**Динозавры сейчас  
не живут на Земле, они  
давно вымерли. Я это  
хорошо знаю, ведь  
динозавры — мои  
древние родственники!**

A detailed diorama of a prehistoric forest. The scene is filled with large, dark brown tree trunks and lush green vegetation, including various types of ferns and smaller plants. The lighting is warm and yellowish, suggesting a sunlit forest floor. The background shows a glimpse of a body of water and more trees, creating a sense of depth.
