Орбитальная станция

A collection of celestial bodies arranged around a central point. At the center is a large, bright yellow Sun. Surrounding it are various planets and moons: Jupiter (top left), Saturn (top left, tilted), Uranus (top), Neptune (top right), Earth (middle left), Venus (middle right), Mars (bottom left), and Mercury (bottom right). The background is a dark gradient with a blue-to-purple border on the left and bottom.
