“А может, не было
сейчас”

Страница 2

A black and white photograph showing a woman in a dark coat and white hat standing with her back to the camera, looking out a large window. A group of children, dressed in winter coats and hats, are gathered around her, also looking out the window. The window has several panes, some of which appear to have drawings or posters on them. The scene is set outdoors, with a concrete or stone ledge in front of the window.

“Как это было! Как совпало – война, беда, мечта и юность!..”
