

Яблоки упали под яблоню.

A photograph of a mushroom with a light brown, convex cap and a thick, pale stem, growing in a forest. The mushroom is positioned in the lower-left quadrant of the frame. To its right and slightly behind it is the trunk of a birch tree, characterized by its white bark with dark, horizontal lenticels and vertical fissures. The ground is covered with a layer of dry, brown pine needles and some green grass. The background is filled with more green grass and the branches of other trees, creating a soft, natural setting.

Подберёзовики растут под берёзой.

Белочка спряталась под грибок.
