University consists of 4 buildings which are located next to each other and a new building constructed near Siberia's largest library (GPNTB).

Traditions of SibSUTIS: I remember only two traditions after being SibSUTIS student for 2 years: initiation of first year students passing through the night from August 31 to September 1 on the embankment of the river Ob. And traditional celebrations on the streets after the Spring Festival, when, after a presentation by each faculty, students from different faculties gather outside on Voshod Street, near the university there they drink and sing and drink again whole night
