

Автоматизация звука «л» в связной речи

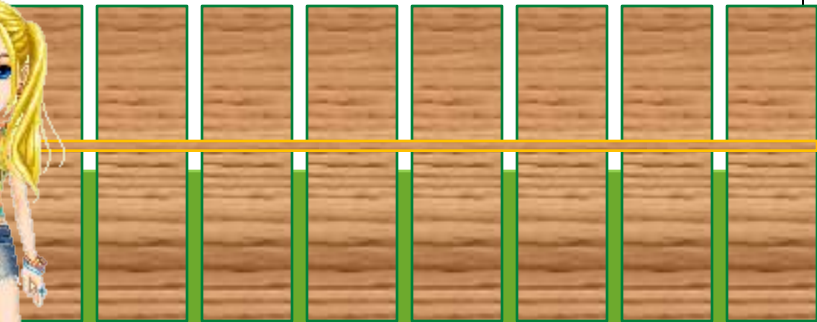

с использованием театра картинок на фланелеграфе

Выполнил учитель-логопед
МБДОУ №69 «Малышка»
Наноян Юлия Ивановна

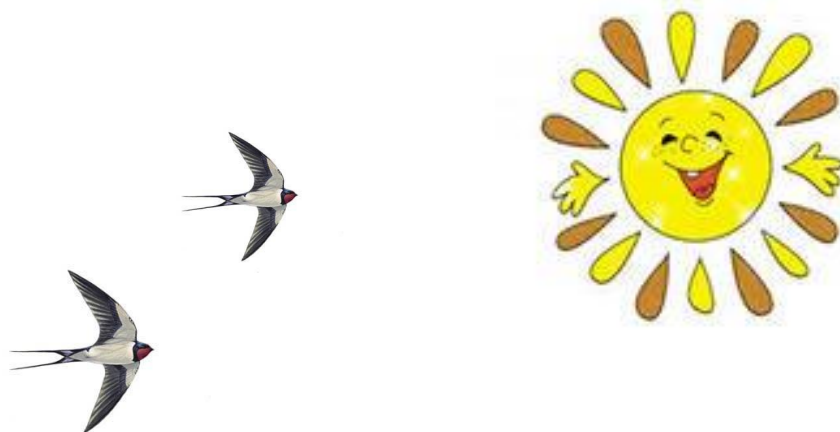

Вышла Мила
рано утром во
двор.

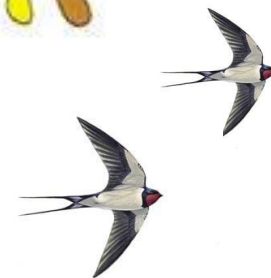

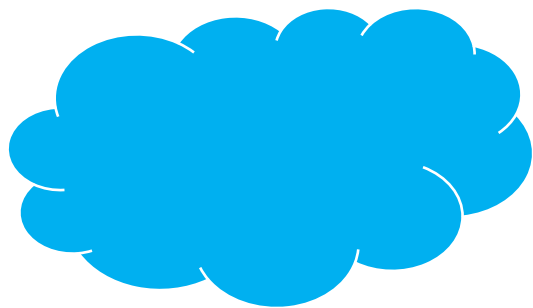

Видит :высоко
в небе
парят ласточки.

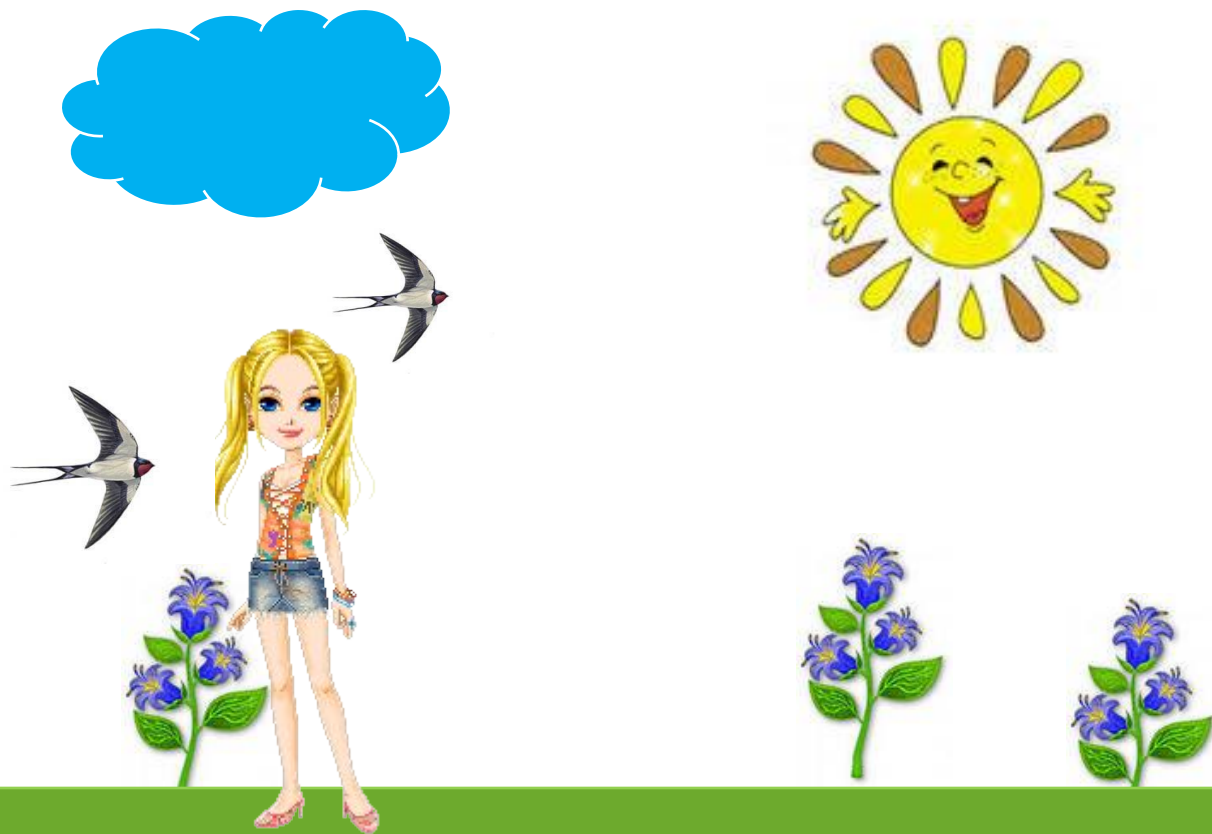

Приветливо
улыбается ей
ласковое,
лучистое
солнышко.

По небу плывут
голубые облака.

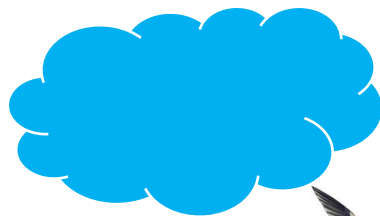

Хотела Мила
сорвать один
колокольчик, даже
руку протянула.

Но передумала :
жалко стало
портить такую
красоту.

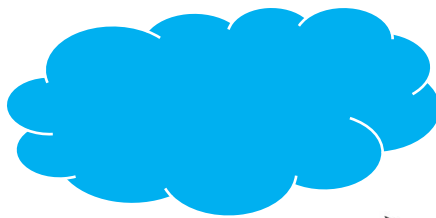

«Пусть Растут» —
подумала Мила .

Пусть
растут!

Вдруг прилетела
пчела и
закружилась над
цветами.

Увидела Милу,
сердито зажужжала

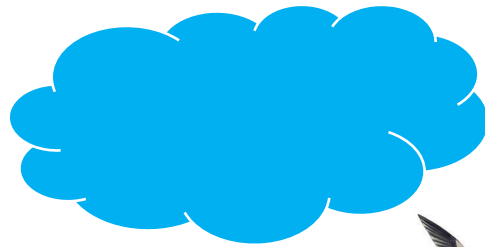

:

уж-ж-жалю,

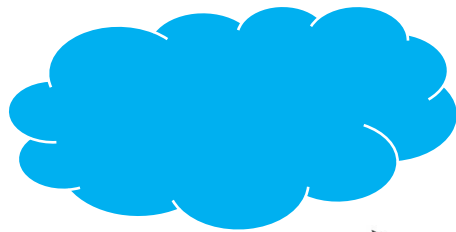

уж-ж-жалю .

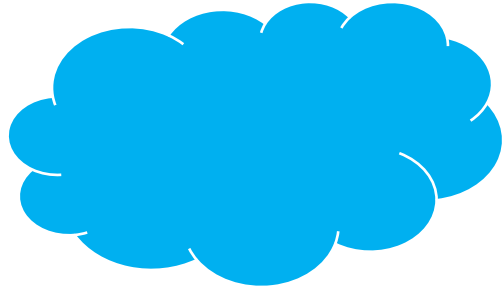

«Не бойся»-
ласково сказала
Мила, я тебя не
обижу.

Успокоилась пчела и
села на самый яркий,
самый большой,
красивый
колокольчик .

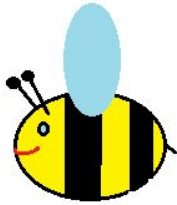

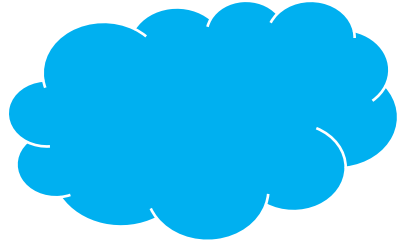

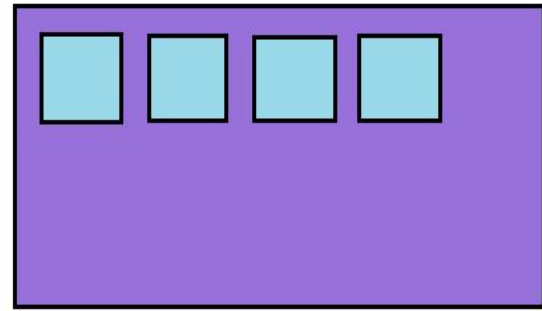

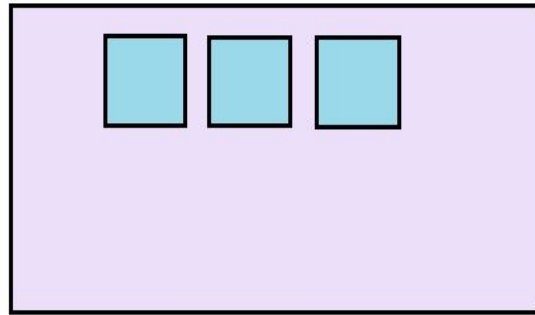

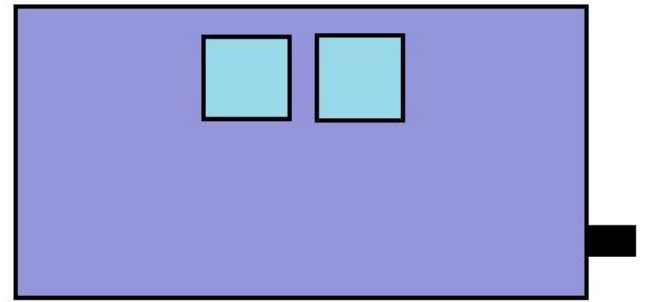

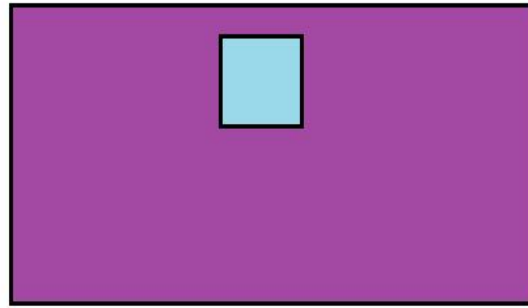

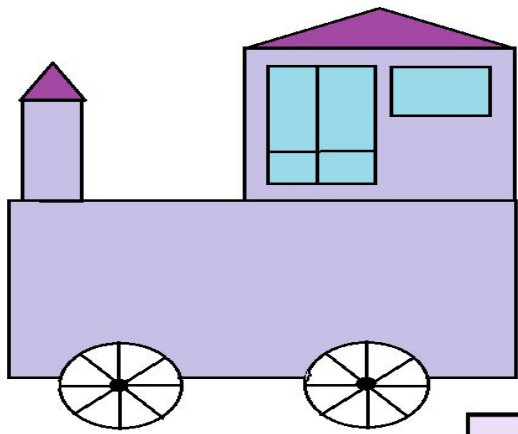

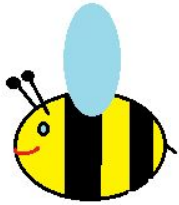

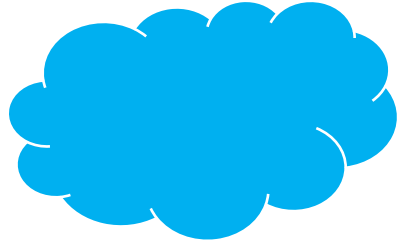

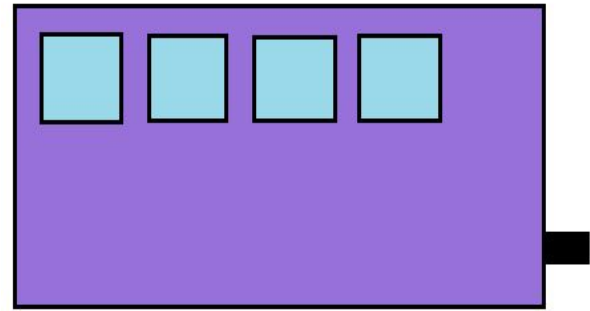

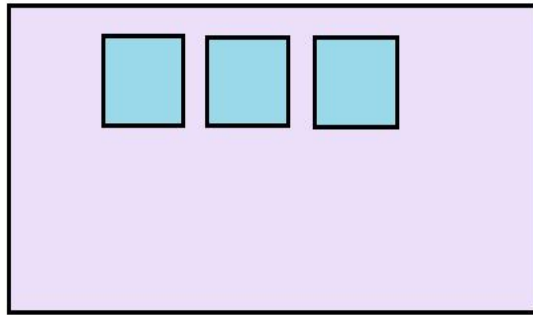

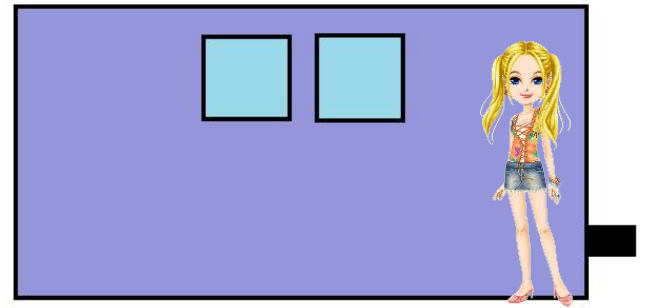

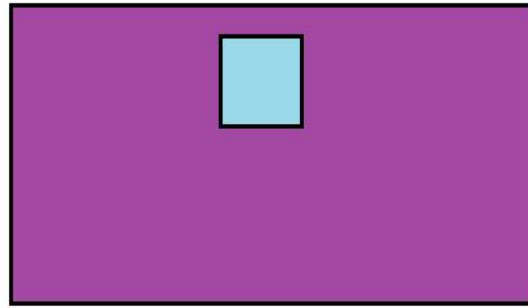

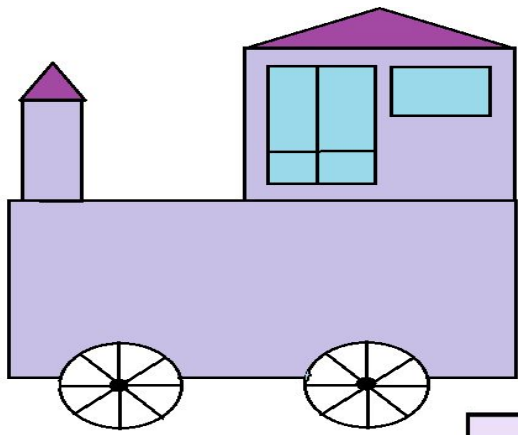

«Нектар собирает »-
подумала Мила и
тихо отошла в
сторонку.

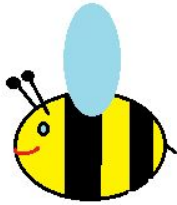

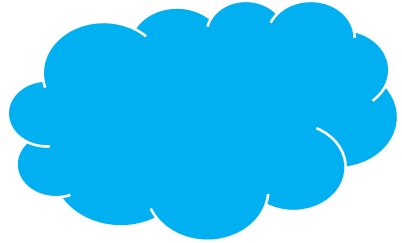

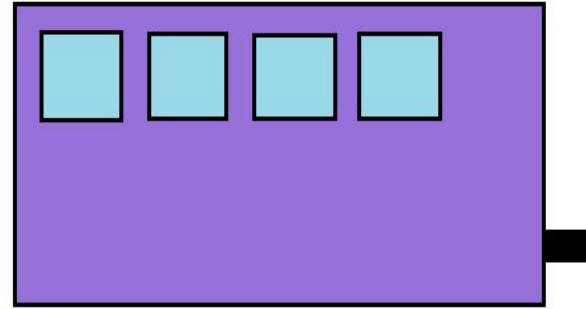

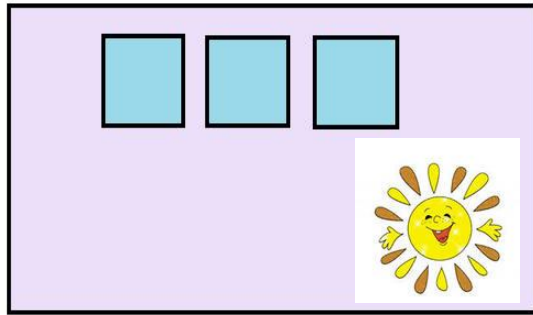

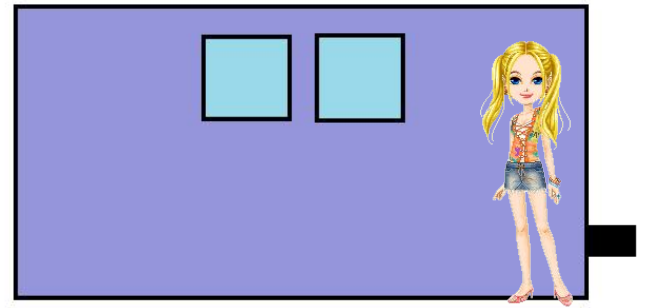

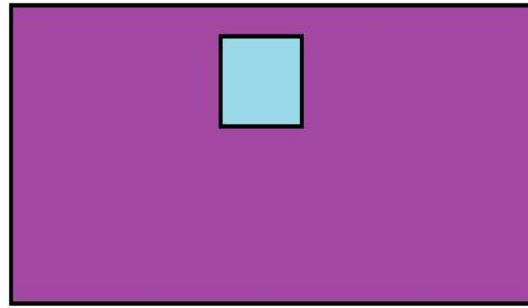

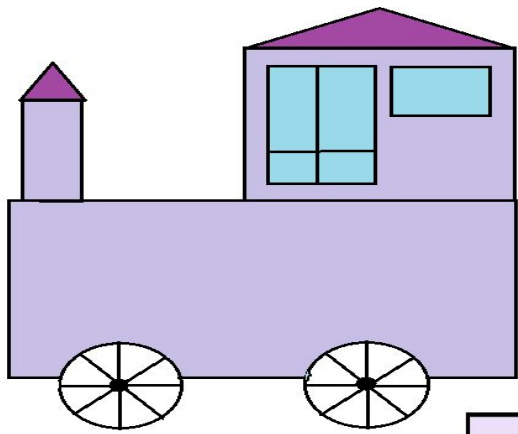

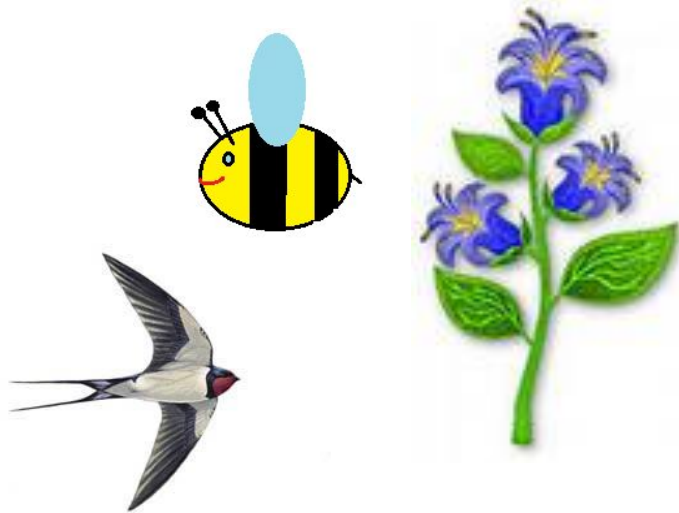

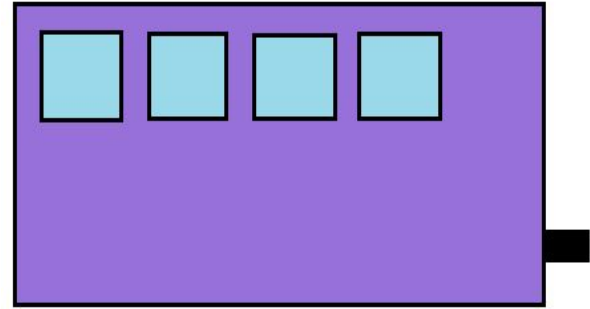

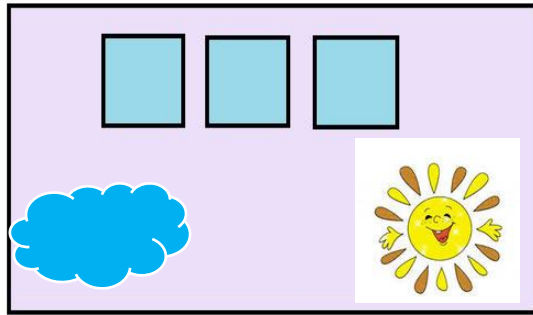

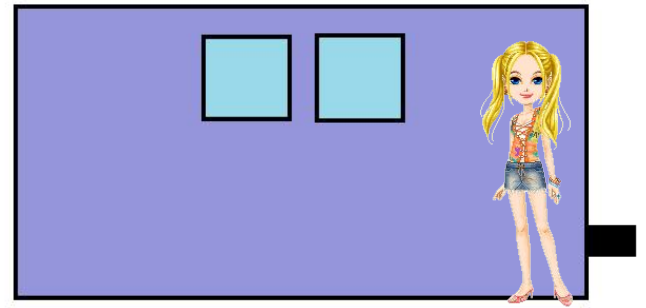

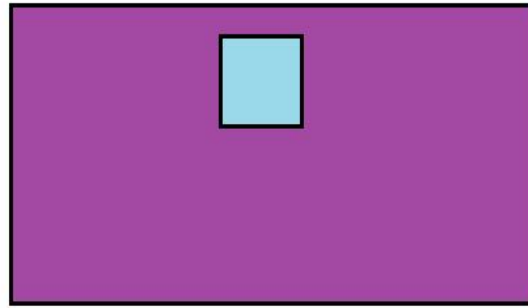

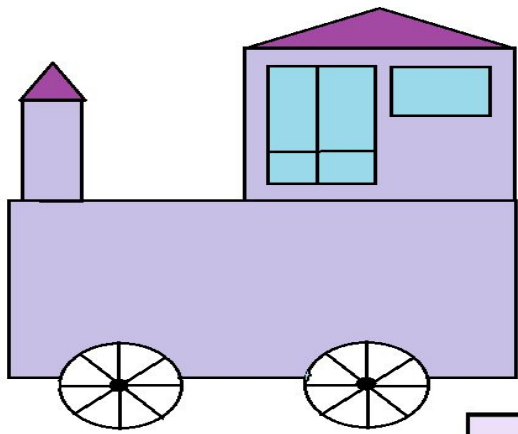

Молодец!

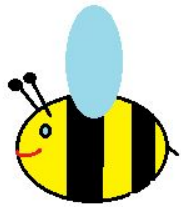

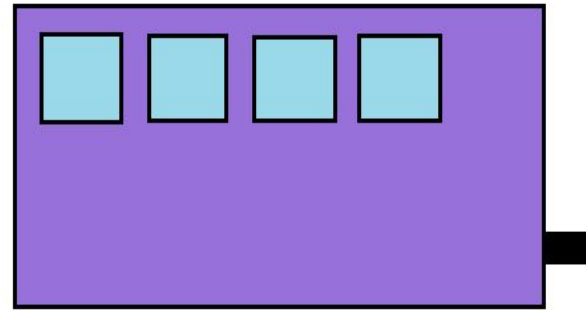

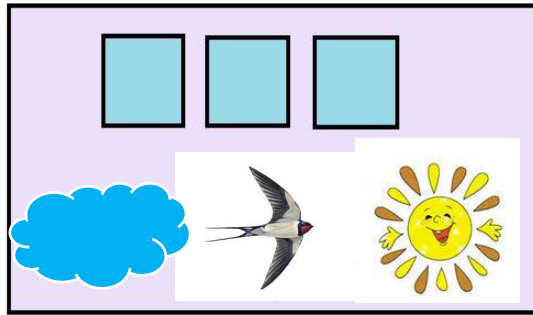

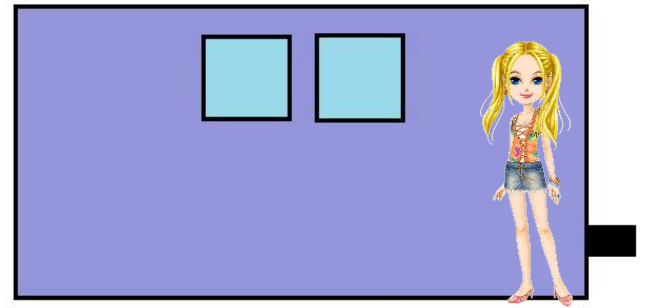

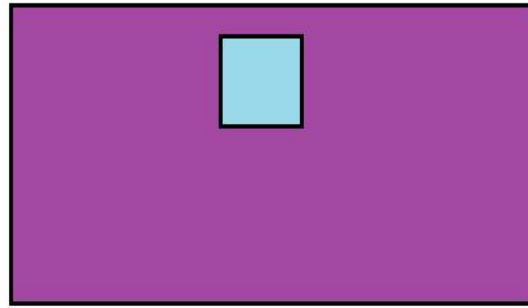

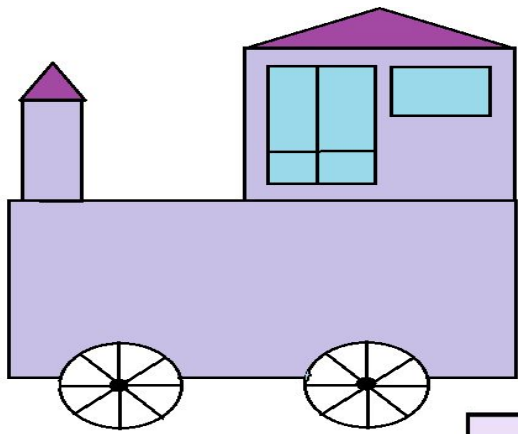

Дидактическая
игра: «Погрузим
картинки в
вагончики»

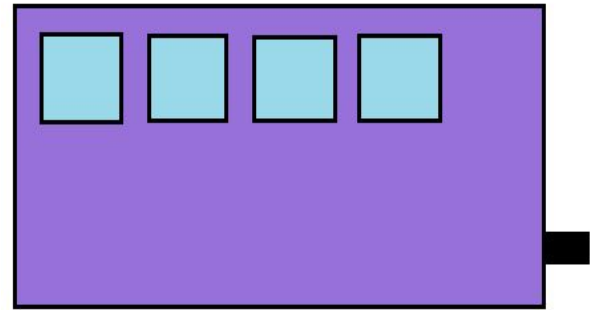

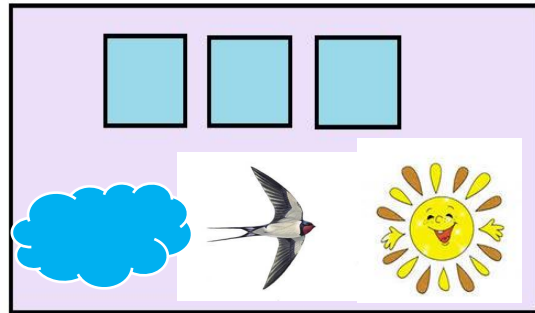

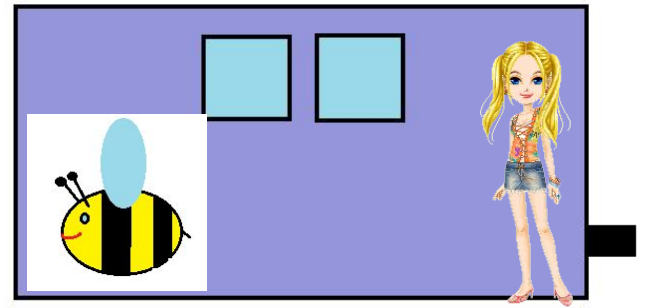

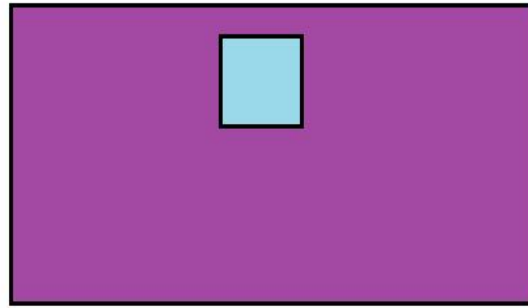

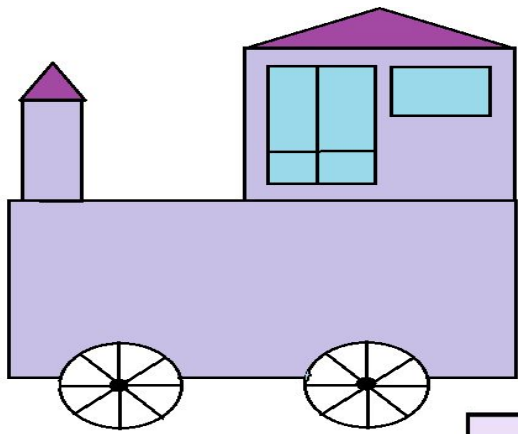

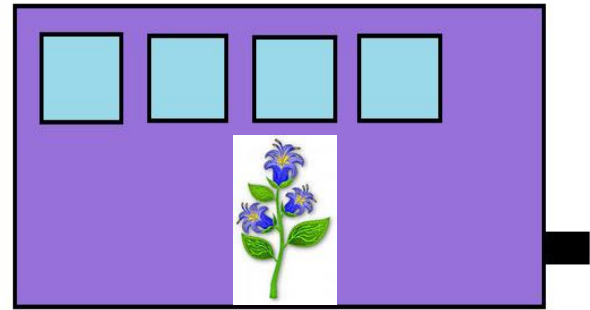

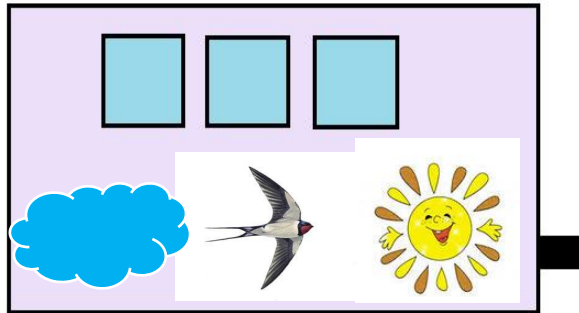

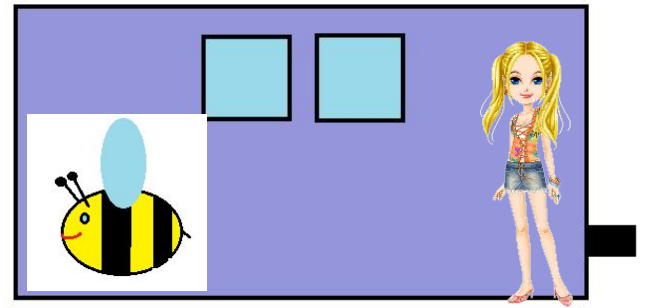

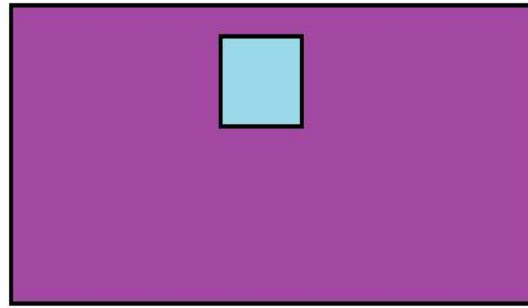

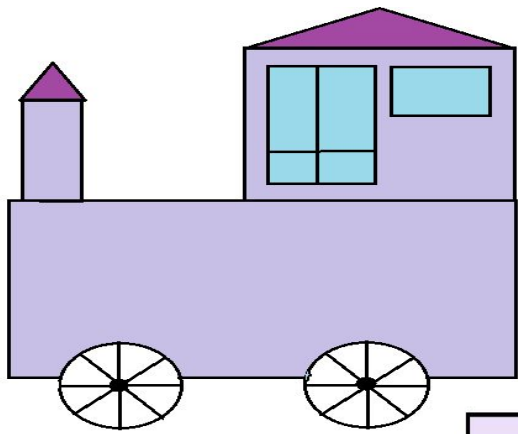

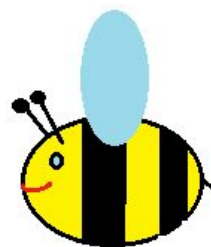

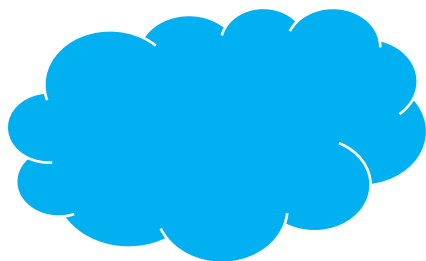

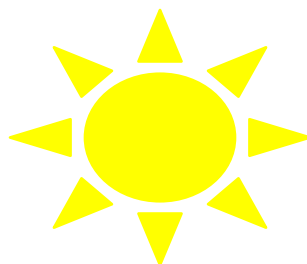

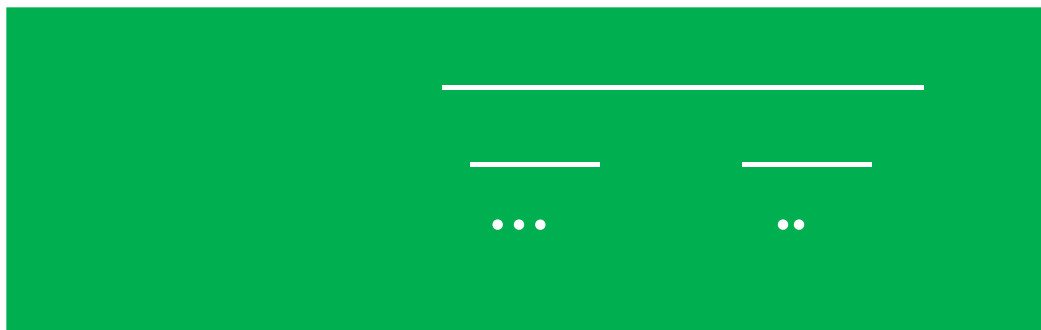

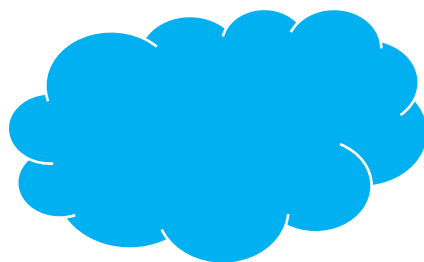

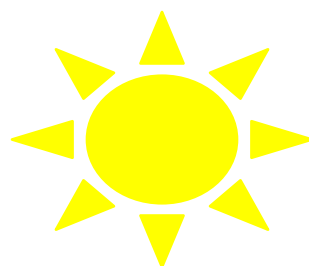

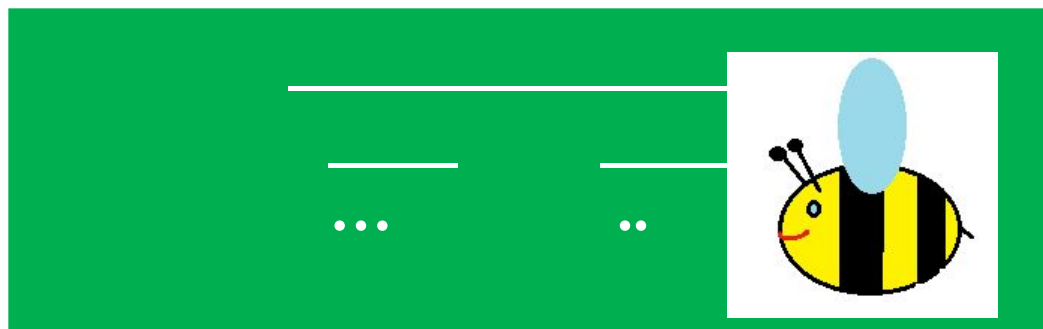

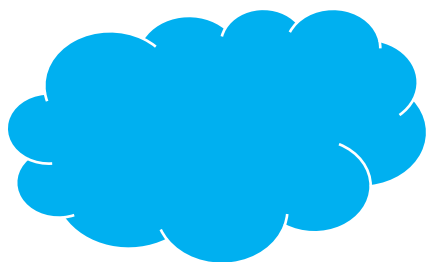

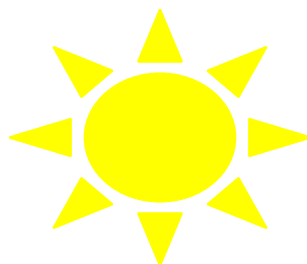

Молодец!

Дидактическое упражнение:
«Подбери слово-название
картинки к данной звуко-
слоговой модели»
