

Число и цифра 10.

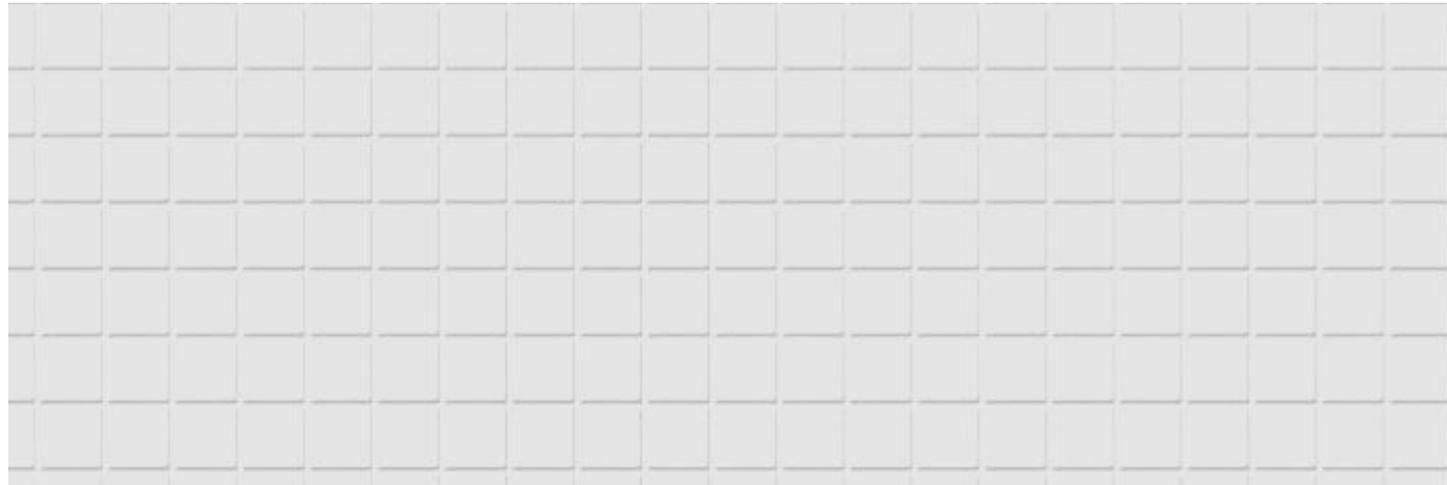

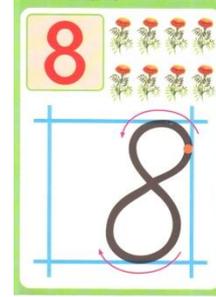

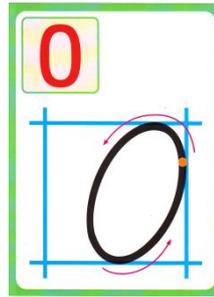

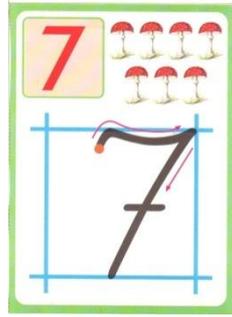

Реши примеры.

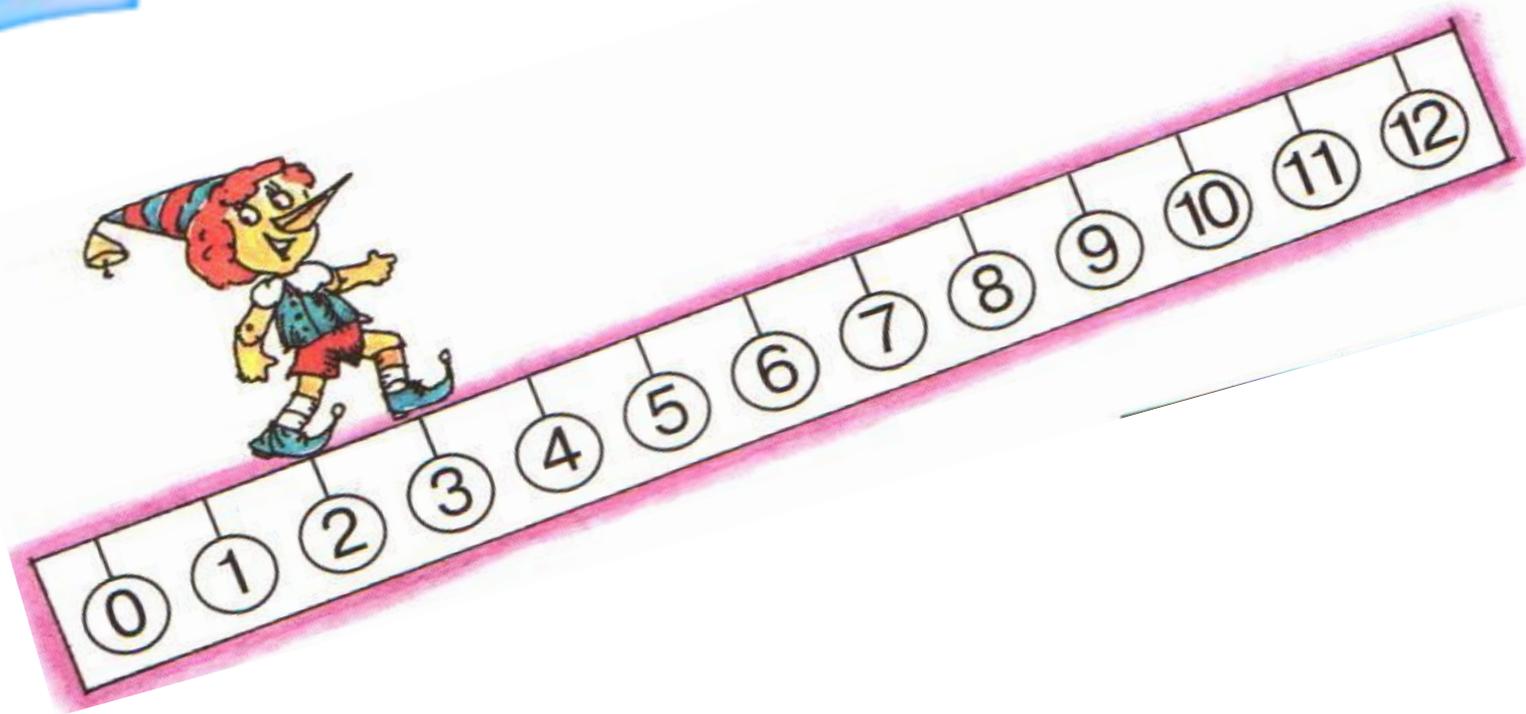

**Космонавтом хочешь
стать?
Научись писать, решать.
Кто примеры все решит –
На ракете улетит.**

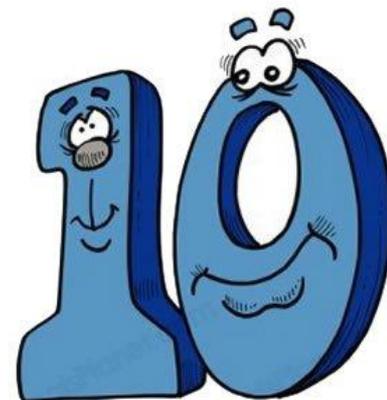

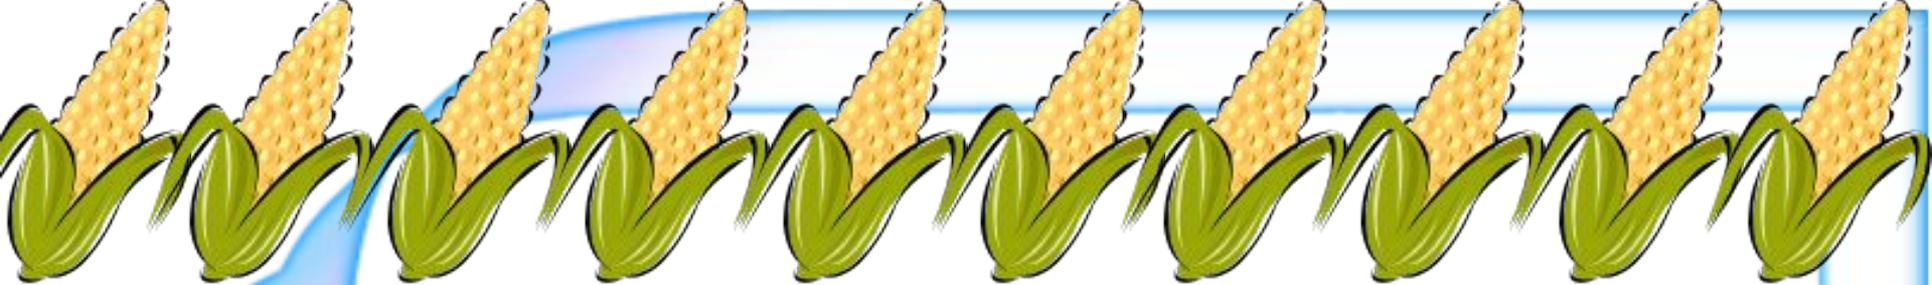

Напиши цифры!

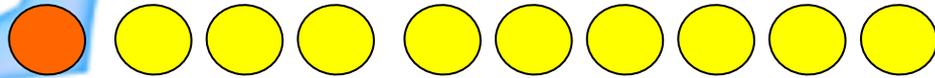

Раз, два, три, четыре,
пять,
Все умеем мы считать.
Отдыхать умеем тоже –
Руки за спину положим,
Голову поднимем выше
И легко-легко подышим
Подтянитесь на носочках
столько раз,
Ровно столько, сколько
пальцев на руках у вас.

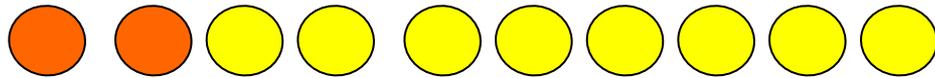

10	
9	1
8	2
7	3
6	4
5	5

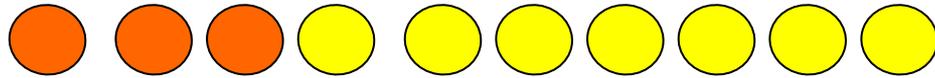

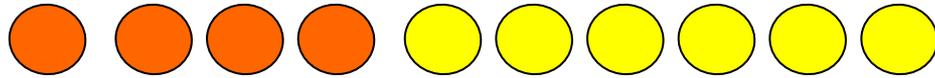

$$1+9=10$$

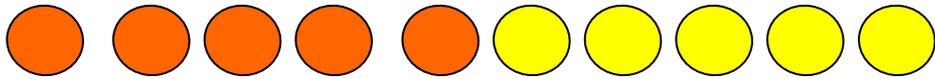

$$2+8=10$$

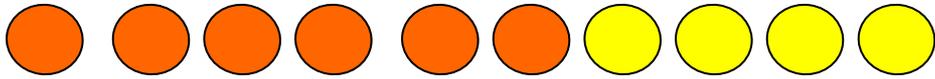

$$3+7=10$$

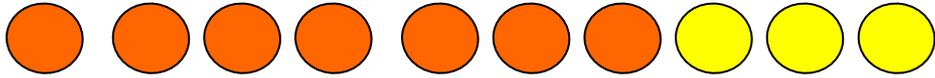

$$4+6=10$$

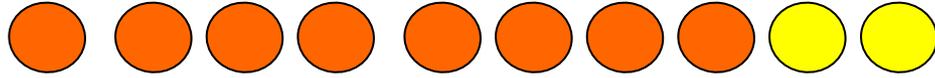

$$5+5=10$$

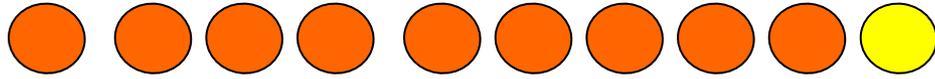

$$6+4=10$$

$$7+3=10$$

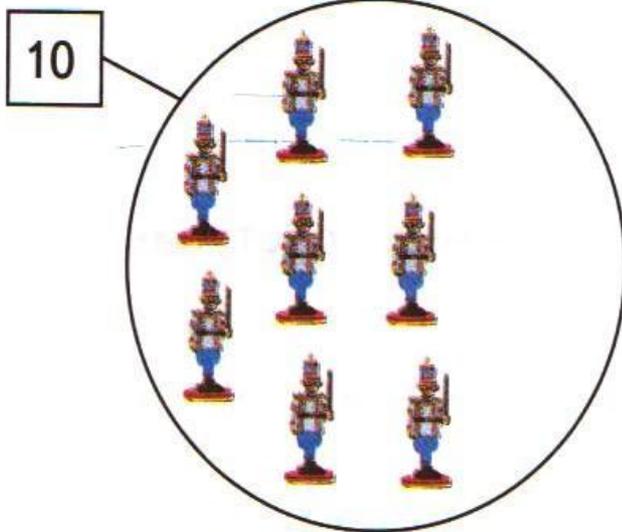

$$8+2=10$$

$$9+1=10$$

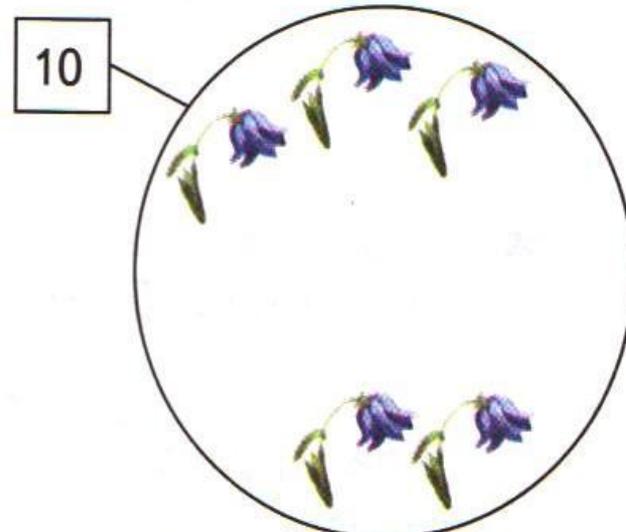

Дорисуй фишки. Дополни записи.

$$8 + \square = 10$$

$$10 = 8 + \square$$

$$5 + \square = 10$$

$$10 = \square + \square$$

Вычисли. Соедини линиями примеры с одинаковыми ответами.

$6 + 2 = 8$

$6 + 1 = \square$

$4 + 2 = \square$

$7 + 2 = \square$

$5 + 4 = \square$

$7 - 1 = \square$

$7 + 1 = 8$

$9 - 2 = \square$

$5 + 1 = \square$

$9 - 1 = 8$

$8 + 1 = \square$

$5 + 2 = \square$
