

# Открытый урок в 8 б классе на тему Ecological problems

**Учитель: Нигматуллина Р.С.  
МБОУ СОШ №3 г. Бирска**

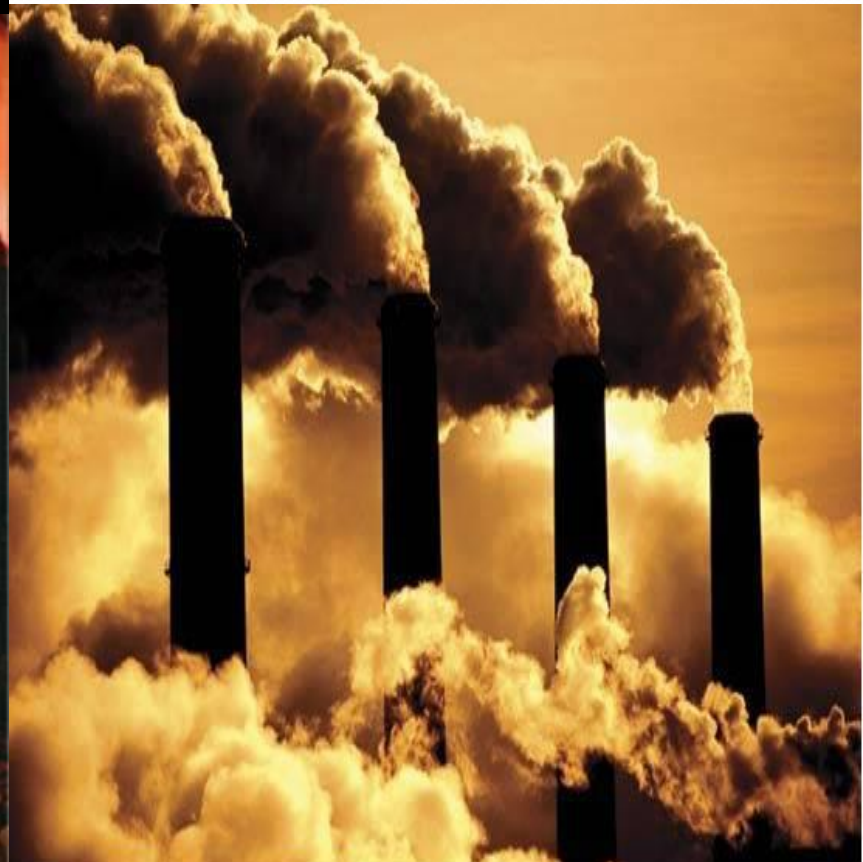

**"We won't have  
a society if we  
destroy the  
environment."**

**-Margaret Mead**

SuccessYeti

*The Earth Song*  
*by Michael Jackson*

Let's practice the words and expressions on the topic  
'Ecological problems' doing some exercises.

So the 1<sup>st</sup> task is for you.

**1 Remember the words and make up the mind – map  
according to the topic of the lesson.**

**Remember the words and make up the mind – map according to the topic of the lesson.**

# Match the given words with their similar meanings

**Amazing**

**To die out**

**Vital problems**

**Frightening**

**Unhealthy food**

**Gases**

**To damage**

**to disappear**

**alarming**

**fumes**

**pollute**

**environmental problems**

**wonderful**

**junk food**

# Match the words (and phrases) with their opposite meanings

**to protect**

**to pollute**

**to throw**

**to avoid doing something**

**to drop litter**

**to prohibit**

**to be in danger**

**to be out of danger**

**to allow**

**to damage**

**to clean**

**to clear litter away**

**to catch**

**to avoid doing smth**

**Fill in the blanks using the words in the box.**

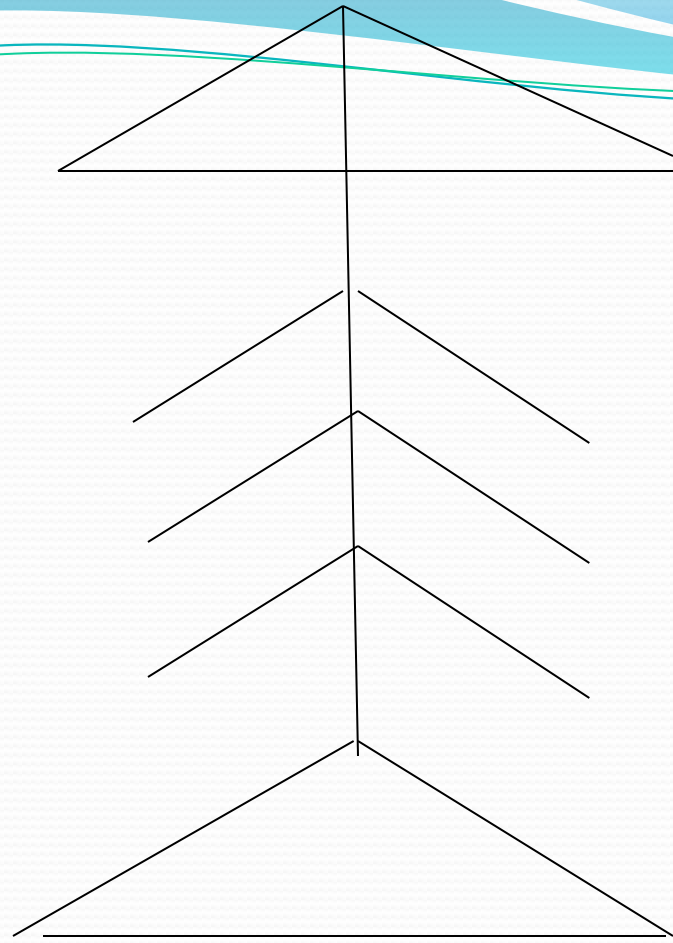

**(Workbook, ex.17, p.57)**

Wastes, throw away, drop, environment, cans of drink, plastic, paper, domestic rubbish, glass, recycled.

These days people have realized how important their ... is. They read newspapers and find out that in one year a European family ... a lot of ...: about fifty kilos of paper and about sixty kilos of .... . Some people throw away ... , plastic packaging, ... their cigarette packets without a thought. But many kinds of ... can be still useful. Most kinds of ... and ...., metal, plastic can be ... .

Now work in groups please. Read your own text and fill in fishbone

**I see you're tired. Imagine that you live in an ideal world. You are sitting in the meadow and watching the butterflies flying around you.**

**Зрительная зарядка: (спокойная музыка).**

Look up

Look down

To the left

To the right

To the sky

To the ground

Wink, wink

It's all right!

Now let's discuss the main problems of the texts.

The representatives from all the groups announce the answers.

The first problem is...

The second problem is...

The third problem is...

The possible way to solve these problems are ....

**Water pollution**

**Air pollution**

The North Sea and the Pacific ocean

Industrial, nuclear waste pollute seas and oceans

Industrial waste

A lot of noise

**Ecology**

A lot of water is poisoned

A lot of litter is on the beaches.

Some of it was left by people, some was brought by water

Rivers, lakes, seas are important for the life

People can't live without water

Cars are the biggest polluters of air

Acid rains

Suffer from smog

A lot of dust, sulfates are thrown into the air

Environment (air, water and land where people live in)

Ecology (the right balance between people and environment)

**What should be done to protect our planet**

**Ecology**

**Nuclear pollution**

It is not seen but its effects are terrible

Nuclear tests, wars

It is not seen but its effects are terrible

Nuclear tests

Scientists (look for effective ways)

Save water, gas, energy.

Keep your town, streets, yards clean.

Plant trees, flowers and take care of them.

People cut down trees

Because they need wood and paper or new places for farms and houses

**Destruction of wildlife**

forests are disappearing

**What shouldn't be done to protect our planet**

# What can we do to improve the ecological situation

Make up cinquains about our nature, about the environment  
together

# **A Hand, the Line of Grass, Trees Against the Blue Sky**

**Let's protect our Planet and handle  
with care!**
