

# Что такое поле?

Что такое поле?  
Для коней раздолье,

Пашни полоса,

Метёлочки овса.

A close-up photograph of golden wheat stalks in a field. The stalks are ripe and have a warm, golden-brown hue. The background is a soft-focus field of similar wheat, creating a sense of depth and abundance. The lighting is bright, highlighting the texture of the grain.

В поле колосится  
Спелая пшеница.

И шумит там рожь,  
Колючая, как ёж.

В поле ветер свищет,

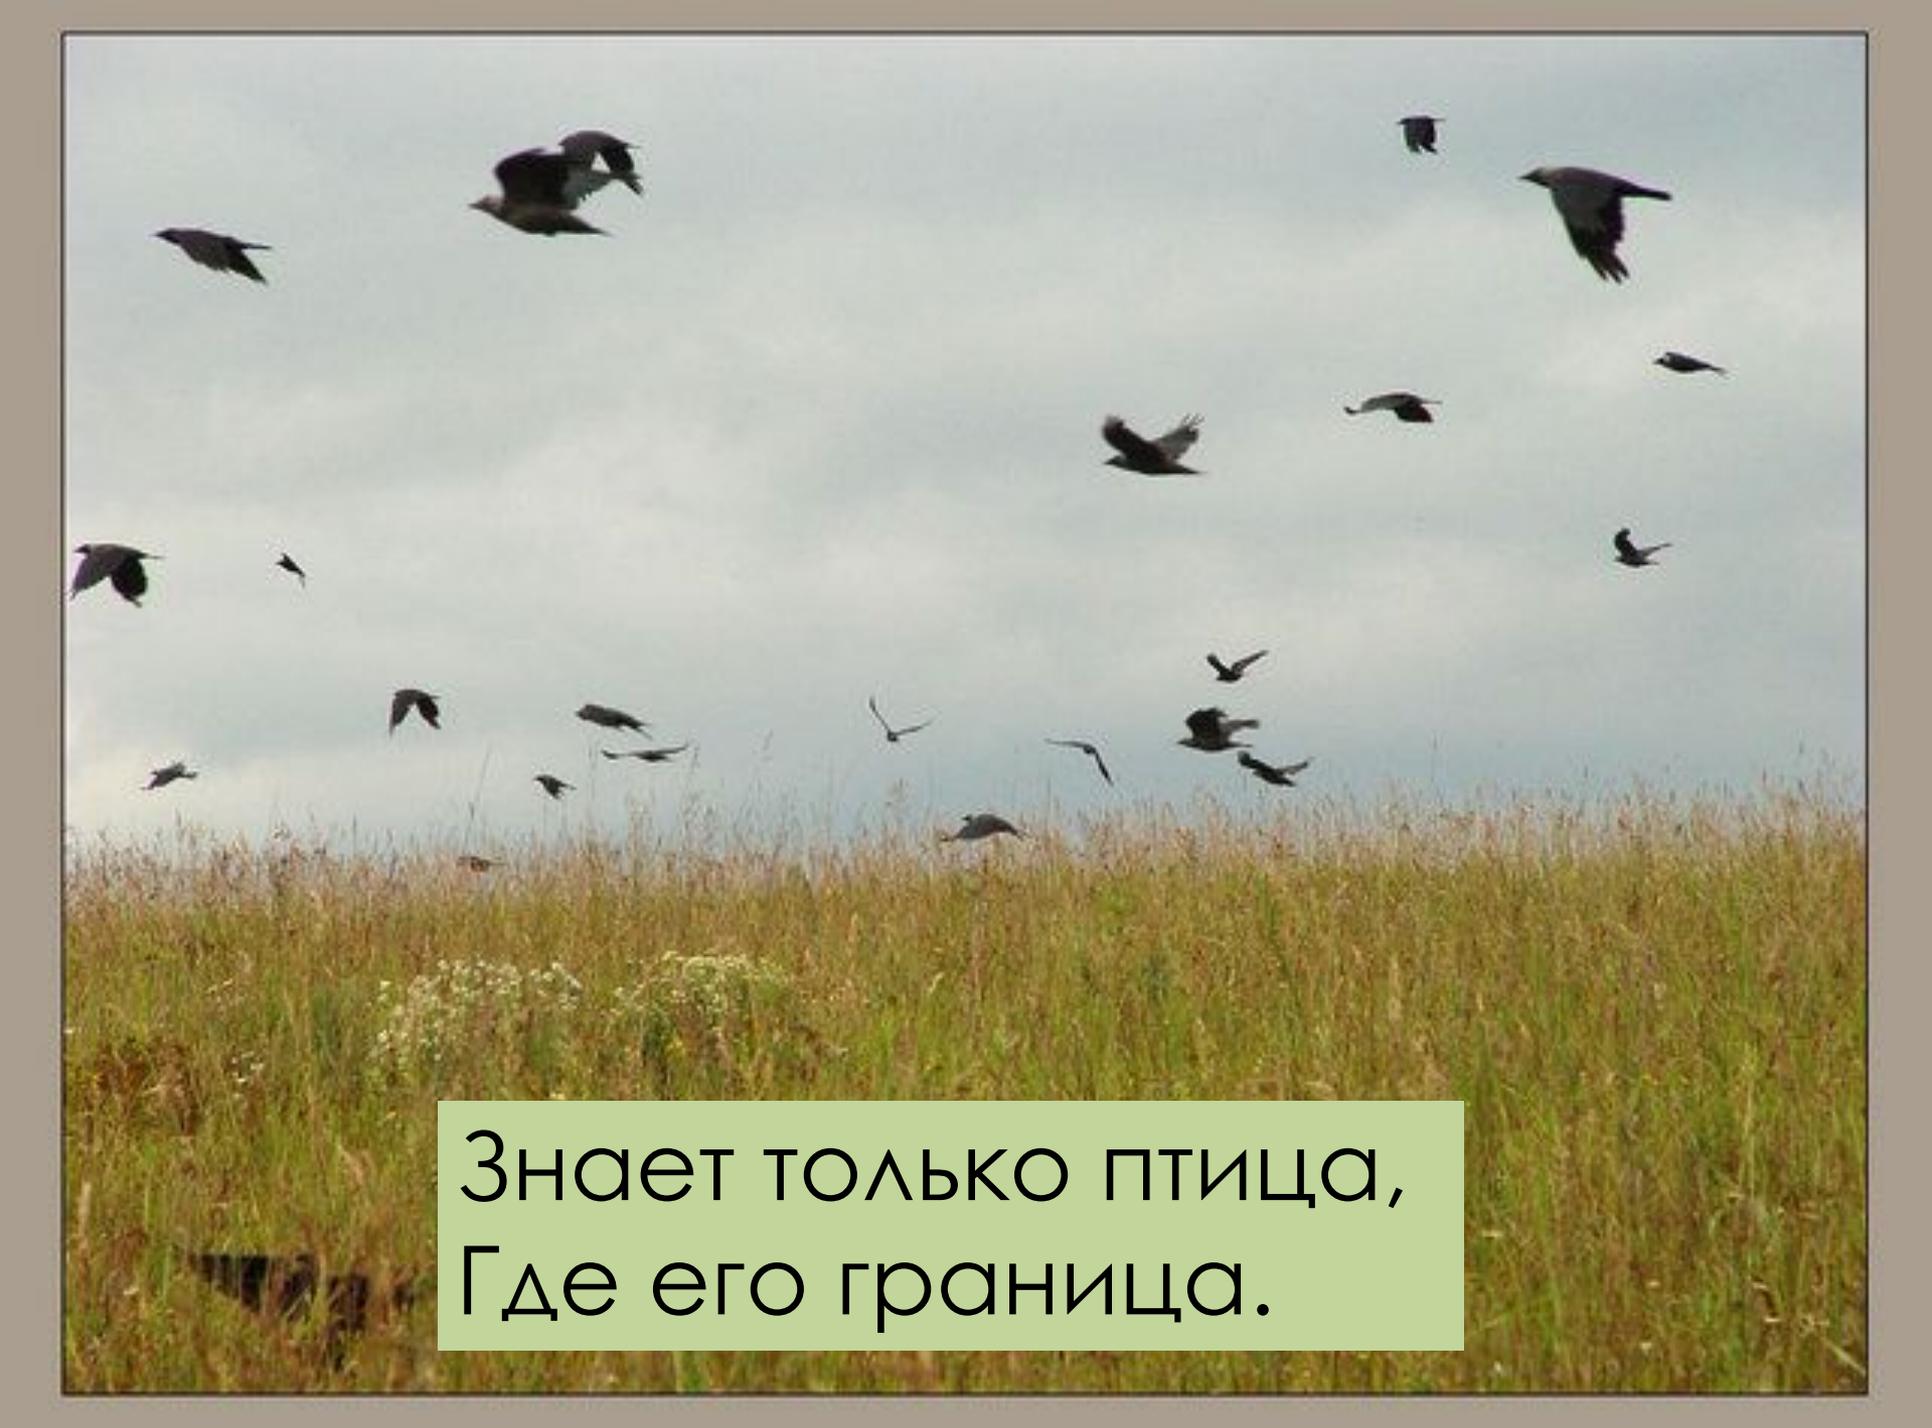

Мышка зёрна ищет,

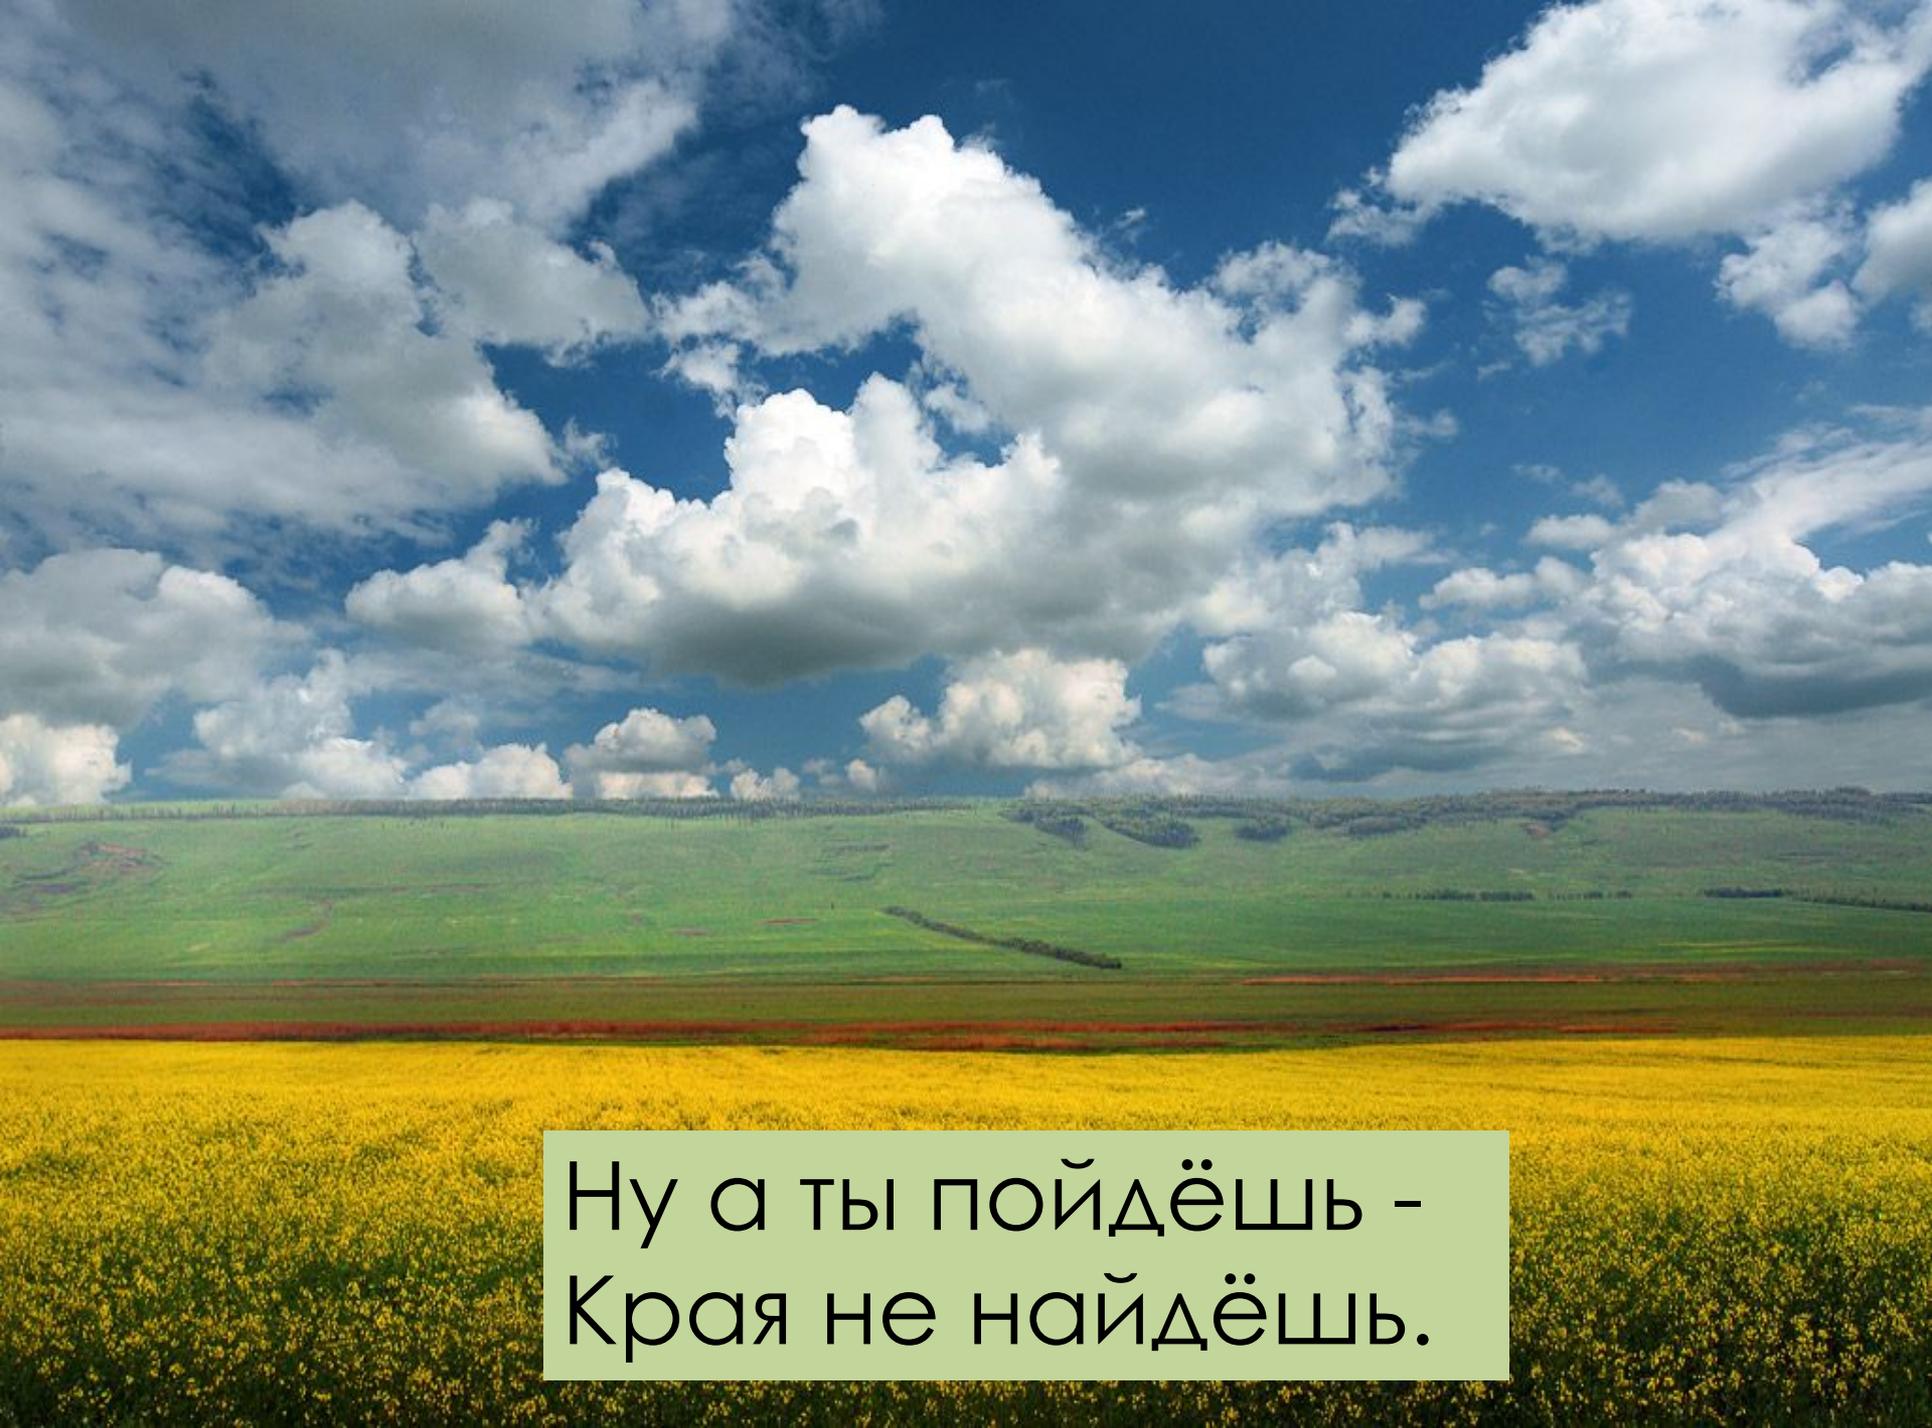

Ящерка спуёт,

Солнышко встаёт.

A photograph showing a large number of birds, possibly terns, flying in a loose formation over a field of tall, golden-brown grass. The sky is overcast with grey clouds. The birds are captured in various stages of flight, with wings spread. In the lower foreground, there are some white flowers. A semi-transparent light green box is overlaid on the bottom part of the image, containing text in Russian.

Знает только птица,  
Где его граница.

Ну а ты пойдёшь -  
Края не найдёшь.
