

MY UNIVERSITY
Voronezh State University of
Engineering Technologies

- 
- Our University was founded in 1930. Then it was called the Voronezh Institute of the food industry. At this time, opened the three departments: technological, mechanical and economic planning.

- Voronezh Institute of the food industry in 1932 was renamed into the Voronezh Institute of chemical technology.

- During the great Patriotic war many teachers and students went to the front. In 1942 the Institute was evacuated to the city of Biysk of the Altai territory.

- In 1965, VTI received a status of higher educational institutions of the first category.

- In 1994, the Voronezh technological Institute received a new status and was renamed as Voronezh state technological Academy.

- Today our high school is one of the largest scientific and educational centres of Chernozem region.

- 
- In recent years there have been major changes: the Academy has acquired University status. Now this is Voronezh State University of engineering technology.

- I am study at the faculty of food machines and machines
