

«Environment and You»

Organization moment:

*I'm very glad to see you today at our
English lesson.*

*The theme of our lesson is
“Environment and You”.*

**Today the ecological situation
of our country is at a critical point**

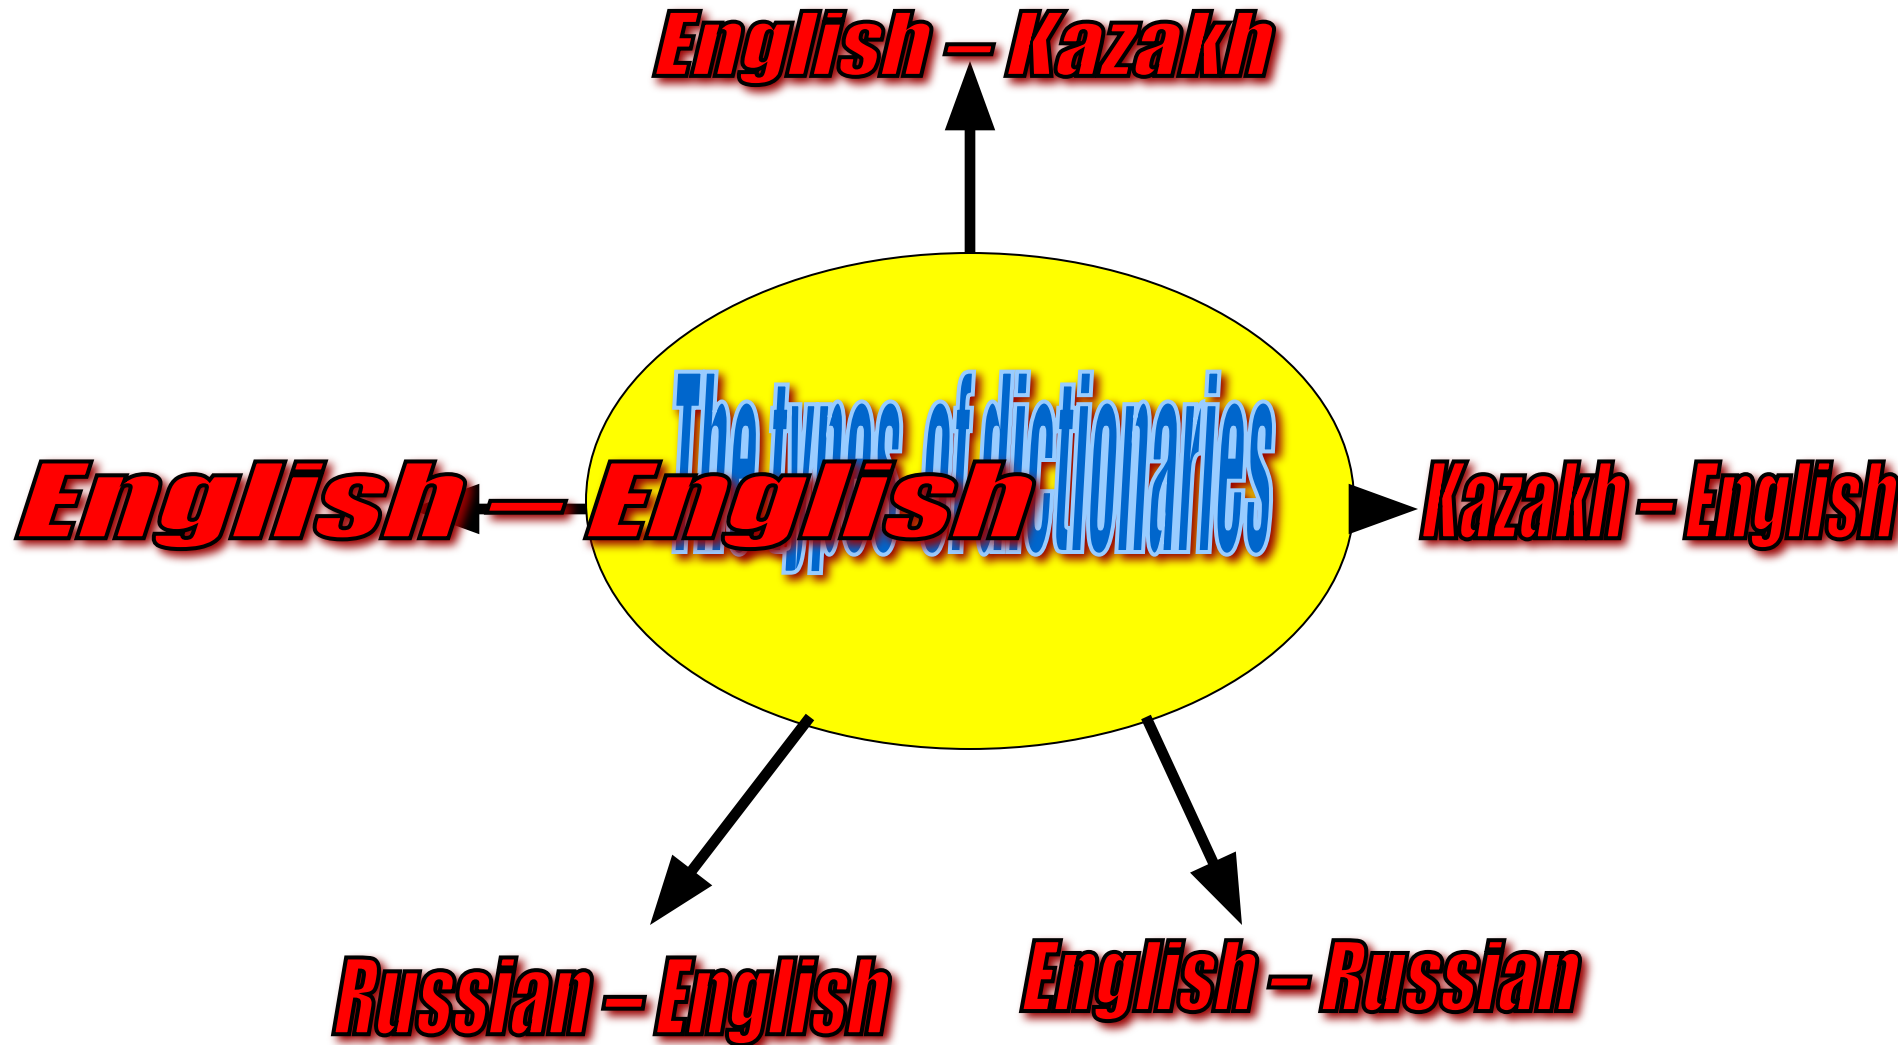

Our lives depend on the state
of our living place. Let's talk about
these problems and solve them in
cooperation.

Warm – up: Let's begin with the words

1) Phonetic drill: environment,
pollution, influence, improve,
preserve, threaten, interaction,
protect, living things.

The game “Bingo”

3) There are many types of dictionaries: English-Russian, Russian-English. Today you'll have a chance to work with an English – English dictionary.

Task: Read the meaning and guess the word:

1. The scientific study of the natural relations of plants, animals, people to each other and surroundings. **(Ecology)**
2. The act of making (air, water, land) dangerously impure. **(Pollution)**
3. Too many people in one place. **(Overcrowding)**
4. The act of destroying, putting an end to the existence of something. **(Destruction)**
5. The act of throwing things away untidily. **(Littering)**
6. Plants, animals, people. **(Living things)**
7. The natural home of a plant or animal. **(Habitat)**

Presentation "Ecological Problems of Kazakhstan"

Listening

“The Environmental Problems”

**Once a man lived in a greater harmony with nature.
Our planet was more beautiful and cleaner than today.**

The air was fresh, the water was drinkable.

The land wasn't so polluted.

Today the situation is quite different.

**Because of developing industry and growth of civilization
the ecological problems are at a crucial point.**

Let's talk about some ecological problems.
