A detailed photograph of a butterfly with vibrant orange and black wings, accented with white spots and markings. The butterfly is perched on a large, bright pink flower. The background is a soft-focus green, suggesting foliage. The entire image is framed by a decorative border of small green beads.

Животный мир кузбасса

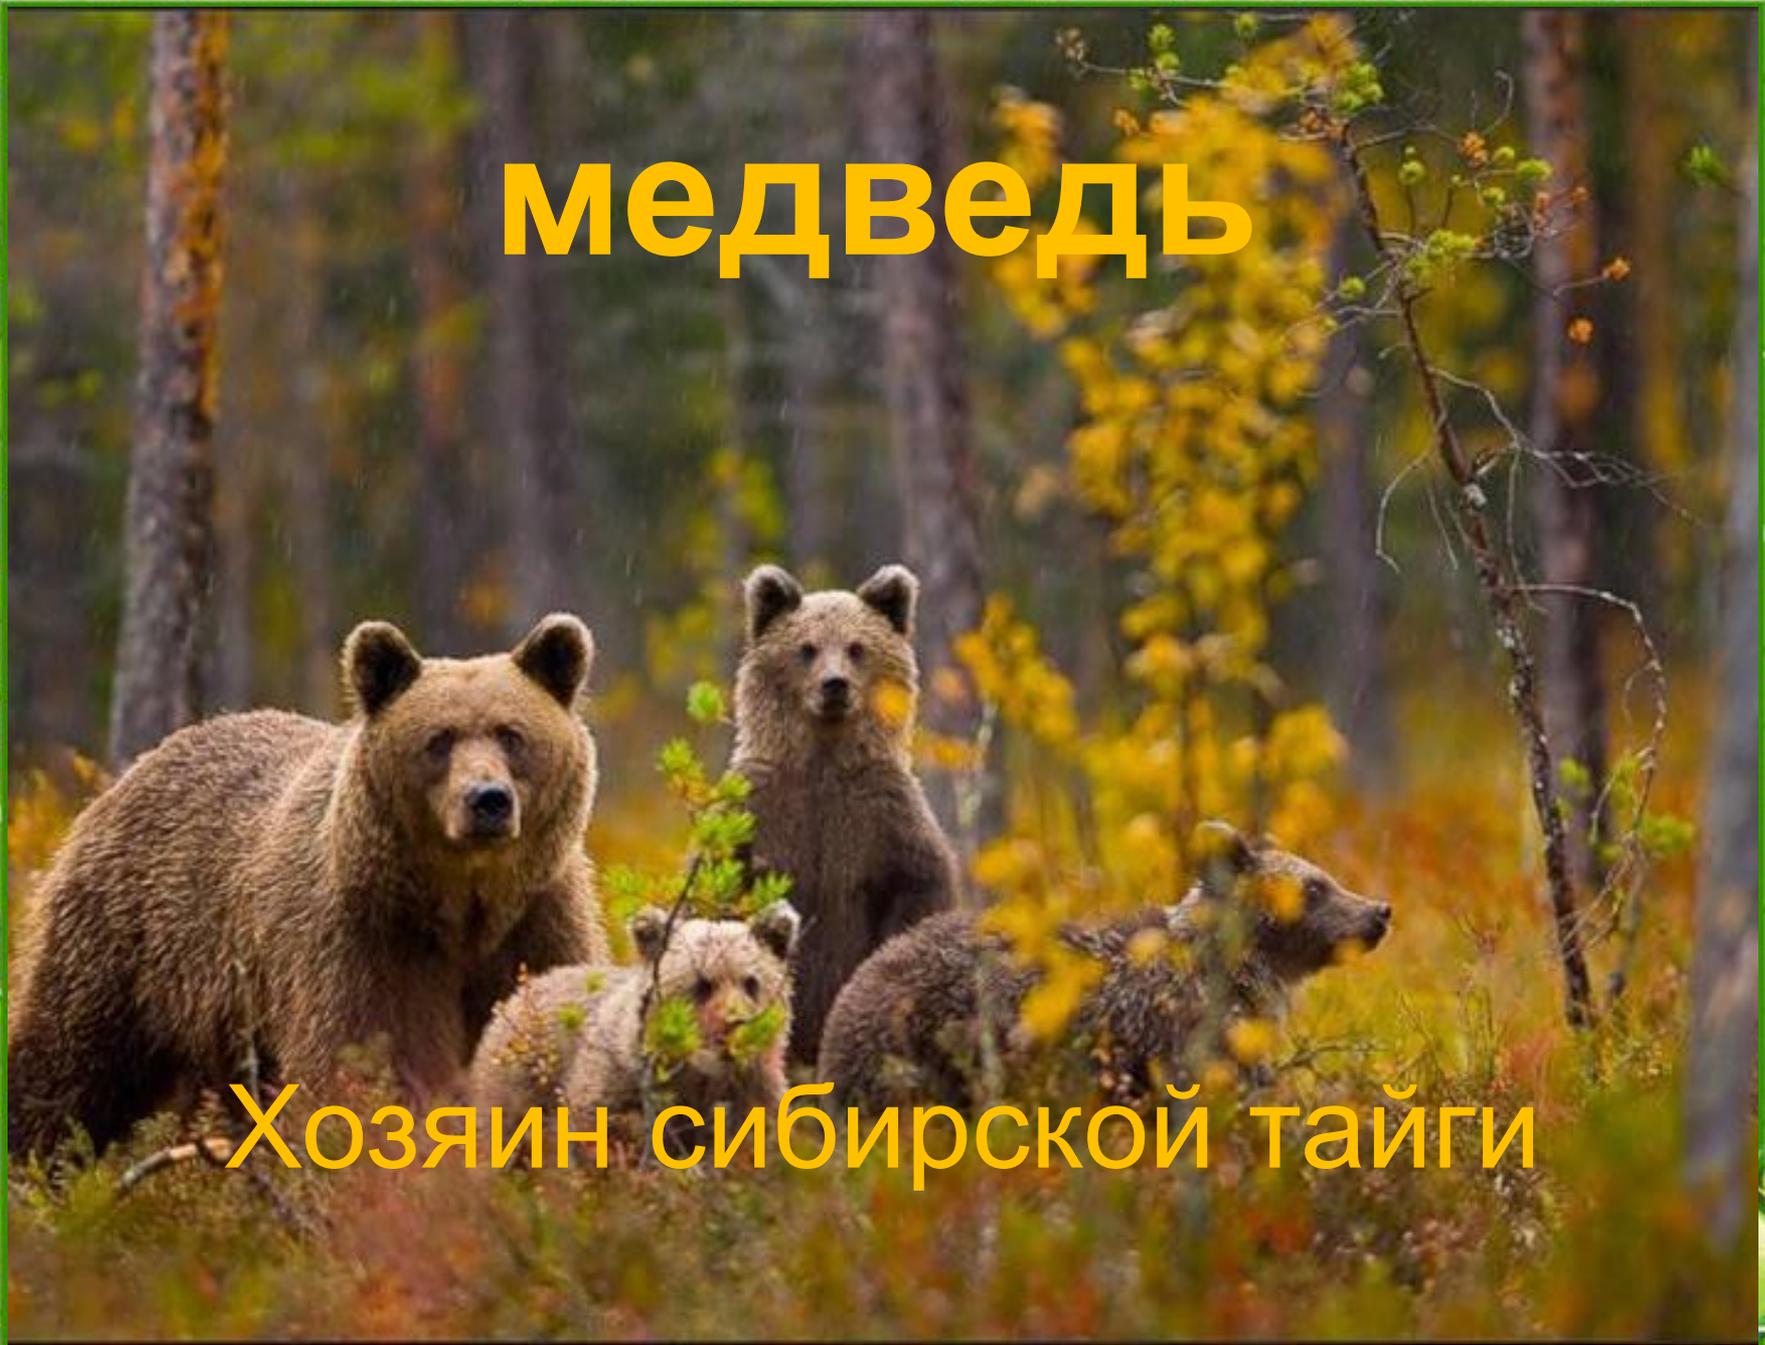

A close-up photograph of a moose's head and antlers. The moose is facing right, and its large, dark brown, velvet-covered antlers are prominent. The background is a lush green forest with various plants and trees. The image is framed by a decorative border of green circles.

A close-up photograph of a red squirrel climbing a tree trunk. The squirrel is positioned vertically, facing the viewer, with its front paws gripping the bark and its hind legs pushing off. Its tail is large and bushy, extending upwards. The tree bark is dark and textured. The background is a soft-focus green, suggesting a forest setting. The entire image is framed by a decorative border of green grape-like shapes.

A detailed photograph of a beaver swimming underwater. The beaver is the central focus, with its head and front paws visible above the water surface. Its body is mostly submerged, showing its dark fur and the webbed structure of its hind legs. The water is clear and blue, with some light reflections on the surface. The entire image is framed by a decorative border of green, bubbly patterns.
