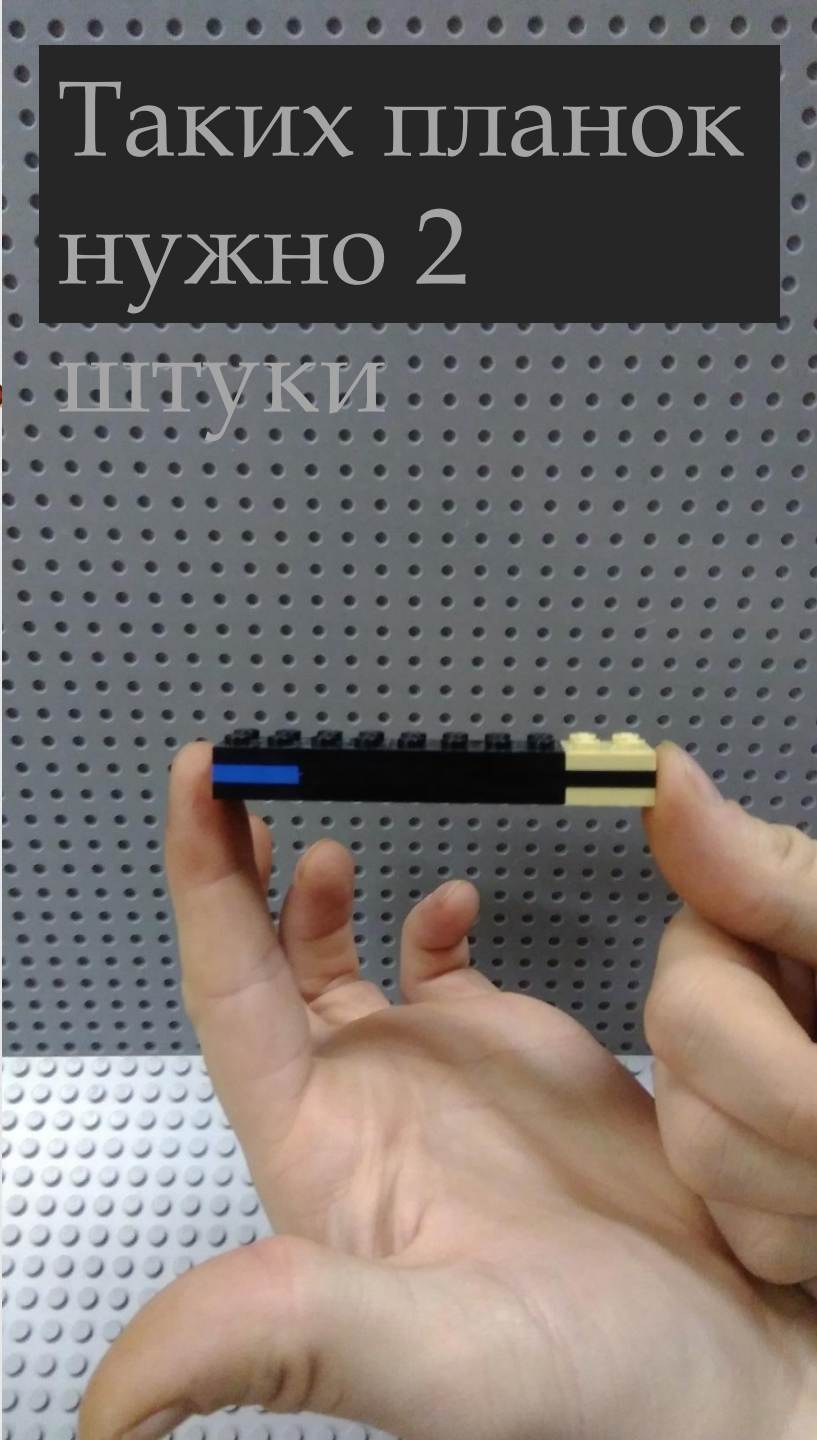

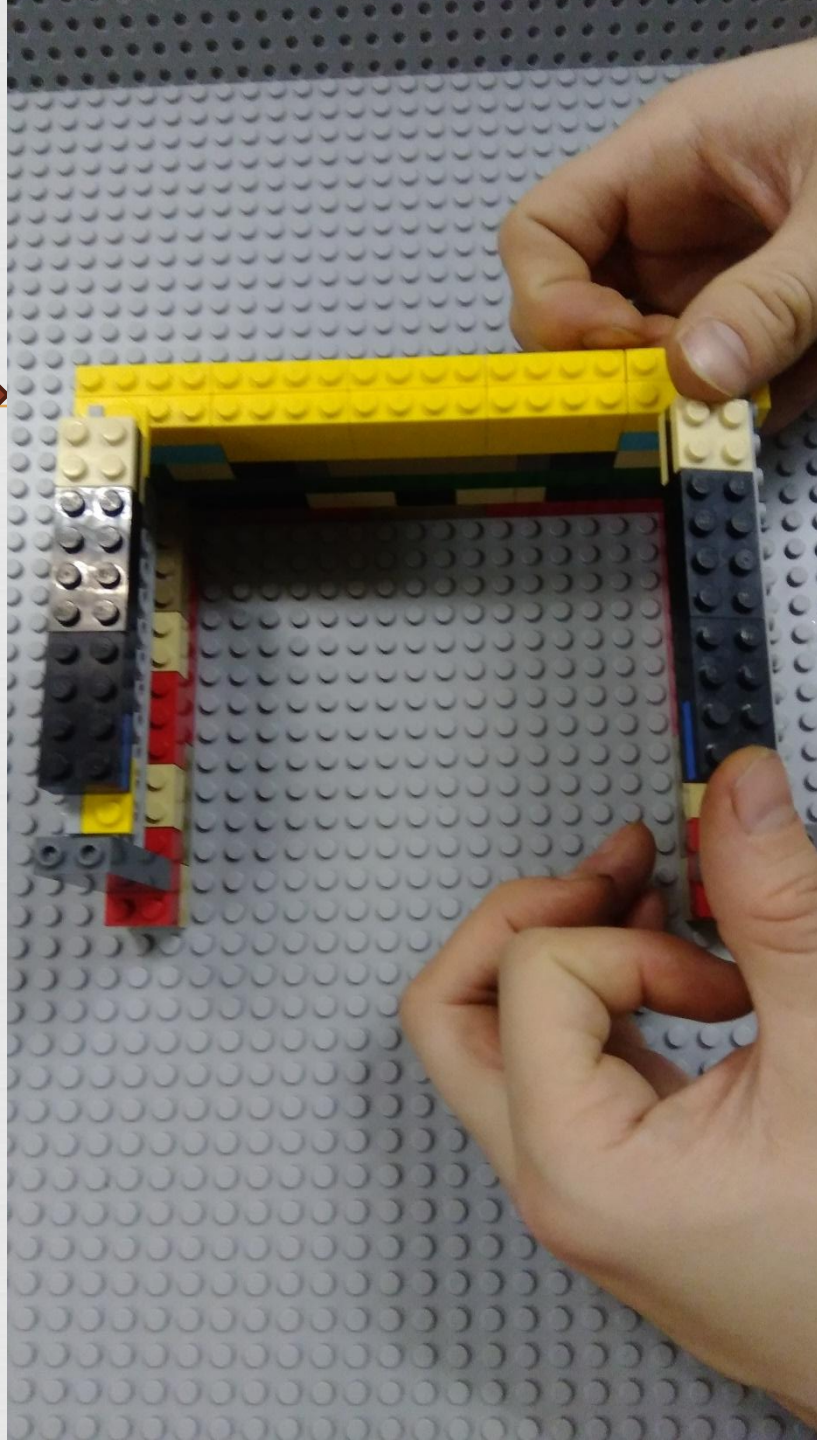

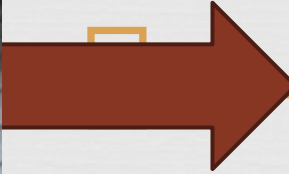

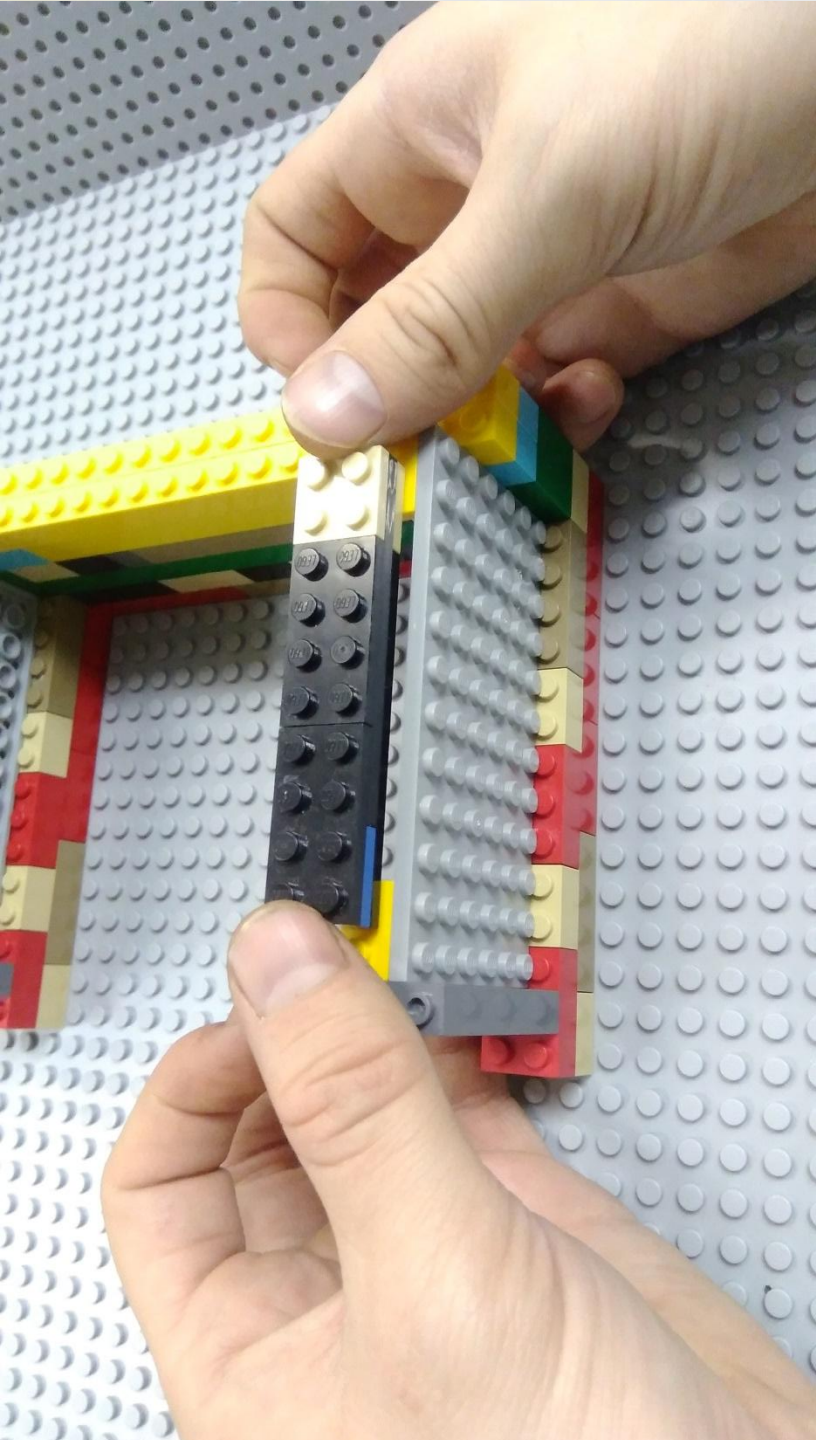

Ищем планку 8  
на 2 и собираем  
по инструкции

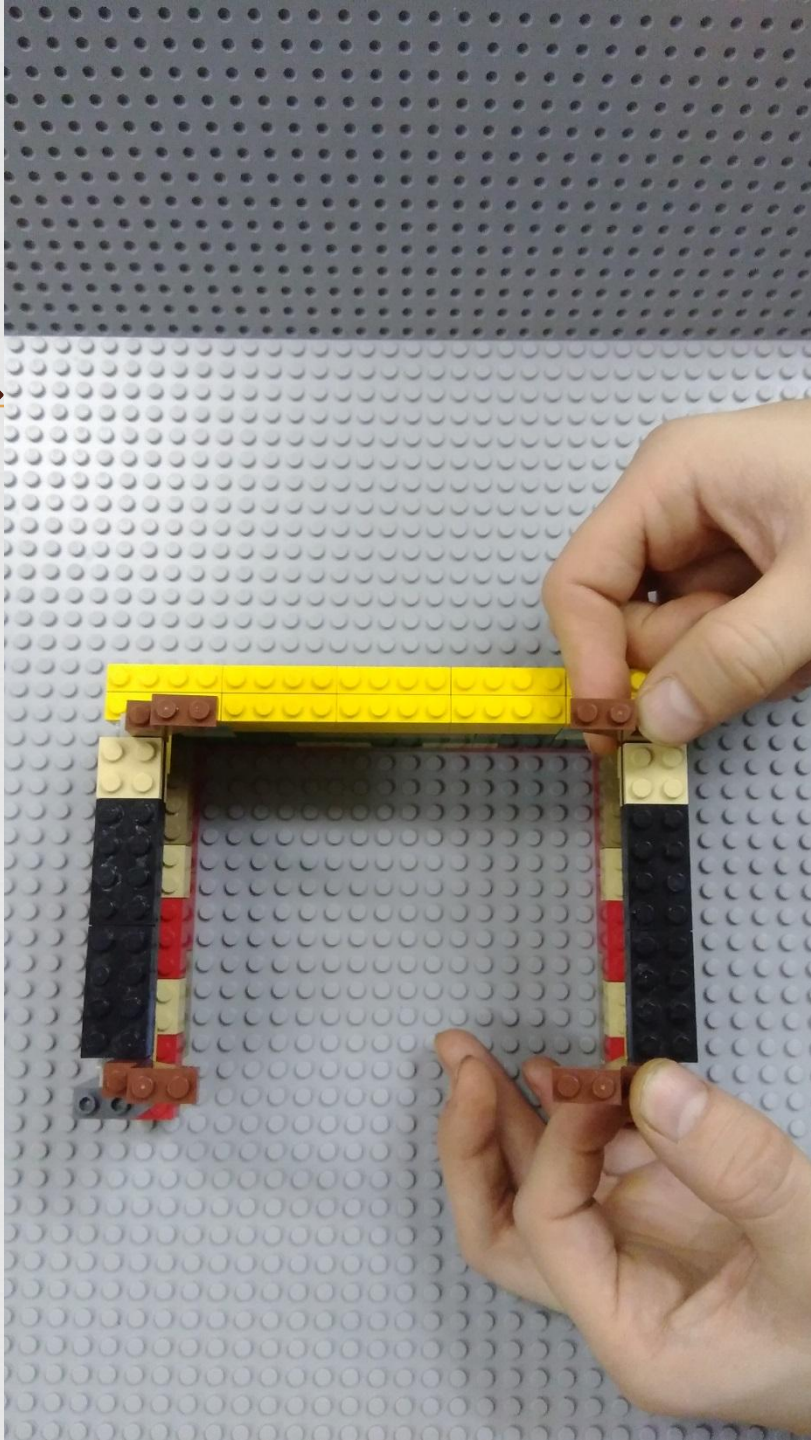

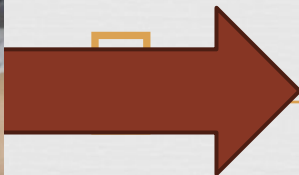

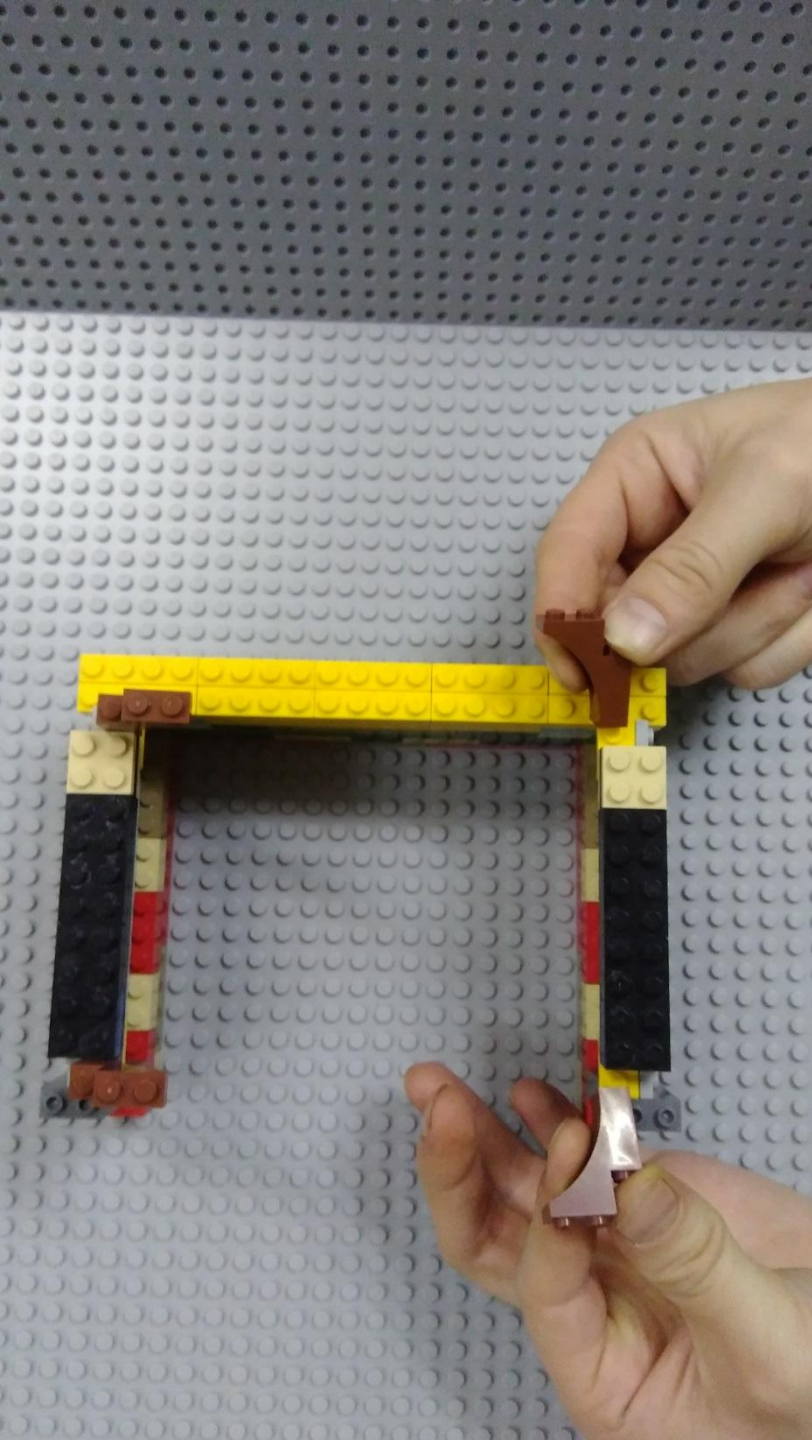

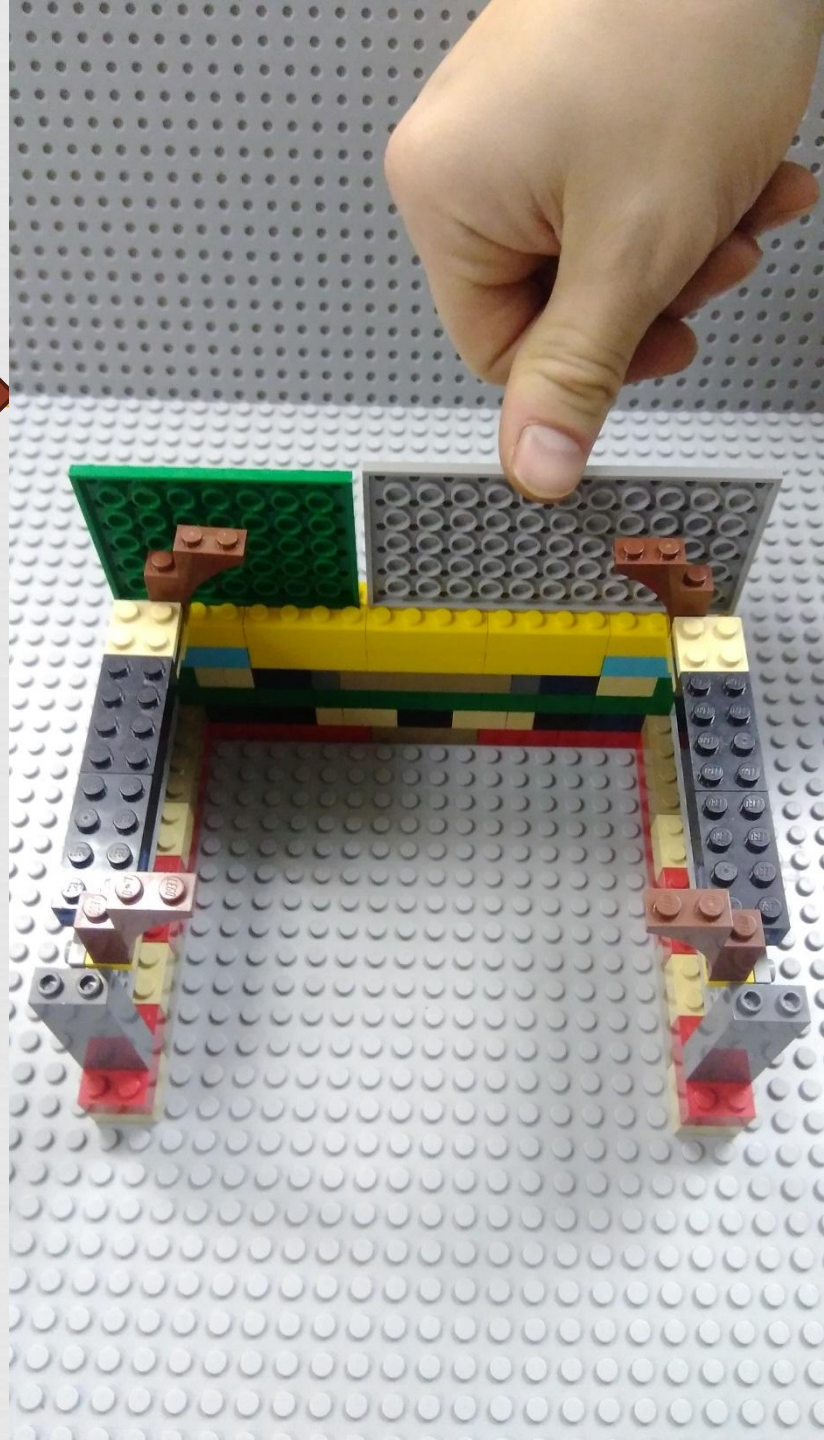

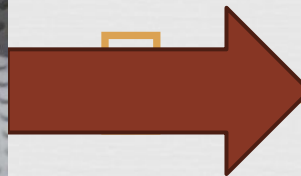

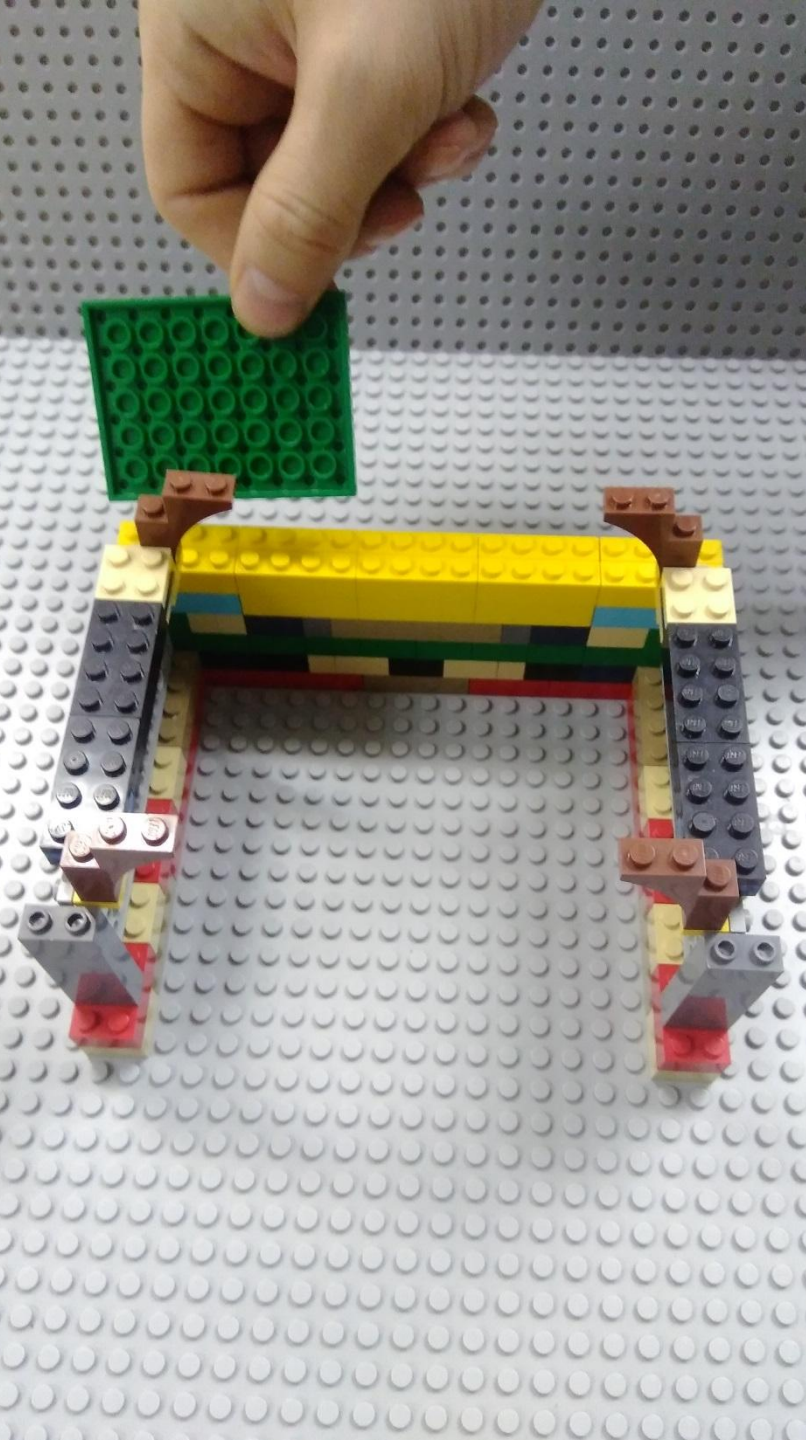

Таких планок  
нужно 2  
штуки

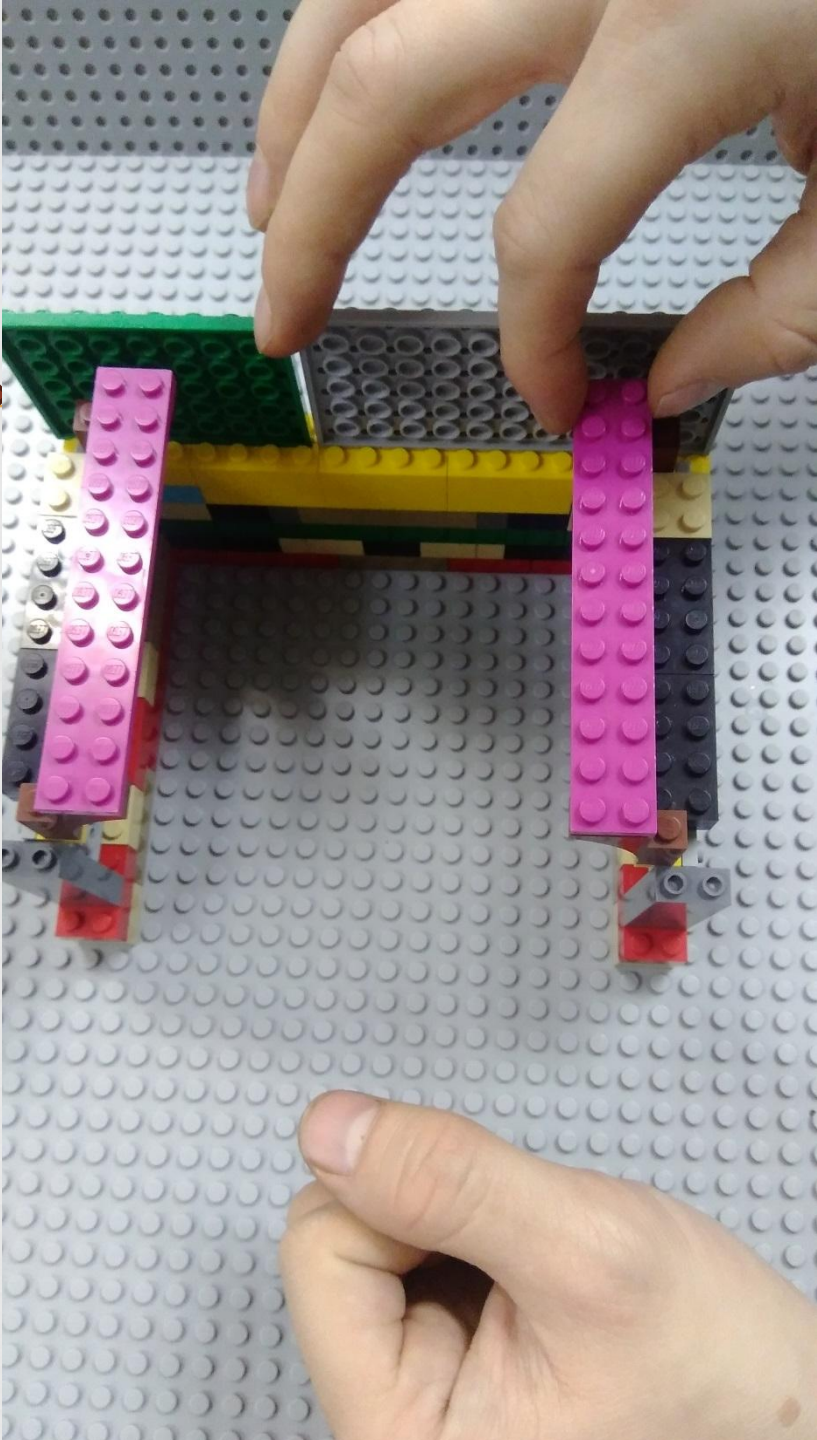

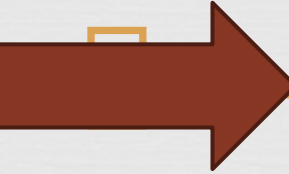

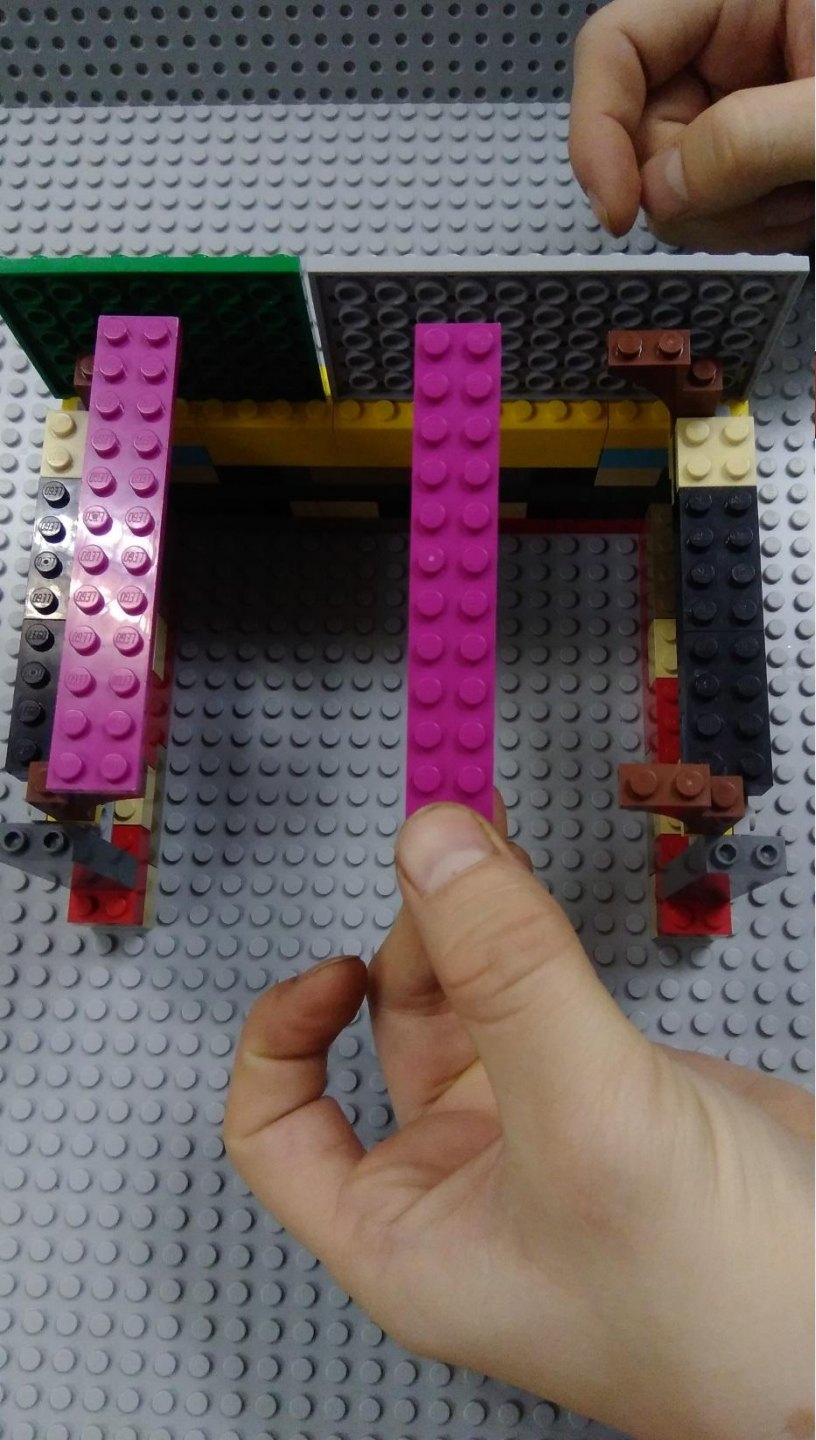

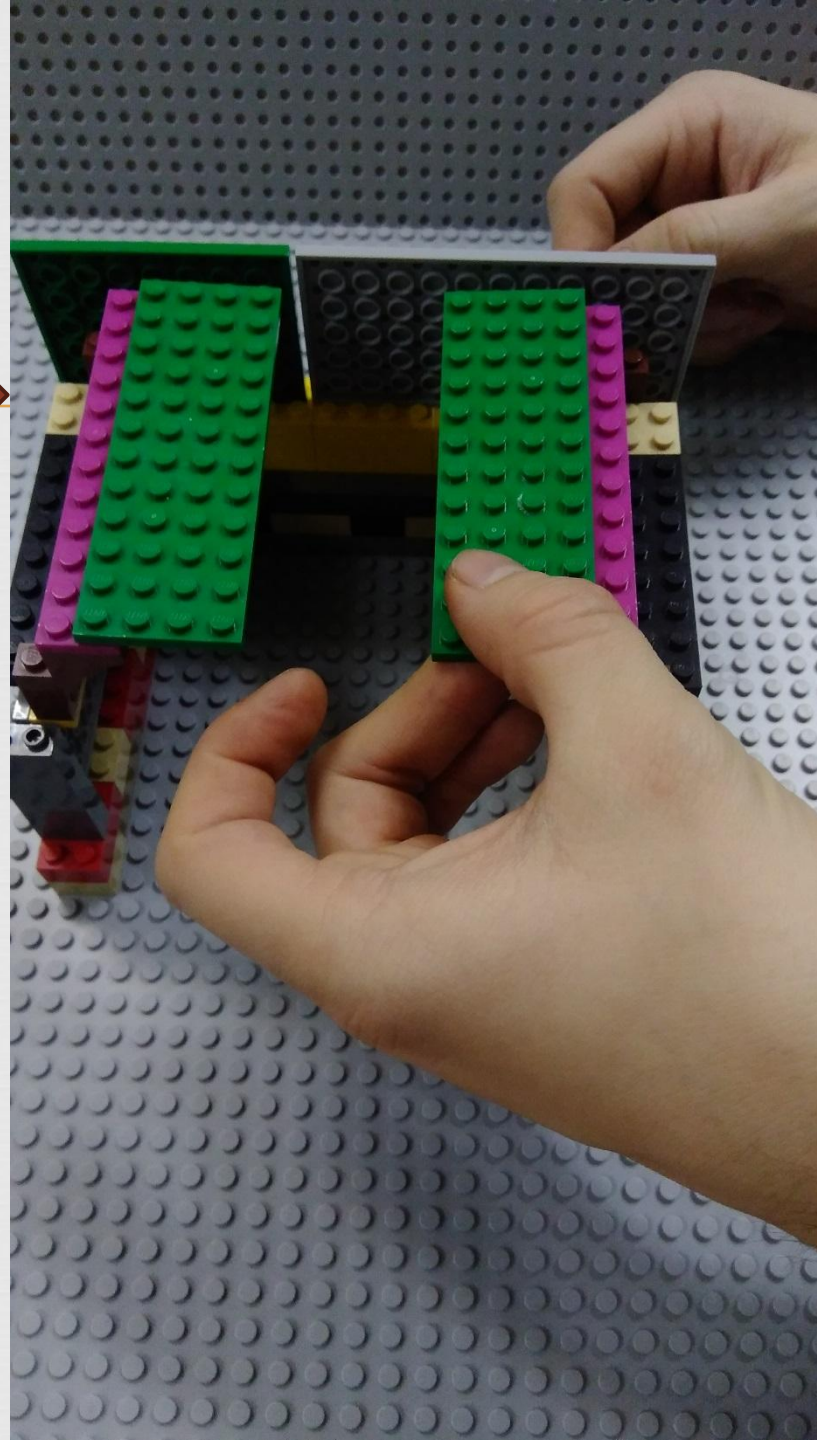

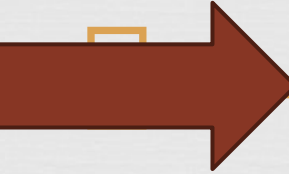

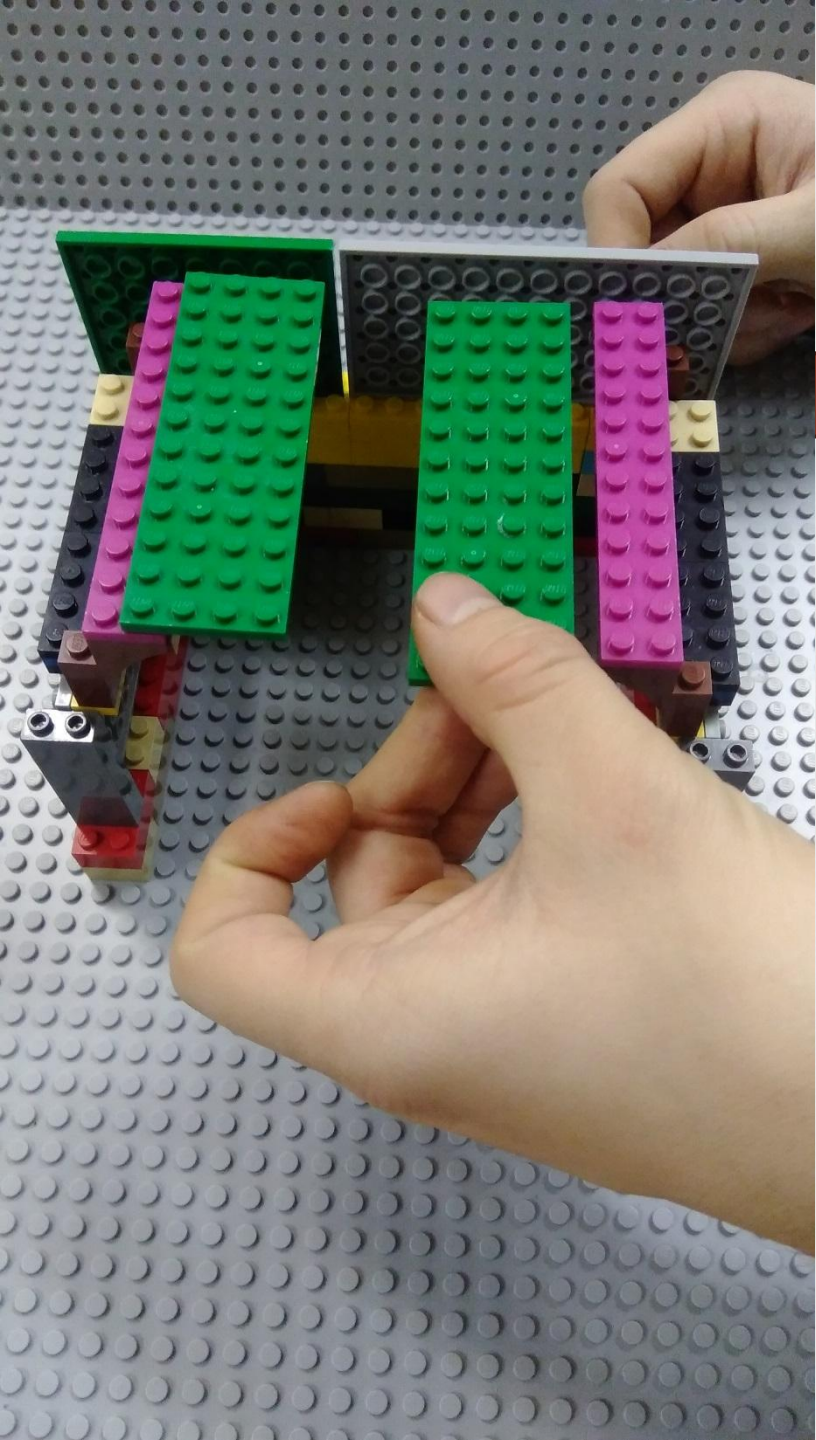

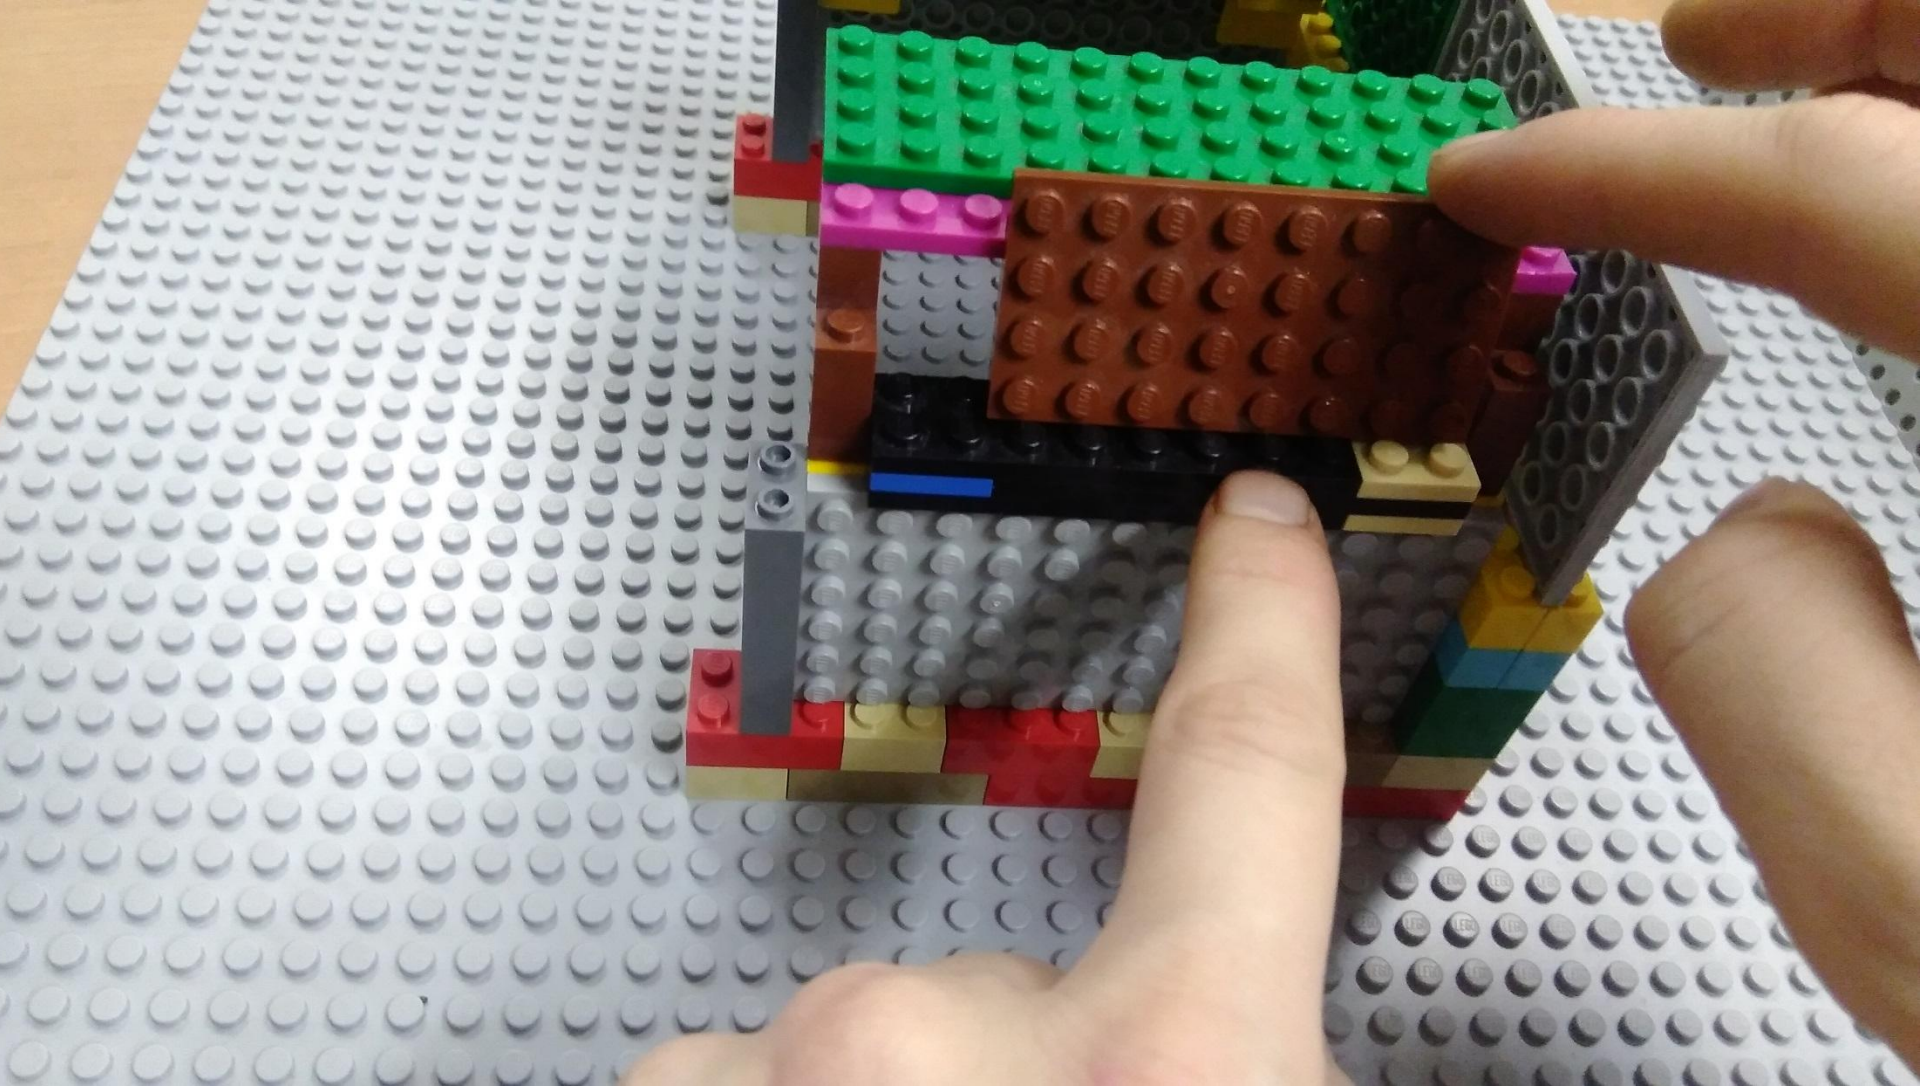

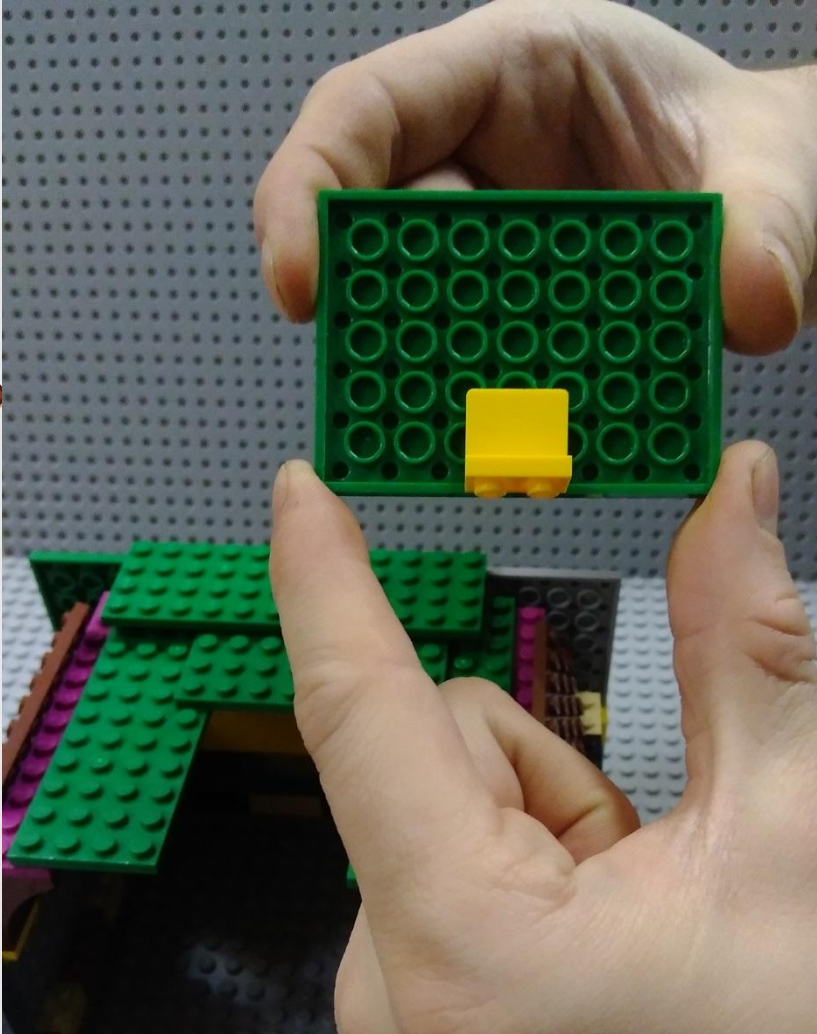

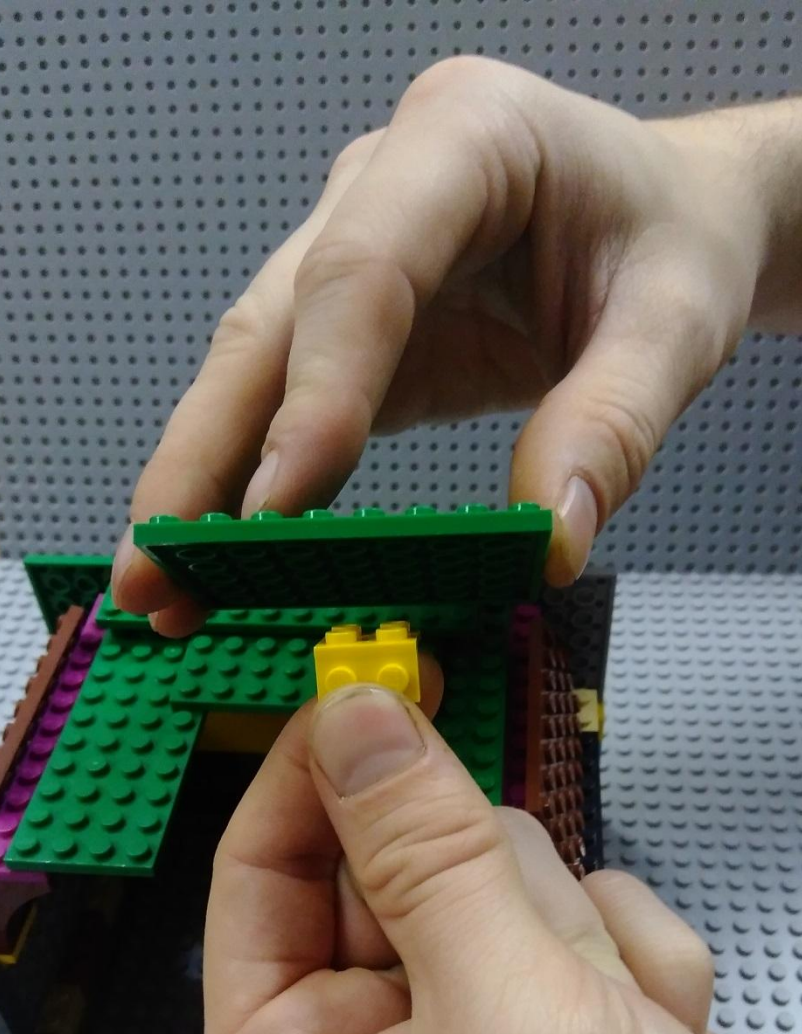

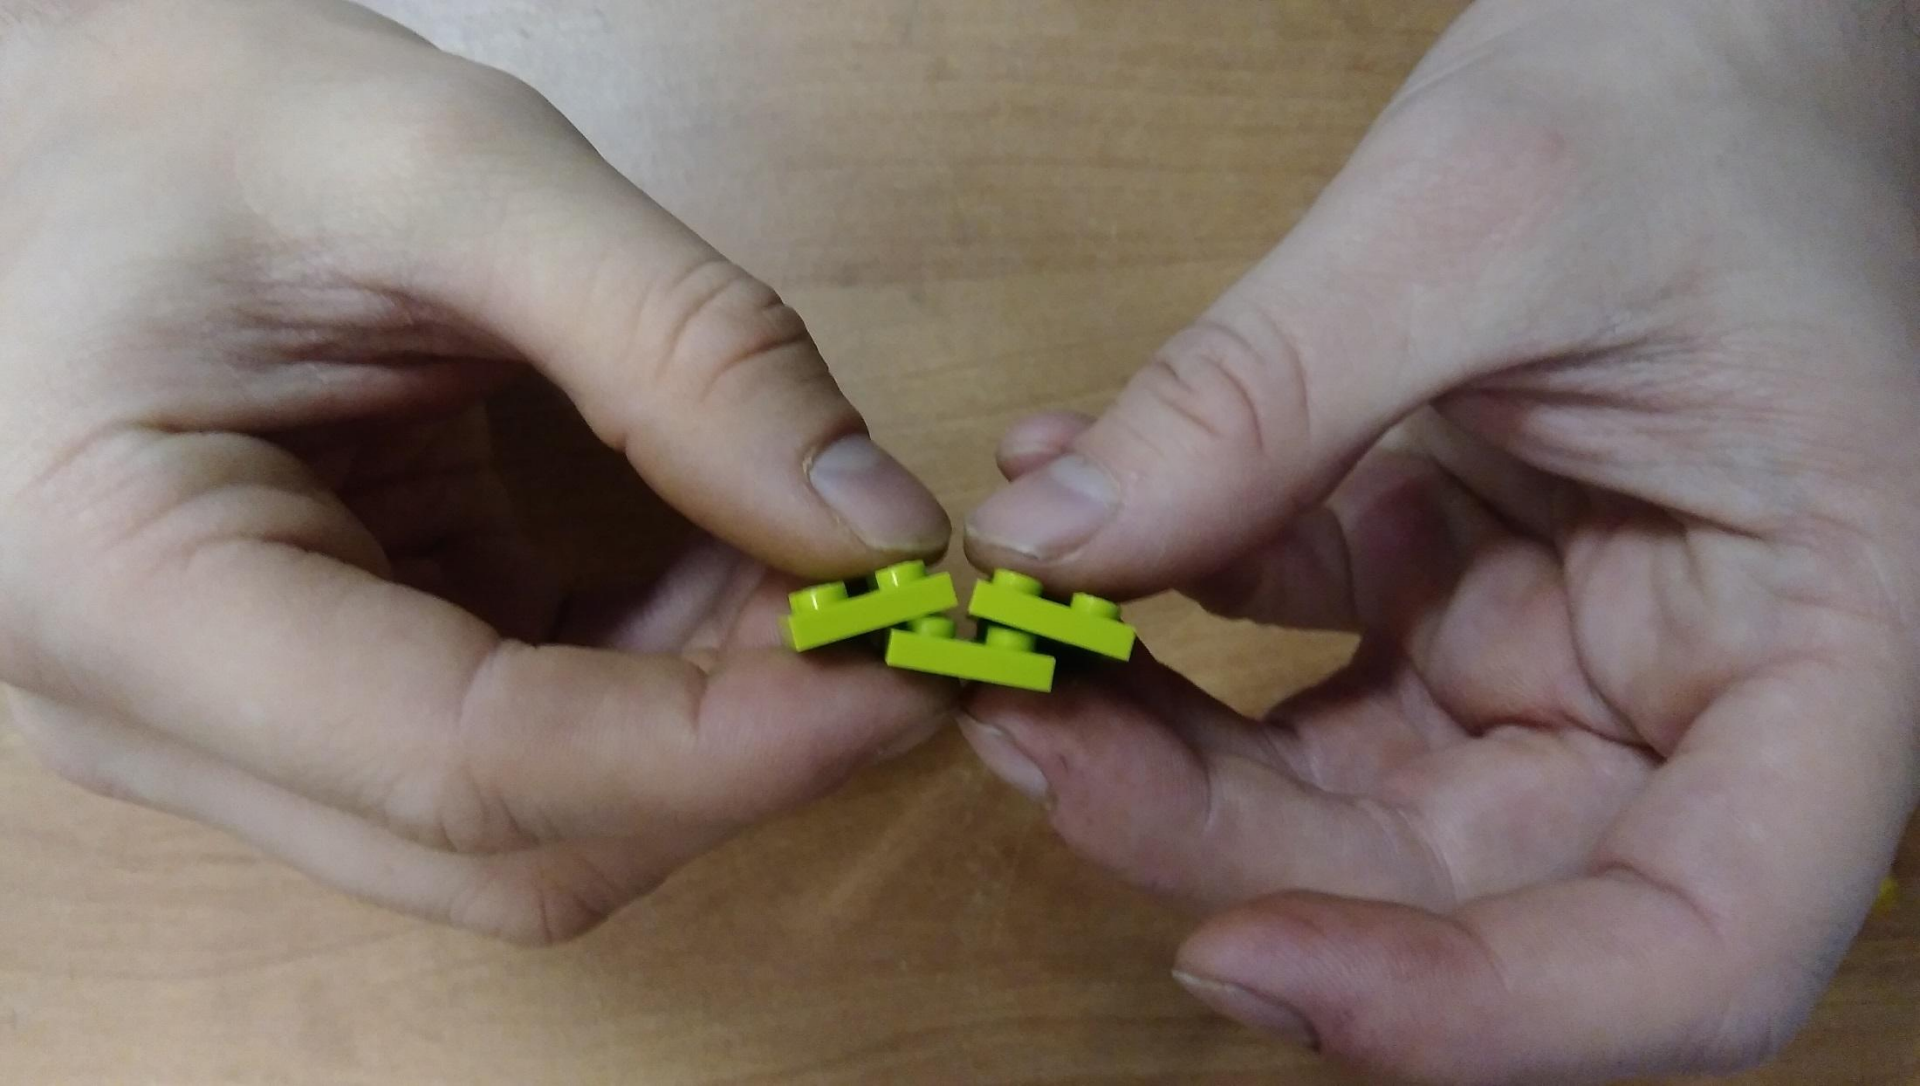

Прикладываем ребром, как показано на слайде, пластину 4 на 8, не прижимая и не фиксируя между точек!

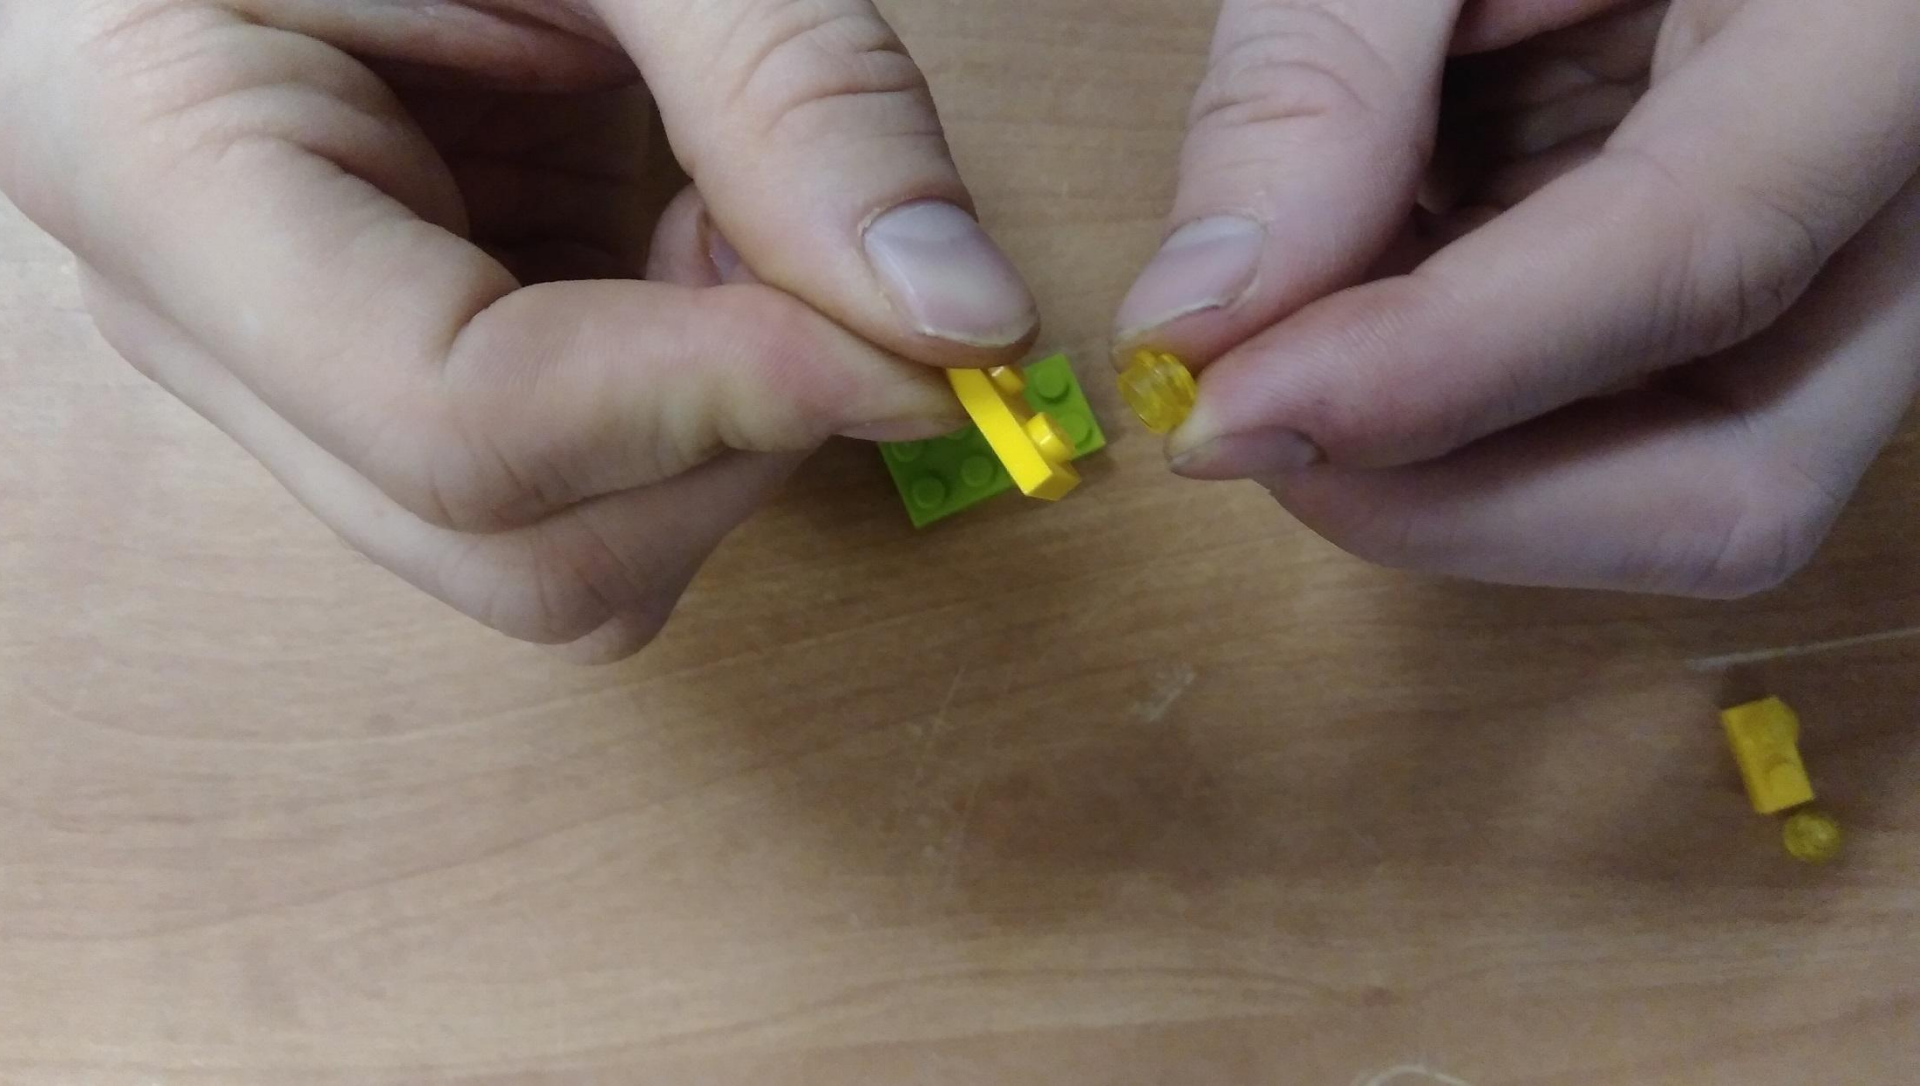

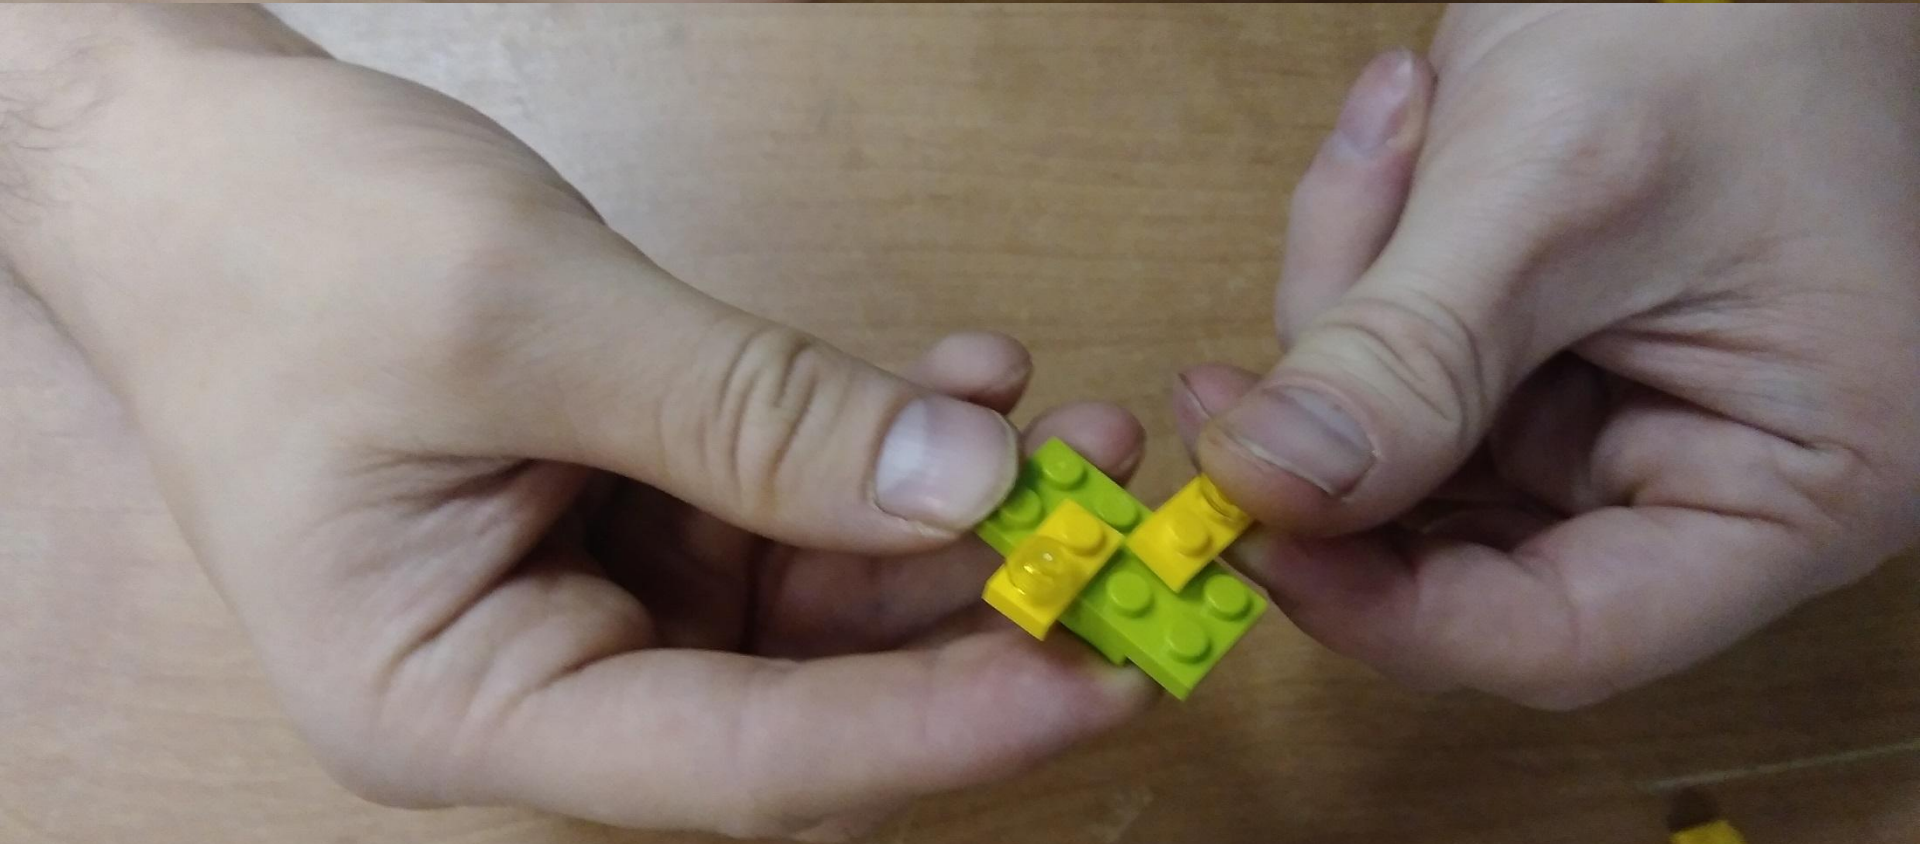

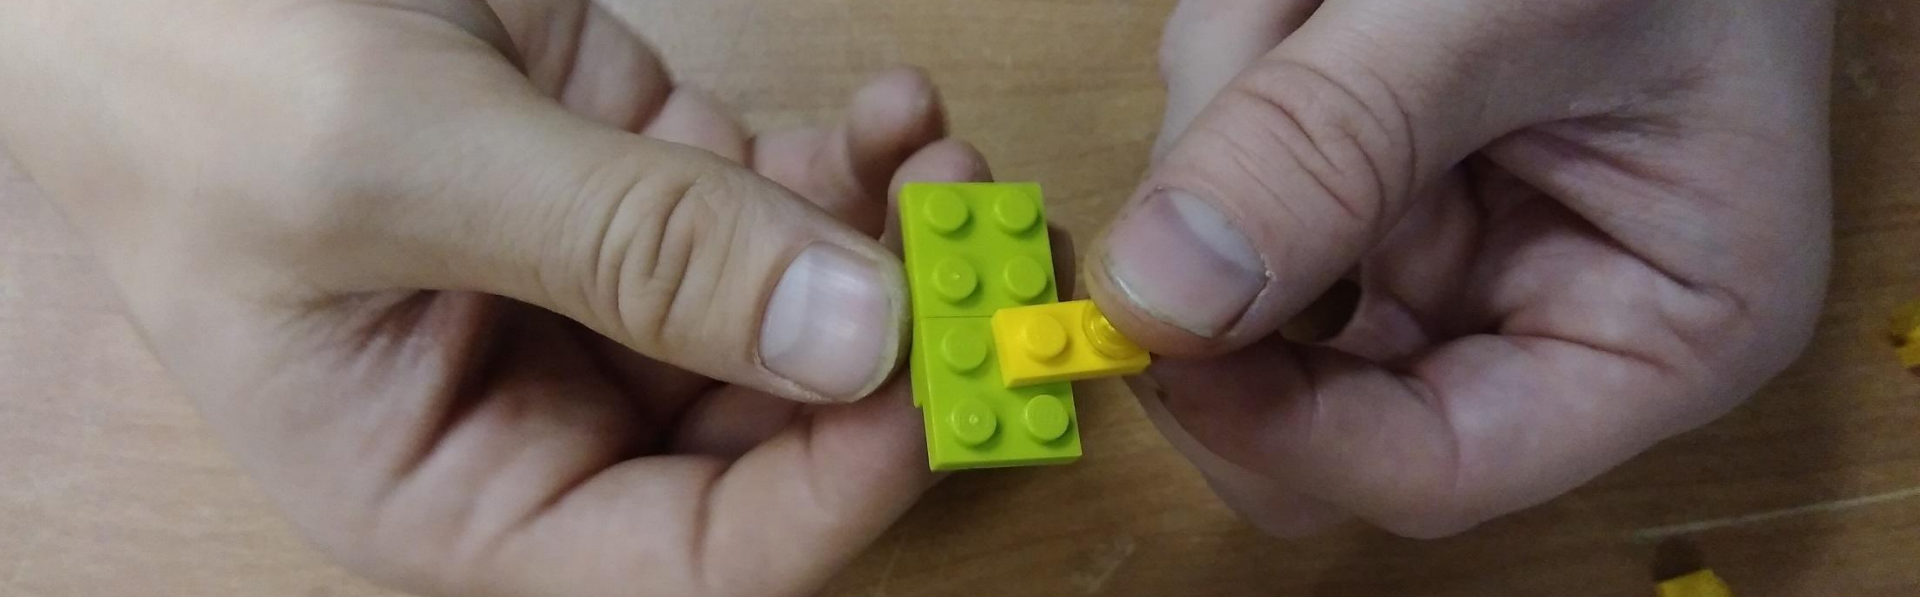

К пластине 6 на 8  
крепится боковые  
соединители  
желтого цвета

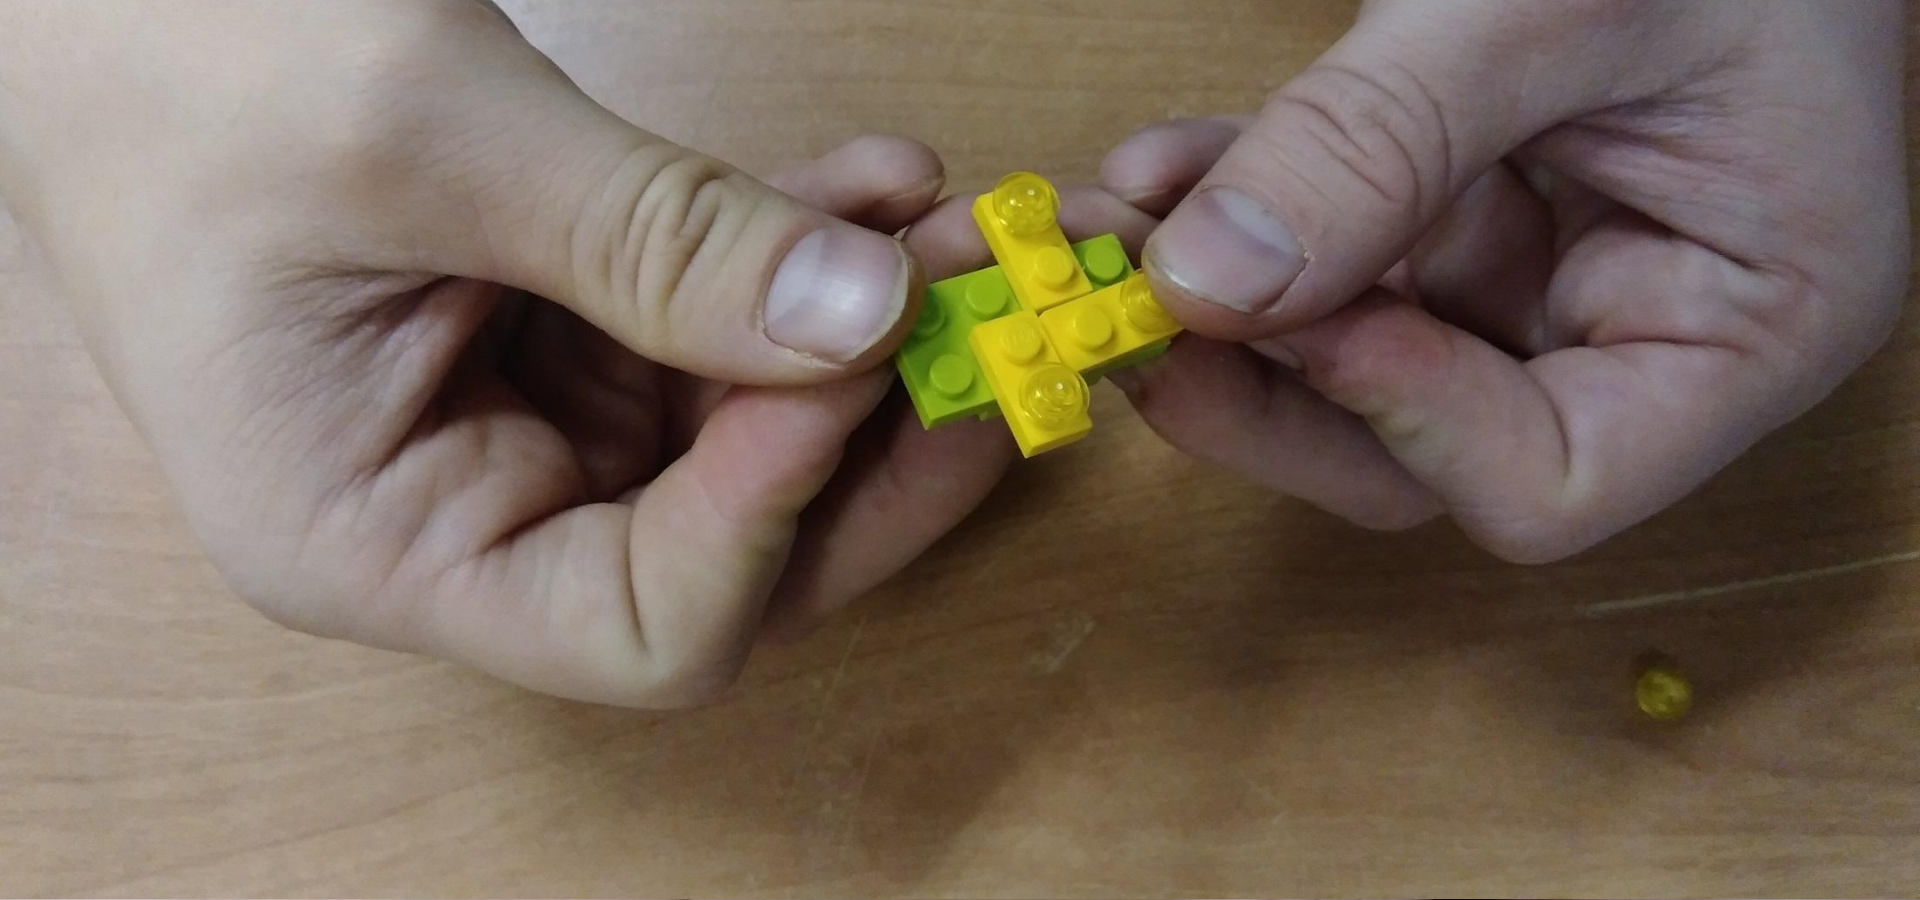

Из трёх планок 2 на 2 делаем  
пирамиду, точками вниз

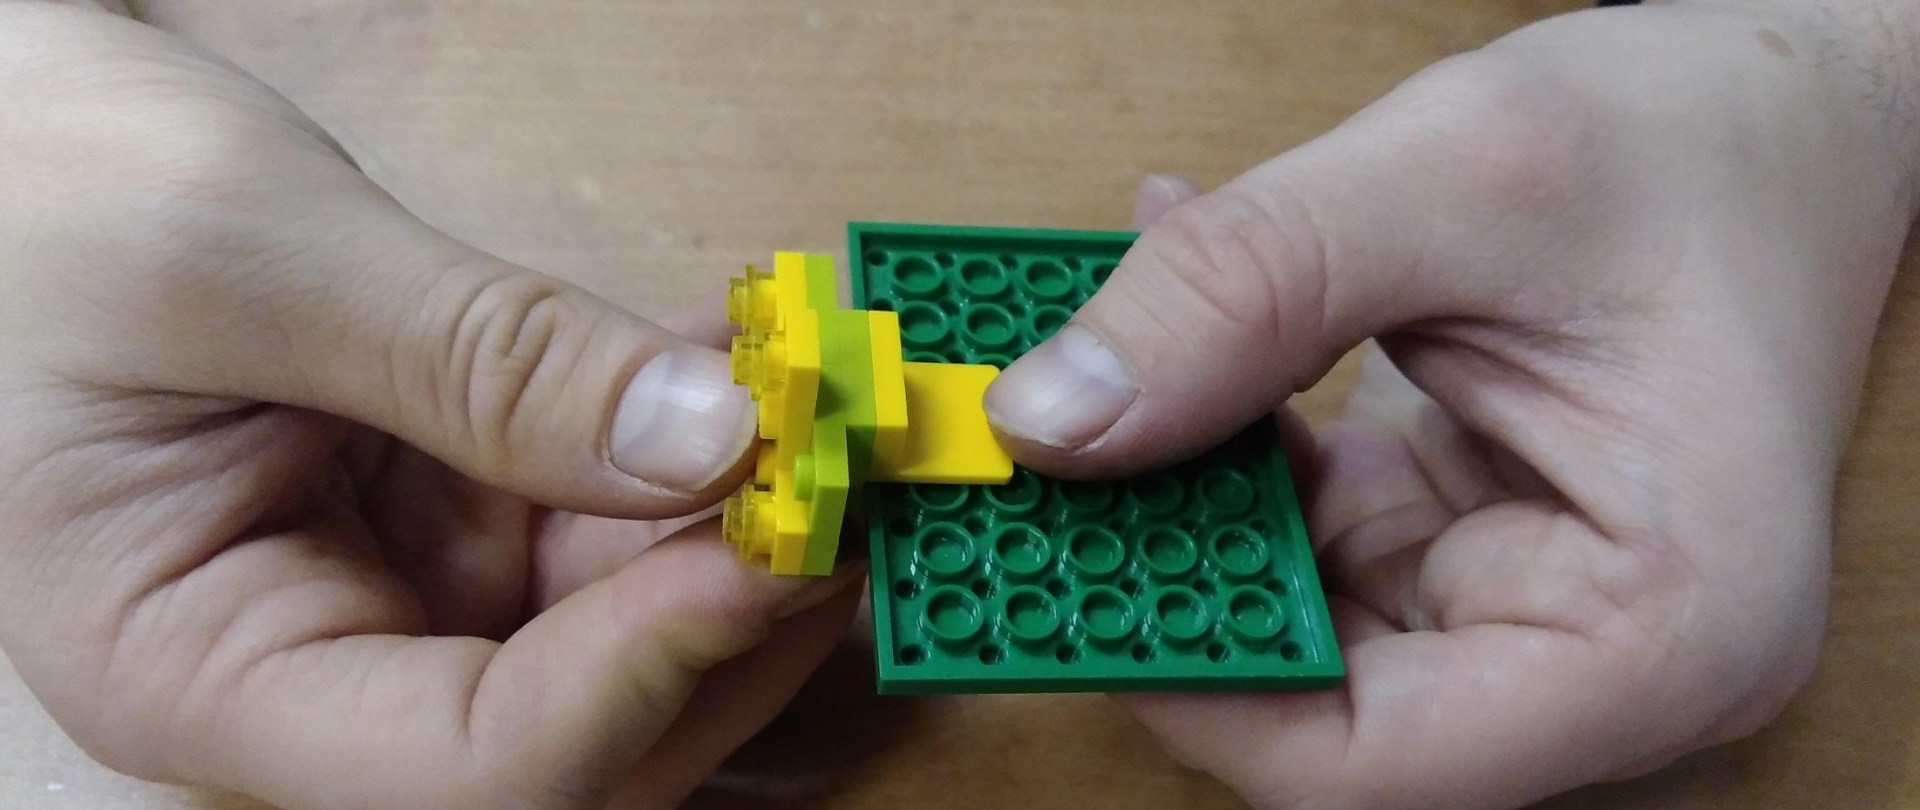

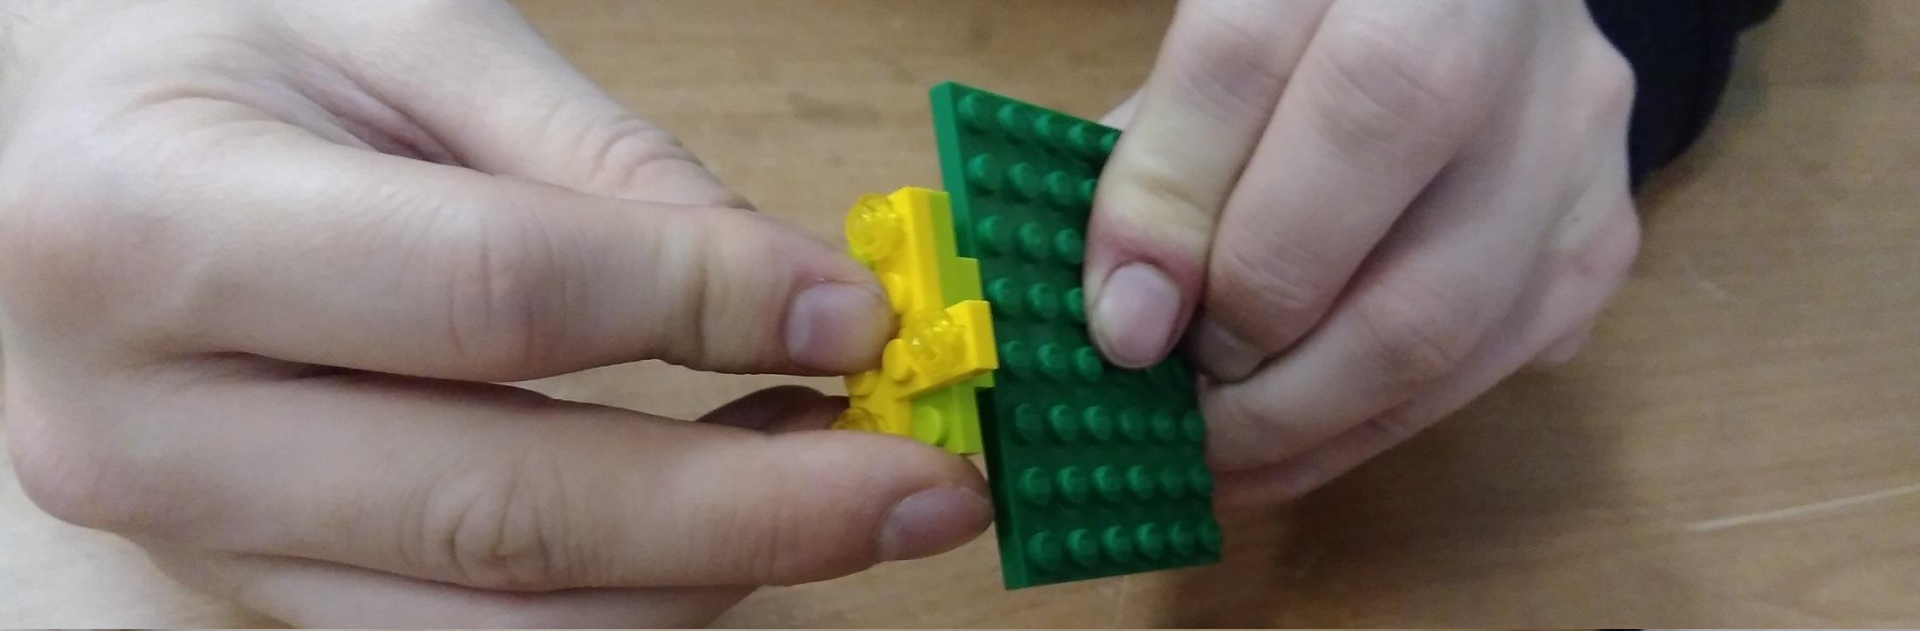

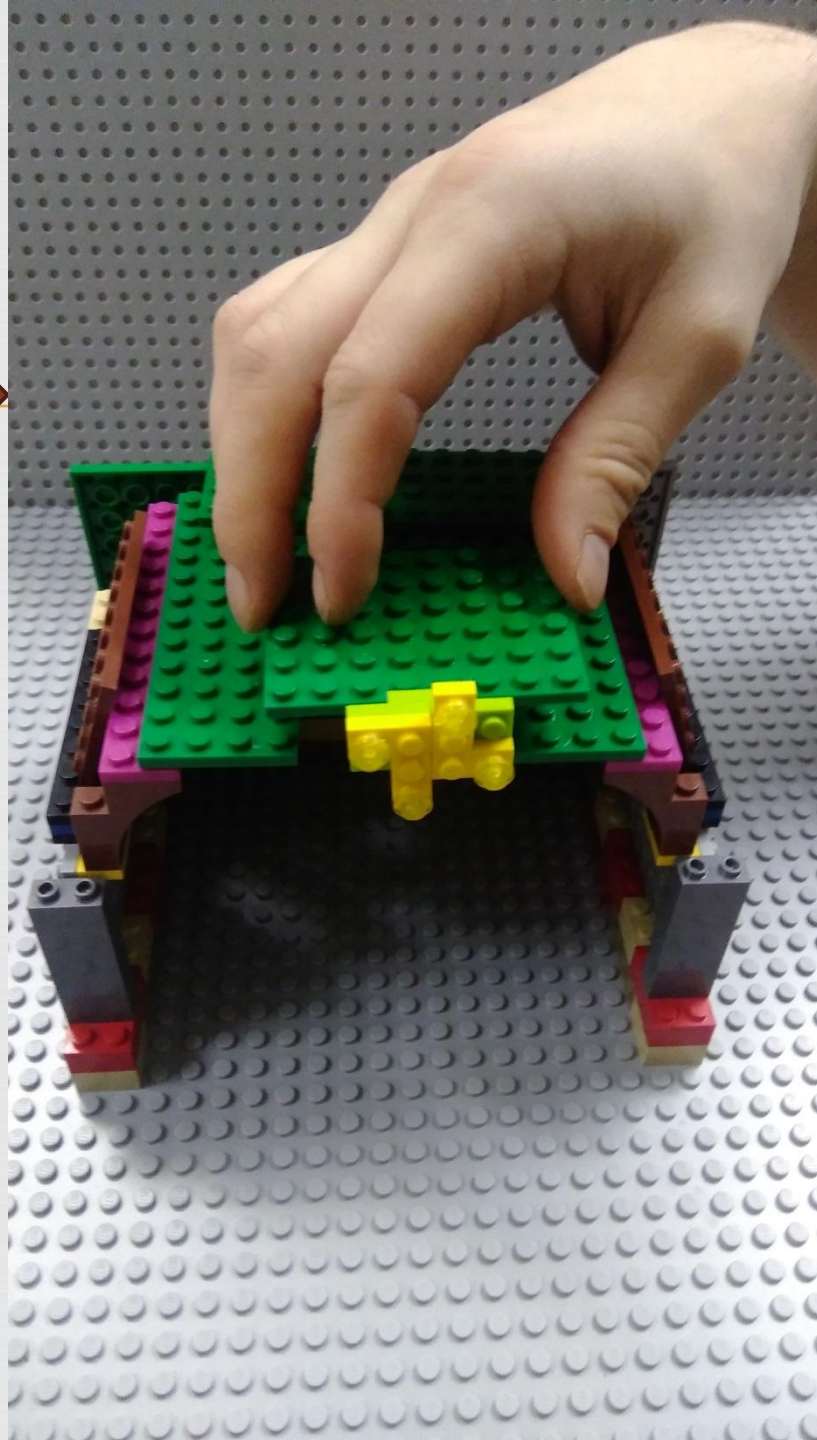

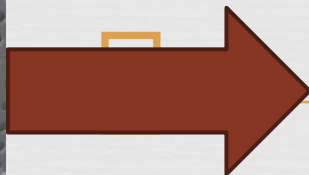

К четырем планкам с двумя точками  
крепим четыре прозрачных, желтых  
ТОЧКИ

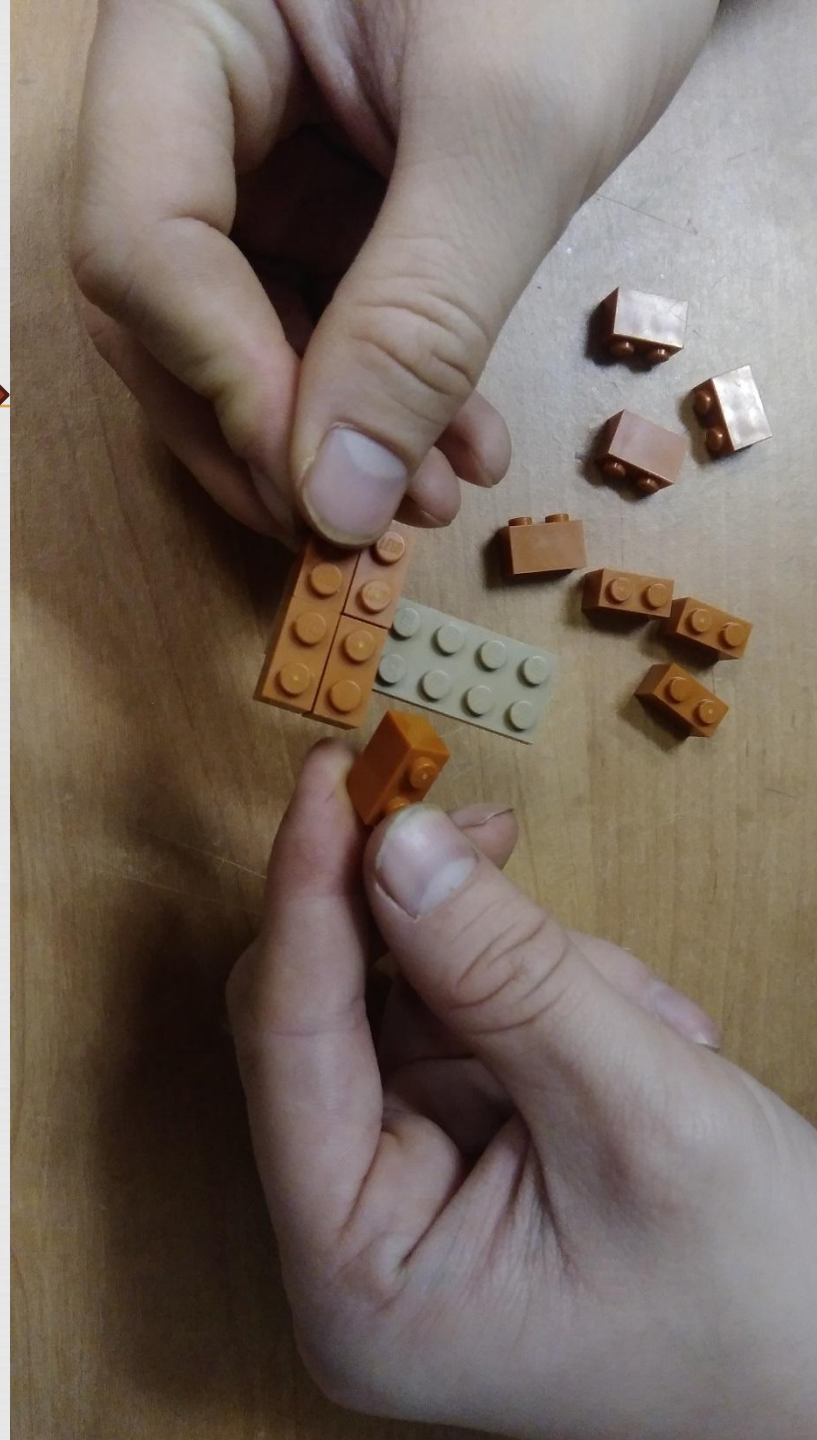

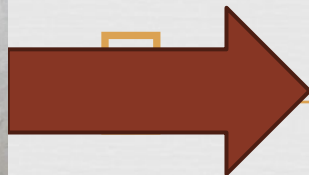

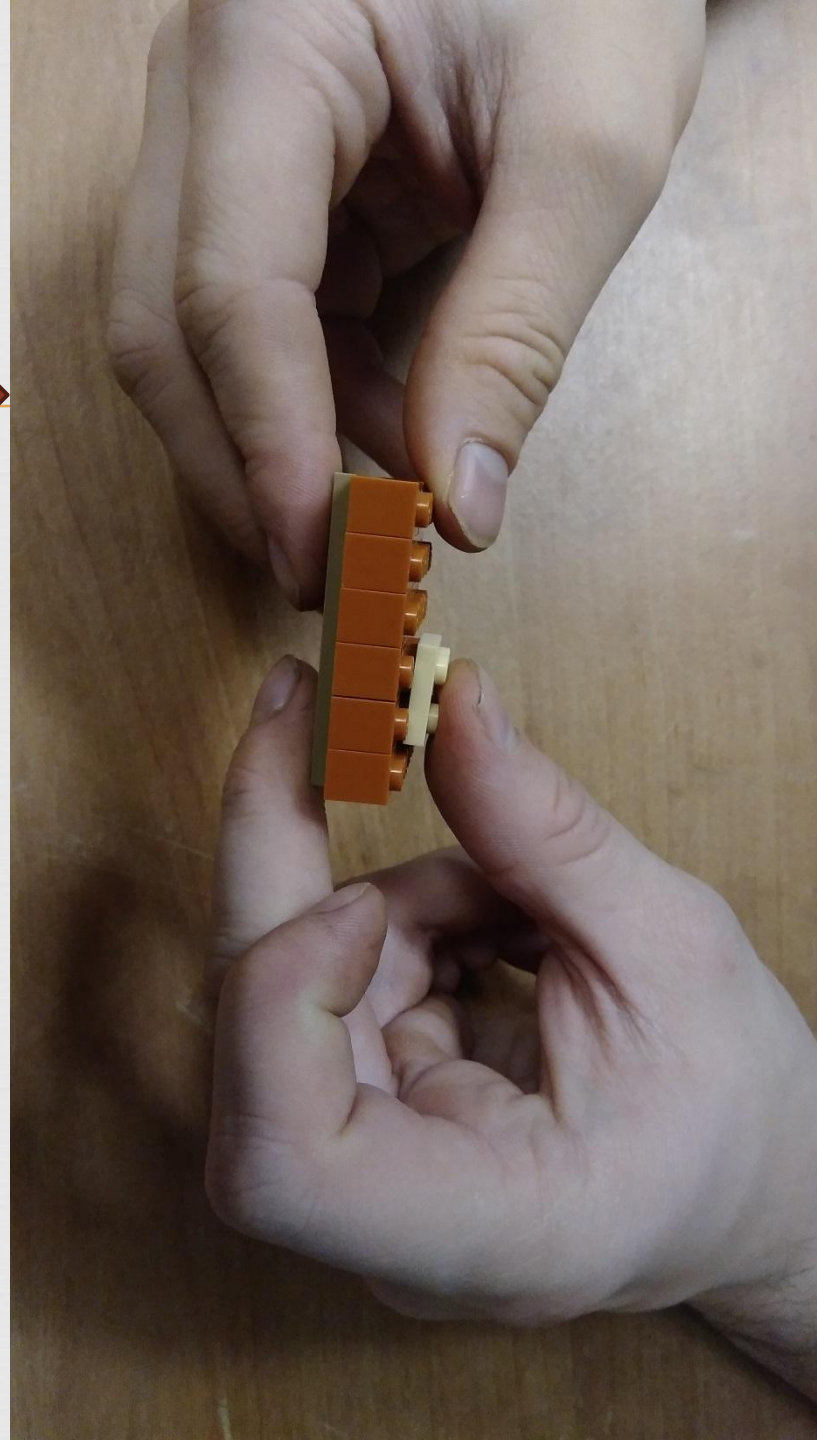

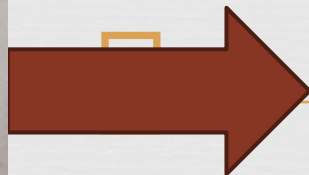

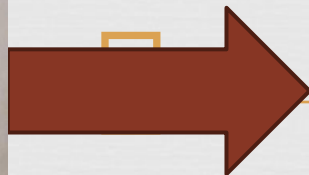

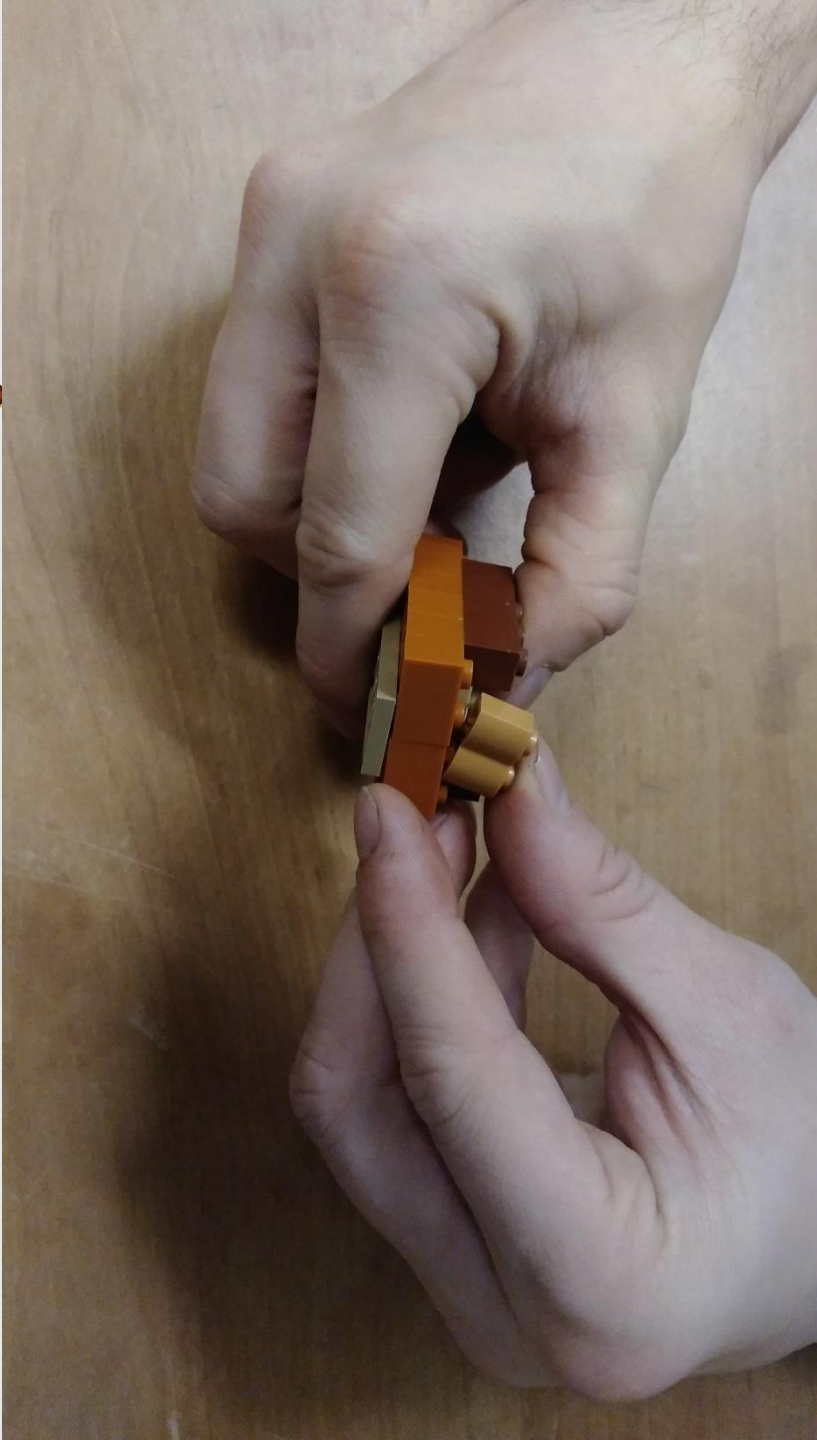

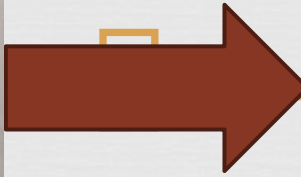

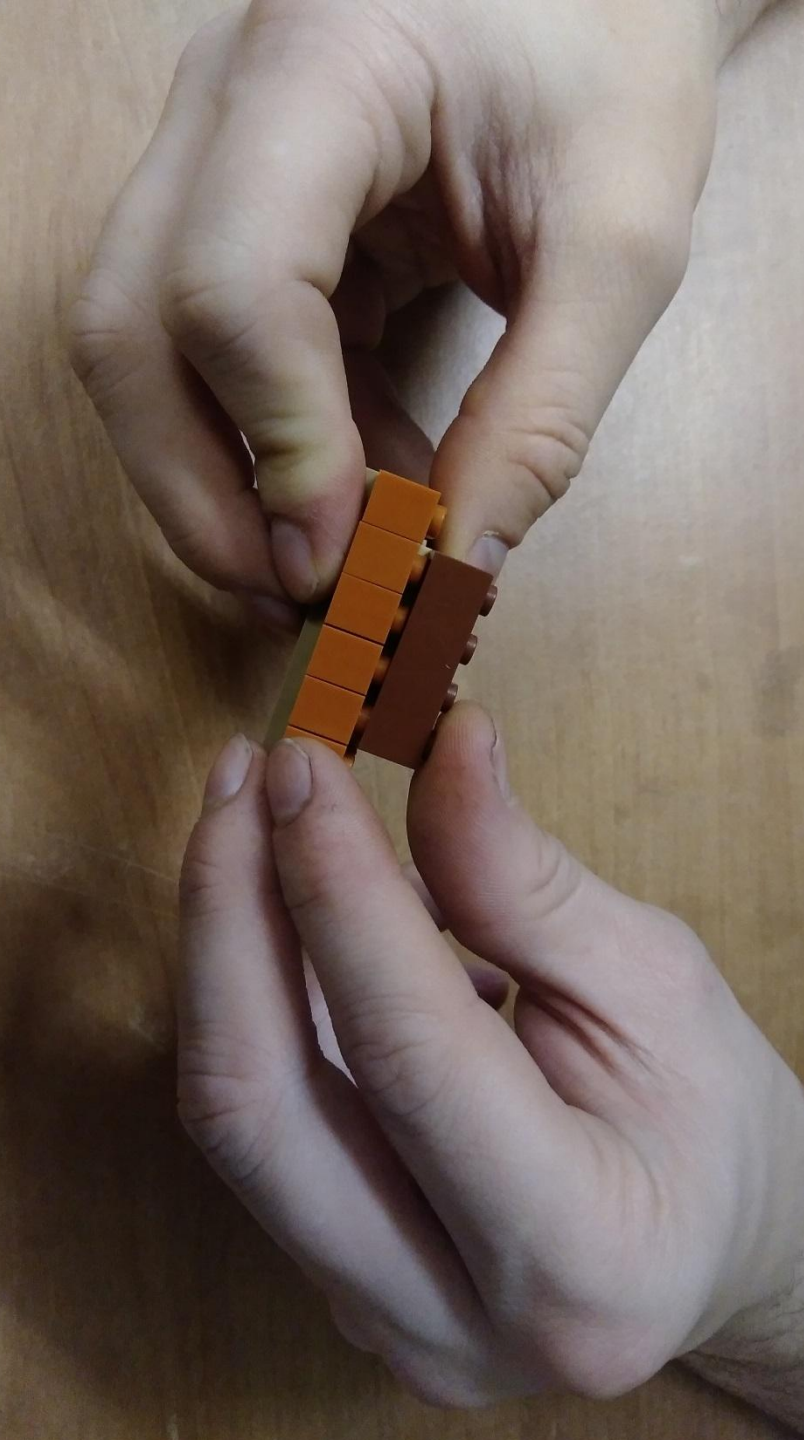

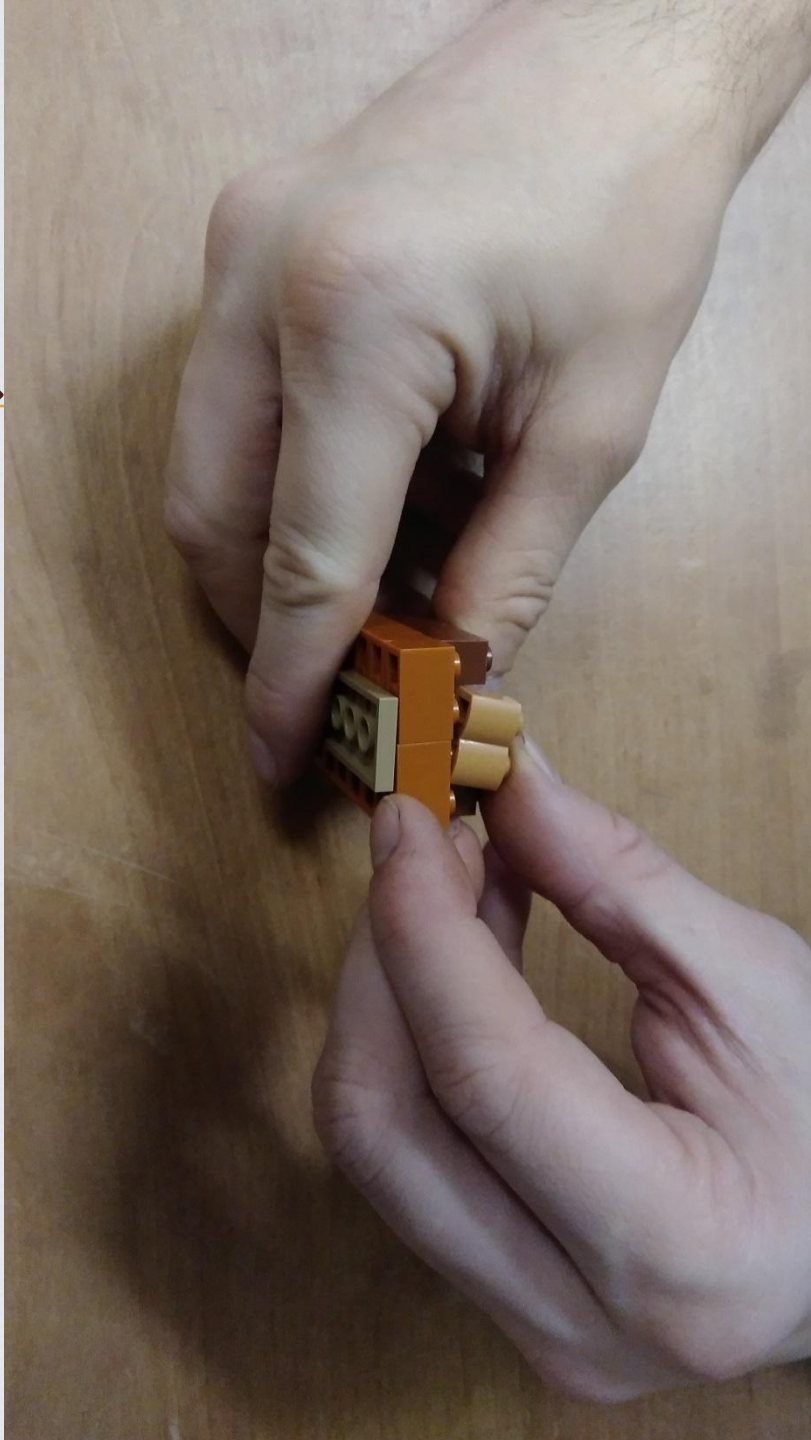

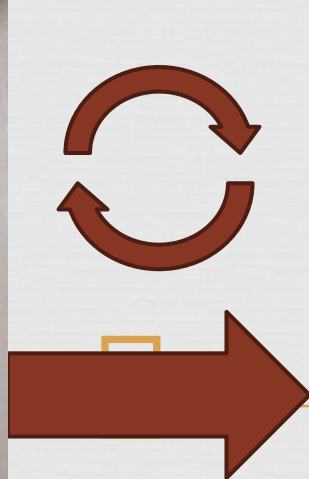

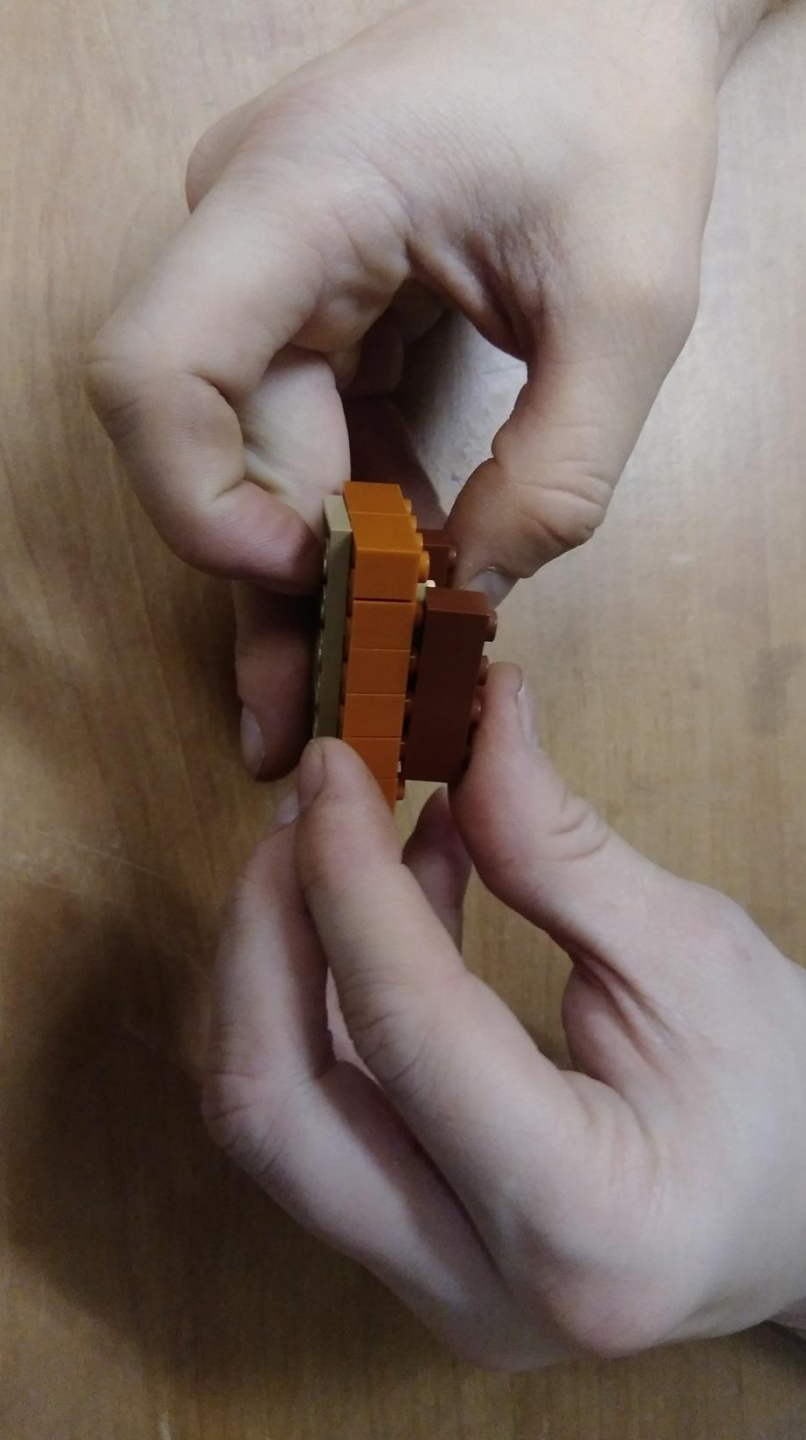

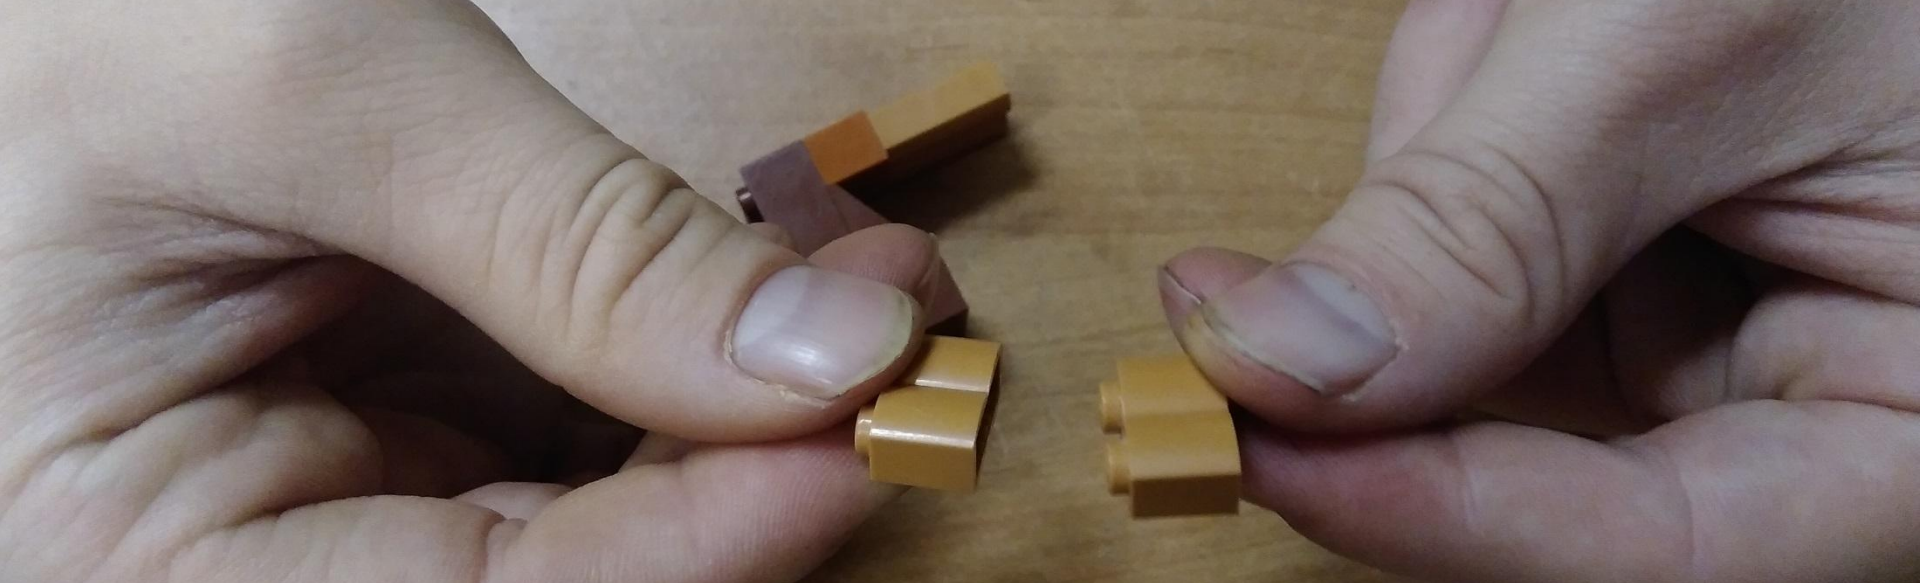

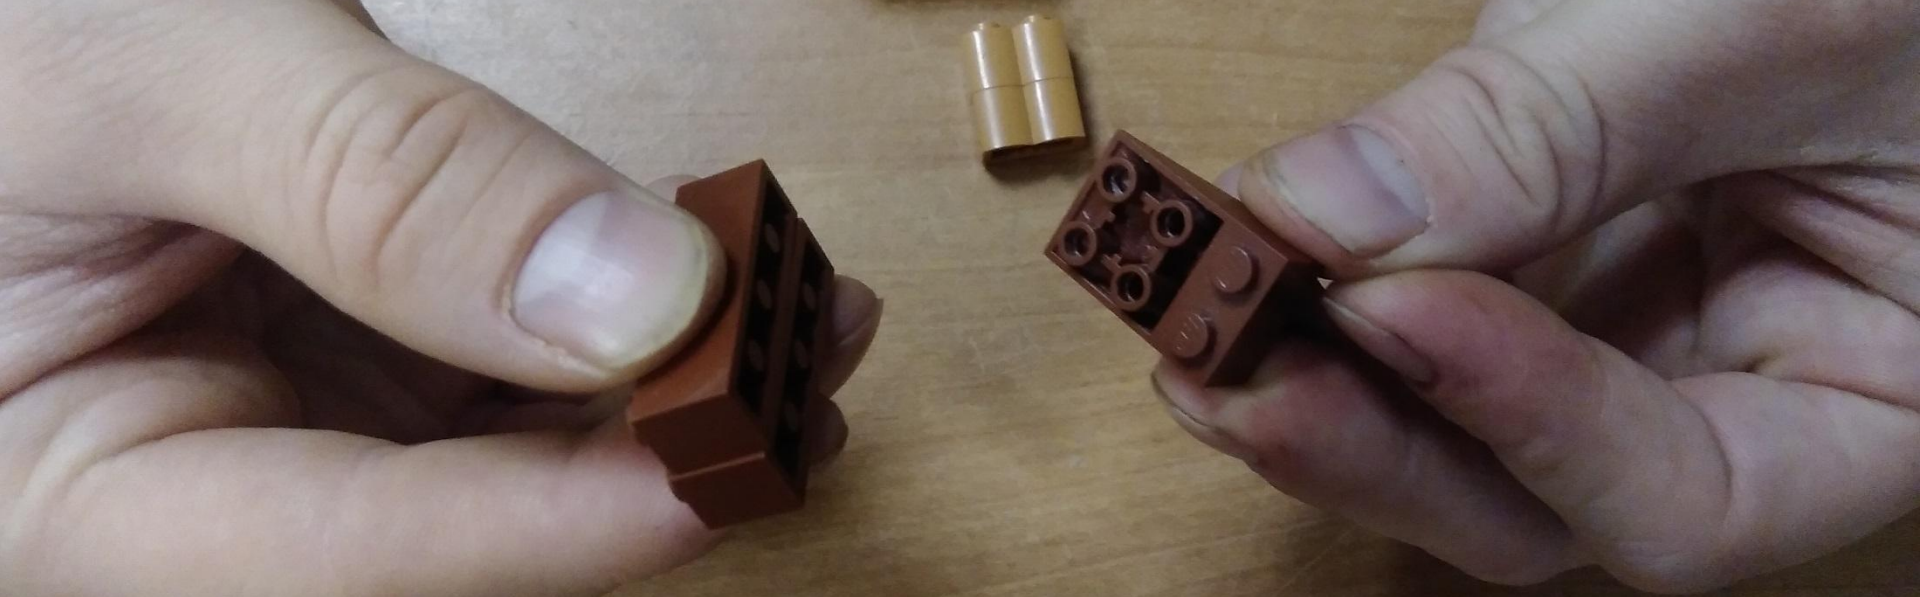

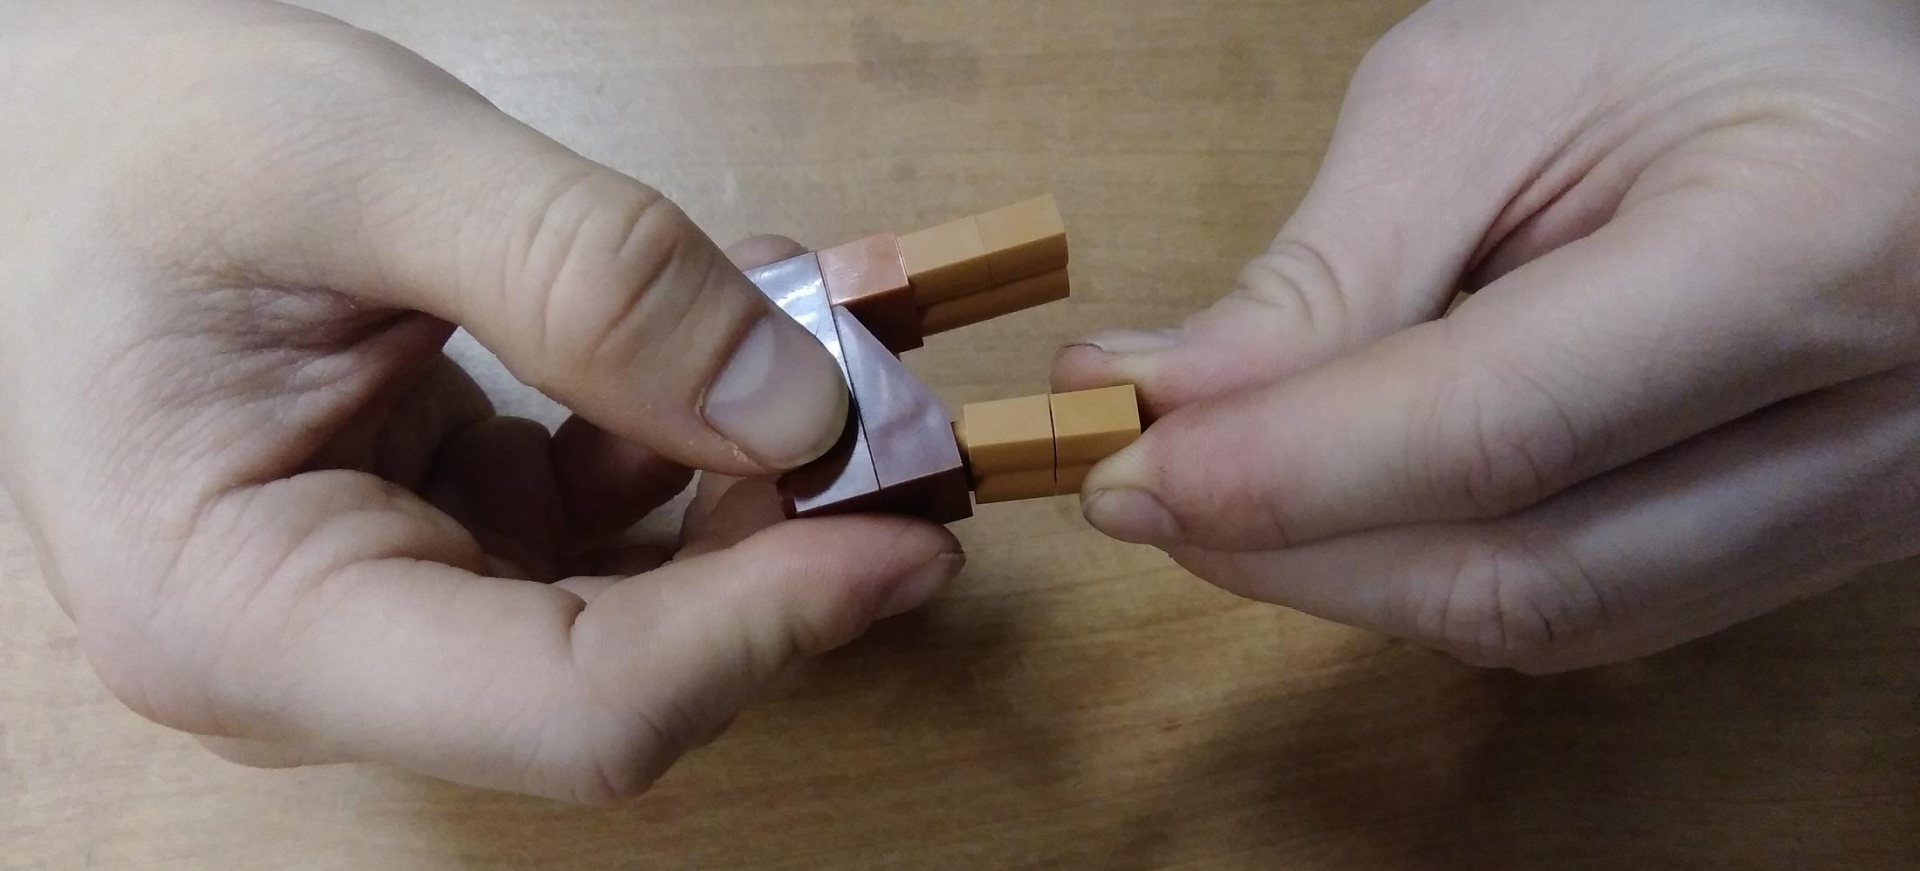

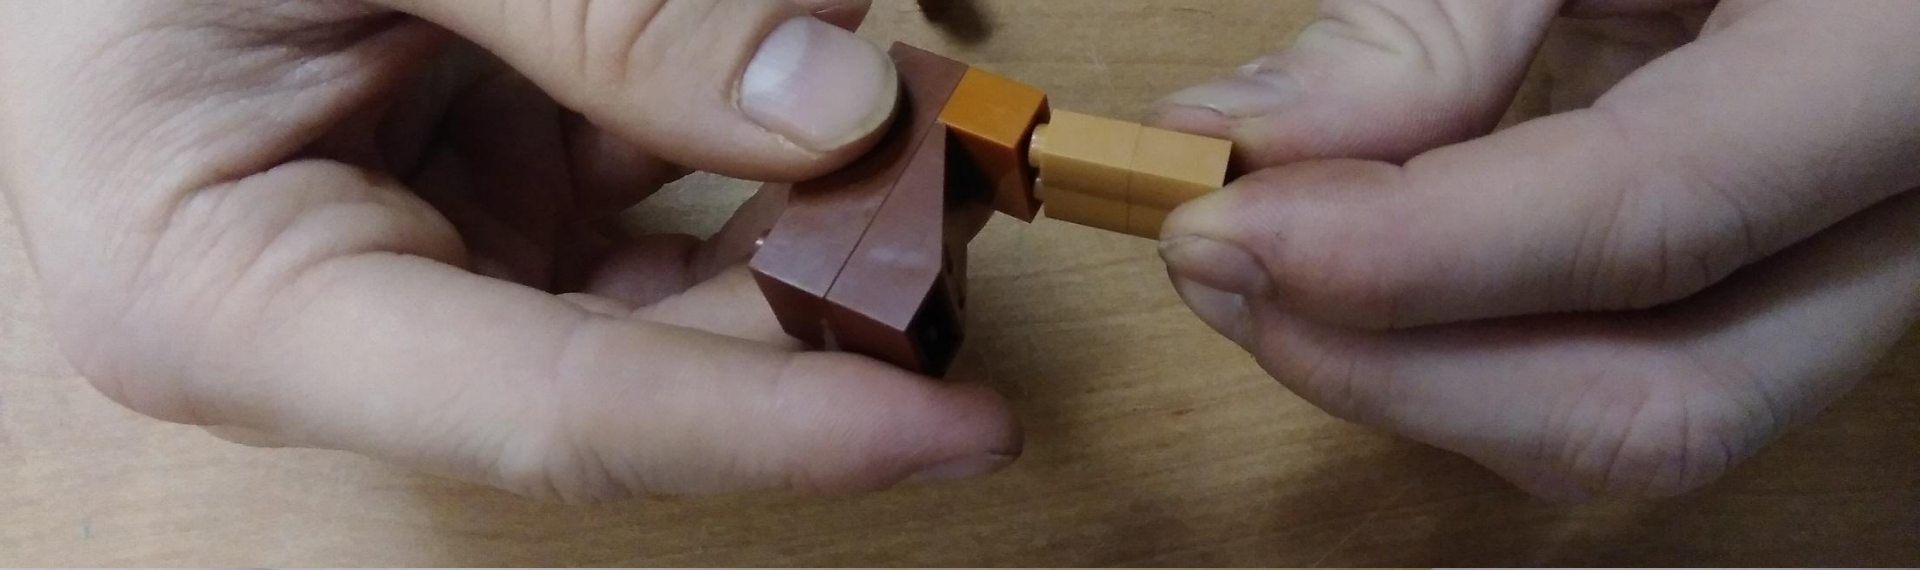

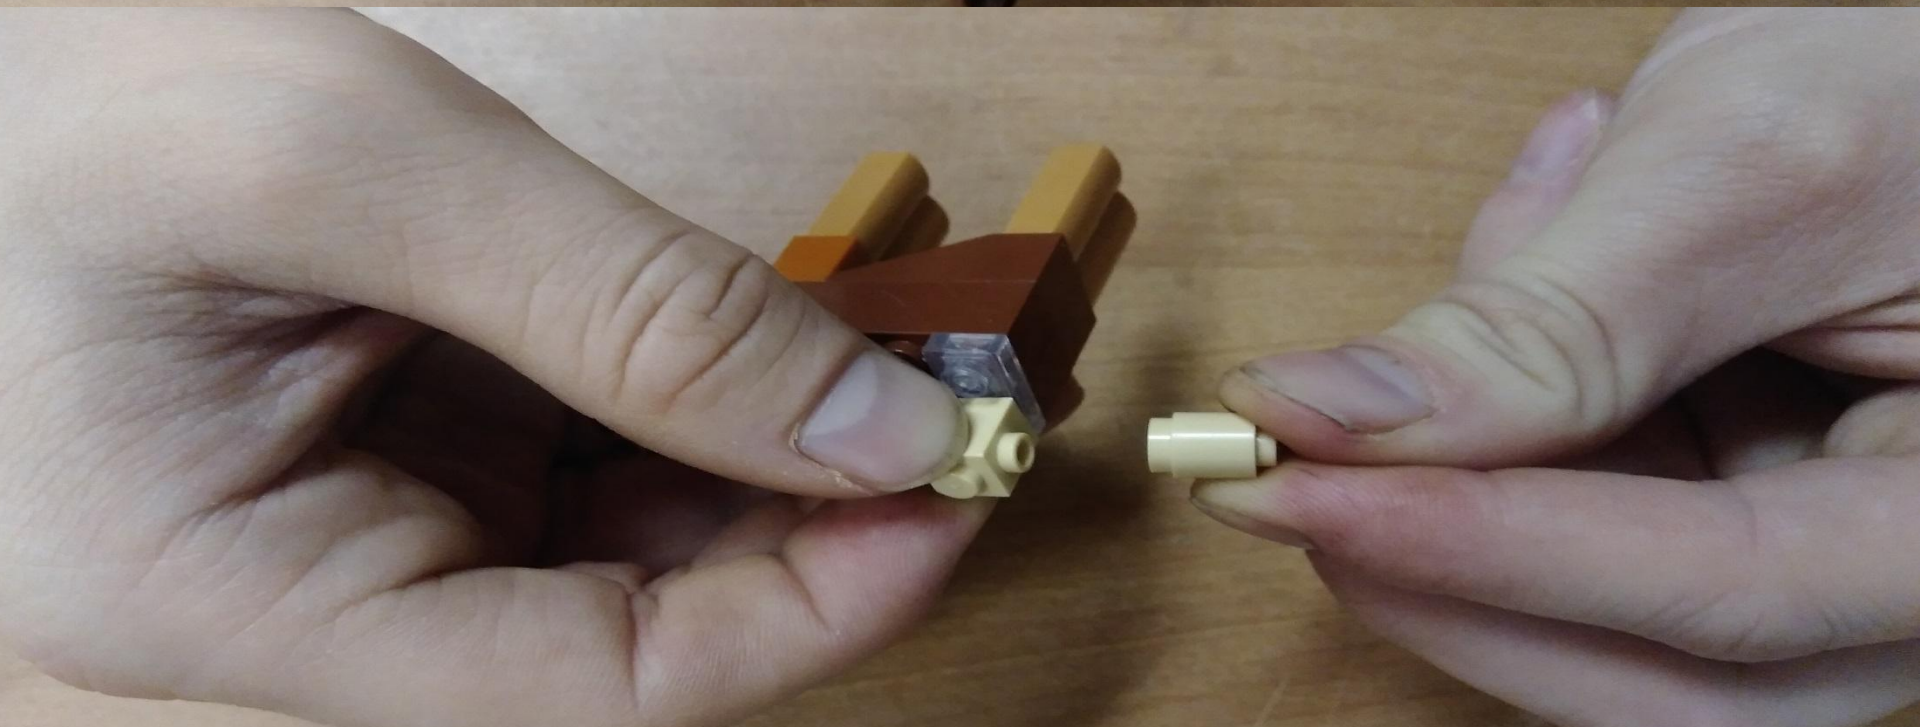

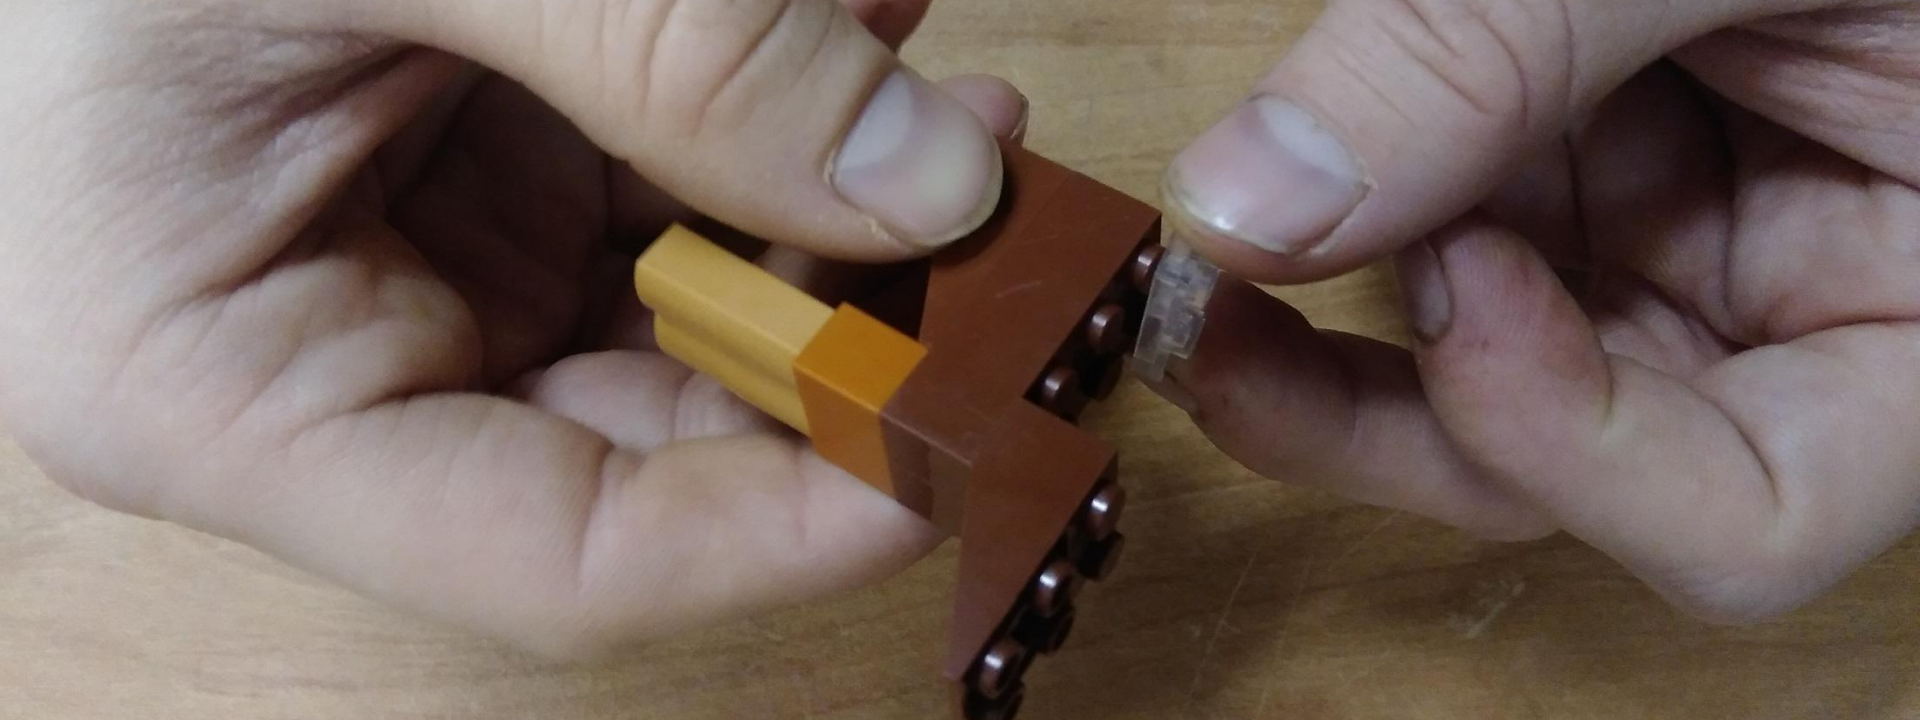

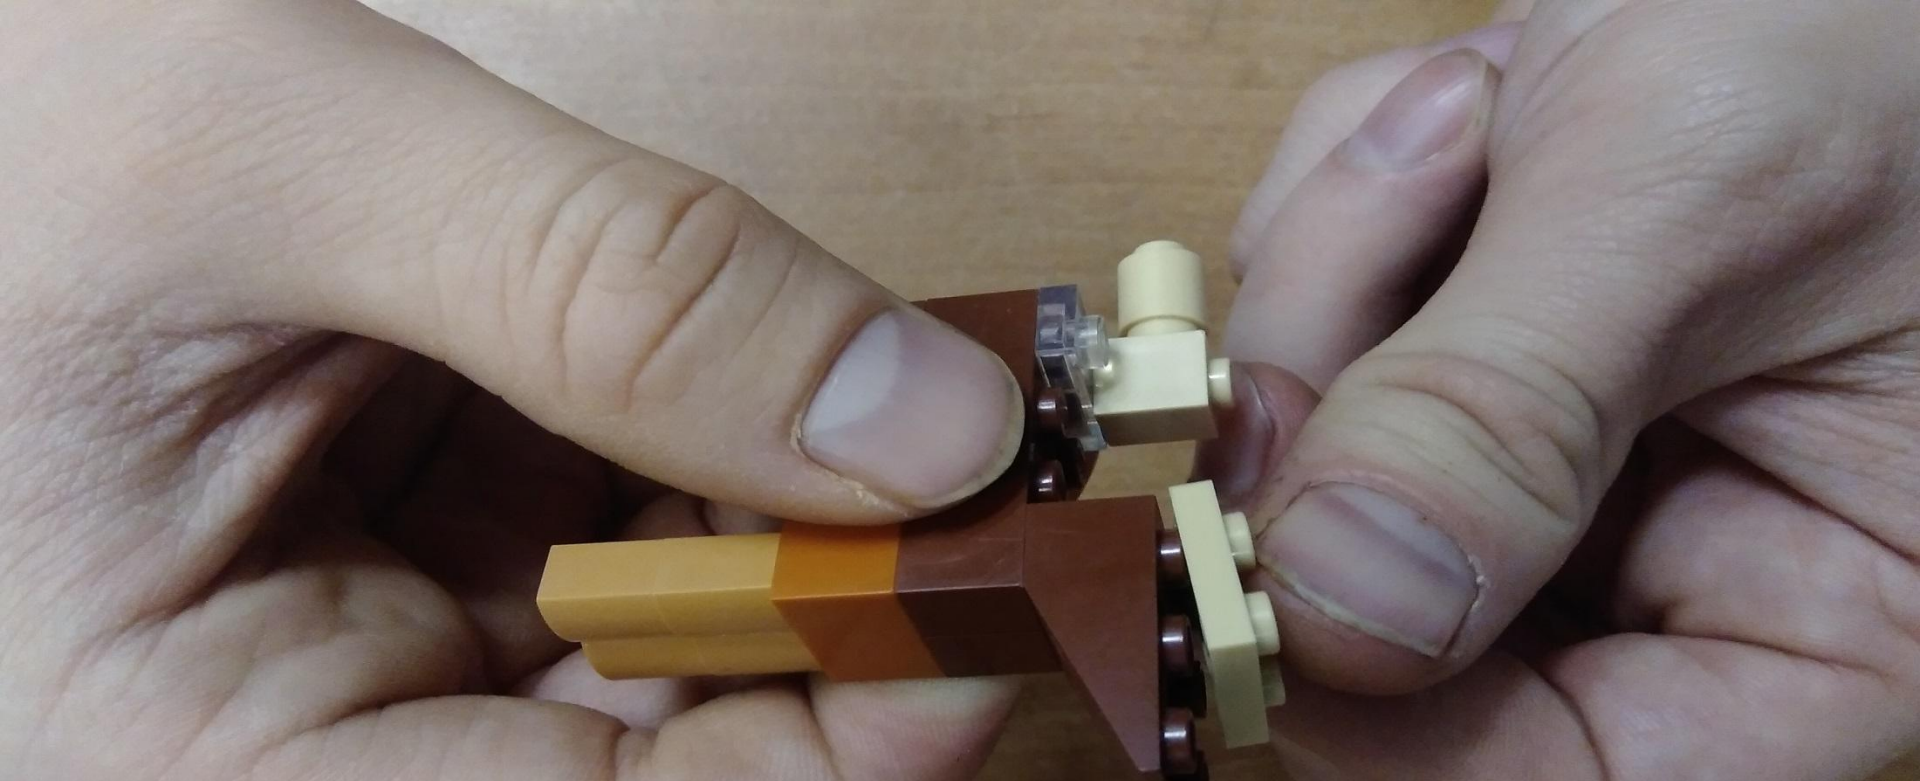

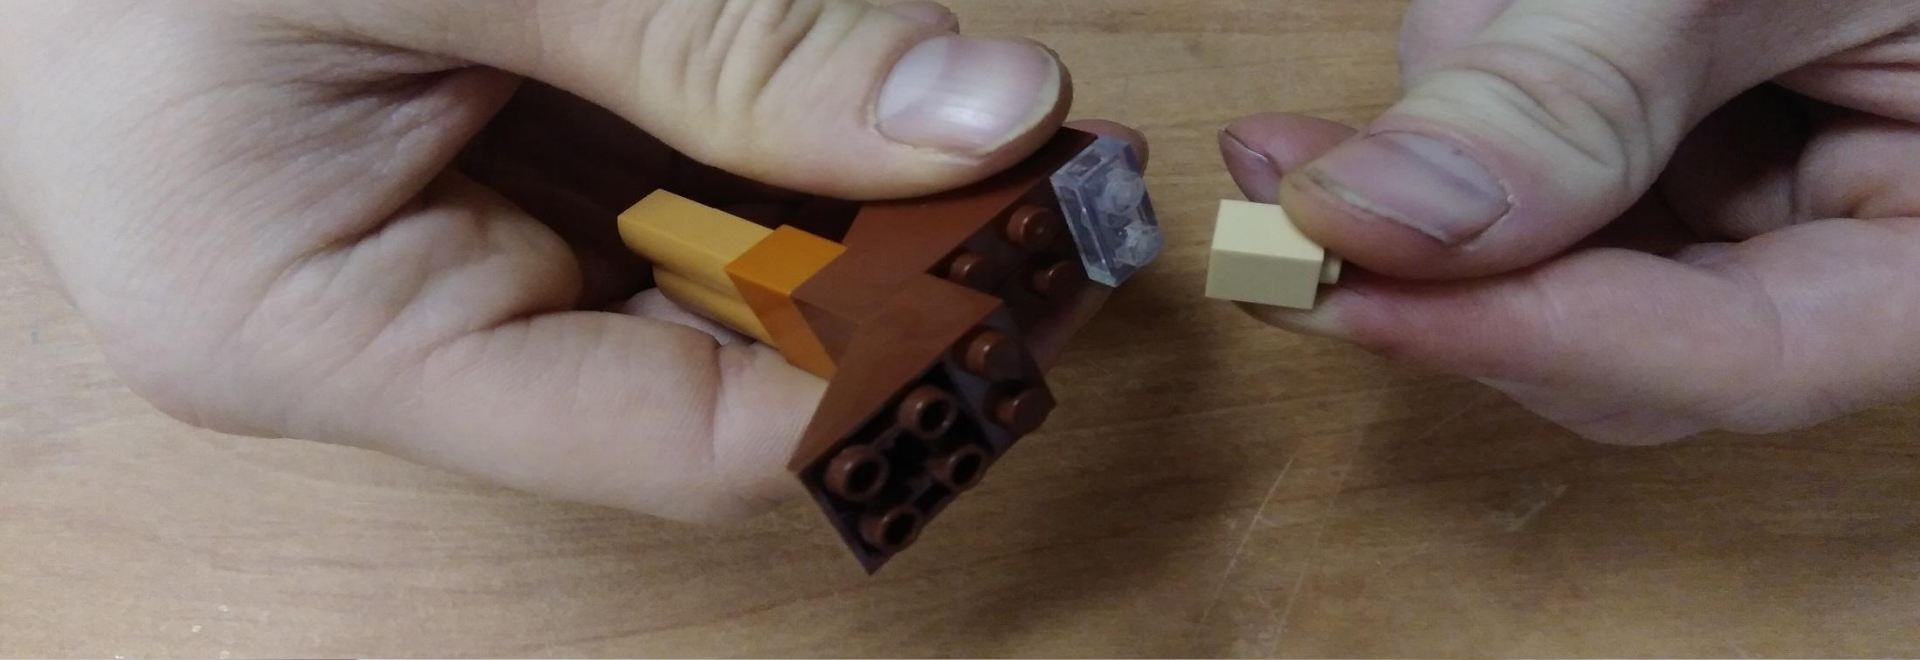

Персонажи: младенец Иисус, Мария, Иосиф, ангелы

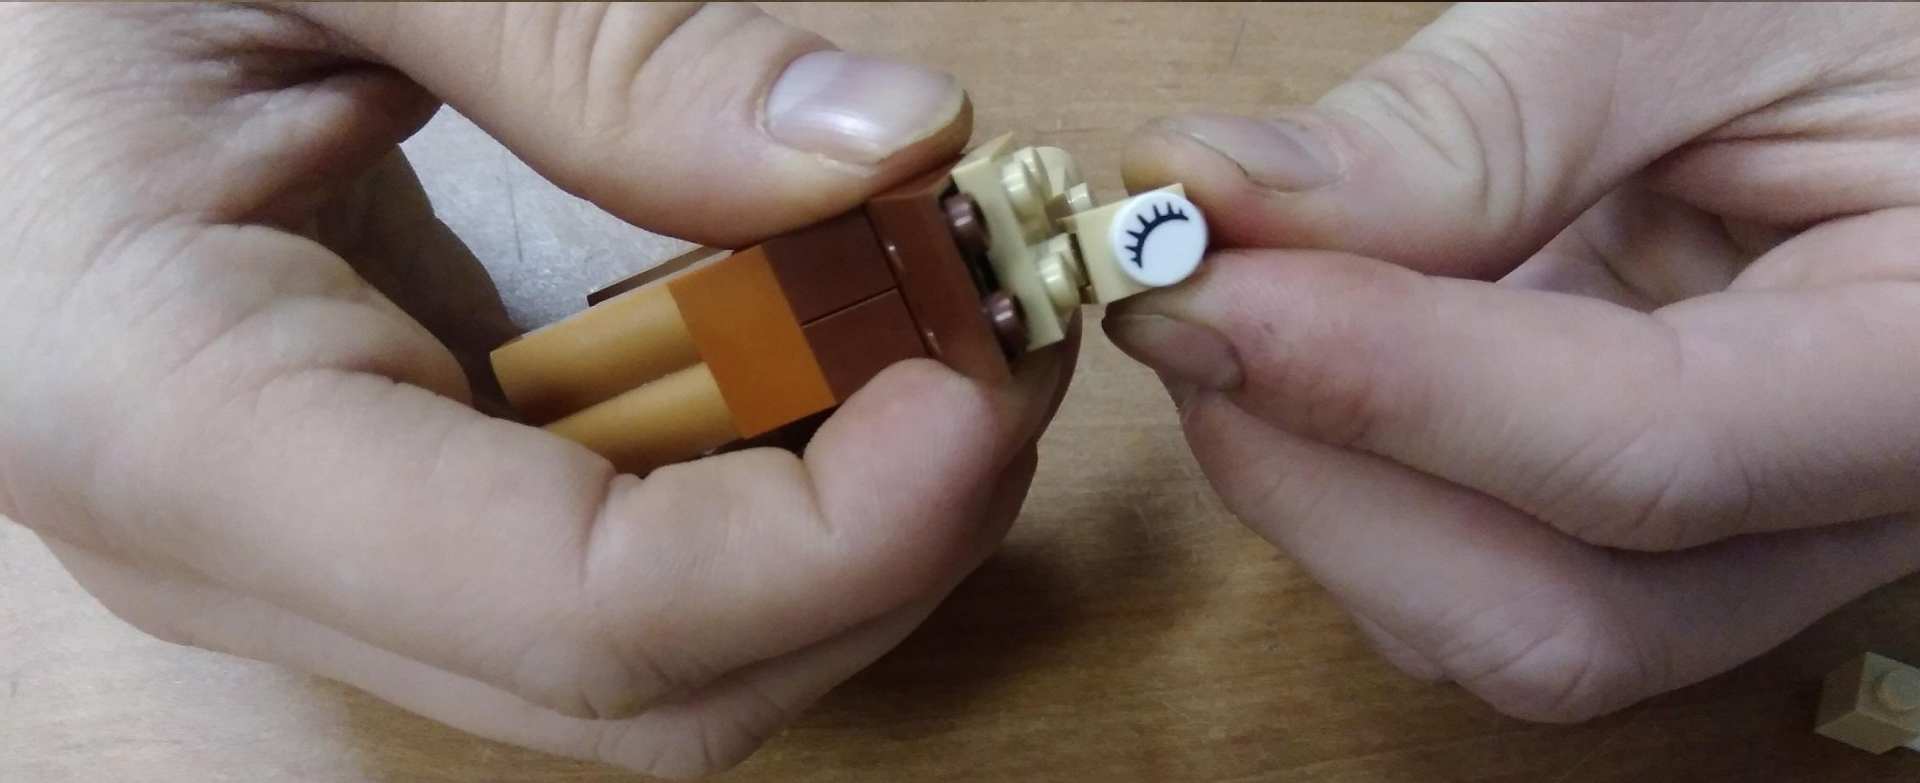

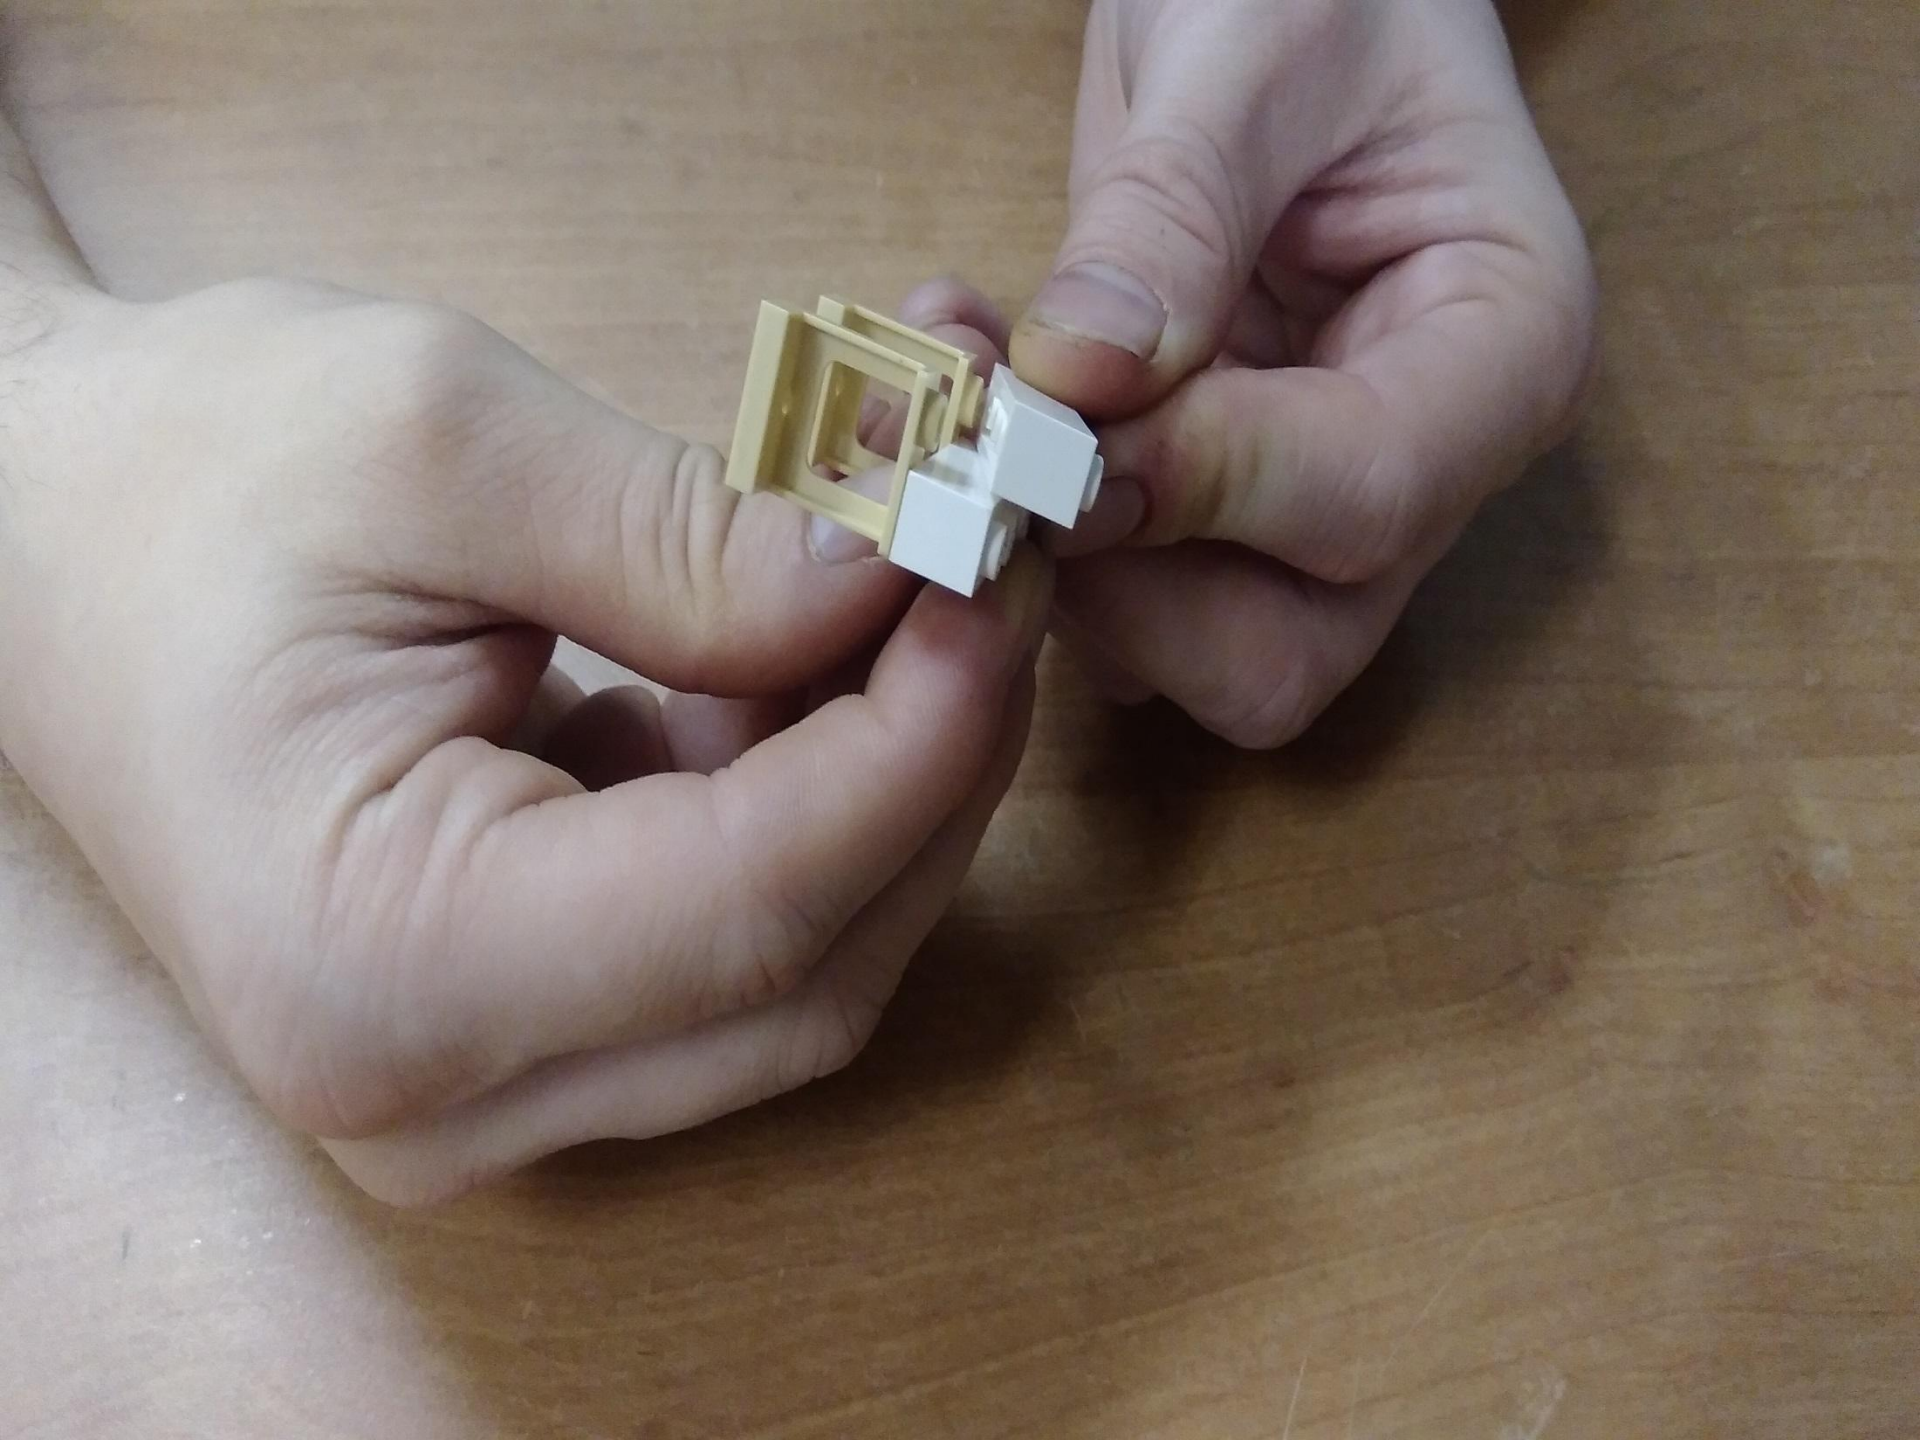

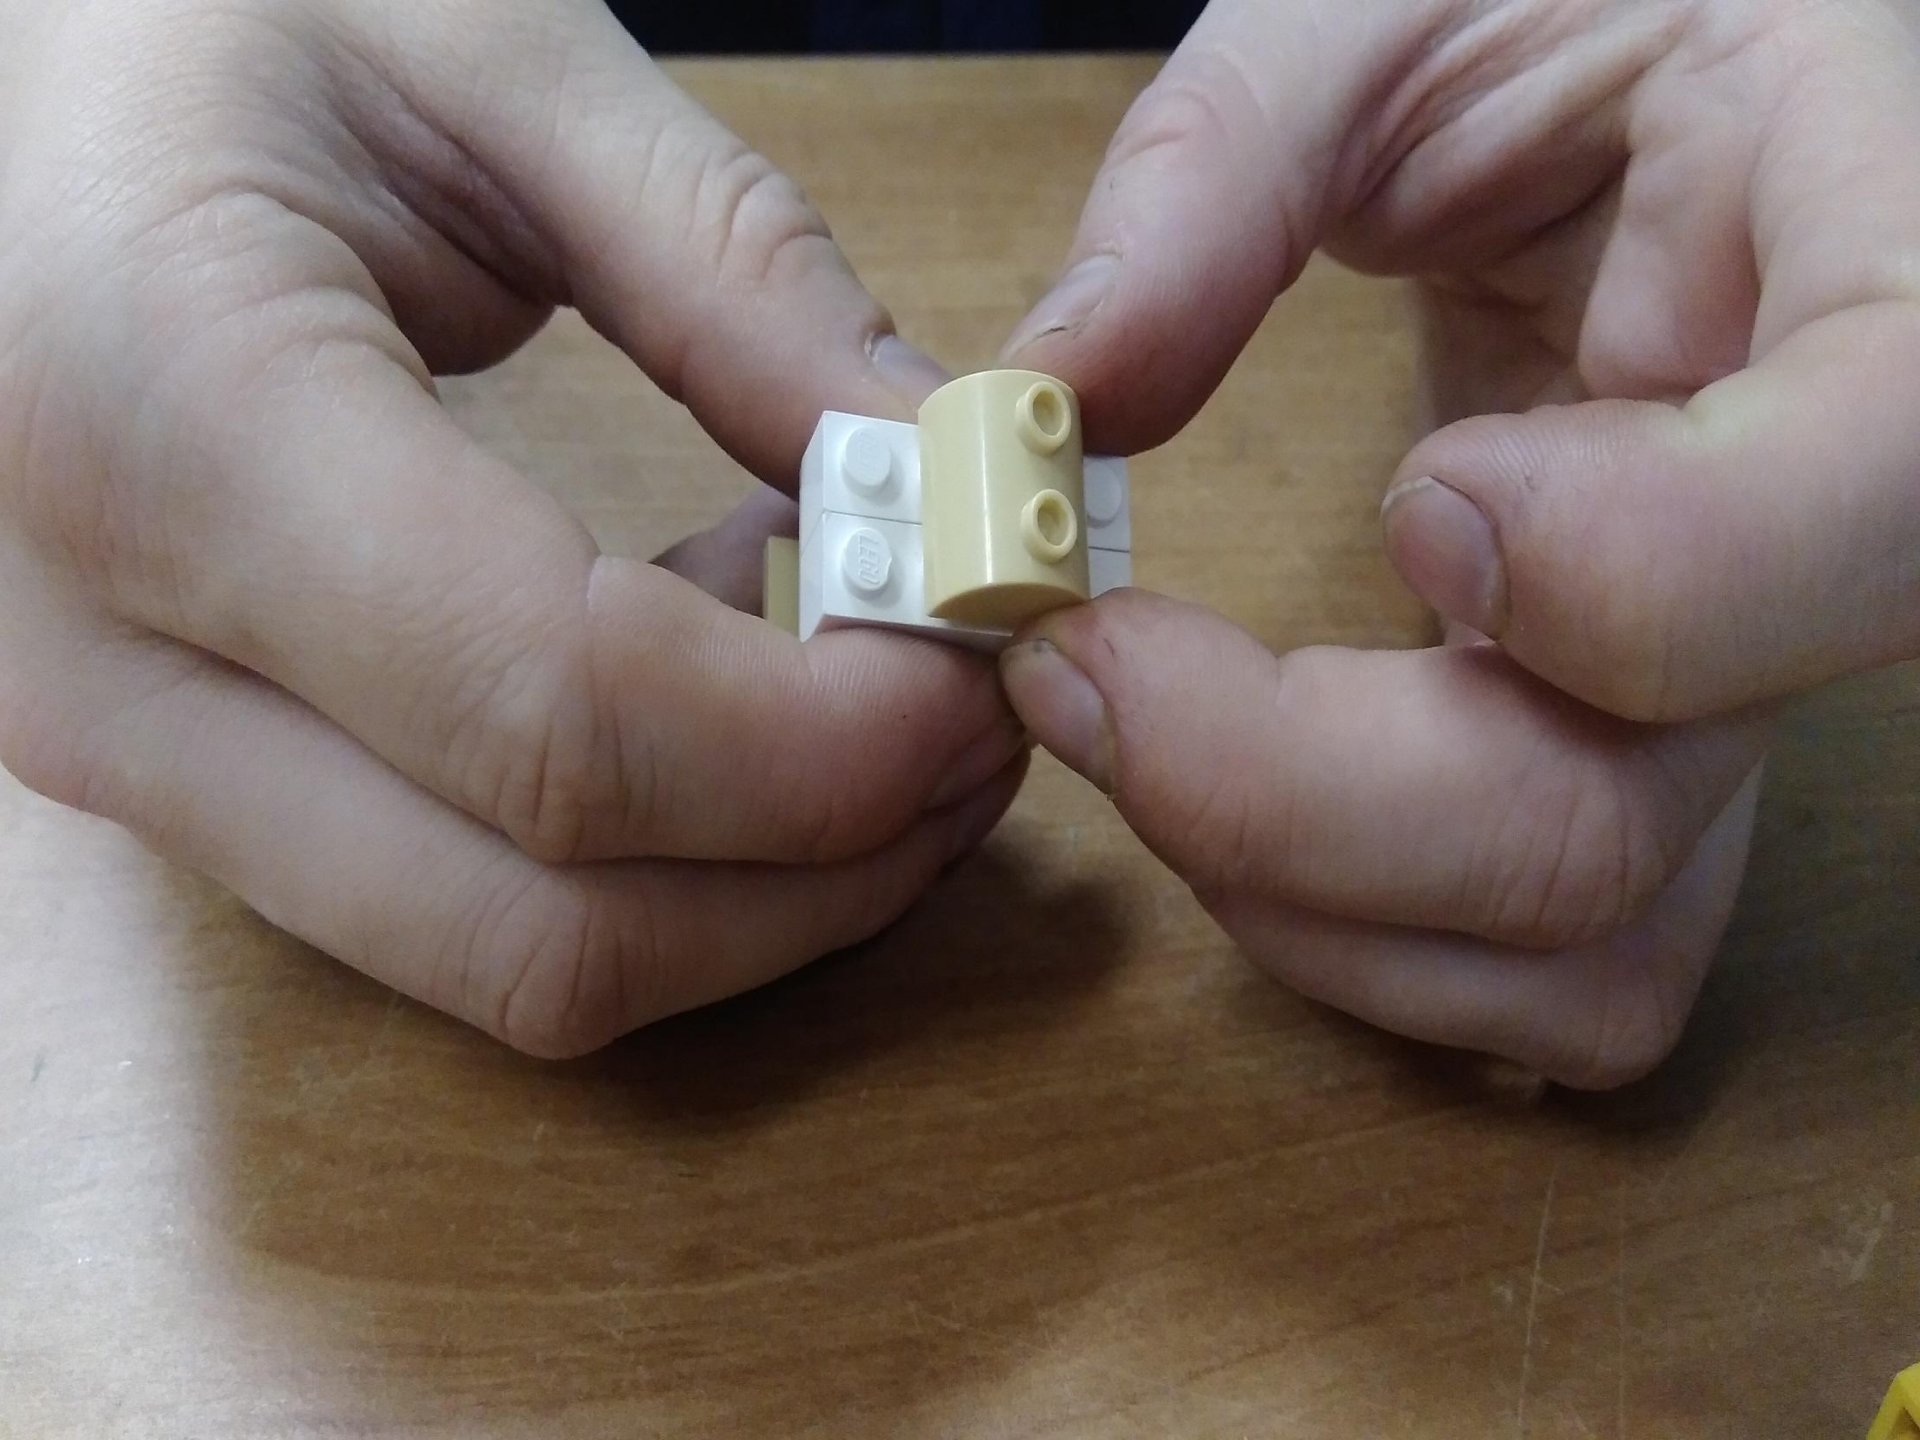

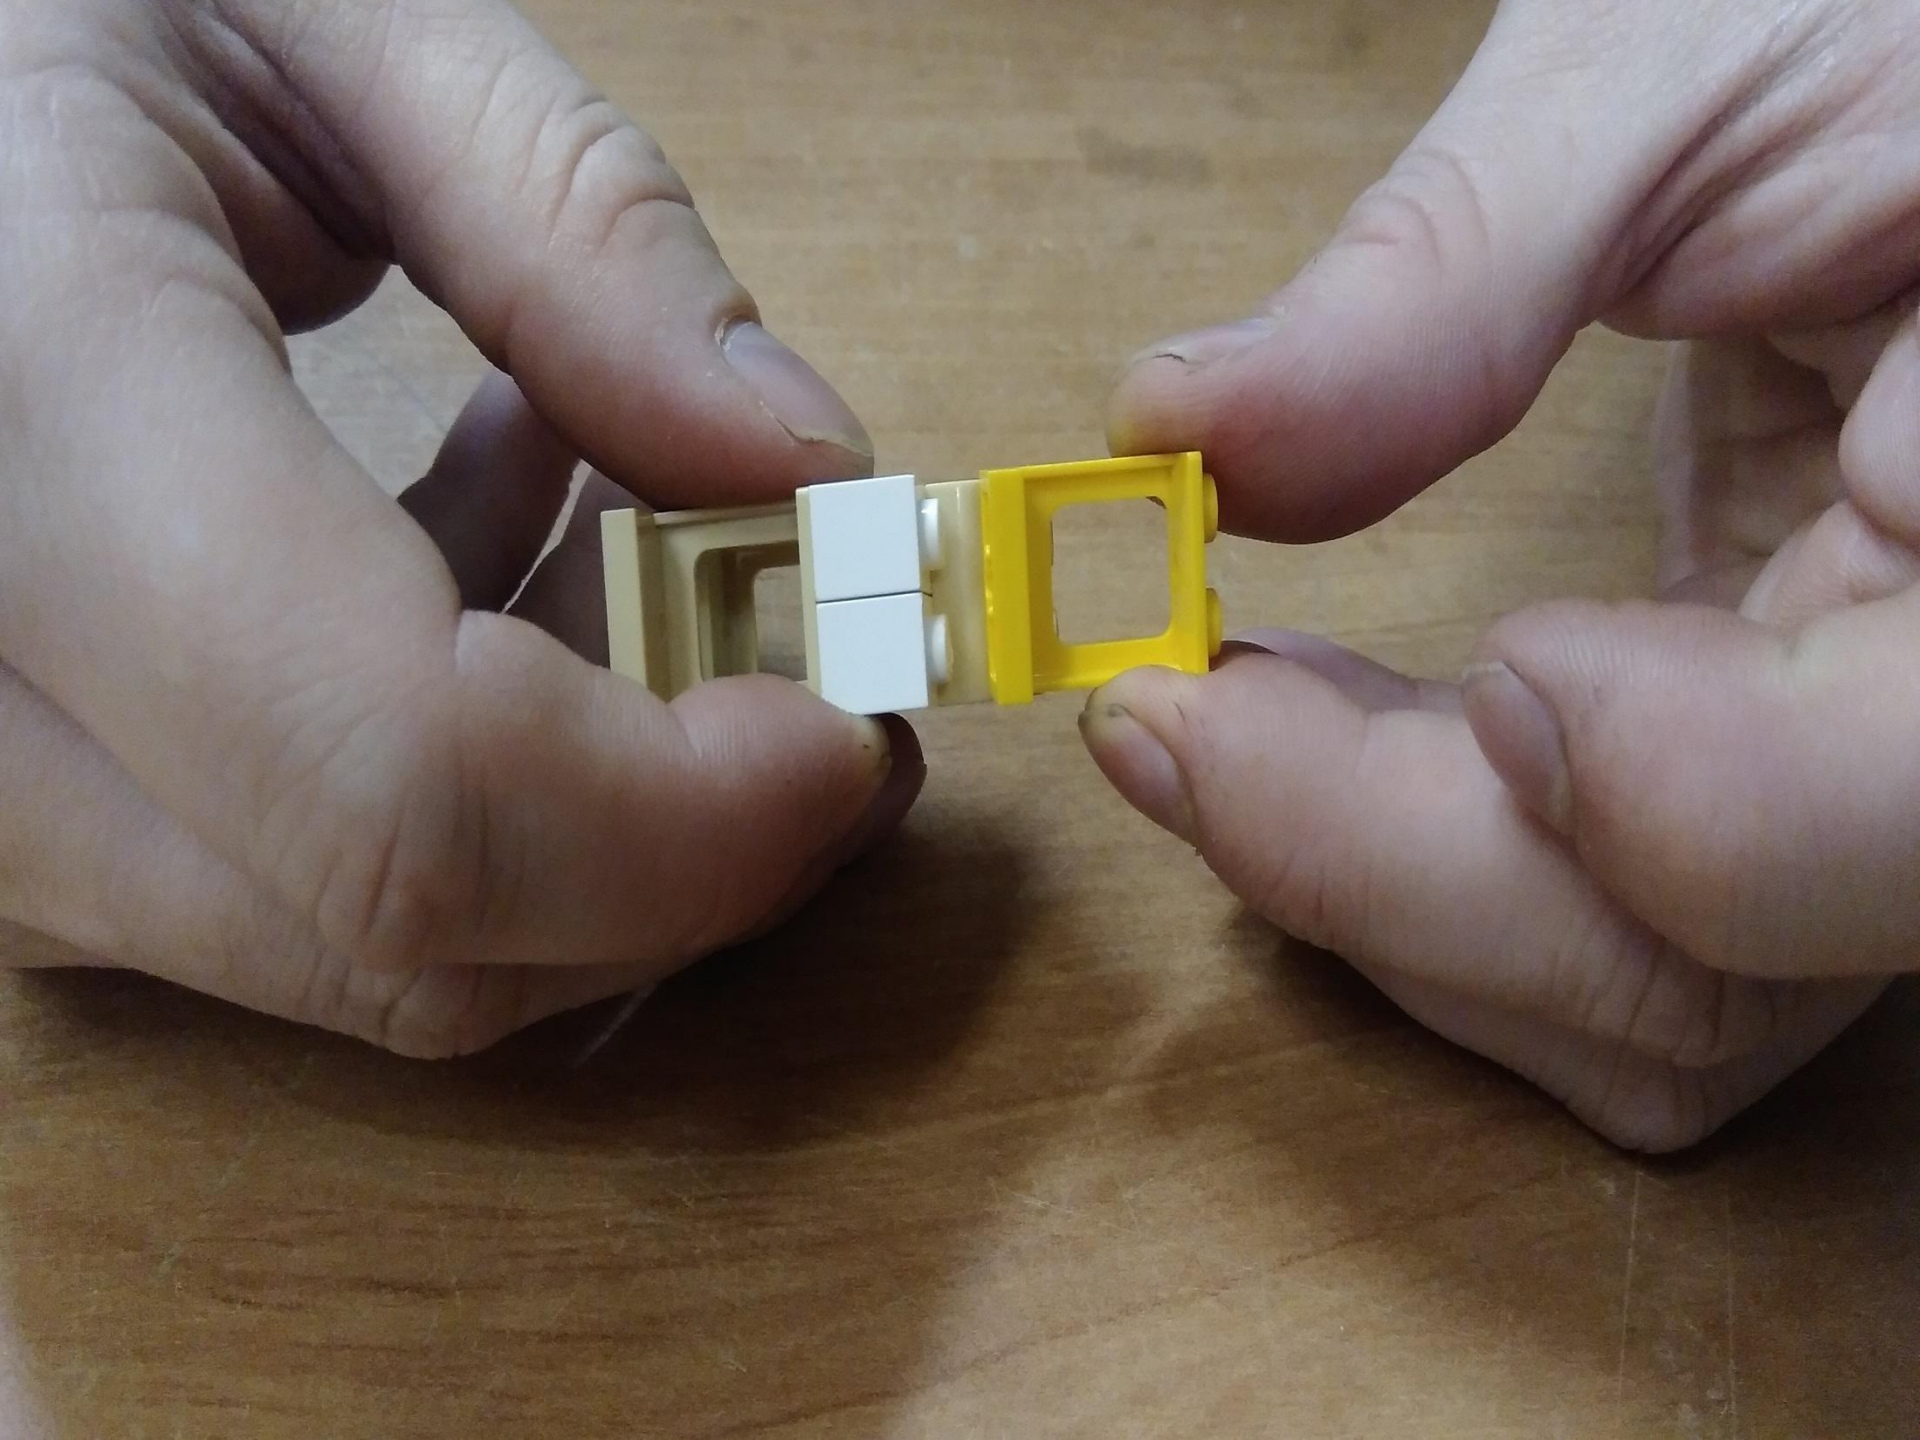

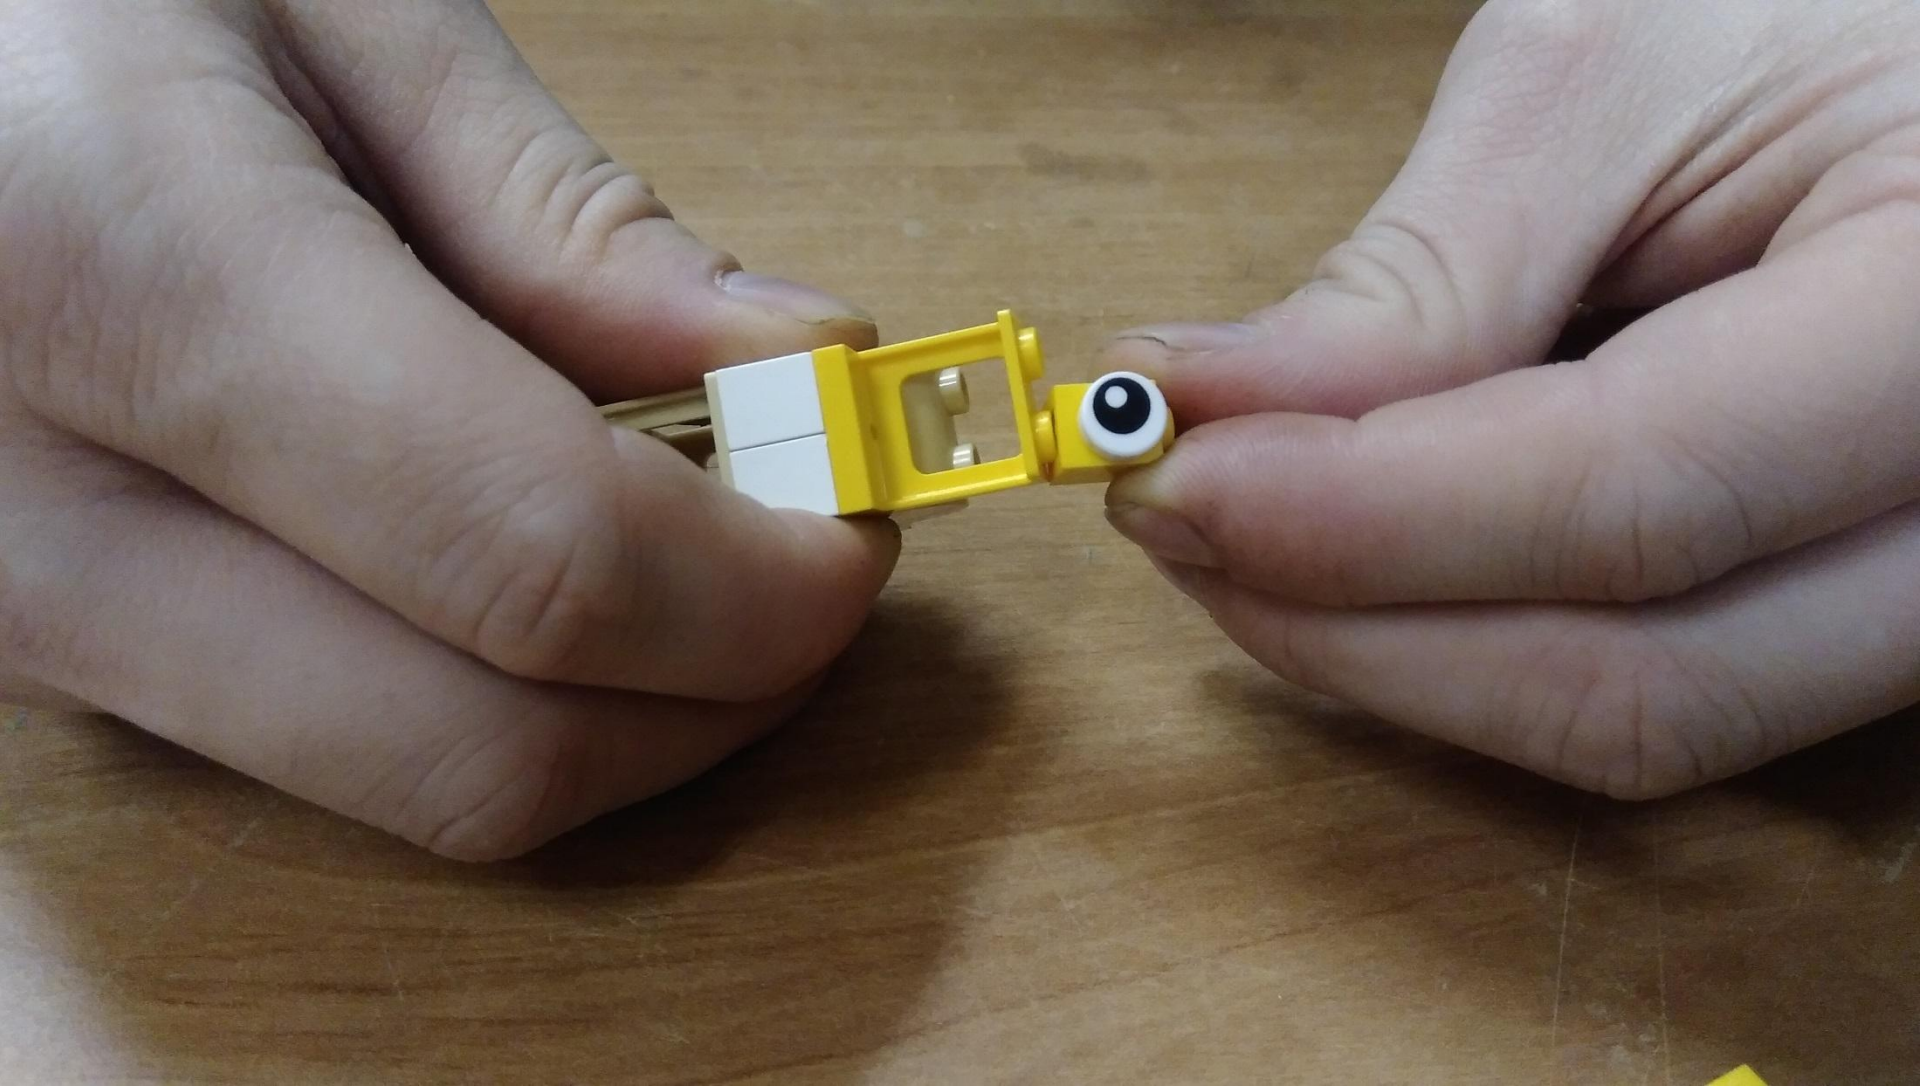

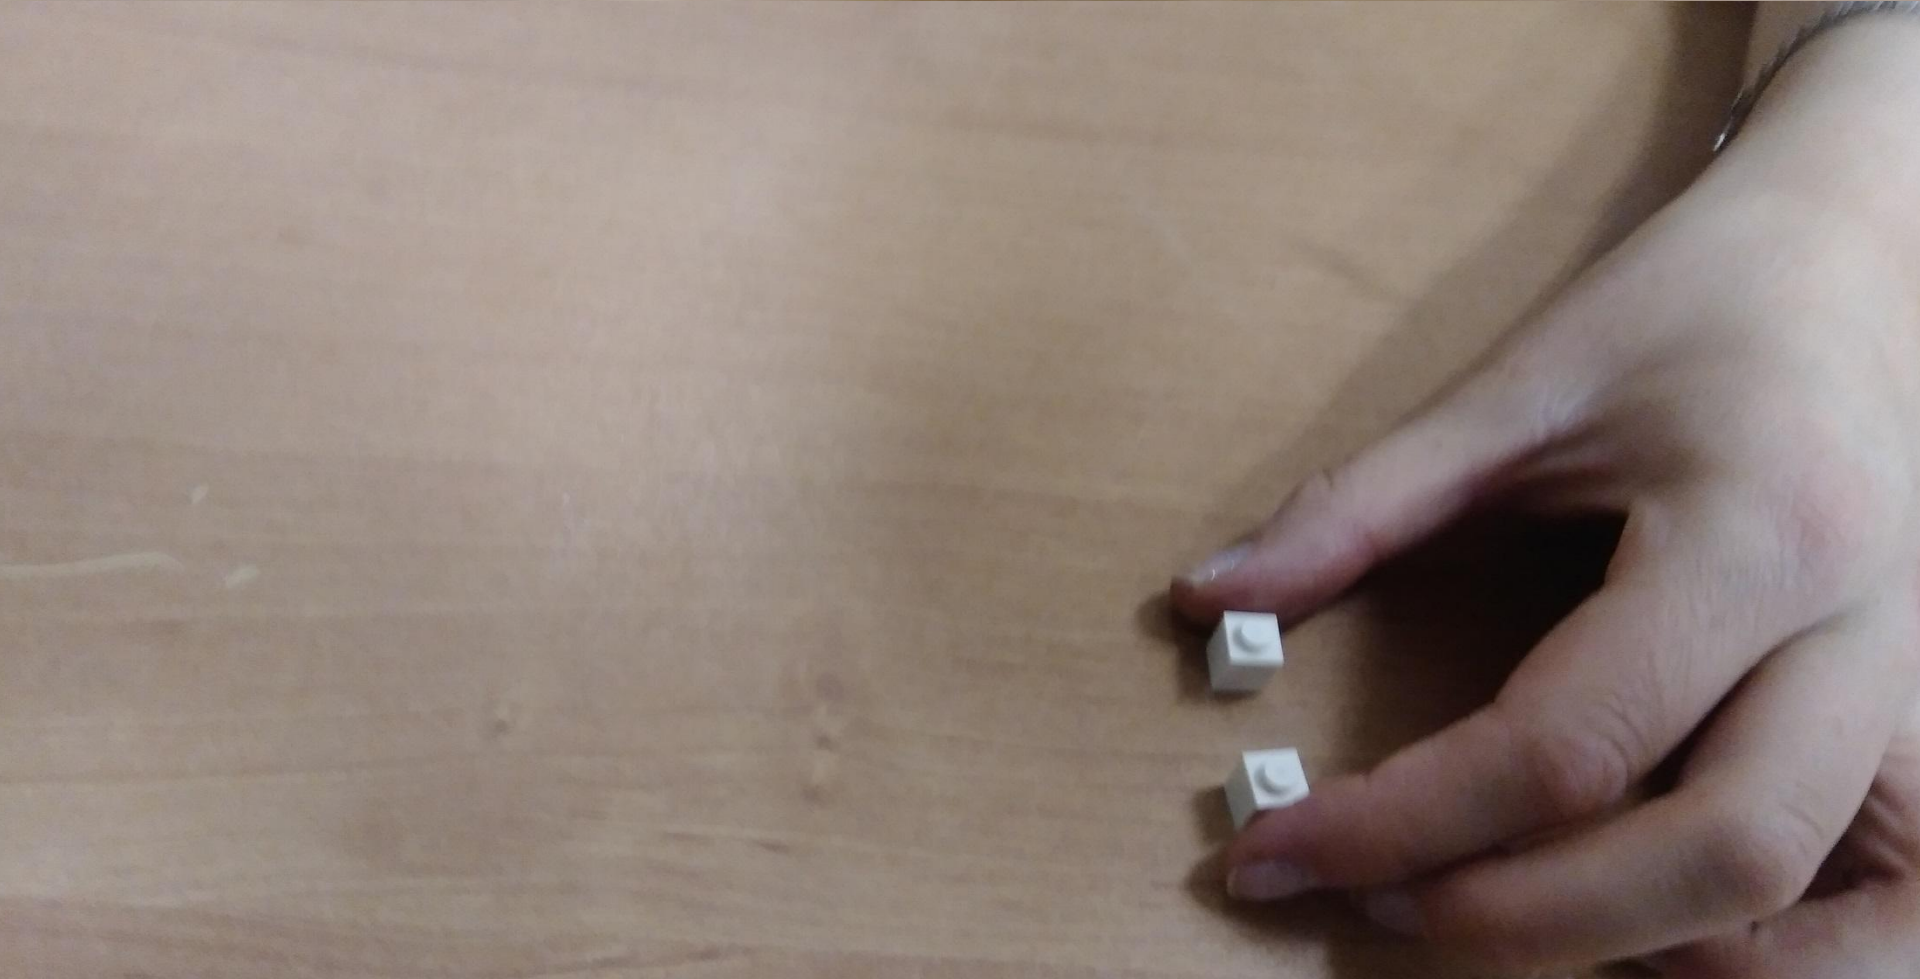

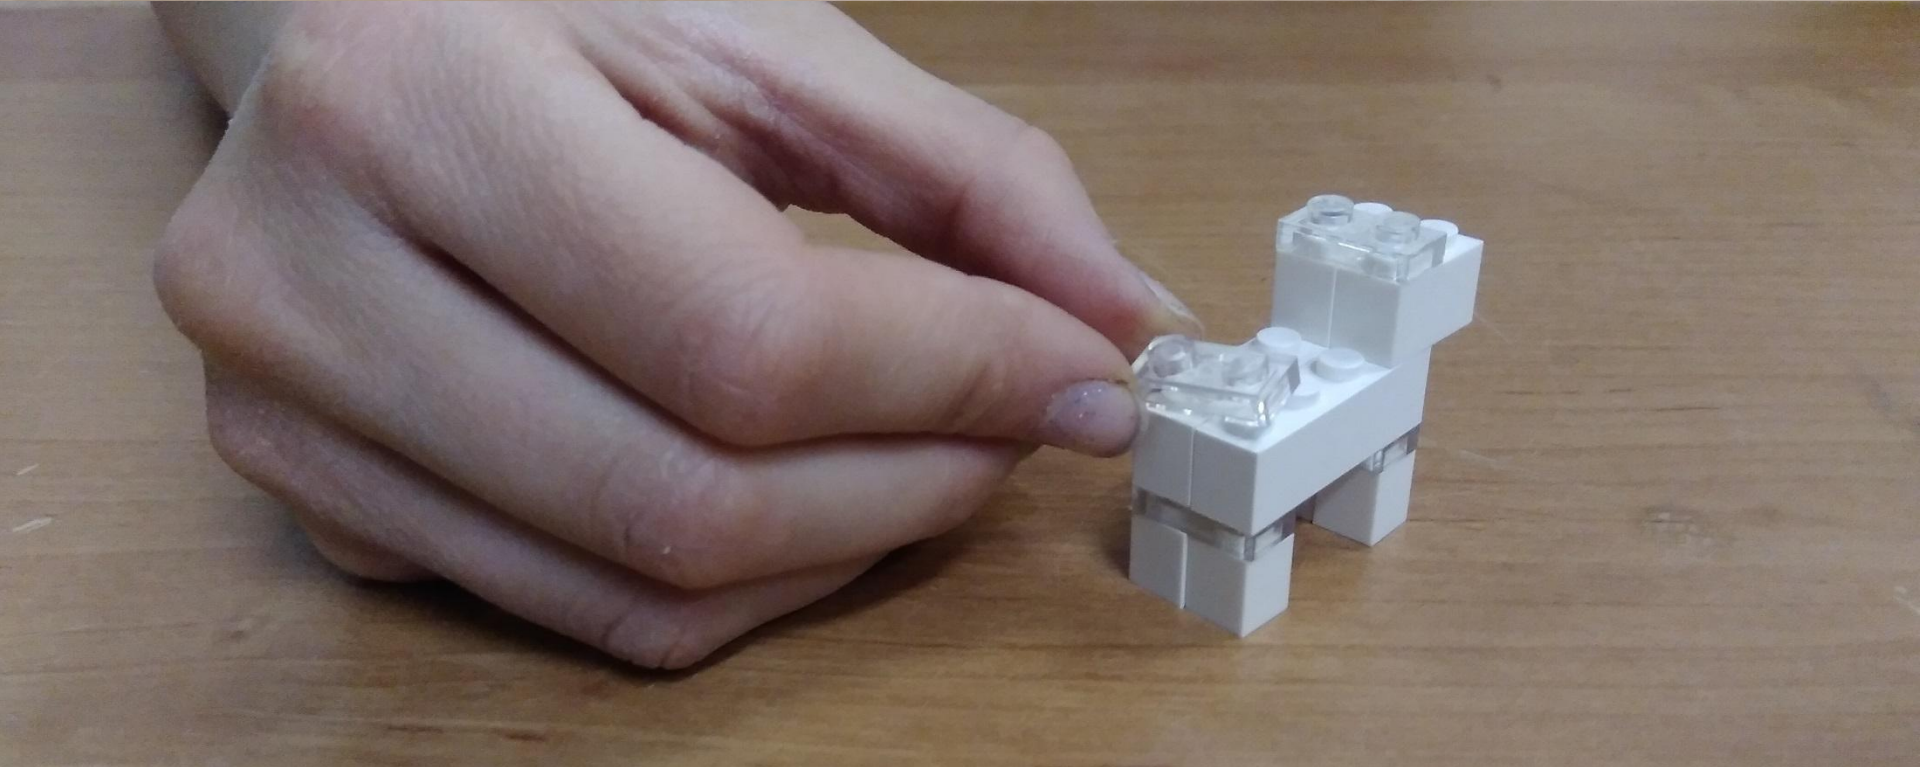

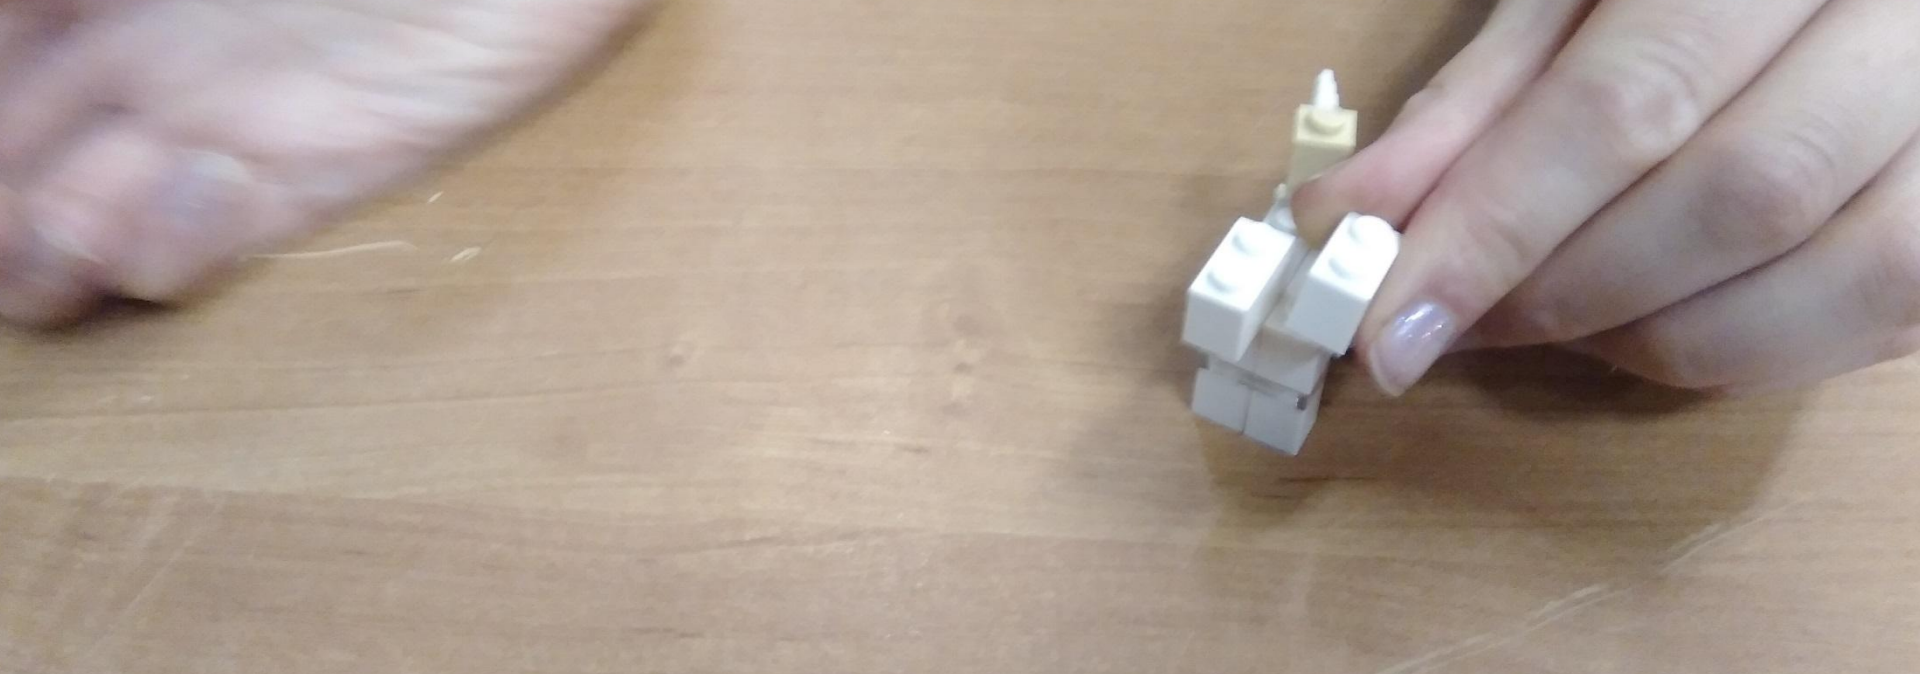

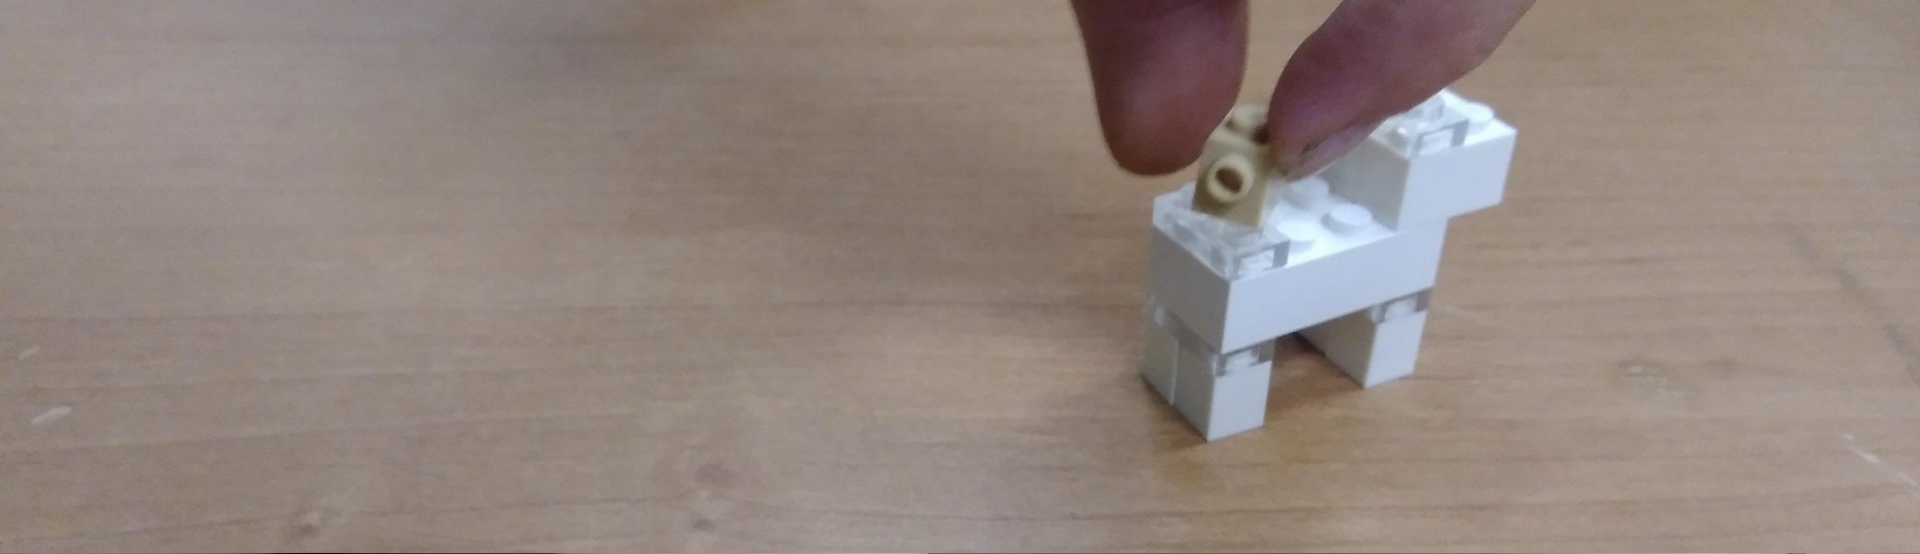

Глаза делаются также как и у других  
**ЖИВОТНЫХ**

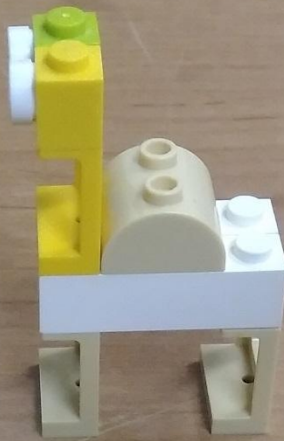

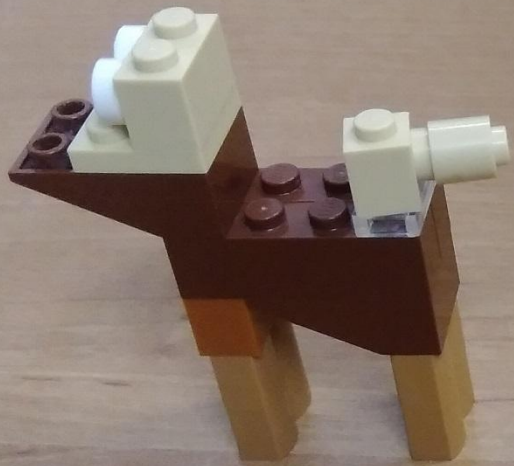

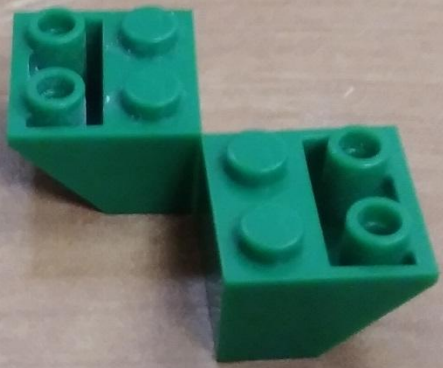

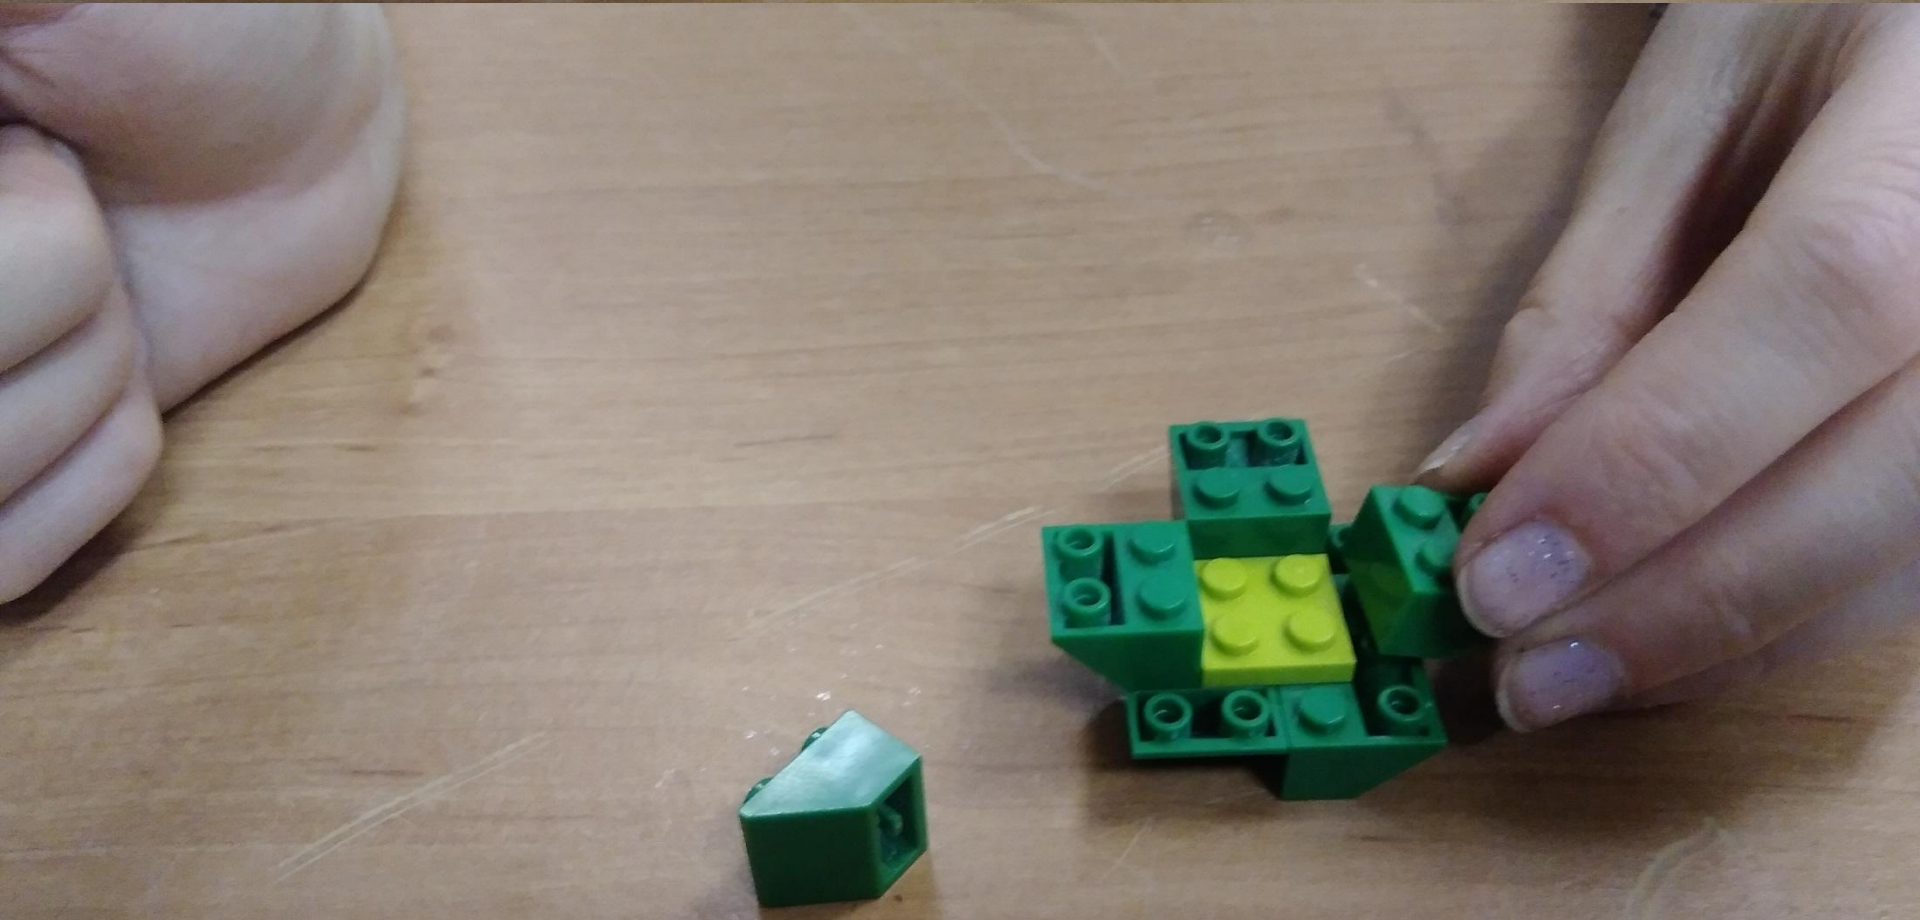

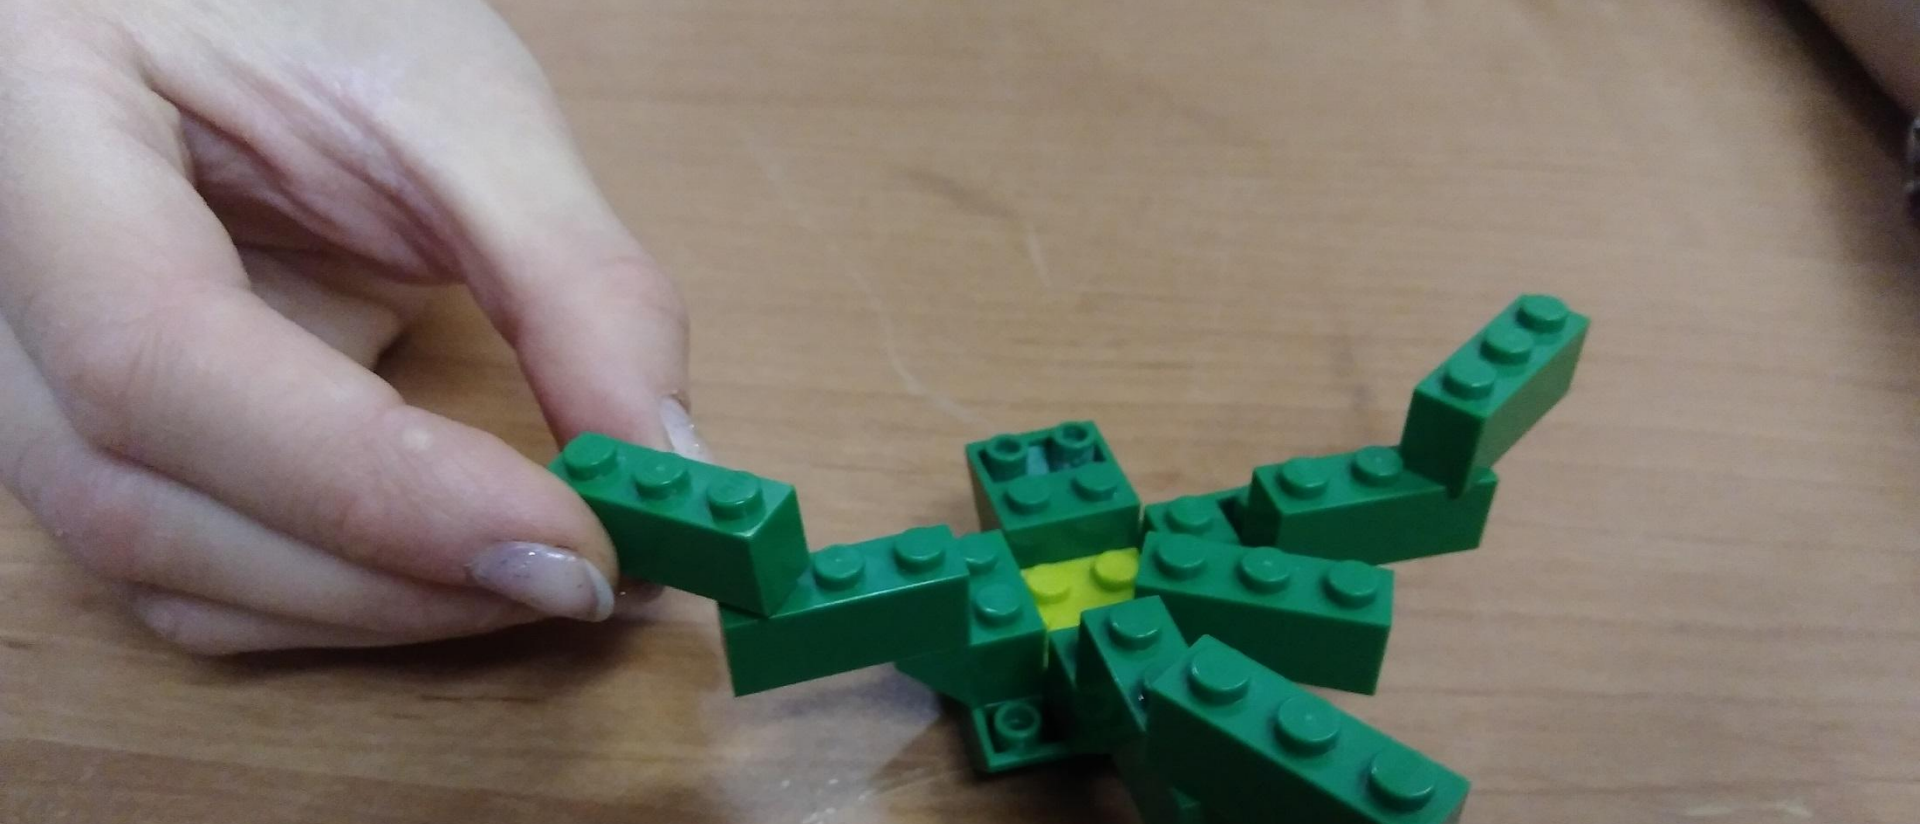

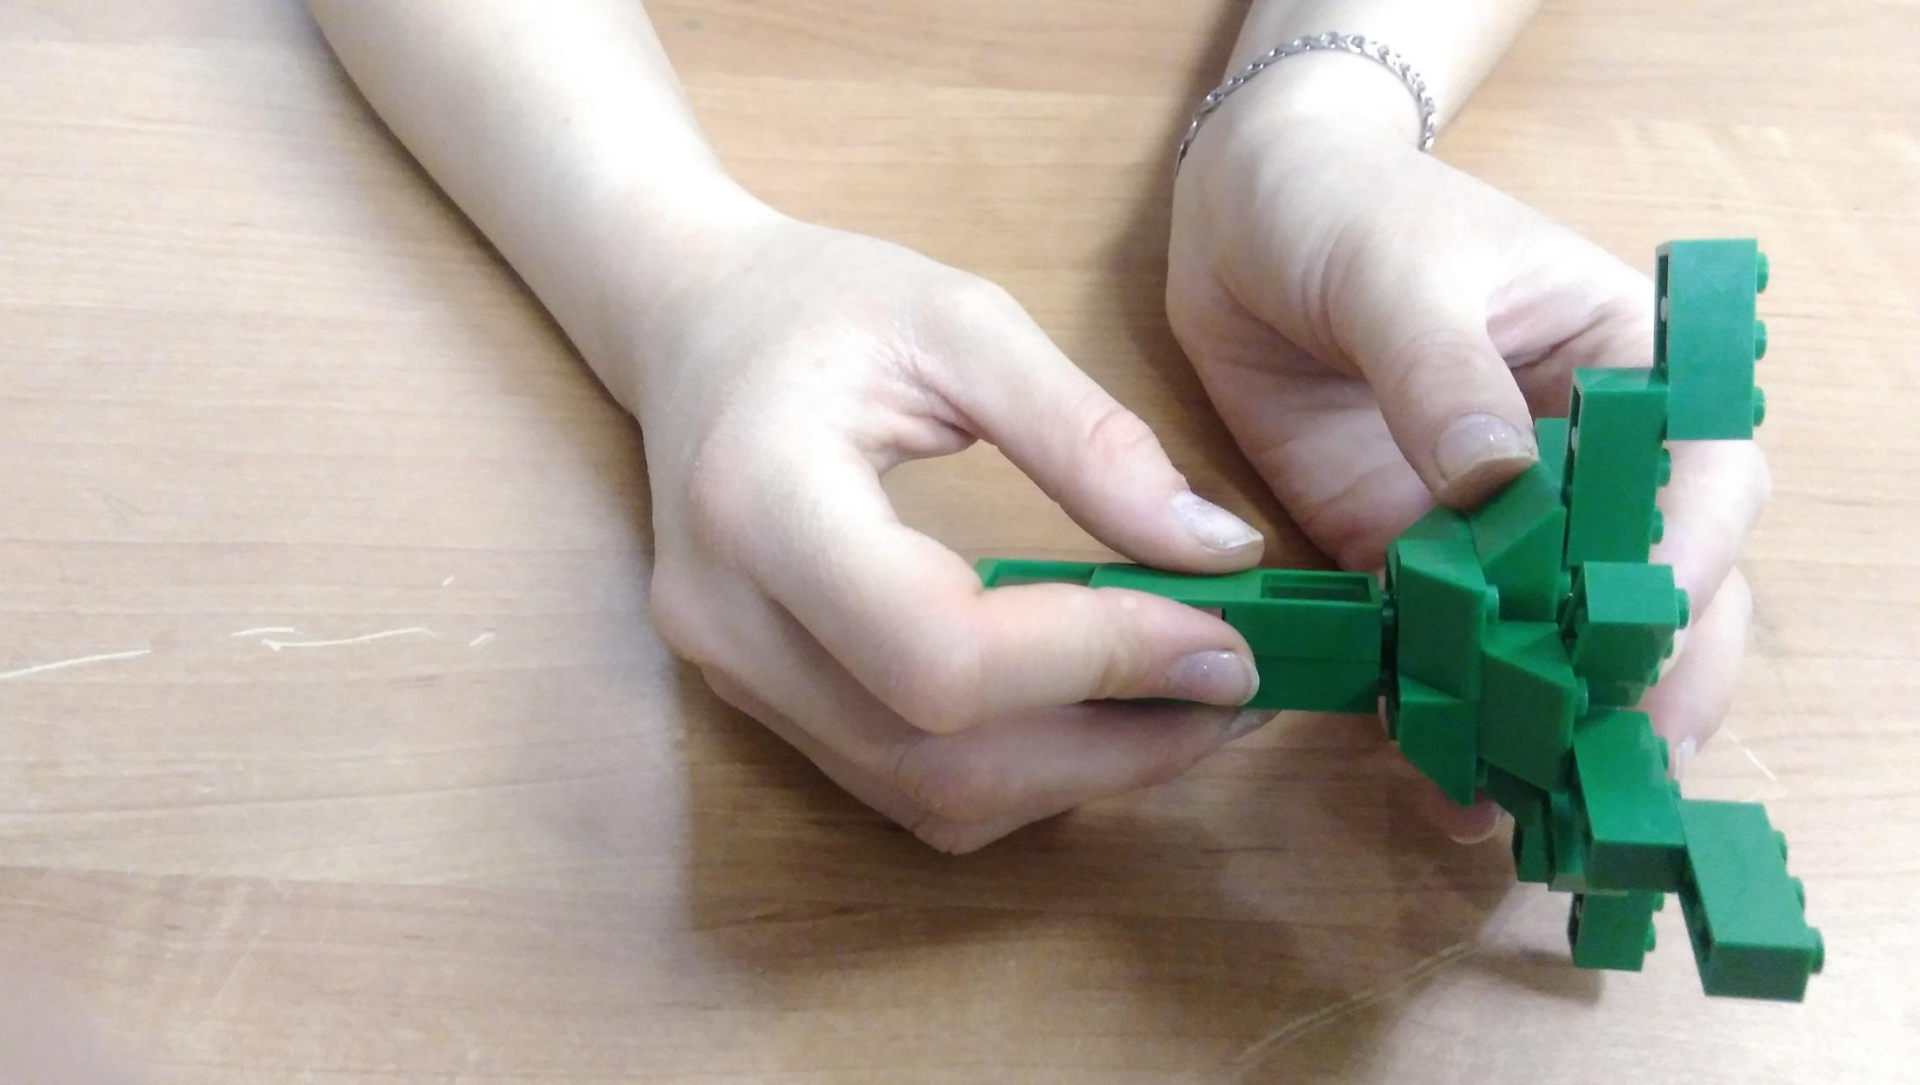

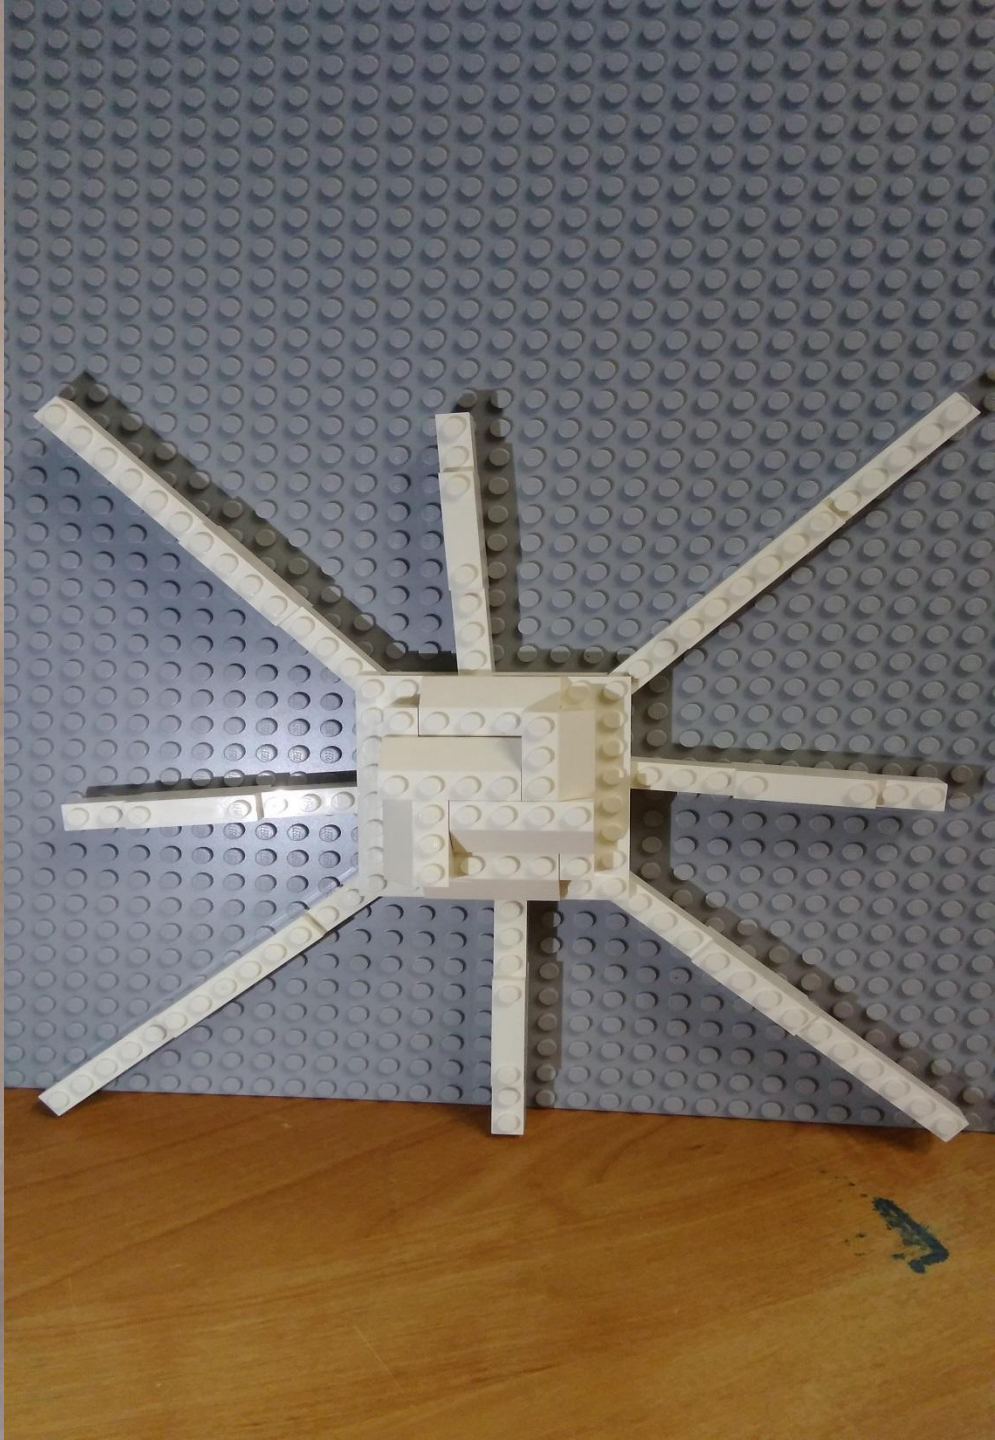

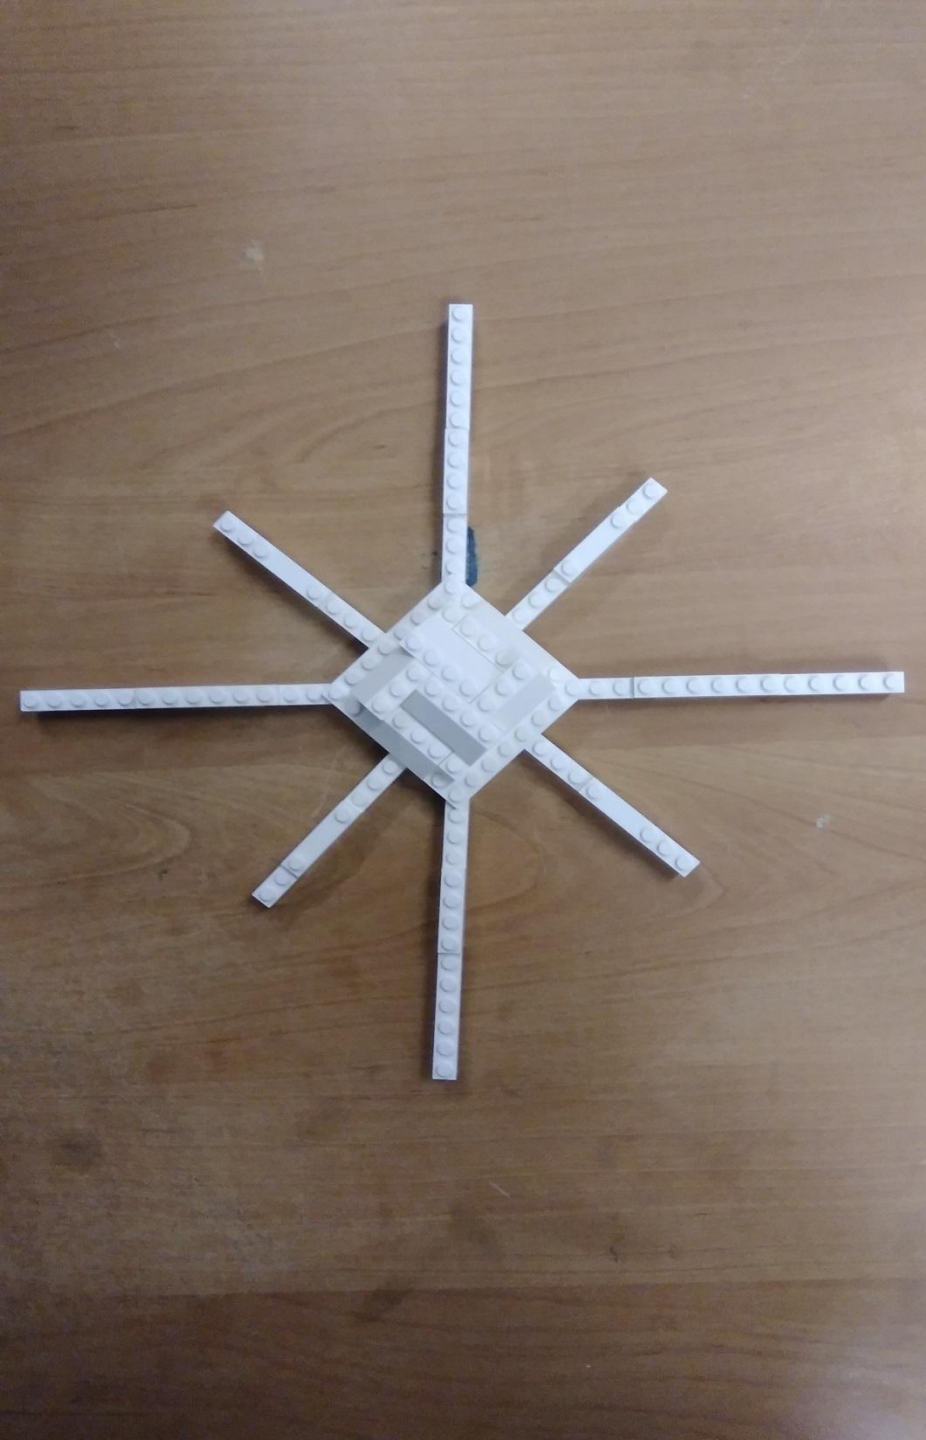

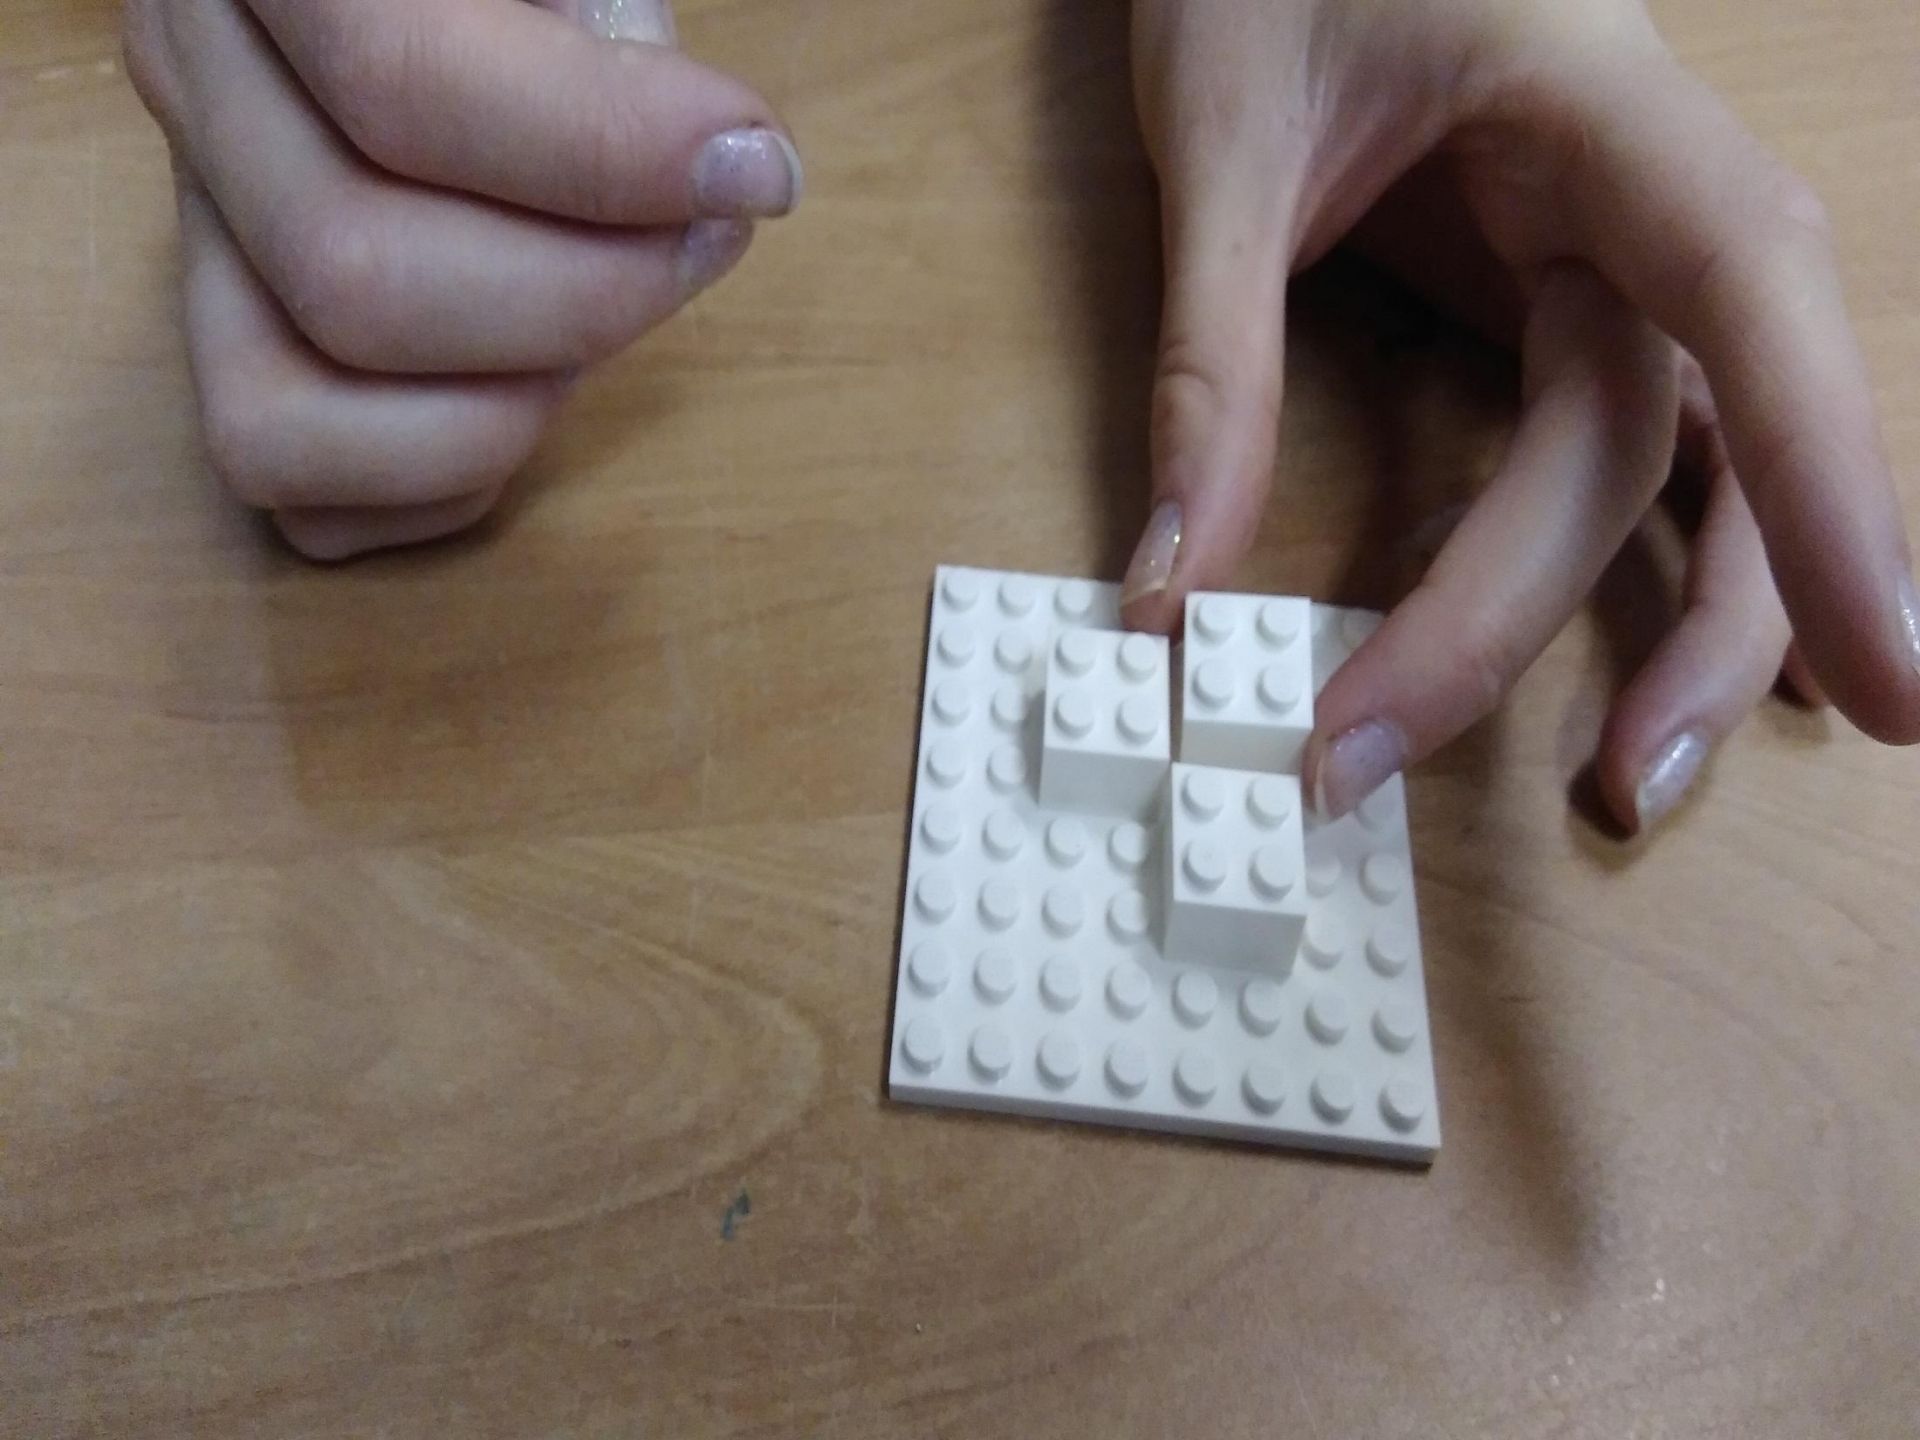

Соединяем две детали вместе и  
получаем пальму

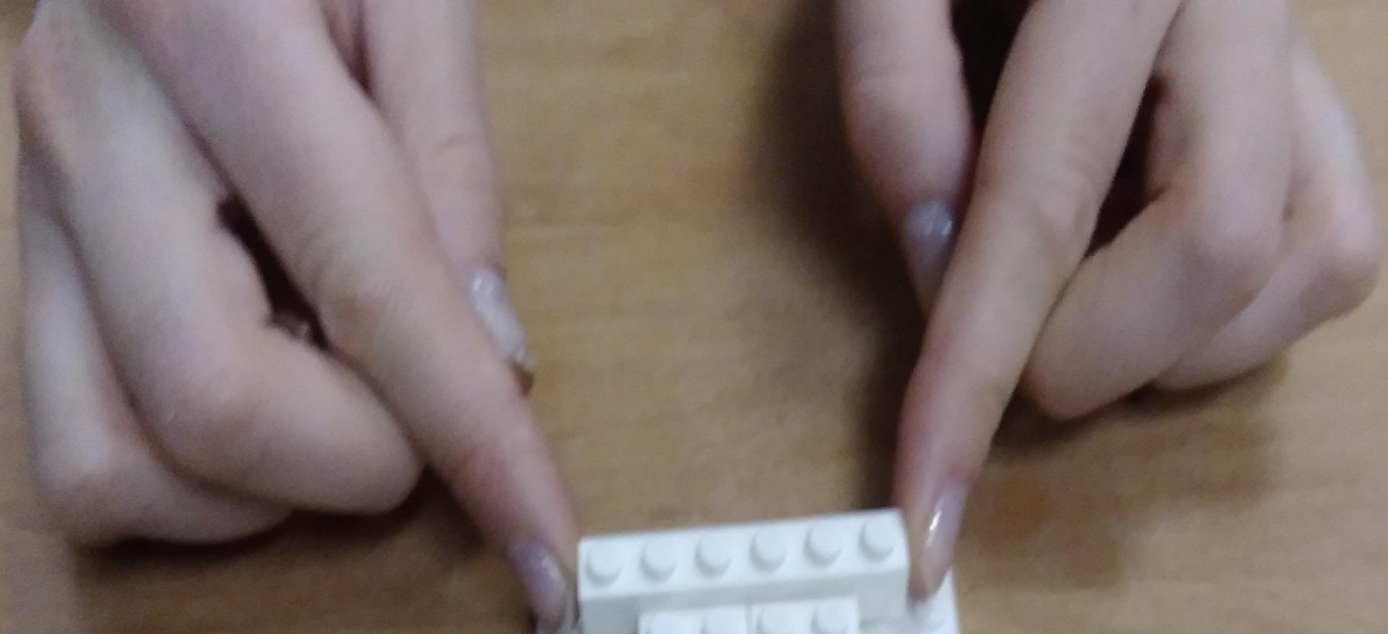

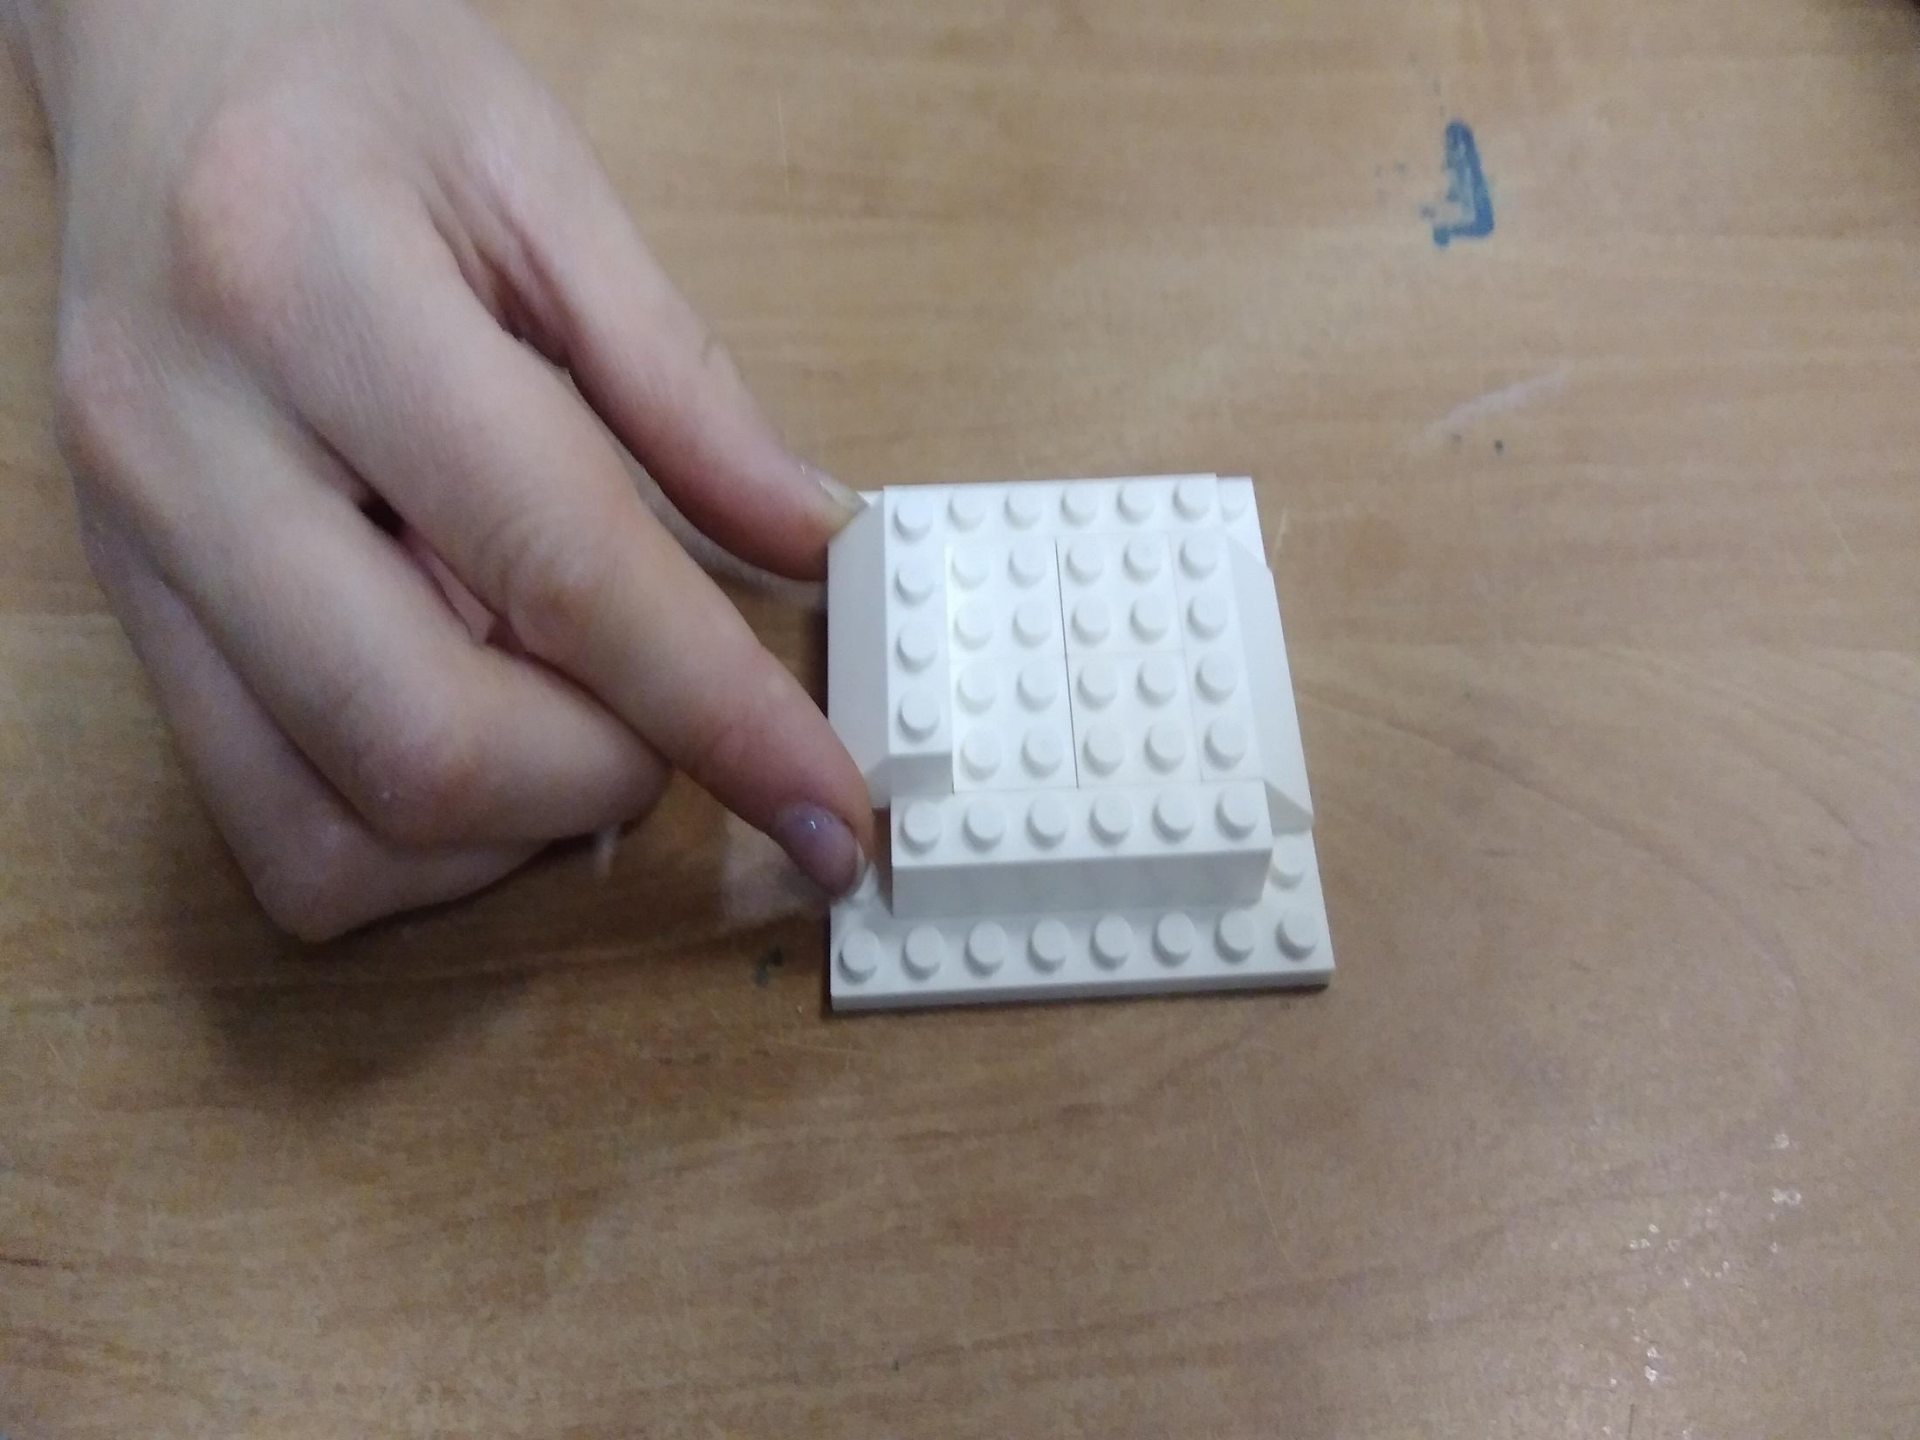

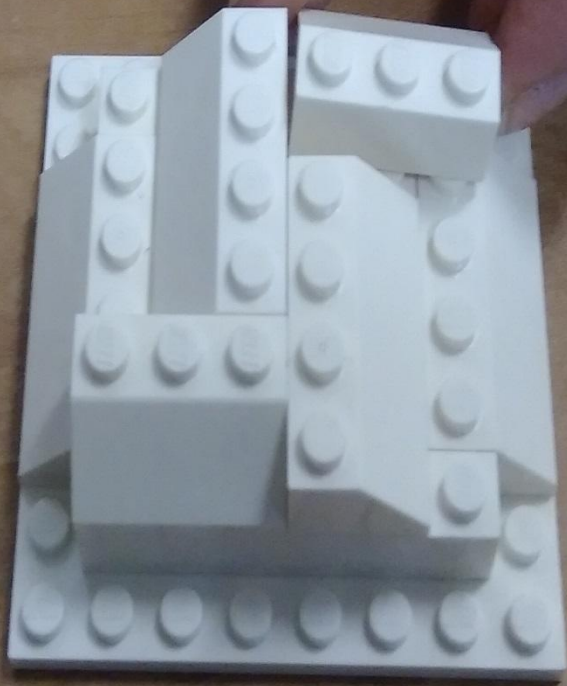

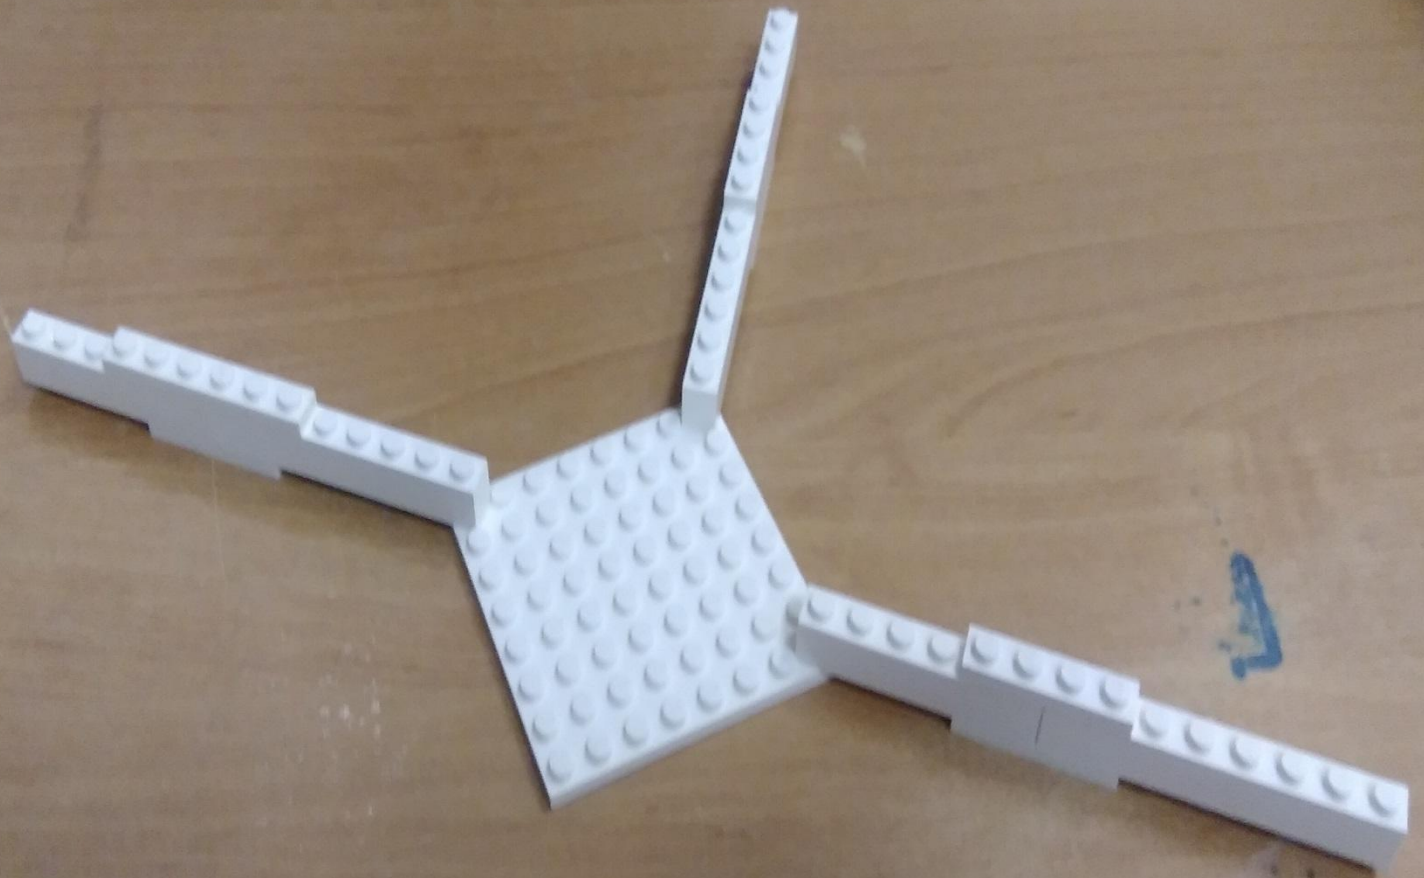

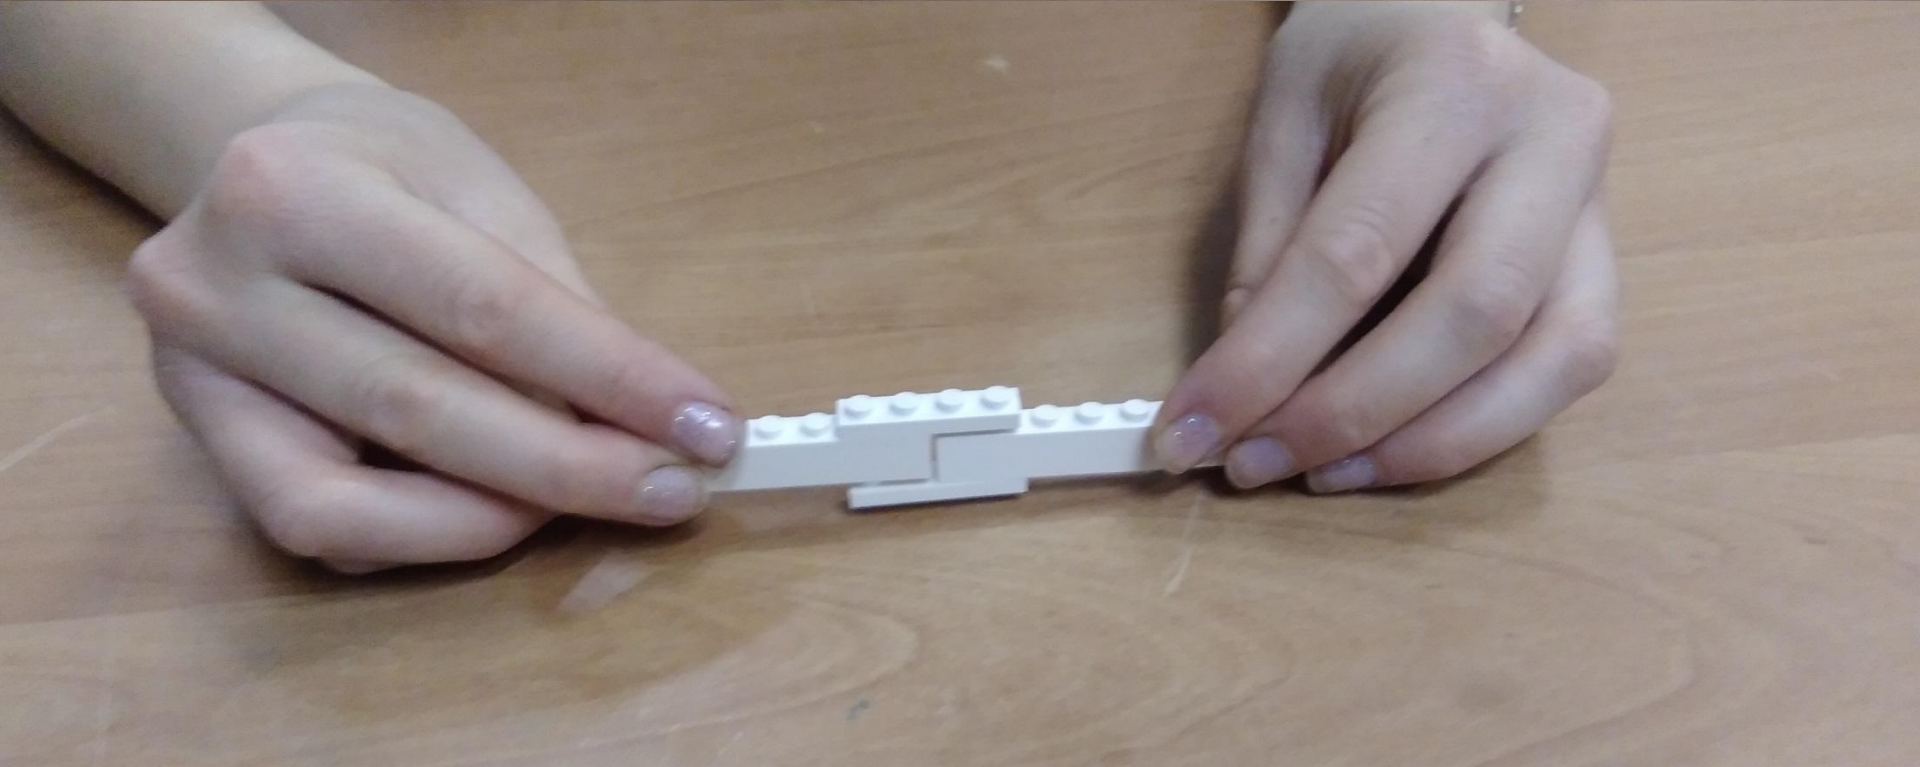

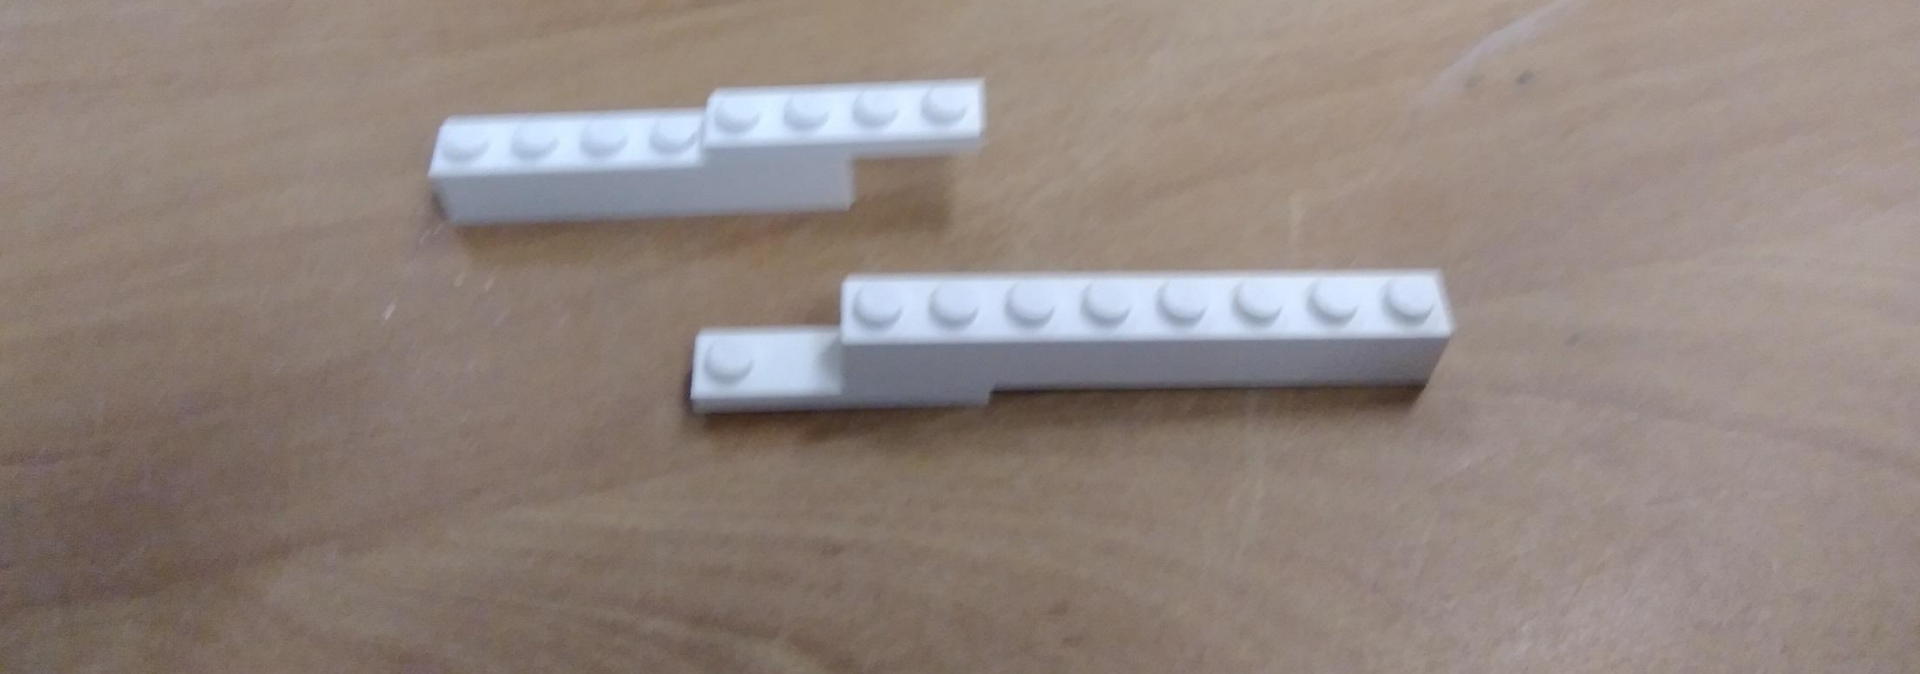

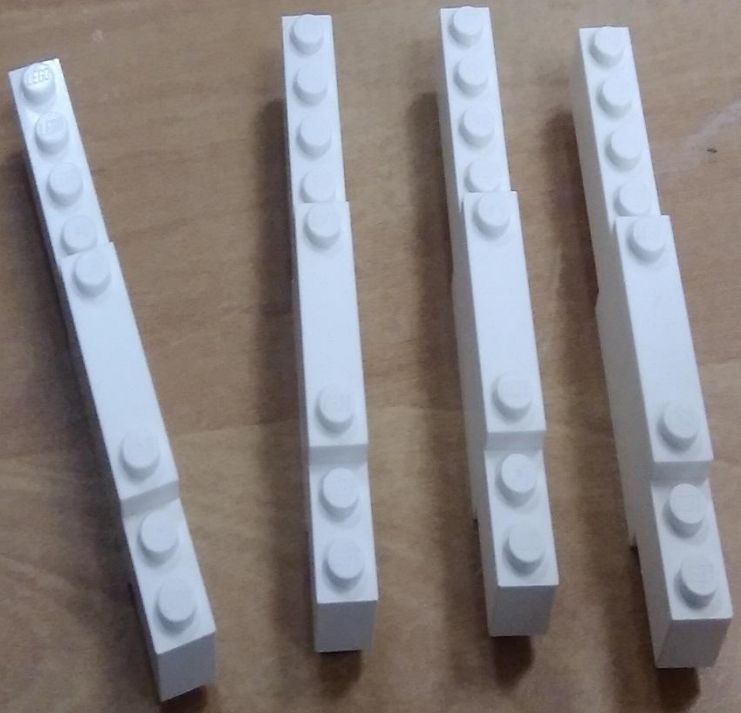

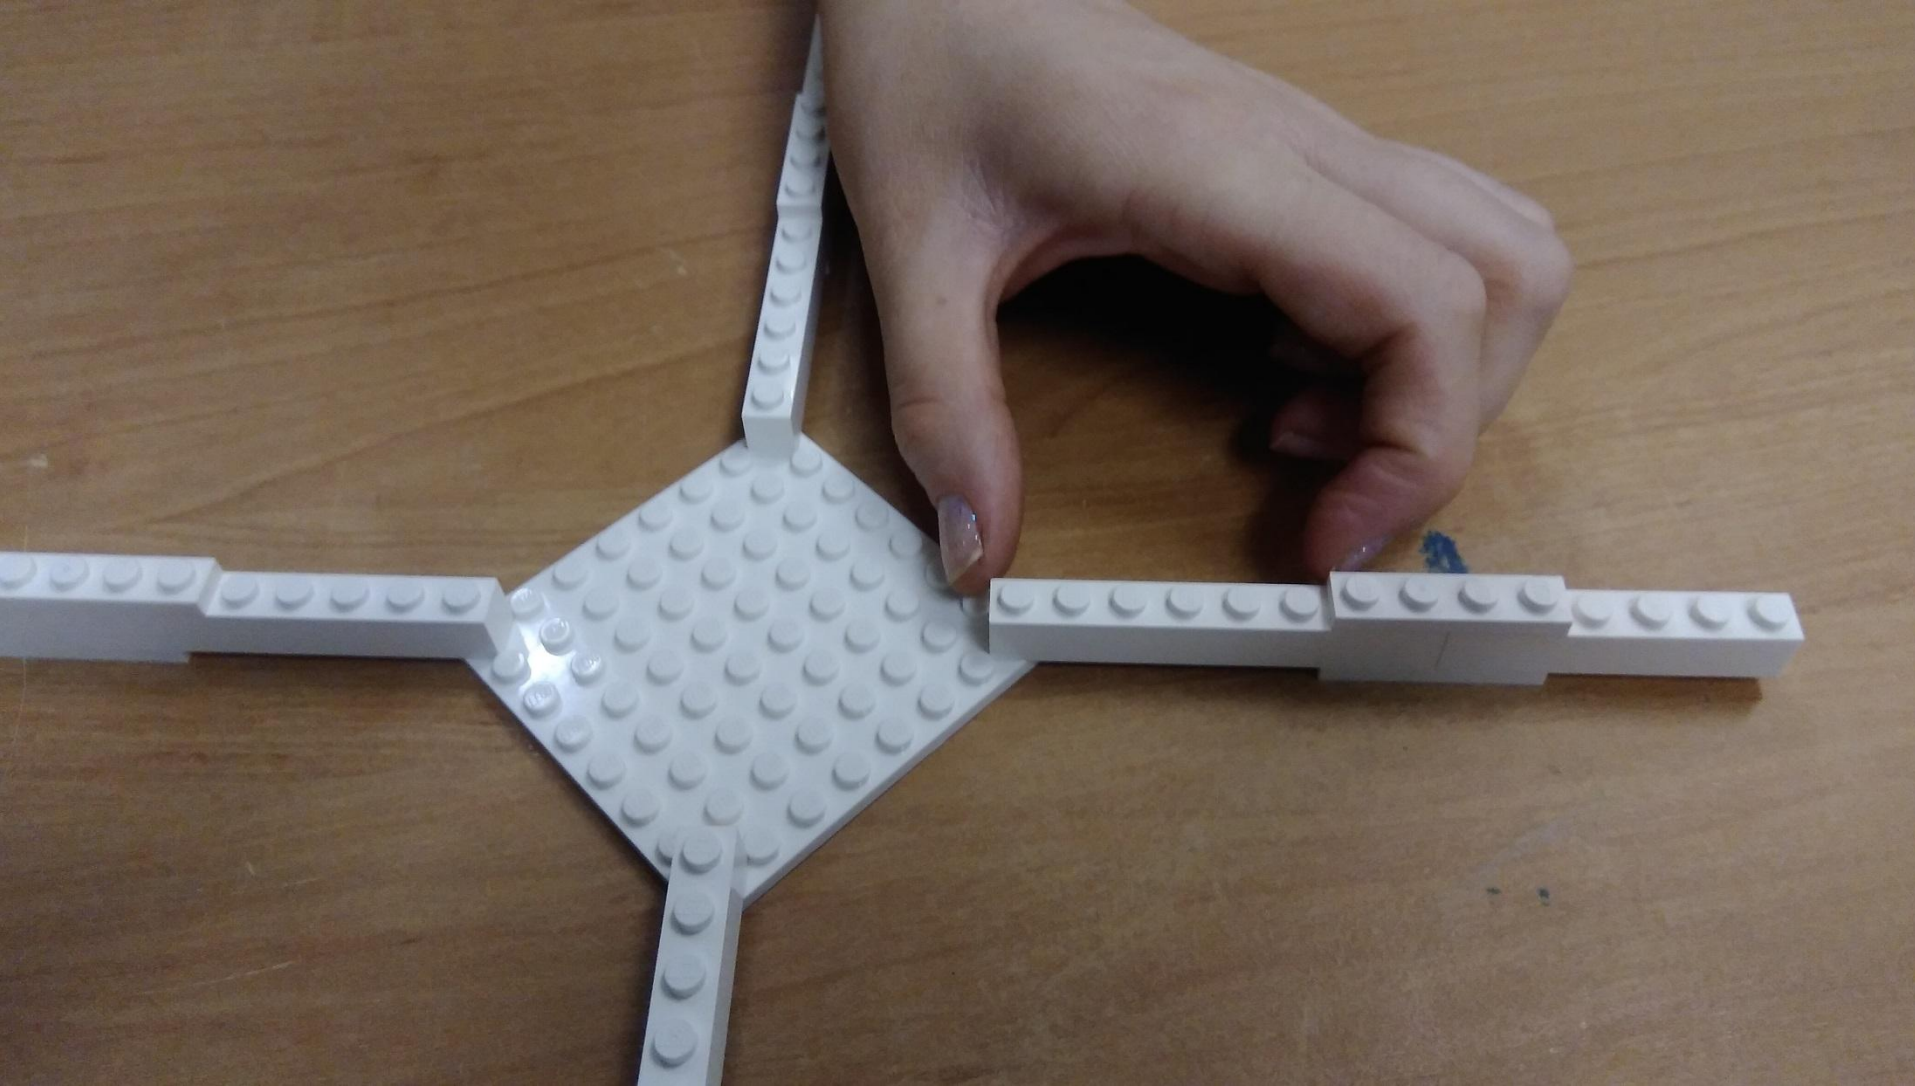

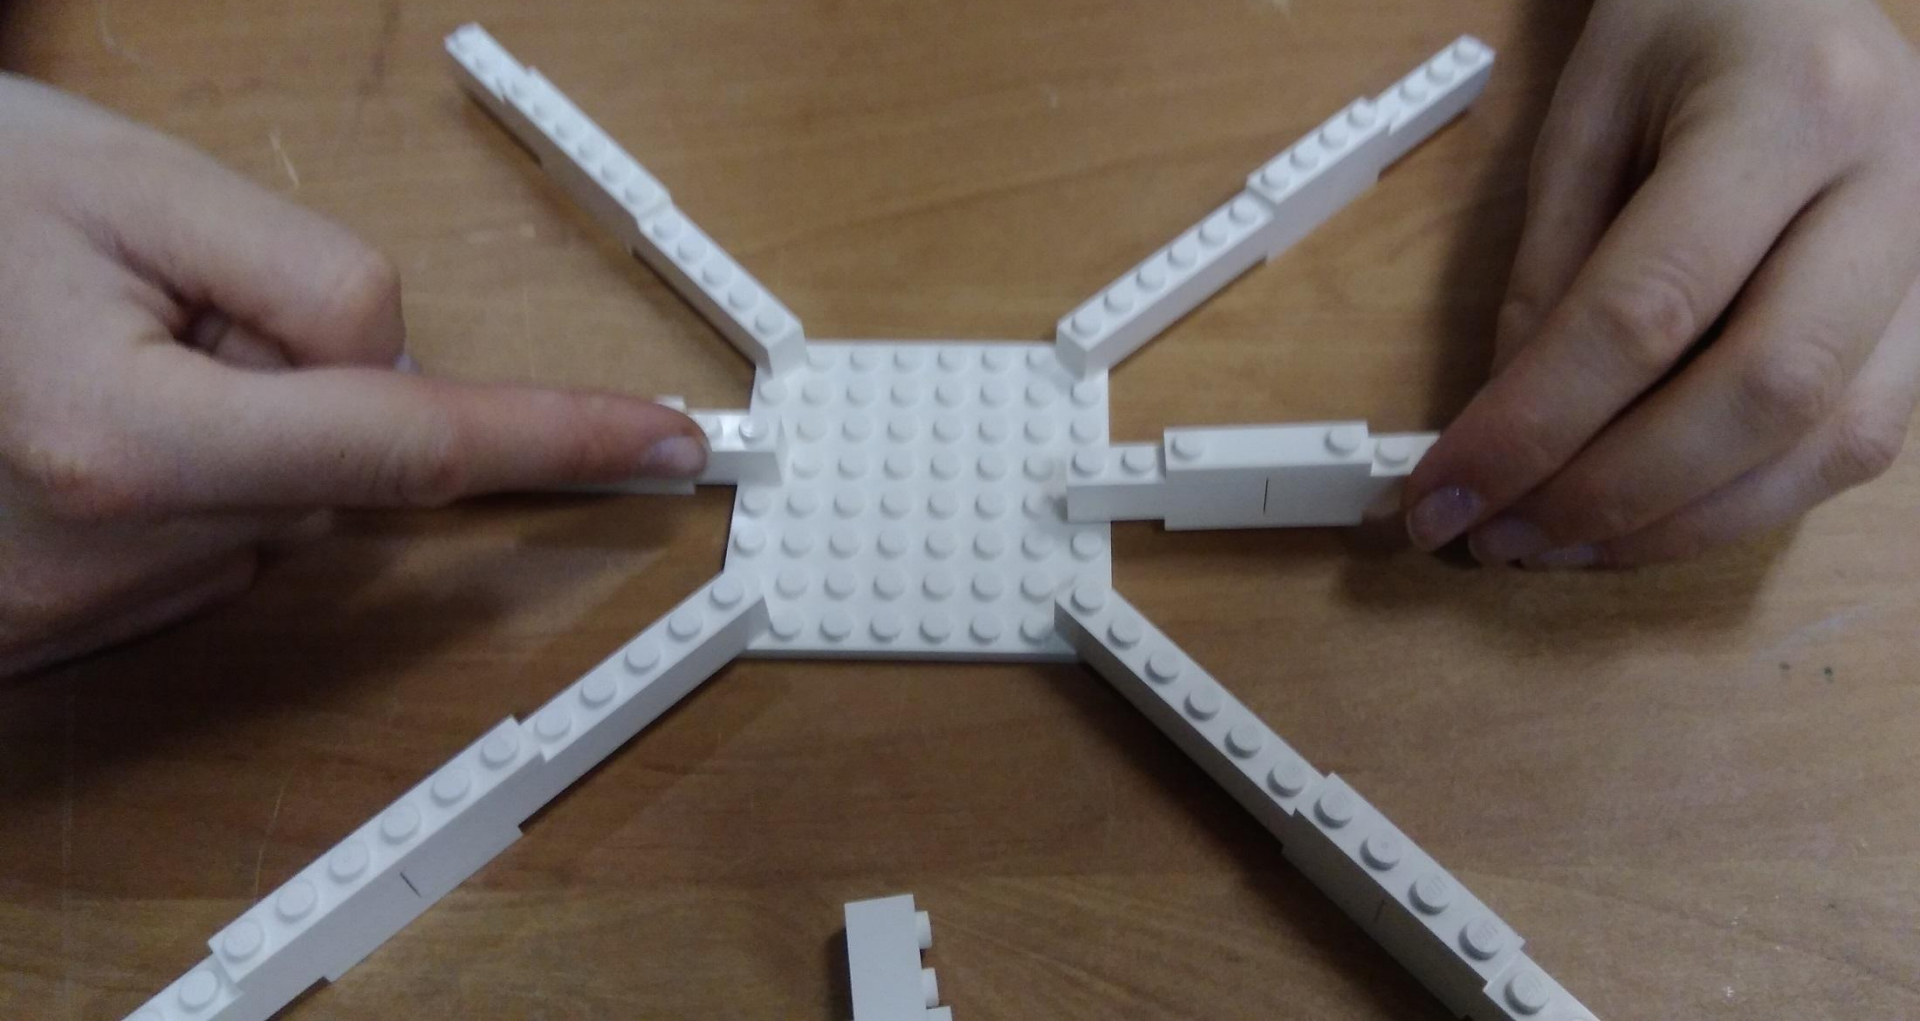

3

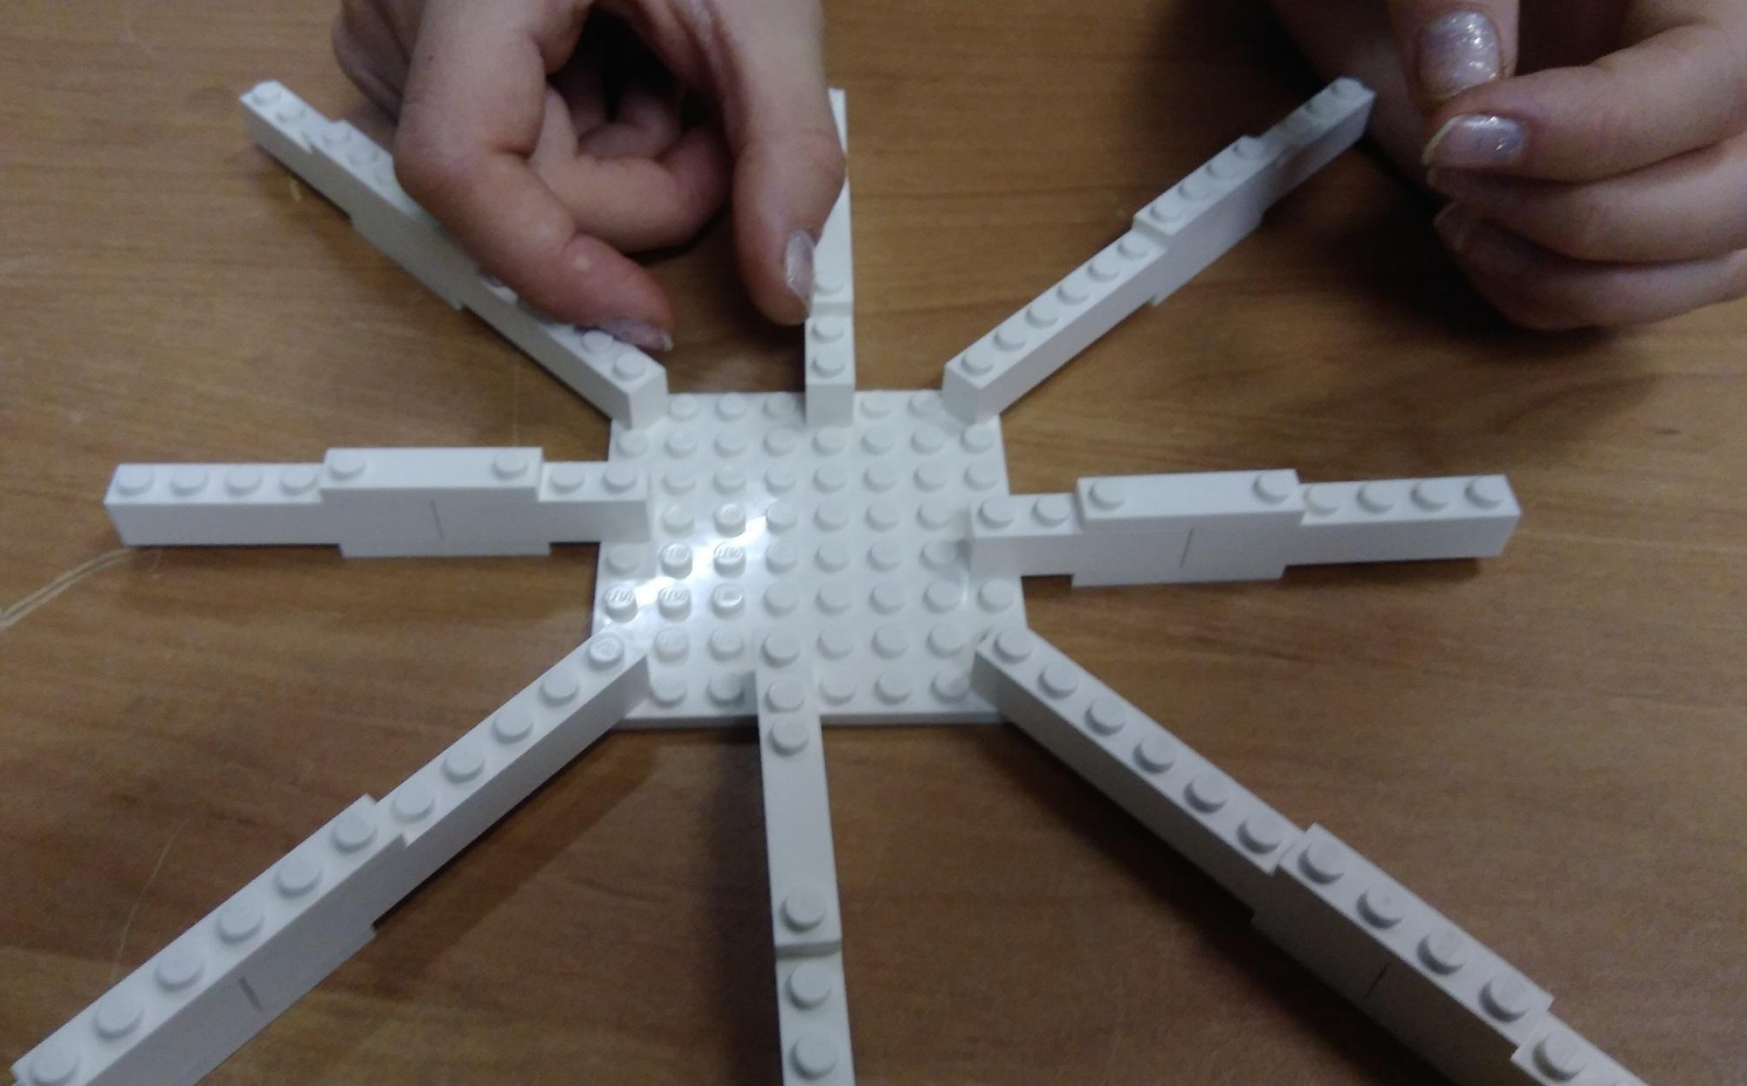

По количеству точек на полублоке  
МОЖНО ПОНЯТЬ куда его ставить

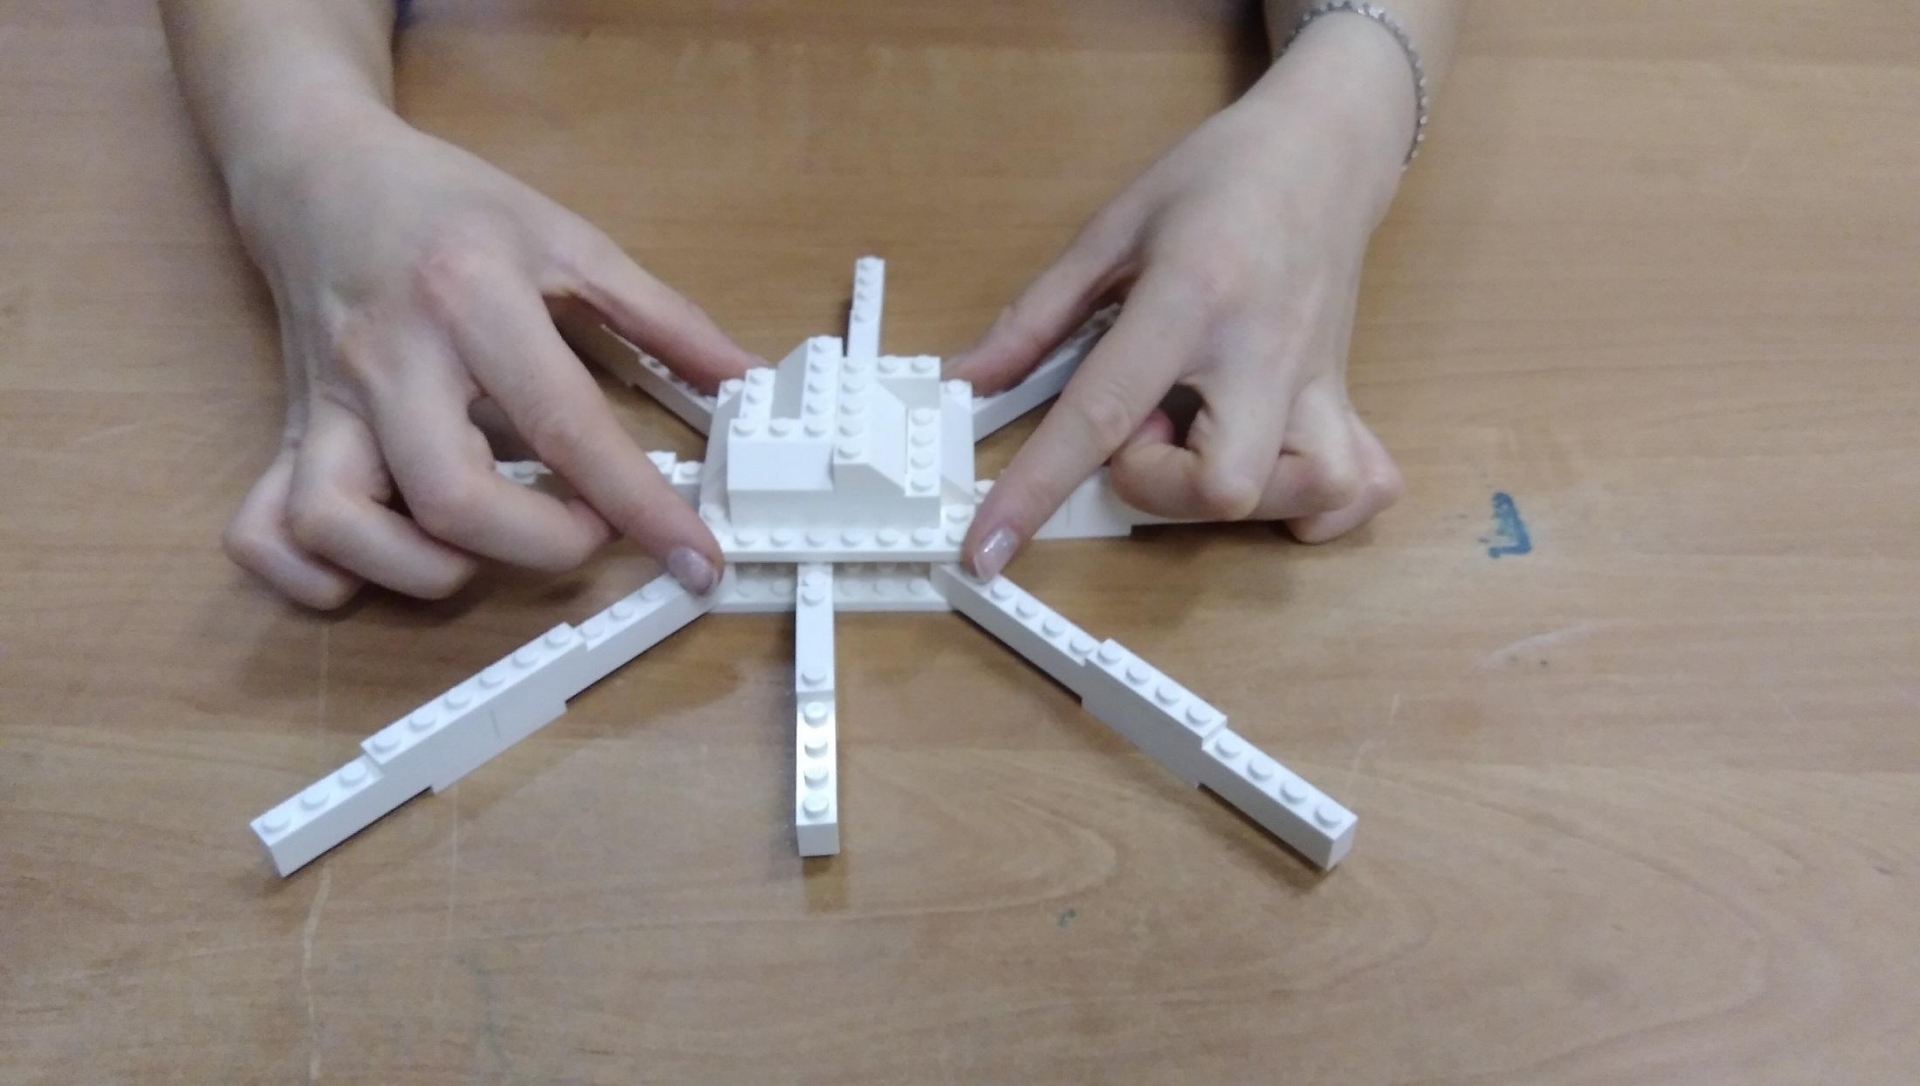

В данном месте сборки, планки нужно ставить не напротив друг другу!

По количеству точек можно понять где у Вас  
ошибки, если они есть!

Соединяем две части, ставя одну на другую, как показано на изображении

Спасибо,

---

Вы молодцы!
