Игры-эксперименты

Дуем в трубочки.

Снег идет.

Рисование пальчиком "Дождь идет".

Ну-ка, вылови.

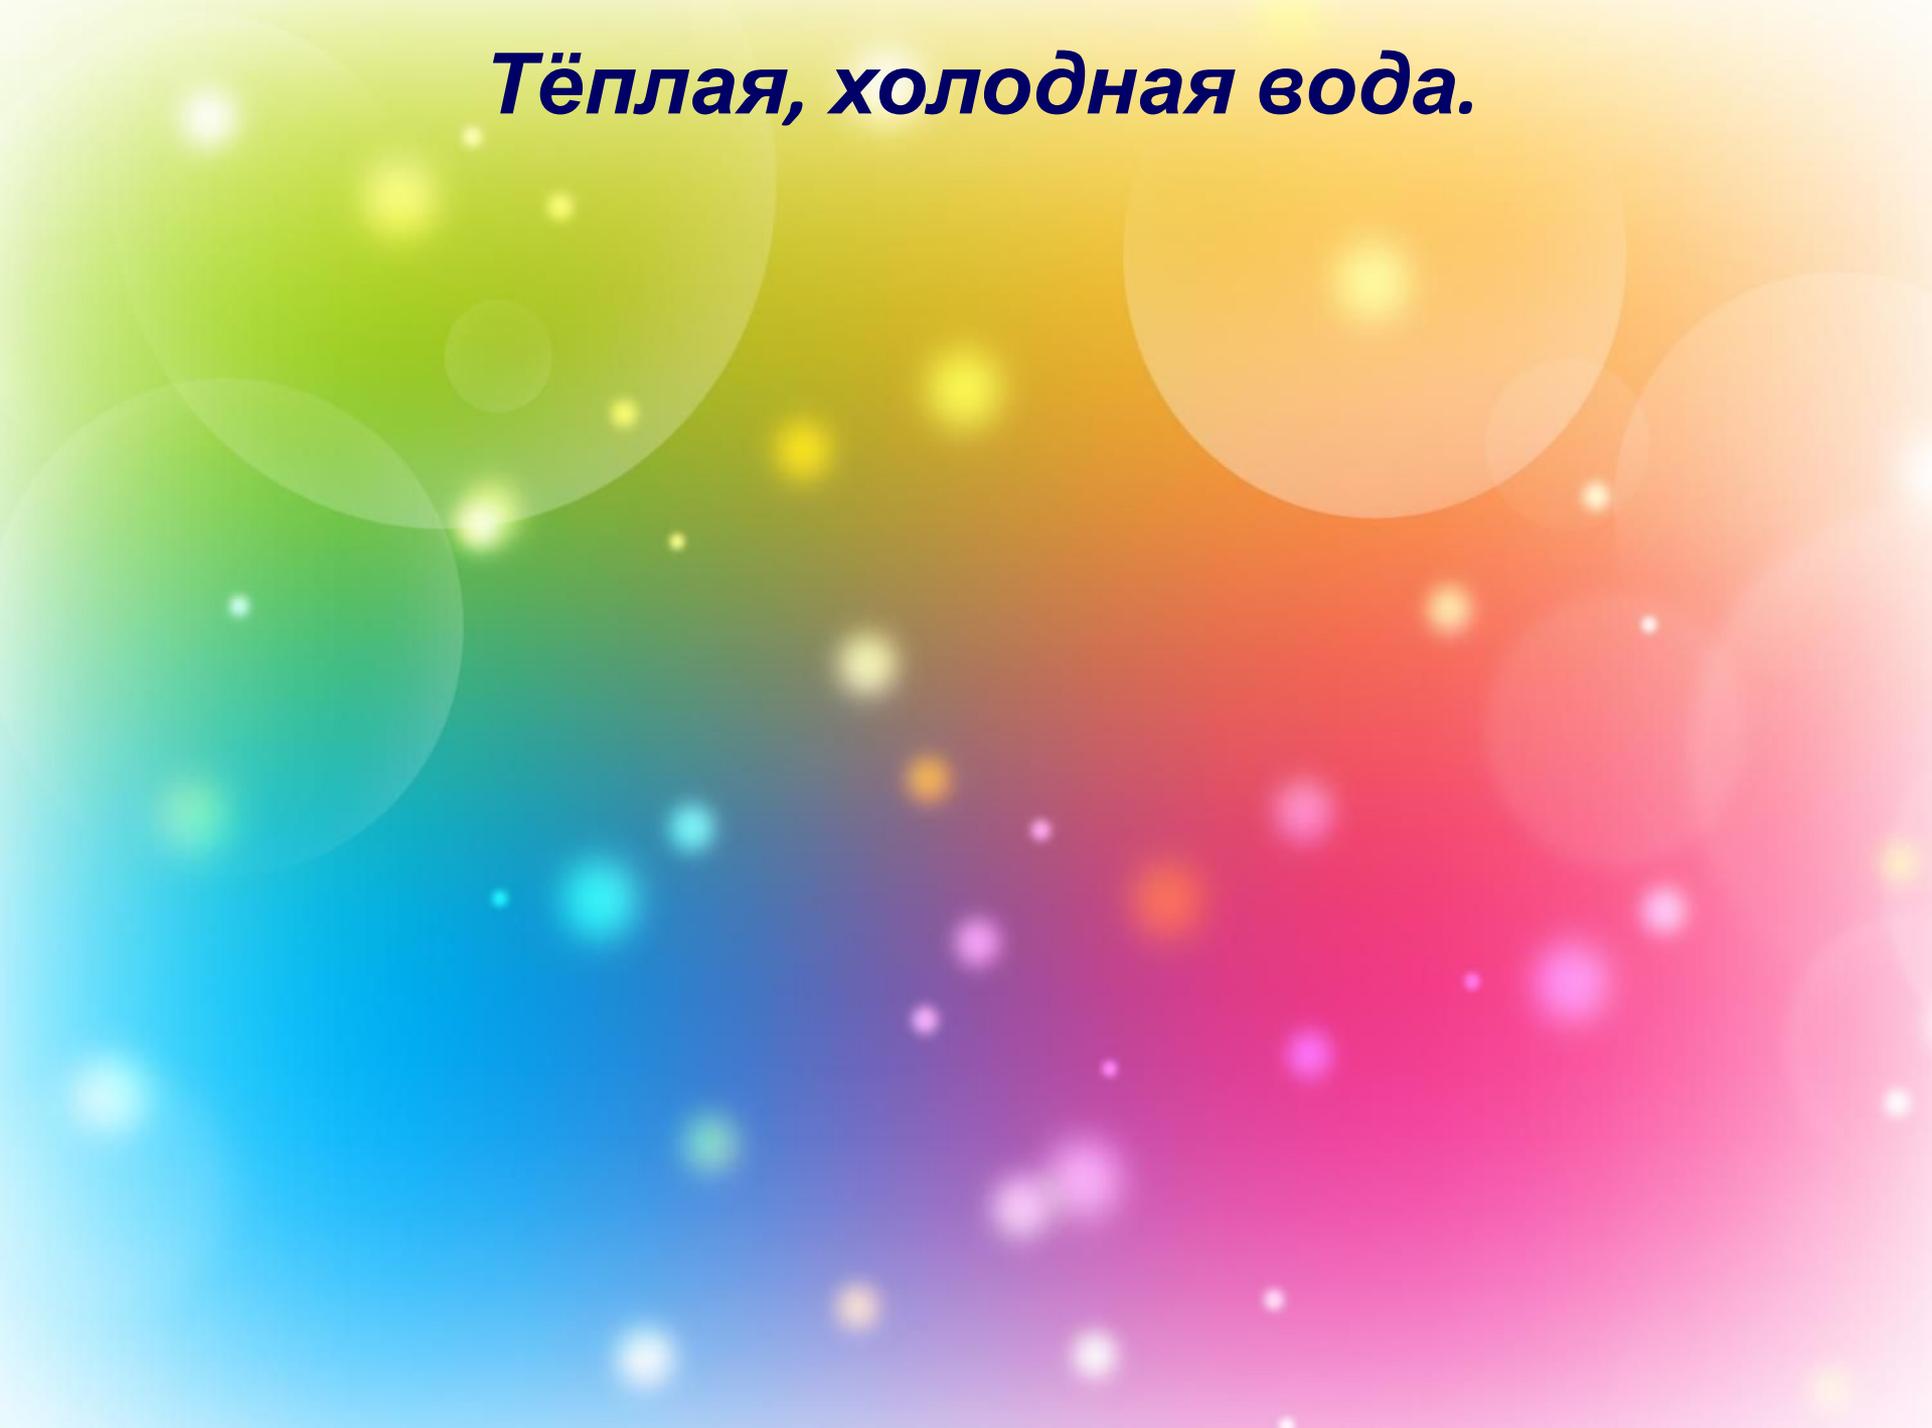

Купание куклы Кати.

Почему кораблики не плывут.

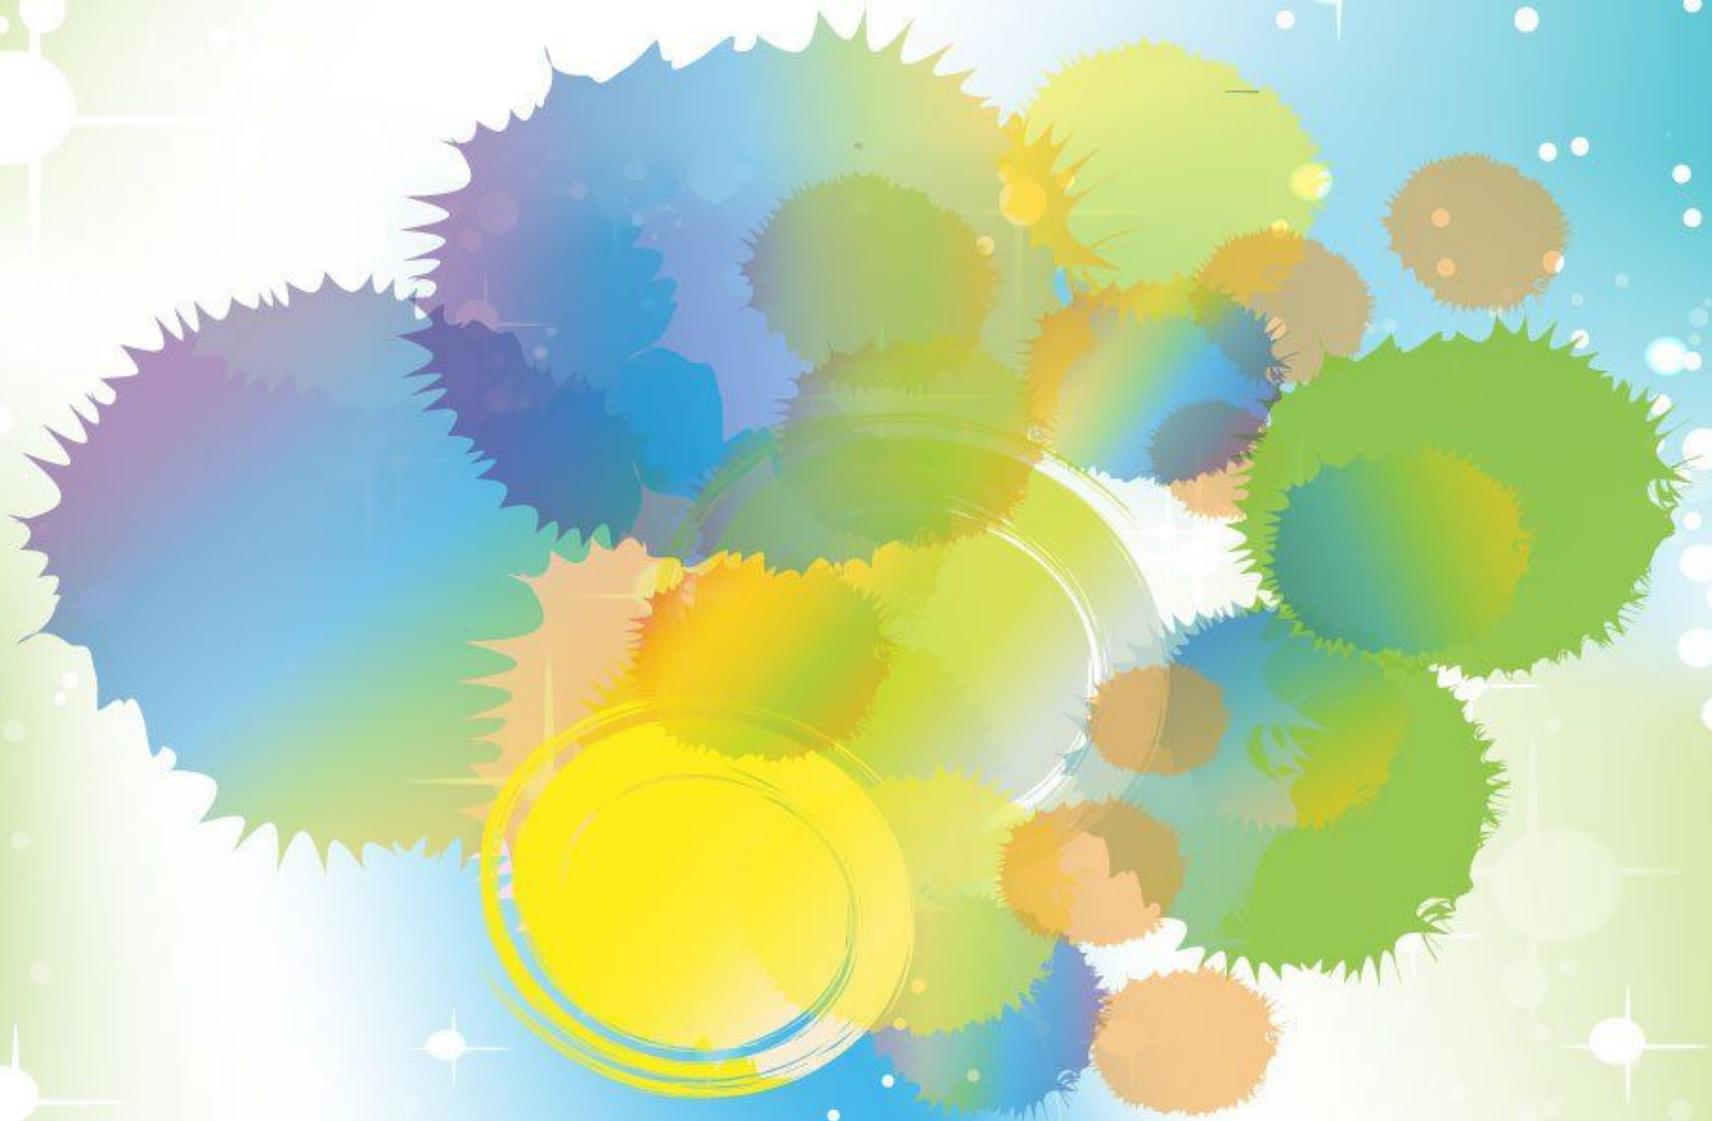

Тёплая, холодная вода.

The background is a vibrant, multi-colored gradient. It starts with a bright green on the left, transitions through yellow and orange in the upper right, then through red and pink in the lower right, and finally into a deep blue and purple on the bottom left. The scene is populated with several large, semi-transparent circles of varying colors (green, yellow, orange, red) that overlap each other. Scattered throughout the background are numerous small, glowing particles in various colors, including white, yellow, orange, red, pink, and blue, creating a sparkling, ethereal effect.

Солнышко и дождик.

Играем с красками.

Разноцветная вода.
