**'So Close, Yet So Far,' Sighs Cape U.S. Had Hoped For Own Launch**

CAPE CANAVERAL, Fla. (AP) — The Redstone rocket which the United States had hoped would boost the first man into space stands on a launching pad here. The Soviet Union beat its firing date by at least two weeks.

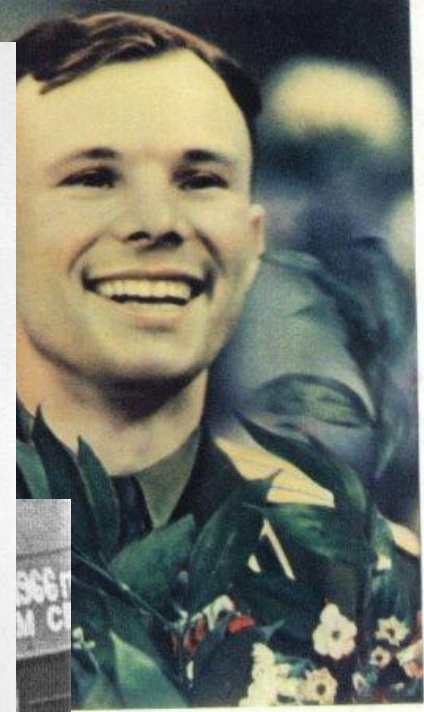

"So close, yet so far," commented a technician who is helping groom the Redstone to send one of America's astronauts on a short sub-orbital flight, hopefully late this month or early in May.

"If we hadn't had those troubles last fall and on the ship, we might have made it," the "Chickadee" said. "But you have to give the Russians a credit. They've accomplished a remarkable breakthrough."

Dr. Hugh DeGroot, deputy director of the National Aeronautics and Space Administration, told
