

A wide-angle landscape photograph of a rugged, layered rock formation, likely the Badlands in South Dakota. The foreground is covered in dry, brownish grass. The middle ground shows deep, winding canyons and ridges of light-colored, sedimentary rock. In the far distance, a small, green, flat valley is visible. The sky is filled with large, white, billowing clouds against a deep blue background.

UNIVERSALE DESCRIPTTIONE DI TUTTA LA TERRA CONOSCUTA FIN Q

CIIA

A detailed map of North America showing the United States and Canada. The map includes state/province boundaries, major cities, and geographical features like the Great Lakes and the Mississippi River. City names are labeled in both English and Russian. The map also shows the Pacific and Atlantic Oceans and the Gulf of Mexico. A legend in the bottom right corner identifies symbols for cities (square), state/province boundaries (dashed line), and major rivers (blue line).
